INTRODUCTION.

The City has annually since 1821 issued a volume containing, until 1829, a register of the City Council and a list of the officers. In 1829 the City Charter, in 1830 the Acts relating to Boston and the ordinances, and in 1832 an index, were added. The volume for 1822 contains fifteen pages, and for 1840 eighty-five pages, and three pages of index. The volumes up to and including 1840 bear the title of The Rules and Orders of the Common Council and since that year the title of THE MUNICIPAL REGISTER. THE MUNICIPAL REGISTER for 1841 contains the Rules and Orders of the Common Council, joint rules, ordinances of the City, statutes of the Commonwealth relating to the City, a list of the public schools, the City Government of 1841, the committees and departments (consisting at that time of the treasury, law, police, health, public land and buildings, lamps and bridges, fire, and public charitable institutions), and a list of the ward officers; from 1842 to 1864 it also contains a list of the members of preceding City Governments, a necrological record of those members, the latest ordinances and the special statutes relating to the City; in 1851 a list of the annual orators was added, and in 1853 a map of the City and the Rules of the Board of Aldermen were inserted; in 1876 statistics of registration and voting were included, and, since 1879, in tabulated form; in 1883 portraits of the Mayor and presiding officers of the two branches of the City Council were included, and in 1888 a list of the members of the past City Governments of Roxbury and Charlestown was added and continued to 1890. From 1889 to 1896, inclusive, THE MUNICIPAL REGISTER contained a compilation of the Charter and Acts subsequently passed, in the place of which an index of said Charter and Acts was substituted in 1897. The Amended Charter of 1909 was added last year while the alphabetical list of Aldermen and Councilmen since 1822 was dropped.

By the direction of the Committee on Rules THE MUNICIPAL REGISTER of 1911 has been compiled by the Statistics Department. Text and tables have been revised, and several new tables, with additional text, have been incorporated.

ORIGIN AND GROWTH OF BOSTON.

The Royal Patent incorporating the Governor and Company of Massachusetts Bay in New England passed the seals March *4, 1628–29. At a General Court, or Meeting of the Company, on August *29 of that year it was voted "that the Government and patent should be settled in New England." To that end Governor Winthrop led the Puritan Exodus in 1630. Soon after his arrival at Salem on June *12, 1630, he proceeded with a large following to Charlestown, where a plantation had been established the summer before. The Assistants held three Courts at Charlestown in the interval, August *23 to September *28, inclusive. At their meeting on September *7, they "ordered that Trimountaine shalbe called Boston; Mattapan, Dorchester; and the towne upon Charles River, Waterton." Thus Shawmut of the Indians was named Boston, probably out of gratitude to the Merchants of Boston in Lincolnshire, who had subscribed generously to the stock of the Company.

In the course of the summer, Governor Winthrop with the patent chose Boston as his abiding place. The first "Court" held in Boston was a "General Court" on October *19, "for establishing of the government." On October *3, 1632, Boston was formally declared to be "the fittest place for publique meetings of any place in the Bay."

Boston was the first town in Massachusetts to become a city. It was incorporated February 23, 1822, by St. 1821, c. 110, adopted March 4, 1822. This act was revised by St. 1854, c. 448, commonly called the City Charter, adopted November 13, 1854.

The neck of land called Boston, still called Boston Proper, contained perhaps 700 acres of land, judging from the 783 acres shown by the official survey of 1794. In the interval 1630–37, Boston acquired jurisdiction over most of the territory now included in Chelsea, Winthrop, Revere, East Boston, Brookline, Quincy, Braintree, Randolph and Holbrook, besides certain

islands in the harbor. From 1637 till May 13, 1640, when "Mount Woollaston" was set off as Braintree, Boston exercised jurisdiction over a territory of at least 40,000 acres. Within its present limits there are only 27,364 acres, including flats and water.

Since 1640, grants of land have been made to Boston by the General Court as follows: (1) October *16, 1660, 1,000 acres "for the use of a free schoole, layd out in the wildernesse or North of the Merimake River" (in Haverhill), in 1664. (2) June *27, 1735, in abatement of Province Tax, three townships, each six miles square, or 69,120 acres in all. These townships later became the Towns of Charlemont, Colrain, and Pittsfield. Boston sold its interest in them June *30, 1736, for £3,660. (3) June 26, 1794, a township of land in Maine (23,040 acres) "to build a public hospital." This tract was sold by the City April 6, 1833, for $4,200.

Muddy River was set off as the Town of Brookline on November *13, 1705, and Rumney Marsh was set off as the Town of Chelsea January *8, 1739.

The principal annexations of territory included within the present limits of the City of Boston have been made as follows:

(1) Noddle's Island, by order of Court of Assistants, March *9, 1636–37. (2) South Boston set off from Dorchester March 6, 1804, by St. 1803, c. 111. (3) Washington Village set off from Dorchester May 21, 1855, by St. 1855, c. 468. (4) Roxbury January 6, 1868, by St. 1867, c. 359, accepted September 9, 1867. Roxbury received its name by order of the Court of Assistants October *8, 1630. It was incorporated a City March 12, 1846, by St. 1846, c. 95, accepted March 25, 1846. (5) Dorchester January 3, 1870, by St. 1869, c. 348, accepted June 22, 1869. It received its name September *7, 1630, by order of the Court of Assistants. (6) Brighton January 5, 1874, by St. 1873, c. 303, accepted October 7, 1873. Set off from Cambridge as the Town of Brighton February 24, 1807, by St. 1806, c. 65. (7) Charlestown January 5, 1874, by St. 1873, c. 286, accepted October 7, 1873. Settled July *4, 1629. It was incorporated a City February 22, 1847, by St. 1847, c. 29, accepted March 10, 1847. (8) West Roxbury January 5, 1874, by St. 1873, c. 314, accepted October 7, 1873. It was set off from Roxbury and incorporated a Town May 24, 1851, by St. 1851, c. 250.

THE CITY SEAL

As it appeared prior to 1827.

The City Seal was adopted by "An Ordinance to Establish the City Seal," passed January 2, 1823, which provides "That the design hereto annexed, as sketched by John R. Penniman, giving a view of the City, be the device of the City Seal; that the motto be as follows, to wit: 'Sicut patribus sit Deus nobis'; and that the inscription be as follows: — 'Bostonia condita, A.D. 1630. Civitatis regimine donata, A.D. 1822.'" The motto is taken from 1 Kings, viii., 57.

The seal as it then appeared is shown above.

The seal as it was afterwards changed, and has ever since continued to be used, first appeared on page 221 of the volume of laws and ordinances, commonly known as the "First Revision," published in 1827, and is continued as the City Seal at the present time by Revised Ordinances of 1898, Chapter 1, Section 5, which provides that "The seal of the City shall be circular in form; shall bear a view of the City; the motto 'Sicut Patribus Sit Deus Nobis,' and the inscription, 'Bostonia Condita, A.D. 1630. Civitatis Regimine Donata, A.D. 1822,' as herewith set forth."

The seal as changed in 1827, and as it has ever since appeared, is shown opposite the title page.

RULES OF THE CITY COUNCIL.

President.

Rule 1. The president of the council shall take the chair at the hour to which the council shall have adjourned, and shall call the members to order, and, a quorum being present, shall cause the minutes of the preceding regular meeting to be read. In the absence of the president, the senior member by age present shall preside until a presiding officer is chosen.

Rule 2. The president shall preserve decorum and order, may speak to points of order in preference to other members, and shall decide all questions of order, subject to an appeal. Any member may appeal from the decision of the chair, and, when properly seconded no other business, except a motion to adjourn, shall be in order until the question on appeal has been decided. The question shall be put as follows:

"Shall the decision of the chair stand as the judgment of the council?" The vote shall be by a roll call, and it shall be decided in the affirmative unless a majority of the votes are to the contrary.

Rule 3. The president shall propound all motions in the order in which they are moved, unless the subsequent motion shall be previous in its nature, except that, in naming sums and fixing times, the largest sum and the longest time shall be put first.

Rule 4. The president shall, at the request of any member, make a division of a question when the sense will admit.

Rule 5. The president shall, without debate, decide all questions relating to priority of business to be acted upon.

Rule 6. The president shall declare all votes; but if any member doubts a vote, the president shall cause a rising vote to be taken, and, when any member so requests, shall cause the vote to be taken or verified by yeas and nays.

Rule 7. The president shall appoint all committees, fill all vacancies therein, and designate the rank of the members thereof.

Rule 8. When the president of the council or the president *pro tempore* shall desire to vacate the chair he may call any member to it; but such substitution shall not continue beyond an adjournment.

Motions.

Rule 9. Every motion shall be reduced to writing if the president shall so direct.

Rule 10. A motion to strike out and insert shall be deemed indivisible; but a motion to strike out being lost shall not preclude amendment, or a motion to strike out and insert.

Rule 11. No motion or proposition of a subject different from that under consideration shall be admitted under color of amendment.

RULE 12. When an order or resolution relates to a subject which may properly be examined and reported upon by an existing committee of the city council, such order or resolution shall, upon presentation, be referred to such committee. When a motion is made to refer any subject, and different committees are proposed, the motion shall be put in the following order:

1. To a standing committee of the council.
2. To a special committee of the council.

RULE 13. After a motion has been put by the president it shall not be withdrawn except by unanimous consent.

RULE 14. When a question is under debate the following motions only shall be entertained, and in the order in which they stand arranged:

1. To adjourn.
2. To lay on the table.
3. To postpone to a day certain.
4. To commit.
5. To amend.
6. To postpone indefinitely.

RULE 15. A motion to adjourn shall be in order at any time, except on an immediate repetition, or pending a verification of a vote; and that motion, the motion to lay on the table, and the motion to take from the table, shall be decided without debate.

READINGS.

RULE 16. Every ordinance, order and resolution shall, unless rejected, have two several readings, both of which may take place at the same session, unless objection is made; *provided, however*, that all orders for the expenditure of money presented to, or reported by a committee of, the council shall lie over for one week before final action thereon. Whenever the second reading immediately follows the first reading the document may be read by its title only; *provided*, that all orders for the sale of land other than school lands, all appropriations for the purchase of land other than for school purposes, and all loans voted by the city council shall require a vote of two-thirds of all the members of the city council, and shall be passed only after two separate readings and by two separate votes, the second of said readings and votes to be had not less than fourteen days after the first. Any member offering an order which is referred to a committee shall be given an opportunity of being heard on the same before a report is made thereon.

RECONSIDERATION.

RULE 17. When a vote has been passed, any member may move a reconsideration thereof at the same meeting, or he may give notice to the clerk, within twenty-four hours of the adjournment, of his intention to move a reconsideration at the next regular meeting; in which case the clerk

shall retain possession of the papers until the next regular meeting; and when a motion for reconsideration is decided that vote shall not be reconsidered.

Conduct of Members.

Rule 18. Every member when about to speak shall rise, address the chair, and wait until he is recognized, and in speaking shall confine himself to the question and avoid personalities. Any member who, in debate or otherwise, indulges in personalities or makes charges reflecting upon the character of another member shall make an apology in open session at the meeting when the offence is committed or at the next succeeding regular meeting, and, failing to do so, shall be named by the president or held in contempt and suspended from further participation in debate until said apology is made.

Rule 19. No member speaking shall, without his consent, be interrupted by another, except upon a point of order.

Rule 20. No member shall be permitted to vote on any question, or serve on any committee, where his private right is immediately concerned, distinct from the public interest.

Rule 21. Every member who shall be present when a question is put, where he is not excluded by interest, shall give his vote, unless the council for special reason shall excuse him. Application to be so excused on any question must be made before the council is divided, or before the calling of the yeas and nays; and such application shall be accompanied by a brief statement of the reasons, and shall be decided without debate.

Standing Committees.

Rule 22. The following standing committees of the council, to consist of three members each, except where otherwise herein provided, and all other committees, unless otherwise provided for, or specially directed by the council, shall be appointed by the chair:

1. A committee, to be known as the *Executive Committee of the City Council*, to consist of all the members of the council.
2. A committee on *Inspection of Prisons*, to consist of all the members of the council.
3. A committee on *Appropriations*, to consist of all the members of the council, to whom shall be referred such appropriation orders as may be submitted to the council from time to time.
4. A committee on *Finance*, to consist of all the members of the council, to whom shall be referred all applications for expenditure which involve a loan, or a transfer of any part of an appropriation named in the general appropriation order.
5. A committee on *Ordinances*, to consist of all the members of the council, to whom shall be referred all ordinances introduced in the council, or transmitted to them by vote of any standing committee. Unless specially instructed, they shall pass upon the question of the form and legality of the ordinances so referred; they may append an order that such

ordinance "ought not to pass" and give their reasons therefor, or report such ordinance in a new draft. Such report shall be made in not over two weeks from the meeting at which the reference was ordered, or the ordinance received from a committee.

6. A committee on *Claims*, to consist of five councillors, to whom shall be referred all claims against the city arising from the act or neglect of any of its departments. They shall report annually a list of the claims awarded or approved by them, and the amount of money awarded or paid in settlement thereof.

7. A committee on *Legislative Matters*, to consist of five councillors, who shall, unless otherwise ordered, appear before the committees of the General Court and represent the interests of the city; *provided*, said committee shall not appear unless authorized by vote of the city council, and shall not, unless directed so to do by the city council, oppose any legislation petitioned for by the preceding city council.

8. A committee on *Printing*, to consist of three councillors, who shall have the charge of all printing, advertising, or publishing ordered by the city council, as one of its contingent or incidental expenses, and the supply of all stationery or binding for the same purpose. The committee shall fix the number of copies to be printed of any document printed as above, the minimum, however, to be six hundred; and they shall have the right to make rules and regulations for the care, custody, and distribution of all documents, books, pamphlets, and maps by the city messenger.

9. A committee on *Public Lands*, to consist of three councillors, to whom shall be referred all matters relating to public lands.

10. A committee on *County Accounts*, to consist of three councillors.

11. A committee on *Soldiers' Relief*, to consist of three councillors.

Order of Business.

Rule 23. At every regular meeting of the council the order of business shall be as follows:

1. Communications from his honor the mayor.
2. Presentations of petitions, memorials and remonstrances.
3. Unfinished business of preceding meetings.
4. Reports of city officers.
5. Reports of committees.
6. Motions, orders and resolutions.

Report of Committees.

Rule 24. Committees, to which any matter is especially referred, shall report within three weeks or ask for further time.

Spectators.

Rule 25. No person, except a member of the council, shall be permitted to occupy the seat of any member while the council is in session.

Rule 26. No person, excepting heads of departments, officials connected with the city council, and reporters, shall be allowed in the anteroom or on the floor of the council chamber while the council is in session. Spectators will be allowed in the gallery of the council chamber when the council is in session, and no one will be admitted to said gallery after the seats are occupied. The city messenger shall enforce this rule.

Burial Grounds.

Rule 27. No permission for the use of land for the purpose of burial shall be granted until a public hearing shall have been given by the city council, after due notice has been served upon abutters, on the application for such permission.

Smoking in the Council Chamber.

Rule 28. No smoking shall be allowed in the council chamber when the council is in session.

Meetings.

Rule 29. No meeting of any committee shall, without the consent of all members thereof, be called upon less notice than twenty-four hours from the time the clerk shall have mailed the notices or despatched them by special messenger.

Form of Votes.

Rule 30. In all votes the form of expresssion shall be "Ordered" for everything by way of command, and the form shall be "Resolved" for everything expressing opinions, principles, facts, or purposes.

Transfers and Loans.

Rule 31. Every application for an additional appropriation, to be provided for by transfer or loan, shall be referred to the executive committee, unless otherwise ordered, and no such additional appropriation shall be made until the said committee have reported thereon.

Amendment and Suspension.

Rule 32. The foregoing rules shall not be altered, amended, suspended or repealed, at any time, except by the votes of two-thirds of the members of the city council present and voting thereon.

AMENDED CITY CHARTER OF 1909.

The Mayor and City Council.

Section 1. The terms of office of the mayor and the members of both branches of the present city council of the city of Boston and of the street commissioner whose term would expire on the first Monday of January, nineteen hundred and ten, are hereby extended to ten o'clock A.M. on the first Monday of February, nineteen hundred and ten, and at that time the said city council and both branches thereof and the positions of city messenger, clerk of the common council, clerk of committees, assistant clerk of committees, and their subordinates shall be abolished. The officials whose terms of office are hereby extended shall, for the extended term, receive a compensation equal to one-twelfth of the annual salaries now paid to them respectively. The mayor and city council elected in accordance with the provisions of this act, and their successors, shall thereafter have all the powers and privileges conferred, and be subject to all the duties and obligations imposed by law upon the city council or the board of aldermen, acting as such or as county commissioners or in any capacity, except as herein otherwise provided. Wherever in this act the phrase "mayor and city council" appears, it shall be understood as meaning the mayor and city council acting on and after the first Monday of February, nineteen hundred and ten, under the provisions of this and the three following sections. The city council may, subject to the approval of the mayor, from time to time establish such offices, other than that of city clerk, as it may deem necessary for the conduct of its affairs and at such salaries as it may determine, and abolish such offices or alter such salaries; and without such approval may fill the offices thus established and remove the incumbents at pleasure.

Sect. 2. The mayor from time to time may make to the city council in the form of an ordinance or loan order filed with the city clerk such recommendations other than for school purposes as he may deem to be for the welfare of the city. The city council shall consider each ordinance or loan order presented by the mayor and shall either adopt or reject the same within sixty days after the date when it is filed as aforesaid. If the said ordinance or loan order is not rejected within said sixty days it shall be in force as if adopted by the city council unless previously withdrawn by the mayor. Nothing herein shall prevent the mayor from again

Note.— The Amended City Charter is contained in Chap. 486, Acts of 1909, consisting of sixty-three sections. We have omitted §§ 35 to 44 inclusive, as these concern the alternative amendments which became inoperative on the adoption of Plan 2 by the voters at the State election, November 2, 1909.

presenting an ordinance or loan order which has been rejected or withdrawn. The city council may originate an ordinance or loan order and may reduce or reject any item in any loan and, subject to the approval of the mayor, may amend an ordinance. All sales of land other than school lands, all appropriations for the purchase of land other than for school purposes, and all loans voted by the city council shall require a vote of two thirds of all the members of the city council; and shall be passed only after two separate readings and by two separate votes, the second of said readings and votes to be had not less than fourteen days after the first. No amendment increasing the amount of land to be sold or the amount to be paid for the purchase of land, or the amount of loans, or altering the disposition of purchase money or of the proceeds of loans shall be made at the time of the second reading and vote.

SECT. 3. All appropriations, other than for school purposes, to be met from taxes, revenue, or any source other than loans shall originate with the mayor, who within thirty days after the beginning of the fiscal year shall submit to the city council the annual budget of the current expenses of the city and county, and may submit thereafter supplementary budgets until such time as the tax rate for the year shall have been fixed. The city council may reduce or reject any item, but without the approval of the mayor shall not increase any item in, nor the total of a budget, nor add any item thereto, nor shall it originate a budget. It shall be the duty of the city and county officials, when requested by the mayor, to submit forthwith in such detail as he may require estimates for the next fiscal year of the expenditures of the department or office under their charge, which estimates shall be transmitted to the city council.

The city auditor may, with the approval in each instance of the mayor, at any time make transfers from the appropriation for current expenses of one division of a department to the appropriation for current expenses of any other division of the same department, and from the reserve fund to any appropriation for the current expenses of a department; and may also, with the approval of the mayor, at any time between December first and February first, make transfers from any appropriation to any other appropriation: *provided, however*, that no money raised by loan shall be transferred to any appropriation from income or taxes. He may also with such approval apply any of the income and taxes not disposed of in closing the accounts for the financial year in such manner as he may determine.

SECT. 4. Every appropriation, ordinance, order, resolution and vote of the city council, except votes relating to its own internal affairs, shall be presented to the mayor, who shall make or cause to be made a written record of the time and place of presentation, and it shall be in force if he approves the same within fifteen days after it shall have been presented to him, or if the same is not returned by him with his objections thereto in writing within said period of fifteen days. If within said period said appropriation, ordinance, order, resolution, or vote is returned by the

mayor to the city council by filing the same with the city clerk with his objections thereto the same shall be void. If the same involves the expenditure of money, the mayor may approve some of the items in whole or in part and disapprove other of the items in whole or in part; and such items or parts of items as he approves shall be in force, and such items or parts of items as he disapproves shall be void.

SECT. 5. Except as otherwise provided in this act, the organization, powers, and duties of the executive departments of the city shall remain as constituted at the time when this section takes effect; but the mayor and city council at any time may by ordinance reorganize, consolidate, or abolish departments in whole or in part; transfer the duties, powers, and appropriations of one department to another in whole or in part; and establish new departments; and may increase, reduce, establish or abolish salaries of heads of departments, or members of boards. Nothing in this act shall authorize the abolition or the taking away of any of the powers or duties as established by law of the assessing department, building department, board of appeal, children's institutions department, election department, fire department, Franklin Foundation, hospital department, library department, overseers of the poor, schoolhouse department, school committee, or any department in charge of an official or officials appointed by the governor, nor the abolition of the health department.

SECT. 6. No contract for lighting the public streets, parks, or alleys, or for the collection, removal, or disposal of refuse, extending over a period of more than one year from the date thereof, shall be valid without the approval of the mayor and the city council after a public hearing held by the city council, of which at least seven days' notice shall have been given in the City Record.

SECT. 7. The city council at any time may request from the mayor specific information on any municipal matter within its jurisdiction, and may request his presence to answer written questions relating thereto at a meeting to be held not earlier than one week from the date of the receipt of said questions, in which case the mayor shall personally, or through a head of a department or a member of a board, attend such meeting and publicly answer all such questions. The person so attending shall not be obliged to answer questions relating to any other matter. The mayor at any time may attend and address the city council in person or through the head of a department, or a member of a board, upon such subject as he may desire.

SECT. 8. Neither the city council, nor any member or committee, officer, or employee thereof shall, except as otherwise provided in this act, directly or indirectly on behalf of the city or of the county of Suffolk take part in the employment of labor, the making of contracts, the purchase of materials, supplies or real estate; nor in the construction, alteration, or repair of any public works, buildings, or other property; nor in the care, custody, and management of the same; nor in the

conduct of the executive or administrative business of the city or county; nor in the appointment or removal of any municipal or county employee; nor in the expenditure of public money except such as may be necessary for the contingent and incidental expenses of the city council. The provisions of this section shall not affect the powers or duties of the city council as the successor of the present board of aldermen relative to state or military aid and soldiers' relief.

It shall be unlawful for the mayor or for a member of the city council or for any officer or employee of the city or of the county of Suffolk or for a member of the finance commission directly or indirectly to make a contract with the city or with the county of Suffolk, or to receive any commission, discount, bonus, gift, contribution or reward from or any share in the profits of any person or corporation making or performing such contract, unless such mayor, member of the city council, officer, or employee or member of the finance commission immediately upon learning of the existence of such contract or that such contract is proposed, shall notify in writing the mayor, city council, and finance commission of such contract and of the nature of his interest in such contract and shall abstain from doing any official act on behalf of the city in reference thereto. In case of such interest on the part of an officer whose duty it is to make such contract on behalf of the city, the contract may be made by any other officer of the city duly authorized thereto by the mayor, or if the mayor has such interest by the city clerk: *provided, however,* that when a contractor with the city or county is a corporation or voluntary association, the ownership of less than five per cent of the stock or shares actually issued shall not be considered as being an interest in the contract within the meaning of this act, and such ownership shall not affect the validity of the contract, unless the owner of such stock or shares is also an officer or agent of the corporation or association, or solicits or takes part in the making of the contract.

A violation of any provision of this section shall render the contract in respect to which such violation occurs voidable at the option of the city or county. Any person violating the provisions of this section shall be punished by a fine of not more than one thousand dollars, or by imprisonment for not more than one year, or both. Chapter five hundred and twenty-two of the acts of the year nineteen hundred and eight is hereby repealed.

The Executive Department.

Sect. 9. All heads of departments and members of municipal boards, including the board of street commissioners, as their present terms of office expire (but excluding the school committee and those officials by law appointed by the governor), shall be appointed by the mayor without confirmation by the city council. They shall be recognized experts in such work as may devolve upon the incumbents of said offices, or persons specially fitted by education, training or experience to perform

the same, and (except the election commissioners, who shall remain subject to the provisions of existing laws) shall be appointed without regard to party affiliation or to residence at the time of appointment except as hereinafter provided.

SECT. 10. In making such appointments the mayor shall sign a certificate in the following form:

CERTIFICATE OF APPOINTMENT.

I appoint (Name of Appointee) to the position of (Name of Office) and I certify that in my opinion he is a recognized expert in the work which will devolve upon him, and that I make the appointment solely in the interest of the city. Mayor.

Or in the following form, as the case may be:

CERTIFICATE OF APPOINTMENT.

I appoint (Name of Appointee) to the position of (Name of Office) and I certify that in my opinion he is a person specially fitted by education, training, or experience to perform the duties of said office, and that I make the appointment solely in the interest of the city.
Mayor.

The certificate shall be filed with the city clerk, who shall thereupon forward a certified copy to the civil service commission. The commission shall immediately make a careful inquiry into the qualifications of the nominee under such rules as they may, with the consent of the governor and council, establish, and, if they conclude that he is a competent person with the requisite qualifications, they shall file with the city clerk a certificate signed by at least a majority of the commission that they have made a careful inquiry into the qualifications of the appointee, and that in their opinion he is a recognized expert, or that he is qualified by education, training or experience for said office, as the case may be, and that they approve the appointment. Upon the filing of this certificate the appointment shall become operative, subject however to all provisions of law or ordinance in regard to acceptance of office, oath of office, and the filing of bonds. If the commission does not within thirty days after the receipt of such notice file said certificate with the city clerk the appointment shall be void.

SECT. 11. The civil service commission is authorized to incur in carrying out the foregoing provisions such reasonable expense as may be approved by the governor and council; the same to be paid by the commonwealth, which upon demand shall be reimbursed by the city of Boston.

SECT. 12. A vacancy in any office to which the provisions of section nine of this act apply, shall be filled by the mayor under the provisions of said section and pending a permanent appointment he shall designate some other head of a department or member of a board to discharge the duties of the office temporarily.

SECT. 13. Members of boards shall be appointed for the terms established by law or by ordinance. Heads of departments shall be appointed

for terms of four years beginning with the first day of May of the year in which they are appointed and shall continue thereafter to hold office during the pleasure of the mayor.

SECT. 14. The mayor may remove any head of a department or member of a board (other than the election commissioners, who shall remain subject to the provisions of existing laws) by filing a written statement with the city clerk setting forth in detail the specific reasons for such removal, a copy of which shall be delivered or mailed to the person thus removed, who may make a reply in writing, which, if he desires, may be filed with the city clerk; but such reply shall not affect the action taken unless the mayor so determines. The provisions of this section shall not apply to the school committee or to any official by law appointed by the governor.

SECT. 15. The positions of assistants and secretary authorized by section twenty of chapter four hundred and forty-nine of the acts of the year eighteen hundred and ninety-five except those in the election department are hereby abolished, and except as aforesaid the said section is hereby repealed.

The civil service laws shall not apply to the appointment of the mayor's secretaries, nor of the stenographers, clerks, telephone operators and messengers connected with his office, and the mayor may remove such appointees without a hearing and without making a statement of the cause for their removal.

SECT. 16. No official of said city, except in case of extreme emergency involving the health or safety of the people or their property, shall expend intentionally in any fiscal year any sum in excess of the appropriations duly made in accordance with law, nor involve the city in any contract for the future payment of money in excess of such appropriation, except as provided in section six of this act. Any official who shall violate the provisions of this section shall be punished by imprisonment for not more than one year, or by a fine of not more than one thousand dollars, or both.

THE FINANCE COMMISSION.

SECT. 17. Within sixty days after the passage of this act the governor with the advice and consent of the council shall appoint a finance commission to consist of five persons, inhabitants of and qualified voters in the city of Boston, who shall have been such for at least three years prior to the date of their appointment, one for the term of five years, one for four years, one for three years, one for two years, and one for one year, and thereafter as the terms of office expire in each year one member for a term of five years. Vacancies in the commission shall be filled for the unexpired term by the governor with the advice and consent of the council. The members of said commission may be removed by the governor with the advice and consent of the council for such cause as he shall deem sufficient. The chairman shall be designated by the

governor. His annual salary shall be five thousand dollars, which shall be paid in monthly instalments by the city of Boston. The other members shall serve without pay.

SECT. 18. It shall be the duty of the finance commission from time to time to investigate any and all matters relating to appropriations, loans, expenditures, accounts, and methods of administration affecting the city of Boston or the county of Suffolk, or any department thereof, that may appear to the commission to require investigation, and to report thereon from time to time to the mayor, the city council, the governor, or the general court. The commission shall make an annual report in January of each year to the general court.

SECT. 19. Whenever any pay roll, bill, or other claim against the city is presented to the mayor, city auditor, or the city treasurer, he shall, if the same seems to him to be of doubtful validity, excessive in amount, or otherwise contrary to the city's interest, refer it to the finance commission, which shall immediately investigate the facts and report thereon; and pending said report payment shall be withheld.

SECT. 20. The said commission is authorized to employ such experts, counsel, and other assistants, and to incur such other expenses as it may deem necessary, and the same shall be paid by said city upon requisition by the commission, not exceeding in the aggregate in any year the sum of twenty-five thousand dollars, or such additional sums as may be appropriated for the purpose by the city council, and approved by the mayor. A sum sufficient to cover the salary of the chairman of the commission and the further sum of at least twenty-five thousand dollars to meet the expenses as aforesaid shall be appropriated each year by said city. The commission shall have the same right to incur expenses in anticipation of its appropriation as if it were a regular department of said city.

SECT. 21. For the purpose of enabling the said commission to perform the duties and carry out the objects herein contemplated, and to enable the mayor, the city council, the governor or the general court to receive the reports and findings of said commission as a basis for such laws, ordinances, or administrative orders as may be deemed meet, the commission shall have all the powers and duties enumerated in chapter five hundred and sixty-two of the acts of the year nineteen hundred and eight and therein conferred upon the commission designated in said act; but counsel for any witness at any public hearing may ask him any pertinent question and may offer pertinent evidence through other witnesses subject to cross-examination by the commission and its counsel.

THE CITY CLERK.

SECT. 22. The present city clerk shall hold office for the term for which he has been elected, and thereafter until his successor is chosen and qualified. In the year nineteen hundred and eleven, and every third year thereafter, a city clerk shall be elected by a majority of the members of

the city council, to hold office until the first Monday in February in the third year following his election, and thereafter until his successor has been duly chosen and qualified, unless sooner removed by due process of law. The city clerk shall act as clerk of the city council established by this act.

The City Auditor.

Sect. 23. All accounts rendered to or kept in the departments of the city of Boston or county of Suffolk shall be subject to the inspection and revision of the city auditor, and shall be rendered and kept in such form as he shall prescribe. The auditor may require any person presenting for settlement an account or claim against the city or county to make oath before him in such form as he may prescribe as to the accuracy of such account or claim. The wilful making of a false oath shall be perjury and punishable as such. The auditor may disallow and refuse to pay, in whole or in part, any claim on the ground that it is fraudulent or unlawful and in that case he shall file a written statement of his reasons for the refusal.

Sect. 24. Whenever, in response to an advertisement by any officer or board of the city or county, a bid for a contract to do work or furnish materials is sent or delivered to said officer or board, a duplicate of the same shall be furnished by the bidder to the auditor, to be kept by him and not opened until after the original bids are opened. After the original bids are opened, the auditor shall open and examine the bids submitted to him, and shall compare the same with the original bids. In case any of the bids submitted to the auditor differ from the corresponding original bids, those submitted to the auditor shall be treated as the original bids. The contract shall not be awarded until after both sets of bids are opened.

Sect. 25. The auditor shall furnish monthly to each head of department a statement of the unexpended balance of the appropriation for that department, and he shall furnish to the mayor and city council a statement of the unexpended balances of all the departments. He shall furnish quarterly to the city council an itemized statement showing the amount of money expended by the mayor and the city council for contingent expenses.

Miscellaneous Provisions.

Sect. 26. All loans issued by the city after the passage of this act shall be made payable in annual instalments in the manner authorized by section thirteen of chapter twenty-seven of the Revised Laws as amended by section one of chapter three hundred and forty-one of the acts of the year nineteen hundred and eight. No sinking fund shall be established for said loan. All bonds shall be offered for sale in such a manner that the effect of the premiums, if any, shall be to reduce the total amount of bonds issued. No city or county money shall be deposited in any bank or trust company of which any member of the board of sinking fund commissioners of said city is an officer, director, or agent.

SECT. 27. Every officer and board in charge of a department of the city of Boston or county of Suffolk shall on or before the fifth day of May in each year prepare and furnish to the city auditor a list of the officials and employees under said officer or board and paid by the city or county on the thirtieth day of April preceding. Such lists shall give the names, residence by street and ward, designation, compensation, and date of election or appointment of each of said officials and employees and the date when each first entered the employ of the city or county. It shall be the duty of the city auditor to verify said lists by the pay rolls; and when verified the said lists shall be printed by the superintendent of printing as a city document.

SECT. 28. The jurisdiction now exercised by the board of aldermen concerning the naming of streets, the planting and removal of trees in the public ways, the issue of permits or licenses for coasting, the storage of gasoline, oil, and other inflammable substances or explosive compounds and the use of the public ways for any permanent or temporary obstruction or projection in, under, or over the same, including the location of conduits, poles, and posts for telephone, telegraph, street railway, or illuminating purposes, is hereby vested in the board of street commissioners, to be exercised by said board with the approval in writing of the mayor; and the mayor and city council shall have authority to fix by ordinance the terms by way of cash payment, rent, or otherwise, upon which permits or licenses for the storage of gasoline or oil, or other inflammable substances or explosive compounds, and the construction or use of coal holes, vaults, bay windows, and marquises, in, under, or over the public ways shall be issued.

SECT. 29. Within ninety days after the passage of this act and thereafter there shall be published at least once a week and distributed and sold under the direction of the mayor and on terms to be fixed by the city council and approved by the mayor a paper to be known as the "City Record." All advertising, whether required by law or not, with reference to the purchase or taking of land, contracts for work, materials, or supplies, the sale of bonds, or the sale of property for non-payment of taxes shall appear exclusively in said paper; a list of all contracts of one thousand dollars or more, as awarded, with the names of bidders, and the amount of the bids; appointments by the mayor; and changes in the number and compensation of employees in each department, shall be published in the City Record. The proceedings of the city council and school committee together with all communications from the mayor, shall be published in the City Record.

SECT. 30. Every officer or board in charge of a department in said city, when authorized to erect a new building or to make structural changes in an existing building, shall make contracts therefor, not exceeding five, each contract to be subject to the approval of the mayor; and when about to do any work or to make any purchase, the estimated cost of which alone, or in conjunction with other similar work or purchase which might properly be included in the same contract, amounts

to or exceeds one thousand dollars, shall, unless the mayor gives written authority to do otherwise, invite proposals therefor by advertisement in the City Record. Such advertisement shall state the time and place for opening the proposals in answer to said advertisement, and shall reserve the right to the officer or board to reject any or all proposals. No authority to dispense with advertising shall be given by the mayor unless the said officer or board furnishes him with a signed statement which shall be published in the City Record giving in detail the reasons for not inviting bids by advertisement.

SECT. 31. At the request of any department, and with the approval of the mayor the board of street commissioners, in the name of the city, may take in fee for any municipal purpose any land within the limits of the city, not already appropriated to public use. Whenever the price proposed to be paid for a lot of land for any municipal purpose is more than twenty-five per cent higher than its average assessed valuation during the previous three years, said land shall not be taken by purchase but shall be taken by right of eminent domain and paid for in the manner provided for the taking of and the payment of damages for land for highways in said city. No land shall be taken until an appropriation by loan or otherwise for the general purpose for which land is needed shall have been made by the mayor and city council by a two thirds vote of all its members; or in case of land for school purposes by the school committee and schoolhouse department in accordance with law; nor shall a price be paid in excess of the appropriation, unless a larger sum is awarded by a court of competent jurisdiction. All proceedings in the taking of land shall be under the advice of the law department, and a record thereof shall be kept by said department.

SECT. 32. The first municipal election under this act shall take place on the first Tuesday after the second Monday in January in the year nineteen hundred and ten, and thereafter the regular municipal elections in each year in said city shall be held on the first Tuesday after the second Monday in January.

SECT. 33. The fiscal year in said city shall begin on February first and shall end on the thirty-first day of January next following; and the municipal year shall hereafter begin on the first Monday in February and shall continue until the first Monday of the February next following. The present terms of office of members of the school committee are hereby extended to the first Monday of February in the years in which their terms respectively expire, and hereafter the terms of office of members of the school committee shall begin with the first Monday of February following their election. The members of the school committee hereafter shall meet and organize annually on the first Monday of February.

SECT. 34. In Boston beginning with the current year political committees shall be elected at the state primaries instead of at the municipal primaries.

NOTE.— Sections 35 to 44, inclusive, are omitted because now inoperative. See note on page 18.

The Mayor.

Sect. 45. The mayor of the city of Boston shall be elected at large to hold office for the term of four years from the first Monday in February following his election and until his successor is chosen and qualified, except as hereinafter provided.

Sect. 46. The secretary of the commonwealth (unless notified as hereinafter provided) shall cause to be printed at the end of the official ballot to be used in the city of Boston at the state election in the second year of the mayor's term the following question: Shall there be an election for mayor at the next municipal election, with the words Yes and No at the right of the question and sufficient squares in which each voter may designate by a cross his answer to such question. If a majority of the qualified voters registered in said city for said state election shall vote in the affirmative on said question, there shall be an election for mayor in said city at the municipal election held in January next following said state election, and the same shall be conducted, and the result thereof declared in all respects as are other city elections for mayor, except that the board of election commissioners shall place on the official ballot for said election without nomination the name of the person then holding the office of mayor (other than an acting mayor), unless in writing he shall request otherwise. The mayor then elected shall hold office for four years, subject to recall at the end of two years as provided in this section. If said question is not answered in the affirmative by the vote aforesaid no election for mayor shall be held and the mayor shall continue to hold office for his unexpired term. If prior to October first in the said second year of his term the mayor shall file with the secretary of the commonwealth a written notice that he does not desire said question to appear upon the ballot at said state election it shall be omitted; his term of office shall expire on the first Monday of February following; and there shall be an election for mayor in said city at the municipal election held in January next following said state election, and at such municipal election the mayor's name shall not be placed on the official ballot unless he is nominated in the manner provided in section fifty-three of this act.

Sect 47. If a vacancy occurs in the office of mayor within two months prior to a regular municipal election other than an election for mayor, or within four months after any regular municipal election, the city council shall forthwith order a special election for a mayor to serve for the unexpired term, subject if the vacancy occurs in the first or second year of the mayor's term to recall under the provisions of the preceding section. If such vacancy occurs at any other time there shall be an election for mayor at the municipal election held in January next following, for the term of four years, subject to recall as aforesaid. In the case of the decease, inability, absence or resignation of the mayor, and whenever there is a vacancy in the office from any cause, the president of the city council

while said cause continues or until a mayor is elected shall perform the duties of mayor. If he is also absent or unable from any cause to perform such duties they shall be performed until the mayor or president of the city council returns or is able to attend to said duties by such member of the city council as that body may elect, and until such election by the city clerk. The person upon whom such duties shall devolve shall be called "acting mayor" and he shall possess the powers of mayor only in matters not admitting of delay, but shall have no power to make permanent appointments except on the decease of the mayor.

The City Council.

Sect. 48. There shall be elected at large in said city a city council consisting of nine members. At the first election under this act there shall be elected nine members of said city council. No voter shall vote for more than nine. The three candidates receiving the largest number of votes at said election shall hold office for three years, the three receiving the next largest number of votes shall hold office for two years, the three receiving the next largest number of votes shall hold office for one year. In case two or more persons elected should receive an equal number of votes those who are the seniors by age shall for the division into classes hereby required be classified as if they had received the larger number of votes in the order of ages. Thereafter at each annual municipal election there shall be chosen at large three members of the city council to hold office for a term of three years. No voter shall vote for more than three. All said terms shall begin with the first Monday of February following the election.

Sect. 49. Each member of the city council shall be paid an annual salary of fifteen hundred dollars; and no other sum shall be paid from the city treasury for or on account of any personal expenses directly or indirectly incurred by or in behalf of any member of said council.

Sect. 50. The city council shall be the judge of the election and qualifications of its members; shall elect from its members by vote of a majority of all the members a president who when present shall preside at the meetings thereof; shall from time to time establish rules for its proceedings, and shall, when a vacancy occurs in the office of any member, elect by vote of a majority of all the members a registered voter of said city to fill the vacancy for the remainder of the municipal year. The vacancy for the remainder of the unexpired term shall be filled at the next annual municipal election, unless the vacancy occurs within two months prior to such municipal election, in which event the city council shall forthwith order a special election to fill the vacancy for the unexpired term. The member eldest in years shall preside until the president is chosen, and in case of the absence of the president, until a presiding officer is chosen.

Sect. 51. All elections by the city council under any provision of law shall be made by a viva voce vote, each member who is present answering to his name when it is called by the clerk or other proper officer, and stating the name of the person for whom he votes, or declining to vote as the case

may be; and the clerk or other proper officer shall record every such vote. No such election shall be valid unless it is made as aforesaid.

SECT. 52. No primary election or caucus for municipal offices shall be held hereafter in the city of Boston, and all laws relating to primary elections and caucuses for such offices in said city are hereby repealed.

SECT. 53. Any male qualified registered voter in said city may be nominated for any municipal elective office in said city, and his name as such candidate shall be printed on the official ballot to be used at the municipal election: *provided*, that at or before five o'clock P.M. of the twenty-fifth day prior to such election nomination papers prepared and issued by the election commissioners, signed in person by at least five thousand registered voters in said city qualified to vote for such candidate at said election, shall be filed with said election commissioners, and the signatures on the same to the number required to make a nomination are subsequently certified by the election commissioners as hereinafter provided. Said nomination papers shall be in substantially the following form:

Before me,

Justice of the Peace.

SECT. 54. If a candidate nominated as aforesaid dies before the day of election, or withdraws his name from nomination, or is found to be ineligible, the vacancy may be filled by a committee of not less than five persons, or a majority thereof, if such committee be named, and so authorized in the nomination papers. Nomination papers shall not include candidates for more than one office except that not more than three or nine, as the case may be, candidates for city council may be included in one nomination paper, and not more than two candidates for school committee may be included in one nomination paper. Every voter may sign as many nomination papers for each office to be filled as there are persons to be elected thereto and no more. Nomination papers in each year shall be issued by the board of election commissioners on and after but not before the day next following the state election.

SECT. 55. Women who are qualified to vote for a member of the school committee may be nominated as and sign nomination papers for candidates for that office in the manner and under the same provisions of law as men.

SECT. 56. The names of candidates appearing on nomination papers shall when filed be a matter of public record; but the nomination papers shall not be open to public inspection until after certification. After such nomination papers have been filed, the election commissioners shall certify thereon the number of signatures which are the names of registered voters in the city qualified to sign the same. They need not certify a greater number of names than are required to make a nomination, with one fifth of such number added thereto. All such papers found not to contain a number of names so certified equivalent to the number required to make a nomination shall be invalid. The election commissioners shall complete such certification on or before five o'clock P.M. on the sixteenth day preceding the city election. Such certification shall not preclude any voter from filing objections as to the validity of the nomination. All withdrawals and objections to such nominations shall be filed with the election commissioners on or before five o'clock P.M. on the fourteenth day preceding the city election. All substitutions to fill vacancies caused by withdrawal or ineligibility shall be filed with the election commissioners on or before five o'clock P.M. on the twelfth day preceding the city election.

SECT. 57. The name of each person who is nominated in compliance with law, together with his residence and the title and term of the office for which he is a candidate shall be printed on the official ballots at the

municipal election, and the names of no other candidates shall be printed thereon. The names of candidates for the same office shall be printed upon the official ballot in the order in which they may be drawn by the board of election commissioners, whose duty it shall be to make such drawing and to give each candidate an opportunity to be present thereat personally or by one representative.

SECT. 58. No ballot used at any annual or special municipal election shall have printed thereon any party or political designation or mark, and there shall not be appended to the name of any candidate any such party or political designation or mark, or anything showing how he was nominated or indicating his views or opinions.

SECT. 59. On ballots to be used at annual or special municipal elections blank spaces shall be left at the end of each list of candidates for the different offices, equal to the number to be elected thereto, in which the voter may insert the name of any person not printed on the ballot for whom he desires to vote for such office.

SECT. 60. All laws not inconsistent with the provisions of this act, governing nomination papers and nominations for, and elections of municipal officers in the city of Boston, shall so far as they may be applicable, govern the nomination papers, nominations and elections provided for in this act. The board of election commissioners shall be subject to the same penalties and shall have the same powers and duties, where not inconsistent with the provisions of this act, in relation to nomination papers, preparing and printing ballots, preparing for and conducting elections and counting, tabulating and determining the votes cast under the provisions of this act, as they have now in relation to municipal elections in said city.

SECT. 61. The provisions of this act shall apply to any special municipal election held after the year nineteen hundred and nine in the city of Boston, except that nomination papers for offices to be filled at such elections shall be issued by the election commissioners on and after the day following the calling of said special election. Every special municipal election shall be held on a Tuesday not less than sixty days nor more than ninety days after the date of the order calling such special election.

SECT. 62. All acts and parts of acts so far as inconsistent with this act are hereby repealed; all ordinances and parts of ordinances so far as inconsistent with this act are hereby annulled; and all acts and parts of acts affecting the city of Boston not inconsistent with the provisions of this act are continued in force: *provided, however*, that the provisions of chapter four hundred and forty of the acts of the year nineteen hundred and nine shall not apply to any election held hereunder prior to the first day of April in the year nineteen hundred and ten.

SECT. 63. Sections one to fourteen both inclusive and sections twenty-seven, twenty-eight and thirty-one of this act shall take effect on the first Monday of February in the year nineteen hundred and ten, excepting that so much of section one as is included in the first two sentences thereof,

to and including the word "respectively," shall take effect upon the passage of this act; sections sixteen and twenty-three of this act shall take effect thirty days after the passage of the same; section thirty shall take effect ninety days after the passage of this act; and sections fifteen, seventeen to twenty-two, both inclusive, twenty-four to twenty-six, both inclusive, twenty-nine, thirty-two to thirty-six, both inclusive, forty-four, and sixty-two shall take effect upon the passage of this act. [*Approved June 11, 1909.*]

The Trustees have charge of the expenditure of $457,000 raised by loans. They purchased the Conness estate of 55 acres fronting on River street, Mattapan, and upon this site the erection of the hospital buildings is now in progress. A Day Camp accommodating 250, two Ward buildings accommodating 140, and two Cottage Wards accommodating 57, are already in operation. The Domestic Administration building is in process of construction. An Out-Patient Department or dispensary is maintained at 13 Burroughs place. Patients are examined and treated by physicians at the Out-Patient Department, and are visited by nurses in their homes. The Trustees have the power, pending the erection of the hospital, to hire one hundred beds in private hospitals for needy patients. After the erection and furnishing of the hospital the Trustees will have charge of the care and management thereof, including the purchase of all supplies. Admission to the hospital is confined to persons who are *bona fide* residents of Boston at the time of application. The Trustees have power to make all necessary rules and regulations for the carrying on of the hospital and the admission of patients.

* The Trustees serve without compensation.

The Trustees of the Public Library of the City of Boston, who are five in number, are appointed by the Mayor, one each year, for a term of five years. They were incorporated by an act of the General Court passed April 4, 1878, and are authorized to receive and hold real and personal estate which may be given, granted, bequeathed or devised to the said corporation, to an amount not exceeding $1,000,000. The first Trustees were appointed under an ordinance of October 14, 1852. The old Library Building on Boylston street was opened to the public in September, 1858, and closed finally in January, 1895. The new Library Building on Copley square was first opened on March 11, 1895. The Library is maintained by an annual appropriation voted out of the general funds of the City by the City Council. About $31,176 of this appropriation was used in 1910 for the purchase of books and periodicals. The Library also holds trust funds aggregating $440,350, the interest of which is devoted to the purchase of books.

The annual reports, the first of which appeared in 1852, have been continued without interruption.

Of the Quarterly Bulletins begun in 1867, fourteen volumes have been published. The series closed in 1896.

A Quarterly Bulletin of a new series is now issued, and a weekly list of new books added to the Library. The Trustees have issued also general and special catalogues of the Central Library, and of its branches and special collections, as well as hand-books for readers, and other documents.

LIBRARY SYSTEM.

The Library system consists of the Central Library in Copley square; eleven branch libraries with independent collections of books; sixteen reading rooms, all of which contain deposits of books from the Central Library, reference books and periodicals. There were, on February 1, 1911, in the Central Library, Branch Libraries and reading rooms, 536 employees, including 249 who are employed in the evening and on Sunday, some of whom also work during the week; and including also a certain number who only work a few hours or days in each week.

Between the Central Library and these twenty-seven stations, by library wagons, there is a daily exchange of books and cards, whereby persons living in outlying districts can draw books from the Central Library without the necessity of coming in person.

The delivery or deposit of books is also undertaken in one hundred and eleven public and parochial schools, thirty institutions and fifty-eight fire company houses.

Cards allowing the use of two books without restriction as to class, for two weeks, are issued to all residents of Boston with no further attendant delay than is involved in identification. No guaranty is asked, except in case of a sojourner. Such cards are also issued to non-resident pupils attending Boston schools who furnish guaranties. For reading and reference the Library is open to all without formality. Special cards

for more extended privileges are issued to clergymen officiating in the City, and to teachers giving instruction in Boston institutions of learning; a special card is also issued in certain cases by the Trustees. On February 1, 1911, there were 86,913 card-holders having the right to draw books for home use. The total number of volumes was 987,268, and of different newspapers and periodicals currently received at the Central Library and branches about 2,152. Books issued in 1910, for home use and for use through schools and institutions, numbered 1,602,225; of reference use, on account of the freedom with which books may be consulted, no adequate statistics are kept.

CENTRAL LIBRARY, COPLEY SQUARE.

Lending and reference, 767,960 volumes (including the Patent Library).

Periodical reading-rooms, about 1,721 periodicals.

Newspaper reading-room, 343 current newspapers.

Patent Library, 11,308 volumes.

Bates Hall for Reading and Reference. About 9,000 volumes are on open shelves. The Fine Arts Department has facilities for copying and photographing, a collection of photographs of architecture, sculpture and painting, numbering 31,044 (including process pictures), besides illustrated books, portfolios, lantern slides, etc. Special assistance is offered to classes, travel clubs, etc. Free lectures, mostly on art topics, are given during the winter season. The room for younger readers has about 9,500 volumes on open shelves for reading and circulation. The Bindery has thirty regular employees, besides a force of eight employees temporarily employed on special work. The Printing Department has seven employees. The Library is open from 9 A.M. to 10 P.M.; Sundays from 12 M. to 10 P.M.; closed at 9 P.M. from June 15 to September 15.

MARKET DEPARTMENT.

Office in Rotunda of Faneuil Hall Market.

[Rev. Ord. 1898, Chap. 1, § 4, tenth to twelfth; Chap. 25 and Chap. 47, §§ 60–65; Stat. 1895, Chap. 449, § 26.]

GEORGE E. MCKAY, *Superintendent of Markets.* Salary, $3,000. Term ends in 1914.

Faneuil Hall Market, proposed in Mayor Quincy's message of July 31, 1823, and completed in 1826, was under the charge of a Clerk of the Market until an ordinance of September 9, 1852, established the office of Superintendent. According to the Revised Ordinances of 1898, Chap. 1, § 4, tenth, Faneuil Hall Market includes the lower floor, porches and cellar of the buildings called respectively Faneuil Hall and Quincy Market. The Superintendent has charge and control of Faneuil Hall Market. He may assign stands within their limits; and it is his duty, from time to time, to lease the stalls in the market for five years at rents not less than those established by the City Council. The market police are appointed by the Police Commissioner and under his control.

The Overseers of the Poor in the Town of Boston, a corporation established in 1772 by act of the Legislature, in 1864 were succeeded by the corporation called "Overseers of the Poor in the City of Boston," consisting of twelve residents of Boston, four of whom are appointed annually to serve for the term of three years from the first day of May. The Board has issued annual reports since 1865.

The Overseers of the Poor are also incorporated as a Board of Trustees of John Boylston's and other charitable funds, left for the assistance of persons of good character and advanced age, "who have been reduced by misfortune to indigence and want."

In charge of the Overseers are the Wayfarers' Lodge on Hawkins street, which shelters homeless men who are out of employment, exacting some kind of work for their board, and the Temporary Home on Chardon street for women and children.

PENAL INSTITUTIONS DEPARTMENT.

Office, 32 Tremont street.

[Stat. 1857, Chap. 35; Stat. 1889, Chap. 245; Stat. 1895, Chap. 449; §§ 14–16; Stat. 1897, Chap. 395, § 5; Rev. Ord. 1898, Chap. 30; C. C., Title IV., Chap. 26.]

Fred S. Gore, *Penal Institutions Commissioner.* Salary, $5,000.
Hubert Pope, *Secretary and Chief Clerk.* Salary, $2,000.

From 1857 to 1885 the public institutions were in charge of a Board of Directors, twelve in number; from 1885 to 1889, in charge of a board consisting of nine members; from 1889 to 1895, in charge of the Board of Commissioners of Public Institutions, three in number. By Chapter 449 of the Acts of 1895, the institutions were placed under the charge of one commissioner, known as the Institutions Commissioner. By Chapters 395 and 451 of the Acts of 1897, the control of the institutions was divided; the Penal Institutions Commissioner to have the care of the Penal Institutions Department and separate Boards of Trustees being appointed for the Children's Institutions, the Pauper Institutions and the Insane Hospital. In 1908 the name of the Pauper Institutions Department was changed to the Infirmary Department, and the State took over the Insane Hospital.

The Penal Institutions Department is under the control of a single commissioner, who has charge of the House of Correction at Deer Island. He purchases all supplies required for that institution, and has charge of the steamer "Monitor," which is used to transport passengers and freight to Deer, Long and Rainsford Islands.

PUBLIC WORKS DEPARTMENT.

General Office, 49 City Hall.

[Ord. 1910, Chap. 9.]

LOUIS K. ROURKE, *Commissioner*. Salary, $9,000. Term ends in 1915.
BERNARD C. KELLEY, *Chief Clerk*. Salary, $3,000.

By Chapter 9, Ordinances of 1910, approved by the Mayor November 28, 1910, and taking effect February 1, 1911, the Department of Public Works was established, consisting of the Street, Water and Engineering Departments combined under a single executive head (viz., the Commissioner of Public Works), the latter authorized to create the necessary divisions of the department according to his judgment. The following three divisions were created by the Commissioner, viz., Bridge and Ferry Division, Highway Division and Sewer and Water Division, each in charge of a Division Engineer.

The Commissioner of Public Works, who must be a civil engineer of recognized standing in his profession, has control over the construction of all streets and sewers, with discretionary power as to grades, materials and other particulars; over the construction, care and management of all bridges used as highways, of the ferries owned and operated by the City, and of the street lamps maintained by the City in highways, parkways and public grounds; over the cleaning, repairing and sprinkling of streets and the removal of house offal and refuse in the various districts of the City; over the maintenance and operation of all fixtures and

* Removed from Scollay square on account of the construction of the East Boston Tunnel.

appliances held by the City for purposes of water supply; and over the granting of permits to open, occupy, obstruct and use portions of streets.

By authority of Chapter 571, Acts of 1910, the Commissioner of Public Works now charges for permits issued, as per the following schedule:

1. Openings in streets or sidewalks, 50 cents each. Limited to 100 linear feet on one permit.
2. Emergency permits, Class A (for the above purpose), 50 cents each.
3. Advertising by man wearing hat and coat lettered (annual permit), $5 (or $1 per month).
4. Cleaning snow from roofs (occupation of sidewalk and street while so doing), annual permit, $1 each.
5. Driving cattle through the streets (annual permit to driver), $5.
6. Dumping snow from private property into public alleys (annual permit), 50 cents.
7. Erecting and repairing awnings (annual permit), 50 cents.
8. Erecting, altering or repairing buildings (occupation of street or sidewalk) one cent per square foot per month up to 5,000 feet, and one-half cent per foot in excess of 5,000 feet; the minimum charge to be at one month rate.
9. Painting or minor repairs, 50 cents each.
10. Feeding horses on streets (annual permit), $1 each.
11. Moving buildings in streets, $5 per day; minimum charge, $10.
12. Painting signs or notices on obstruction fences, $1 each.
13. Placing and removing signs flat on buildings, 50 cents each.
14. Projecting signs or lamps from buildings, $1 each.
15. Raising or lowering safes, machinery, etc., $1 each.
16. Loading and unloading goods (annual permit), charges to be based on conditions at each location. Minimum, $1; maximum, $5.
17. Emergency permits, Class B, $1 each.
18. Special permits for other than above purposes, 25 cents each.
19. Annual permits at rates other than those in the preceding classes when, in the opinion of the Commissioner, such permits are requisite to the proper conduct of the permit system.

All extensions will be considered renewals and the charge collected as for a new permit.

BRIDGE AND FERRY DIVISION.

Office, 60 City Hall.

FREDERIC H. FAY, *Division Engineer.* Salary, $5,000.
S. E. TINKHAM, *Engineer of Construction.* Salary, $3,000.
EDWARD W. HOWE, *Engineer of Special Work.* Salary, $3,000.
S. H. THORNDIKE, *Designing Engineer.* Salary, $2,100.
H. P. CHRISTIERNIN, *General Foreman of Ferries.* Salary, $2,100.
THOMAS H. SEXTON, *Supervisor of Bridges.* Salary, $2,000.

The Division Engineer of this division has charge of the design, construction and maintenance of the highway bridges within the limits of the City, whether constructed over navigable waters or railroads, also of the care and management of the ferries operated by the City. Work pertaining to the abolishment of grade crossings is attended to by this division, also special engineering work for other City departments. All drawtenders are appointed by and subject to the control of the Commissioner of Public Works. The following named bridges are under the supervision of this division.

SEWER AND WATER DIVISION.

Main Office, 47 City Hall, third floor.

Frank A. McInnes, *Division Engineer.* Salary, $5,000.

Edgar S. Dorr, *Chief Engineer of Sewer Service.* Salary, $3,500.

William J. Welch, *Superintendent of Distribution Branch, Water Service.* Salary, $3,000.

Joseph H. Caldwell, *Superintendent of Income Branch, Water Service.* Salary, $2,500.

Christopher J. Carven, *Engineer of Maintenance, Water Service.* Salary, $2,700.

Frederic I. Winslow, *Engineer of Extension, Water Service.* Salary, $2,400.

The Division Engineer of this division has charge of the preparation of plans for and the construction of new sewers, the repairing and cleaning of existing sewers and catch-basins, the granting of permits for making sewer connections, and the investigation of complaints in regard to defective drainage; the care and maintenance of all pipes and other fixtures and appliances held by the City for the purposes of its water supply, including the laying and relaying of pipes, the installation and testing of meters and the placing of public drinking fountains, also the assessing of water rates and issuing of the bills therefor.

The total length of common sewers in the City on February 1, 1911, was 758.12 miles, and of supply and distributing water mains 767.35 miles. The number of water meters then in use was 18,467.

The first water document published by the City of Boston appeared in 1825. The public introduction of water from Lake Cochituate took place on October 25, 1848. The history of the Boston Water Works up to January 1, 1868, has been written by Nathaniel J. Bradlee; from 1868

to 1876, by Desmond FitzGerald; of the "Additional Supply from Sudbury River," by A. Fteley. In addition to the annual reports on the Cochituate supply, from 1850, and of the Mystic supply, from 1866, there are numerous special reports. By Chapter 449, Acts of 1895, the Boston Water Board, the Water Income Department and the Water Registrar were abolished and the Water Department created, a single commissioner being entrusted with all the powers previously exercised by the Boston Water Board and the Boston Water Registrar.

By Chapter 488, Acts of 1895, the State provided for a metropolitan water supply, Boston being included among the municipalities thus to be supplied. A State Commission, the Metropolitan Water Board, in accordance with said act, took possession, in 1898, of all that part of the Boston water system lying westward of Chestnut Hill Reservoir, also the pumping station there, with adjacent lands. The sum paid to the City was $12,531,000. Payments to the State by the City for its supply of water have been regularly made since 1898. The daily average amount of water used in 1910 was 87,346,700 gallons, or 130 gallons per capita.

REGISTRY DEPARTMENT.

Office, Old Court House, Room 5, first floor.

[Stat. 1892, Chap. 314; Rev. Ord. 1898, Chap. 34; C. C., Title IV., Chap. 28.]

EDWARD W. MCGLENEN, *City Registrar*. Term ends in 1914. Salary, $4,000.
JAMES O. FALLON, *Assistant Registrar*. Salary, $1,700.
JOHN M. LUDDEN, *Assistant Registrar*. Salary, $1,700.

The City Registrar keeps the records of births, deaths and marriages, and issues certificates of all intentions of marriage. Annual reports have been published since 1849, except in 1860 and 1861.

By law, in the absence of the Registrar, the Assistant Registrars may perform his duties and give certificates of attestation.

By Ordinance, approved July 12, 1892, the Department of Ancient Records and the office of Record Commissioners (established July 6, 1875) were abolished, and the duties of the Record Commissioners, including the publication of documents relating to the early history of Boston, were transferred to the City Registrar.

This department, which was established by Chapter 473 of the Acts of 1901 (amended by Chapter 376 of the Acts of 1904), is in charge of a board of three commissioners, appointed by the Mayor. Since 1902 one commissioner is to be appointed in each year for a term of three years, beginning with June 1 in the year of appointment. The salaries of the commissioners and the ordinary expenses of the department are met by appropriations of the School Committee.

The authority and duties of the Board are those formerly conferred and imposed upon the City Council and the School Committee in relation to selecting lands for school purposes and requesting the Street Commissioners to take the same, providing temporary school accommodations, and making, altering and approving designs and plans for school purposes; erecting, completing, altering, repairing, furnishing, and preparing yards, for school buildings, and making contracts and selecting architects for doing said work.

The Board is required to take measures to secure proper ventilation, proper sanitary conditions, and protection from fire, for existing school buildings. The Board is charged with the duty of making annual reports to the Mayor, to be published as public documents.

annually by the Mayor for a term of three years from May 1. The Board has published annual reports since 1871. The amended City Charter, Sect. 26, prohibits the further establishing of sinking funds, but an exception was afterwards made by the Legislature regarding loans for Rapid Transit purposes. It also prohibits the depositing of City or County money in any bank of which any member of the Board of Sinking Funds Commissioners is an officer, director or agent.

SOLDIERS' RELIEF DEPARTMENT.

Office, Charity Building, 43 Hawkins street.

[R. L., Chap. 79; Rev. Ord. 1898, Chap. 36; C. C., Title IV., Chap. 29.]

JOHN E. GILMAN, *Soldiers' Relief Commissioner.* Term ends in 1914. Salary, $3,500.

The Soldiers' Relief Department was created as a department of the City of Boston by Chapter 441 of the Acts of 1897, and is under the charge of a commissioner, who is appointed by the Mayor. He exercises all powers and duties for the distribution of State and City aid to soldiers in the City of Boston, such as were formerly vested in the Mayor and Board of Aldermen, by certain acts of the Legislature of previous years. The City Council determine the amount of relief in individual cases.

OFFICIALS.

SALEM D. CHARLES, *Chairman.*
JOHN J. O'CALLAGHAN, *Secretary.* Salary, $3,600.

COMMISSIONERS.

SALEM D. CHARLES. Term ends in 1914. Salary, $4,500.
JAMES A. GALLIVAN. Term ends in 1913. Salary, $4,000.
JOHN H. DUNN. Term ends in 1912. Salary, $4,000.

CHIEF ENGINEER.

FRANK O. WHITNEY. Salary, $3,500.

One commissioner is appointed annually by the Mayor to serve for three years from the first Monday in February. The Board has power to lay out, relocate, alter or discontinue highways in the City, and to order specific repairs thereon, also to order, with the approval of the Mayor, the construction of sewers and to take, for the City, any lands, water courses and ways deemed necessary for such construction. In 1895 the duties of the Board of Survey were transferred to the Street Commissioners, who are also charged with the regulation of street traffic and the licensing of street stands for the sale of merchandise.

By the Amended City Charter of 1909, the jurisdiction previously exercised by the Board of Aldermen is vested in the Street Commissioners as to the naming of streets, as to trees in the streets, as to permits or licenses for special use of same, including the construction of coal holes, vaults, bay windows and marquises in, under, or over the streets, also for the storage of inflammables and explosives.

TRAFFIC RULES.

As provided by Chapter 447, Acts of 1908, the Street Commissioners were authorized to make such regulations as they deemed needful to prevent the increasing congestion and delay of traffic in the streets. New traffic rules were promulgated in December, 1908, and went into effect January 1, 1909. They are enforced by the Police Commissioner, and the penalty for violation is a fine not exceeding twenty dollars for each offence.

SUPPLY DEPARTMENT.

Office, 826 Tremont Building.

[Ord. 1908, Chap. 6.]

J. Edward Mullen, *Superintendent of Supplies.* Salary, $3,000.
John T. Caulfield, *Assistant Purchasing Agent.* Salary, $1,600.

It is the duty of the Superintendent of Supplies to furnish all the material, apparatus and other supplies required for the special use of the Public Works Department, and such material for other departments of the City as may be asked for by requisition signed by the head of such department, except furniture and stationery.

TREASURY DEPARTMENT.

Office, City Hall, Room 22, first floor.

[Rev. Ord. 1898, Chap. 40; Ord. 1908, Chap. 4; C. C., Title IV., Chap. 9.]

Charles H. Slattery, *City Treasurer.* Salary, $5,000. Term ends in 1914.

The City Treasurer has the care and custody of the current funds of the City, of all moneys, properties, and securities placed in his charge by any statute or ordinance, or by any gift, devise, bequest, or deposit; he pays all drafts and all checks and other orders directed to him from the Auditing Department for the payment of bills and demands against the City; he pays all executions against the City when duly certified as correct by an officer of the Law Department, even if the appropriation to which the execution is chargeable is not sufficient. He pays the principal and interest of the City debt, as the same becomes due, and has charge of the issue, transfer and registration of the City debt. He receives and invests all trust funds of the City, and holds the income thereof subject to expenditure for the purposes designated in the gift. He disposes of the balance remaining at the end of each financial year as the City Council may direct.

The City Treasurer is also County Treasurer and Treasurer of the Sinking Funds Department.

The Treasurer publishes reports yearly. Since 1882 he has published monthly statements.

VESSELS AND BALLAST DEPARTMENT.

Office, 175 Commercial street.

[R. L., Chap. 66, §§ 8–16; Rev. Ord. 1898, Chap. 41.]

Cornelius J. Donovan, *Chief Weigher.* Appointed annually.

This department is under the charge of the Weighers of Vessels and Ballast, two in number, one of whom is designated by the Mayor as chief. They receive the fees, after payment of expenses, as compensation for their services.

WEIGHTS AND MEASURES DEPARTMENT.

Office, basement of Old Court House, Court square.

[R. L., Chap. 62, § 18; Stat. 1882, Chap. 42; Rev. Ord. 1898, Chap. 43; Stat. 1909, Chap. 382.]

CHARLES B. WOOLLEY, *Sealer*. Salary, $3,000.

JOHN E. ANSELL, JEREMIAH J. CROWLEY, JAMES A. SWEENEY, CHARLES E. WALSH, FRANK L. HARNEY, LOUIS HERTGEN, BENJAMIN P. HUTCHINSON, JULIUS MEYER, CHARLES O. SIKORA, FRED A. THISSELL, *Deputy Sealers*. Salaries, $1,600 each per annum.

This department is under the charge of the Sealer. The Sealer and Deputy Sealers are appointed also to seize illegal charcoal measures. (R. L., Chap. 57, § 93.)

The standards in use are supplied by the Commonwealth and are determined by the United States Coast and Geodetic Survey, Washington, D. C. The office was authorized by the statute of February 26, 1800. Annual reports have been published since 1868. By Chapter 382, Acts of 1909, all principal and assistant sealers are included within the classified civil service.

WIRE DEPARTMENT.

Office, 11 Wareham street.

[Stat. 1890, Chap. 404; Stat. 1894, Chap. 454; Stat. 1895, Chap. 228; Stat. 1898, Chap. 249; Stat. 1898, Chap. 268; Rev. Ord. 1898, Chap. 44; Stat. 1908, Chaps. 339 and 347; C. C., Title IV., Chap. 31.]

JAMES E. COLE, *Commissioner of Wires*. Term ends in 1912. Salary, $5,000.

The office of Commissioner of Wires was established in 1894, in accordance with Chapter 454 of the Acts of that year.

The department has issued annual reports, beginning February 1, 1895.

Under the statute of 1894, it was made the duty of the Commissioner of Wires to have all unexempted electric wires, cables and conductors in the City north of Dover and Berkeley streets, and between the Charles river, the Harbor and Fort Point channel placed underground, and to remove all unexempted poles and structures in the streets within the said district before January 1, 1900.

He was authorized to supervise and inspect both underground and overhead wires, cables and conductors; to regulate the direction of such wires, cables and conductors, and see that they were sufficiently insulated; to secure the removal of dead or abandoned wires, and the protection of all buildings by proper safety devices; to inspect all wires carrying electric light, heating or power current within buildings, and to see that all wires, posts, machinery and appliances are kept in good order and condition.

Chapter 249 of the Acts of 1898 provides that in each of the years 1900–1909, inclusive, the Commissioner of Wires shall prescribe the limits of a district within which, for not more than two miles of streets, avenues, or highways, certain wires, cables and conductors shall be removed or placed underground during the calendar year.

In accordance with Chapter 347 of the Acts of 1908, the Commissioner is authorized, in 1910, and in each year thereafter, to and including the year 1919, to prescribe not more than two miles of streets, etc., within which all wires, cables and conductors shall be put underground. Under Section 2 of the same Act, the Commissioner is authorized to grant such terminal pole locations as may be in his judgment necessary, and under Section 3 he is authorized to make such rules and regulations relating to the insulation of overhead and underground wires, cables and conductors and appliances as may be reasonably necessary for the purposes of safety.

The Commissioner is sole judge of what constitutes proper and safe insulation of electric conductors and appliances within buildings, and is authorized to make such rules and regulations as he may deem necessary to secure safe insulation.

According to Chapter 339, Acts of 1908, any person, firm or corporation failing to notify the Commissioner of the installing of wiring or apparatus for electric light, heat or power purposes shall be subject to a fine of not less than ten nor more than fifty dollars for each offence.

OTHER PUBLIC OFFICERS.

OFFICIALS.

THOMAS ALLEN, *Chairman.*
JOHN T. COOLIDGE, JR., *Secretary.*

COMMISSIONERS. *

ALEXANDER WADSWORTH LONGFELLOW, named by the Boston Society of Architects. Term ends in 1915.

CHARLES D. MAGINNIS, named by the Massachusetts Institute of Technology. Term ends in 1914.

THOMAS ALLEN, named by Trustees of Museum of Fine Arts. Term ends in 1913.

ARTHUR F. ESTABROOK, named by the Boston Art Club. Term ends in 1912.

JOHN TEMPLEMAN COOLIDGE, JR., named by the Trustees of the Public Library. Term ends in 1911.

The Art Department was established by Chapter 410 of the Acts of the Legislature of 1898. It is in charge of five commissioners, who are appointed by the Mayor. Each of the following-named bodies, namely, the Trustees of the Museum of Fine Arts, the Trustees of the Boston Public Library, the Trustees of the Massachusetts Institute of Technology, the Boston Art Club, and the Boston Society of Architects, submits a list of three persons to the Mayor; and the Mayor appoints one person as Art Commissioner from each of the lists so submitted. Whenever the term of a member of the Board expires, the Mayor appoints his successor from a list selected by the body which made the original selection, as aforesaid. The Board may appoint a secretary outside of its own membership, who serves without compensation.

No work of art can become the property of the City without the approval of the Art Department, which may also be requested by the Mayor or the City Council to pass upon the design of any municipal building, bridge, approach, lamp, ornamental gate or fence, or other structure to

WILLIAM D. AUSTIN, *Secretary.*
EDWARD H. ELDREDGE. Term ends in 1915.
DENNIS J. SULLIVAN. Term ends in 1914.
WILLIAM D. AUSTIN. Term ends in 1913.
JAMES R. MURPHY. Term ends in 1912.
NEIL MCNEIL. Term ends in 1911.

The Board consists of five members appointed by the Mayor in the following manner: One member from two candidates, one to be nominated by the Real Estate Exchange and Auction Board, and one by the Massachusetts Real Estate Exchange; one member from two candidates, one to be nominated by the Boston Society of Architects and one by the Boston Society of Civil Engineers; one member from two candidates, one to be nominated by the Master Builders' Association and one by the Contractors and Builders' Association; one member from two candidates to be nominated by the Building Trades Council of the Boston Central Labor Union; and one member selected by the Mayor. The term of office is five years. Each member is paid ten dollars per day for actual service, but not more than one thousand dollars in any one year.

Any applicant for a permit from the Building Commissioner whose application has been refused may appeal therefrom within ninety days, and a person who has been ordered by the Commissioner to incur any expense may, within ten days after receiving such order, appeal to the Board of Appeal by giving notice in writing to the Commissioner. All cases of appeal are referred to this Board, which may, after a hearing, direct the Commissioner to issue his permit under such conditions, if any, as the Board may require, or to withhold the same. Any citizen of Boston may obtain the opinion of the Board as to the true construction of the language under which a decision of the Commissioner has been rendered. Permits to restore damage by fire can only be issued with the approval of the Board.

The Board may vary the provisions of the statute of 1907 in specific cases which appear to them not to have been contemplated thereby, or

in cases where manifest injustice is done, but such decisions must be unanimous and not in conflict with the spirit of any provision of the statute.

Appeal may also be made to this Board from certain requirements of the Commissioner of Wires. (See Statutes 1907, Chap. 550, § 7.)

BOSTON AND CAMBRIDGE BRIDGES.

[Stat. 1870, Chaps. 300, 302; Stat. 1898, Chap. 467, § 14; Ord. 1906, Chap. 1; C. C., Chap. 35, §§ 2, 4, and 5.]

FREDERIC H. FAY, *Commissioner for Boston.*
FRANCIS J. SMITH, *Commissioner for Cambridge.*

This Commission was established by statute in 1870, to have charge of the maintenance of the West Boston, Canal or Craigie's, and the Prison Point bridges. (Statutes of 1870, Chaps. 300, 302.) In 1892 the Harvard bridge was placed in their charge. (Statutes of 1882, Chap. 155.) The powers of the Commission were greatly enlarged by Statutes of 1898, Chapter 467, Section 14. This Act places all bridges and draws between the two cities in their charge, to support, manage and keep in repair, and to authorize exclusively the placing of poles, wires and other structures upon them. The expense of maintenance is borne equally by the City of Boston and the City of Cambridge. The two Commissioners are appointed by the Mayors of Boston and Cambridge respectively. The Commissioner for Boston, who serves without pay, is the Division Engineer of the Bridge and Ferry Division of the Public Works Department.

CHARLES P. CURTIS. Term expires in 1913.
FRANCIS N. BALCH. Term expires in 1912.
JOHN F. MOORS. Term expires in 1911.

The Finance Commission is constituted under the Amended Charter. (Chapter 486, Acts of 1909.) It consists of five commissioners appointed by the Governor and confirmed by the Executive Council. The chairman of the Commission is named by the Governor. The members of the Commission, other than the chairman, serve without pay.

It is the duty of the Commission to investigate, at its discretion, all matters relating to appropriations, loans, expenditures, accounts and methods of administration affecting the City of Boston or the County of Suffolk, or any of their departments, and to report upon its investigations from time to time to the Mayor, the City Council, the Governor, or the General Court.

The Commission is required to make an annual report, in January, to the General Court. It is also the duty of the Commission to report to the Mayor, the City Auditor or the City Treasurer as to the validity or proper amount of any doubtful pay-roll, bill or claim referred to it by them.

The Commission has all the powers and duties conferred by Chapter 562, Acts of 1908, upon the former Finance Commission, including the power to summon witnesses and secure papers. The term of the former Finance Commission, which expired by limitation on December 31, 1908, was extended till February 1, 1909. The present Commission qualified on June 24, 1909.

GUY C. EMERSON, *Consulting Engineer*. Salary, $5,000.

This bureau was established by the Finance Commission in June, 1910, at the request of the City Council. Its duties consist in assisting the Finance Commission in devising improved methods in the municipal departments whereby to increase efficiency and avoid waste.

BOSTON TRANSIT COMMISSION.

Office, 15 Beacon street.

[Stat. 1894, Chap. 548; Stat. 1899, Chap. 375; Stat. 1902, Chap. 534; Stat. 1906, Chap. 213; Stat. 1909, Chap. 455.]

OFFICIALS.

GEORGE G. CROCKER, *Chairman*.
B. LEIGHTON BEAL, *Secretary*. Salary, $3,500.
E. S. DAVIS, *Chief Engineer*. Salary, $6,000.

COMMISSIONERS.

GEORGE G. CROCKER, HORACE G. ALLEN. Appointed by the Governor.
GEORGE F. SWAIN, JOSIAH QUINCY, JAMES B. NOYES. Appointed by the Mayor. Salary, $5,000 each.

The Commissioners were originally appointed for the term of five years from the first of July, 1894. By Stat. 1899, Chap. 375, the term was extended to July 1, 1902. By Stat. 1902, Chap. 534, accepted by the voters of Boston at the Municipal Election of 1902, the term of the Commission was further extended to July 1, 1906. By Stat. 1906, Chap. 213, the term of the Commission was further extended to July 1, 1909, and by Stat. 1909, Chap. 455, to July 1, 1911.

The Commission had charge of the construction of the Tremont street subway (costing $4,368,000, including alterations), of the Charlestown bridge (costing $1,570,198), of the tunnel to East Boston (costing about $3,300,000), and the Washington street tunnel. This two-track tunnel, which is used for elevated railway trains exclusively, was opened for traffic on November 30, 1908. It is 1.16 miles long and cost about $8,500,000, of which the land damages amounted to $2,850,000.

By Chapter 573, Acts of 1907, the Commission is further charged with the construction of an east and west subway, called the Riverbank subway, mainly under the Charles river embankment. The work of construction on the latter has been deferred pending action by the Legislature on the proposed substitute, viz., a subway under Boylston street. The Commission began constructing in September, 1909, under the provisions of Chapter 520, Acts of 1906, a tunnel under Beacon Hill from the new Cambridge bridge to the Park street station of the Tremont street subway, as a connection with the Cambridge subway built by the Boston Elevated Railway.

CAMBRIDGE BRIDGE COMMISSION.

Stat. 1897, Chap. 500, § 15; Stat. 1898, Chap. 467; Stat. 1899, Chap. 180; Stat. 1904, Chaps. 391 and 412.]

CAMBRIDGE BRIDGE COMMISSION.

JOHN F. FITZGERALD, *Chairman.*
J. EDWARD BARRY, *Secretary.*

COMMISSIONERS.*

JOHN F. FITZGERALD, Mayor of Boston (*ex officio*).
J. EDWARD BARRY, Mayor of Cambridge (*ex officio*).
E. D. LEAVITT.

The Commission had charge of the construction of the steel and masonry bridge across the Charles river, known as the Cambridge bridge, from Cambridge street in Boston to Main street in Cambridge. The

* The Commissioners serve without compensation.

cost of the bridge is apportioned among three parties. The Boston Elevated Railway Company pays such portion as shall be rendered necessary by reason of the bridge being of additional size and strength for the use of the elevated railroad, and shall construct or pay for constructing its railway, both elevated and surface, across the bridge. The balance of the cost is payable one-half by the City of Boston and one-half by the City of Cambridge. This bridge was opened to the public and placed in charge of the Boston and Cambridge Bridge Commissioners in December, 1907. The surface railway is now in operation, but the construction necessary for elevated railway service is not completed.

The Commission also had charge of the construction of the high-level bridge, known as the "Brookline street bridge," over the tracks of the Boston & Albany railroad and across the Charles river, between Essex street, Boston and Brookline street, Cambridge, which was completed in 1907, and will supervise the rebuilding of the bridge across Charles river, between North Harvard street, Boston, and Boylston street, Cambridge, to be known as "Soldiers' Field bridge," and to be built with or without a draw, as the Commission may determine.

THE BOARD.

FRED A. EMERY. Term ends in 1916. Salary, $3,500.
SAMUEL H. HUDSON. Term ends in 1914. Salary, $3,500.
EZRA H. BAKER. Term ends in 1912. Salary, $4,000.

The Licensing Board for the City of Boston was established by Chapter 291 of the Acts of 1906. It consists of three members, appointed by the Governor, with the advice and consent of the Council. The members must be citizens of Boston who have resided in the City for at least two years preceding the date of their appointment. The two principal political parties must be represented and the term of the members is fixed at six years; after the first appointments, one member retiring every two years. The Board was created to exercise all the powers and perform all the duties conferred or imposed upon the Board of Police of the City of Boston by Sections 10 to 90 (both inclusive) of Chapter 100 of the Revised Laws and Amendments thereof, relative to intoxicating liquors; and by Chapter 102 of the Revised Laws and Amendments thereof, relative to innholders and common victuallers. Chapter 423, Acts of 1909, relates to licensing the sale of ice cream, fruit, soda water and confectionery on Sunday.

The Board also exercises all the powers and performs all the duties previously conferred or imposed by law on the Board of Police relative to the licensing of picnic groves, skating rinks, intelligence offices, billiard tables and bowling alleys.

* The Managers serve without compensation.

The Franklin Foundation is incorporated under Chapter 569 of the Acts of 1908, and has sole charge of the Franklin Union, as well as the management of the Franklin Fund.

The Franklin Fund is the proceeds of a bequest of one thousand pounds to "the Inhabitants of the Town of Boston in Massachusetts" made by Benjamin Franklin, in a codicil to his will dated June 23, 1789. The codicil provided that the fund "if accepted by the inhabitants of the Town of Boston" be managed "under the direction of the Selectmen, united with the Minister of the oldest Episcopalian, Congregational, and Presbyterian Churches in that Town," who were to make loans on certain conditions to "young married artificers under the age of twenty-five years."

Dr. Franklin, who died April 17, 1790, calculated that, in one hundred years, the thousand pounds would grow to £131,000, "of which," he says, "I would have the managers then lay out at their discretion £100,000 in Public Works which may be judged of most general utility to the Inhabitants. The remaining £31,000, I would have continued to be let out on interest for another hundred years. At the end of this second term, if no unfortunate accident has prevented the operation, the sum will be £4,061,000, of which I leave £1,061,000 to the Town of Boston, and £3,000,000 to the disposition of the Government of the State, not presuming to carry my views farther." The Town accepted the donation at a Town Meeting held June 1, 1790.

A futile suit brought by the Franklin heirs in 1891 prevented the division of the fund at the expiration of one hundred years; but on January 17, 1894, by direction of the three Ministers and the Board of Aldermen of the City, which board claimed to be the successors of the "Selectmen," $329,300.48 ($\frac{100}{131}$ of the fund) was paid to the City Treasurer, for "the purchase of land and the erection thereon of the Franklin Trades School and for the equipment of the same." Owing to a series of complications the money has remained in the custody of the Treasurer. Mayor Collins, in 1902, caused a petition of the City to be filed in the Supreme Court, praying for instructions as to the authority of the persons then acting as Managers of the fund. The Court rendered an opinion November 25, 1903 (184 Mass. 373, page 43), to the effect that the three ministers were Managers of the fund under Franklin's will, but that the Aldermen did not succeed the "Selectmen" as Managers and had no powers with reference to it. The Court, under its general power to care for public charitable funds, appointed, on March 16, 1904, the above Managers to take the place of the "Selectmen," and provided in the decree of the Court that the Mayor of Boston should be one, *ex officio*. On October 20, 1904, the City Treasurer, *ex officio*, was appointed by the Board of Managers as treasurer of the fund.

On December 2, 1905, the City Treasurer received from Mr. Andrew Carnegie $408,396.48, said sum being the amount of the Franklin Fund, August, 1904, which Mr. Carnegie agreed to duplicate.

On January 31, 1906, the amount available for expenditure by the Managers was $426,824.78. The Franklin Fund which, with its accumulations, will become available in 1991, amounted, on January 31, 1911, to $200,628.78.

The Franklin Trades School, or Franklin Union as it is now called, occupies its new building at the corner of Appleton and Berkeley streets, which was opened in September, 1908. The building contains 24 classrooms and 6 draughting-rooms, and accommodates about 1,700 students. There is also a technical and scientific library, and a large hall with a seating capacity of 1,000 for lectures, concerts, discussions and similar purposes. The building with equipment cost about $366,000. The site was purchased in 1906 for $100,000.

MEDICAL EXAMINERS.

[R. L., Chap. 24.]

The City is divided into two districts by a line running from the Essex street bridge, through Brighton avenue, to Beacon street; thence through Beacon street to Park street; thence through Park, Tremont, Winter and Summer streets, to the water. [See Proceedings of the Board of Aldermen, September 5, 1881.]

Medical Examiners.— Timothy Leary, M.D., Tufts College Medical School, 416 Huntington avenue. Term ends in 1912. George B. Magrath, M.D., 274 Boylston street. Term ends in 1914. Salary of each is $4,000.

Associate Medical Examiner.— William H. Watters, M.D., 80 East Concord street. Salary, $666. Term ends in 1915.

All are appointed by the Governor.

OLD SOUTH ASSOCIATION IN BOSTON.

[Stat. 1877, Chap. 222, §§ 1, 2.]

The Mayor, *ex officio*, Councillors WALTER L. COLLINS and WALTER BALLANTYNE, Managers on the part of the City of Boston.

The association is managed by a Board of Managers, consisting of fifteen, of whom the Mayor of the City of Boston is one, *ex officio*, two are elected annually by the City Council for the municipal year, and the others are chosen as provided by Chapter 222 of the Acts of 1877.

PILOT COMMISSIONERS.

Office, 716 Chamber of Commerce.

[R. L., Chap. 67, §§ 1–6.]

COMMISSIONERS.

JOHN C. ROSS. Term ends in 1913.
FRANK L. OAKES. Term ends in 1911.
EDMUND S. MANSON, *Secretary.*

Two Commissioners of Pilots for the harbor of Boston, having the recommendation of the trustees of the Boston Marine Society, are appointed by the Governor for the term of three years. They appoint a secretary. The Commissioners grant commissions as pilots for Boston Harbor to such persons, approved by the trustees of the Boston Marine Society, as they consider competent, and cause the laws of pilotage to be observed. The compensation of the Commissioners and their allowance for office rent, clerk hire, etc., is fixed by the trustees of the Boston Marine Society, and is paid from the amounts received from pilotage returned by the pilots. Any surplus therefrom is paid to the Boston Marine Society.

STEPHEN O'MEARA,* *Police Commissioner.* Salary, $6,000.
LEO A. ROGERS,† *Secretary.* Salary, $3,000.
Captain THOMAS RYAN, *Chief Clerk.* Salary, $2,500.

The Board of Police for the City of Boston was established by Chapter 323 of the Acts of 1885, and was composed of three citizens of Boston, appointed for five years from the two principal political parties by the Governor, with the advice and consent of the Executive Council. The Board assumed office on July 23, 1885. By Chapter 291 of the Acts of 1906, the department was placed in charge of a single head, to be known as the Police Commissioner.

The powers of the Board of Police, except those relating to the granting of intelligence office, billiard and pool, common victualers' and liquor licenses, which were transferred to the newly created Licensing Board, devolve upon the Police Commissioner. The Police Commissioner assumed office June 4, 1906.

The City is divided into sixteen Police Districts, in each of which is a station-house, the headquarters of a captain and force of men. The

Commissioner appoints a Harbor Master and assistants from the police force, and they receive pay in accordance with their rank in the force. The police steamer "Guardian" and the steam launches "Ferret" and "Watchman" are employed in this service.

By Chapter 279 of the Acts of 1903, as amended by Chapter 440 of the Acts of 1909, the Board of Police were required to ascertain, within the first seven days of April in each year, the number of polls for assessment in the City of Boston and also to make lists of the women voters in the city.

LISTING BOARD.

STEPHEN O'MEARA.
JOHN M. MINTON.
Captain THOMAS RYAN, *Secretary.*

By Chapter 291 of the Acts of 1906, the powers and duties of the Board of Police relative to the listing and registration of voters were transferred to a Listing Board, to be composed of the Police Commissioner and one member of the Board of Election Commissioners to be annually appointed by the Mayor of Boston. Such member must belong to that one of the two leading parties of which the Police Commissioner is not a member. In case of disagreement the Chief Justice of the Municipal Court becomes a member for the purpose of settling such disagreement.

By Chapter 440, Acts of 1909, the time for the police listing was changed to the first week of April.

TERMS, HOLIDAYS AND VACATIONS OF DAY SCHOOLS.

The school year begins on the first day of September in each calendar year and closes on August 31 of the following calendar year.

All day schools are in session from the second Wednesday in September up to and including the Wednesday of the second calendar week preceding the Fourth of July, except on Saturdays and Sundays and the following vacations and holidays; Columbus Day (October 12); from 12 o'clock noon on the day before Thanksgiving Day until the following Monday; from 12 o'clock noon on the second calendar day immediately preceding Christmas Day to and including the first day of the following

January; the Twenty-second of February; Good Friday; the week beginning with the first Monday in April; the Nineteenth of April; Memorial Day and the Seventeenth of June. Whenever any of the aforesaid holidays, except the first day of January, falls upon Sunday, the schools are not in session on the following Monday. Graduating exercises are held during the second calendar week preceding the Fourth of July.

MEDICAL INSPECTORS AND NURSES.

Regular medical inspection of the schools has been maintained since 1894, and there are now eighty physicians in the service, under the supervision of the Health Department. For the list of the Medical Inspectors of Schools, see that department.

Chapter 357, Acts of 1907, provided for the appointment by the School Committee of one supervising female nurse and so many district female nurses as are deemed necessary. Their duties are to assist the medical inspectors in carrying out the latters' directions, and to give such instruction to the pupils as will promote their physical welfare. For the sixty-five elementary school districts there are now thirty-four nurses in the service, besides the supervising nurse.

MANUAL TRAINING ROOMS.

There are five manual training rooms located in high schools, one in each of the following-named districts: Brighton, Charlestown, Dorchester, East Boston and South Boston. In addition to these there are fifty-five wood-working rooms located in elementary schools, and three rooms, one in Jamaica Plain, one in Allston, and another in the City Proper, have been equipped for industrial classes. An industrial class in the Eliot District utilizes a private school workroom.

In the old East Boston High School Building, East Boston, two rooms have been equipped for occupancy by the Pre-Apprentice School in Printing and Bookbinding.

SCHOOL KITCHENS.

There are forty-eight rooms fitted as kitchens and used for the purposes of instruction in cookery, of which five * are in East Boston, three in Charlestown, ten in Boston proper, four in South Boston, six in Roxbury, ten in Dorchester, four in Jamaica Plain, three † in Allston, one in Brighton, one in Roslindale, and one in West Roxbury.

EVENING SCHOOLS.

The term of the evening schools begins on the first Monday in October and continues for twenty-two school weeks. Sessions are suspended on the evenings of legal holidays, on the Friday following Thanksgiving, and from the second Friday preceding Christmas Day to and including

† Including kitchen of industrial class, Washington Allston District.

the first day of the following January; but when the first day of January falls later than Tuesday of any week, the sessions are suspended on the remaining days of that week.

There are five Evening High Schools, viz.: Central (English High School), Charlestown, East Boston, Roxbury and South Boston. These schools are held in the several high school-houses of the districts named.

There are thirteen elementary evening schools, held in the following-named school buildings:

Bigelow School, Fourth and E streets, South Boston; Bowdoin School, Myrtle street; Comins School, Terrace and Tremont streets, Roxbury; Eliot School, North Bennet street; Franklin School, Waltham street; Frederic W. Lincoln School, Broadway, South Boston; Hancock School, Parmenter street; Lyman School, Paris and Gove streets, East Boston; Phillips Brooks School, Quincy and Fayston streets, Dorchester; Quincy School, Tyler street; Warren School, Pearl and Summer streets, Charlestown; Washington Allston School, Cambridge street, Allston; Wells School, Blossom street.

CENTRAL EVENING INDUSTRIAL SCHOOL AND BRANCHES.

The term of the central evening industrial school begins on the first Monday in October, and continues for twenty-two school weeks. The sessions are held on Monday, Wednesday and Friday evenings during the weeks that the other evening schools are in session.

The school is conducted in the Mechanic Arts High Schoolhouse, at the corner of Belvidere and Dalton streets, and the three branches are located as follows: In the Old High Schoolhouse, Meridian street, East Boston; in the Old Dearborn Schoolhouse, Dearborn place, Roxbury, and in the English High Schoolhouse, Montgomery street.

CONTINUATION SCHOOL.

Shoe and Leather Class, sessions Tuesdays and Thursdays, 3.30 to 5.30 p. m. Dry Goods Class, sessions Mondays and Fridays, 3.30 to 5.30 p. m. Preparatory Salesmanship Classes, Tuesdays, Wednesdays, Thursdays and Fridays, 8.30 to 11 a. m. and 3 to 5.30 p. m. Length of term of these classes has ordinarily been fifteen weeks but certain of them have been extended to thirty weeks. Location, 48 Boylston street.

PENSION FUNDS FOR TEACHERS.

As provided by Chapter 589, Acts of 1908, Chapter 537, Acts of 1909, and Chapter 617, Acts of 1910, a permanent fund has been established by the School Committee for the payment of pensions to retired teachers of the public day schools. The care of said fund is vested in a board of three trustees, who serve without compensation. A teacher who has reached the age of sixty-five years, or who has served in the public day schools for thirty years, twenty of these in the schools of Boston, is entitled to the full pension. Smaller pensions are paid in proportion to length of service.

No prospective beneficiary has to contribute to the fund. Entirely separate from this is the Teachers' Retirement Fund, established by Chapter 237, Acts of 1900. On January 31, 1911, 2,465 teachers were contributing thereto at the rate of $18 per year, and 201 annuitants were each receiving the uniform annuity of $180 per year.

All teachers entering the service subsequent to the passage of said Act become thereby members of the retirement fund association and three dollars ($3) is deducted from their salary every alternate month and set aside and placed in this fund. For all teachers who were in the service prior to the adoption of the act, membership in the association is optional.

In addition to the regular Teachers' Retirement Fund, there is the Teachers' Mutual Benefit Association, which comprises teachers in the permanent employment of the City. They may be admitted to this association by a two-thirds vote of the Board of Trustees, by ballot, and upon the payment of the initiation fee of three dollars ($3) and assessments. This is a mutual organization of teachers by which a teacher pays into the treasury one per cent of her annual salary and receives, upon becoming an annuitant, such annuities as the association is able to pay. The association has a fund of about $120,000 and the income from this and the receipts from assessments are divided among the annuitants each year. The association also controls a private fund of $8,000.

SUFFOLK COUNTY COURT HOUSE COMMISSIONERS.

[Stat. 1906, Chap. 534.]

COMMISSIONERS.

James R. Dunbar, *Chairman.* Appointed by the Chief Justices.
Joseph J. Corbett. Appointed by the Mayor of Boston.
William H. Wellington. Appointed by the Governor.

Chapter 534 of the Acts of 1906 and acts supplementary thereto provides for the enlargement of the Suffolk County Court House, under direction of a commission of three, one to be appointed by the Mayor of Boston, one by the Governor, and one by the Chief Justices of the Supreme Judicial Court, the Superior Court, and the Municipal Court of Boston, or a majority of them. The compensation of the Commissioners shall be such as the Governor and Council may determine. The Commissioners, on behalf of the Commonwealth, may contract for the constructing and furnishing of the necessary enlargement of the building; but no such contract shall be entered into without the approval of the Governor, the Chief Justice of the Supreme Judicial Court and the Mayor of Boston, or a majority of them. The total expense shall not exceed $935,000, of which the City of Boston is to pay two-thirds.

Two additional stories are now nearing completion and should soon be ready for occupancy.

WORKINGMEN'S LOAN ASSOCIATION.

[Stat. 1888, Chap. 108, § 4.]

The Workingmen's Loan Association is managed by sixteen directors, selected annually, fourteen chosen by corporators at the annual meeting on the third Thursday in April, one appointed by the Governor, and one appointed by the Mayor.

GEORGE E. CURRAN, *Director.* Appointed by the Mayor. Term ends in 1912.

CHATTEL LOAN COMPANY.

[Stat. 1907, Chap. 415; Stat. 1908, Chap. 236.]

The board of directors of the Chattel Loan Company must include one member who is appointed by the Governor, and one member who is appointed by the Mayor, both annually.

JOHN D. MARKS, *Director.* Appointed by the Mayor. Term ends in 1912.

CITY ORDINANCES OF 1910, CHAPTERS 8–12.*

CHAPTER 8.*

CONCERNING PASSAGEWAY UNDER CAMBRIDGE BRIDGE.

Section 1 of chapter 28 of the Revised Ordinances of 1898 is hereby amended so as to read as follows:

SECTION 1. The park department shall be under the charge of the board of park commissioners, consisting of three commissioners, who shall construct, improve, equip, govern and regulate the Charlesbank, including the passageway under Cambridge bridge, etc.

[*Approved November 16, 1910.*

CHAPTER 9.

ESTABLISHING A DEPARTMENT OF PUBLIC WORKS AND ABOLISHING THE ENGINEERING DEPARTMENT, THE STREET DEPARTMENT AND THE WATER DEPARTMENT.

SECTION 1. The department of public works which is hereby established shall be under the charge of the commissioner of public works, who shall be a civil engineer of recognized standing in his profession; who shall construct all streets and sewers; shall have discretionary power as to the grades, materials and other particulars of construction of streets, sidewalks and sewers; shall have charge of and keep clean and in good condition and repair the streets, all sewer systems under the control of the city and the catch-basins in the streets connected with the sewers; shall keep the streets properly watered; shall remove from yards and areas, when so placed as to be easily removed, all ashes accumulated from the burning of materials for heating habitations, cooking and other domestic purposes, house dirt, house offal, and all noxious and refuse substances; shall, on the fifteenth day of each month, send to the city auditor detailed bills of all material, tools and machinery furnished by either of the divisions of said department to any other such division or for any special work.

SECT. 2. Said commissioner shall have the care and management of the ferries owned by the city, shall purchase or build all boats, and make the necessary repairs and alterations on the slips, drops, buildings and boats used for ferry purposes; and shall cause all moneys received by him or his subordinates from tolls and other sources to be paid to the city collector

* For chapters 1–7 City Ordinances of 1910, see Municipal Register 1910, pp. 129–131.

on the day following the day of the receipt thereof, but may retain in the possession of the clerk to the deputy commissioner in charge of the division a sum not exceeding one thousand dollars for making change and for other purposes.

SECT. 3. Said commissioner shall have charge of all lamps established by the city council and maintained at the expense of the city, of all lamps set up in parks, parkways or public grounds, and of all lamp-posts, posts or fixtures connected with such lamps, and shall set up and affix lamps in the streets; shall have the care and custody of all city property hitherto in the possession of the street department, or that shall hereafter be acquired for the purpose of street lighting, and shall maintain and keep the same in good repair.

* SECT. 4. Said commissioner shall have the care and management of all bridges which are used as highways, and are in whole or in part under the charge of the city, and of so much of Harvard bridge and Prison Point bridge as are under the charge and control of the city; shall be the commissioner to act with another commissioner for the city of Cambridge, and as such commissioner shall have and exercise all the powers in relation to West Boston bridge and Craigie bridge conferred by chapter three hundred and two of the Acts of the year 1870; shall keep the railings and wearing surface in good order and shall remove all dirt, snow and ice from the sidewalks; shall keep all said bridges, or those parts thereof under his care, and the abutments, guards, draws and wharves thereof clean and in good condition and repair; shall appoint drawtenders for the draws in bridges of which he has the care, and see that they properly perform their duties, and may remove them for such cause as he shall deem sufficient and shall assign in his order of removal. Each drawtender so appointed shall take charge by night and by day of the draw of which he is drawtender; shall require from the person in charge of a vessel applying to pass through the draw a true statement of the name, extreme width and draught of the vessel; shall determine the order in which vessels may pass through the draw, and may direct the placing of warping lines, anchors and cables, and the use of any warping apparatus provided by the city; shall cause the draw to be opened for the passage of vessels in accordance with the regulations of the War Department approved May twelfth, 1910; shall cause the draw to be closed with all possible expedition after a vessel has passed through, not permitting more than one vessel to pass through at one opening of the draw, except that, when the draw is open and the bridge is free from persons desiring to cross, he may, in his discretion permit other vessels to pass through before causing the draw to be closed; he shall perform such additional duties as said commissioner may require.

SECT. 5. Said commissioner shall place and maintain in one or more suitable, conspicuous places, to be selected by him, on each street of the city, the name of the street and of the ward in which the street is situated, as shown by the records; shall require the number of each building on a

* Amended by chapter 11 of the Ordinances of 1910.

street which he shall designate as the street number therefor to be affixed to or inscribed on the building by the owner, and may determine the form, size and material of any such number and the place and mode of affixing or inscribing it.

SECT. 6. Said commissioner shall keep a book in which he shall record the date of every order for constructing a sewer, the name of the contractor or builder constructing it, the date of commencing and the date of completing the work, and the cost of the sewer. He shall make and deliver to the city collector all bills for assessments as they become due.

SECT. 7. Said commissioner shall keep a plan for every existing and every new sewer, showing its depth, breadth, mode of construction and general direction, and shall, from time to time, ascertain and insert on said plans all entries made into the sewers.

SECT. 8. Said commissioner shall, when about to build a new sewer or repair an old sewer, notify all abutters on that part of the line of said sewer when he proposes to do work, and afford them facilities for entering the sewer; and shall, when about to construct a new street, at least four weeks before beginning work, and, when about to make a new surface of any street, at least two weeks before beginning work, notify all departments and persons authorized to place any structure in such street, and require and see that all departments and persons having any work to be done in the streets so designated shall do all such work before the surface of such street is again prepared for and opened to public travel; and, after the completion of the work then done on such street, shall not, for the space of one year thereafter, permit any department or person to disturb the surface of such street or way within the area of such previous disturbance, except in case of obvious necessity, a record of which shall be made in a book to be kept for that purpose.

SECT. 9. Said commissioner may issue permits to persons having authority in the premises to open, occupy, obstruct and use portions of the streets, and should the portion of the street which has been so opened or used require repaving or resurfacing within a period of two years from the time it has been so used, the commissioner shall notify the person applying for the permit under authority of which the portion was so used to make such repairs as in the opinion of said commissioner are necessary, and in case of the failure of the said person to make such repairs within one week from the date of the said notification then the commissioner shall have the right to make such necessary repairs, and the expense of the same shall be paid by such person; all amounts received by the city collector for work done or materials furnished under notification of the commissioner as above authorized shall be placed to the credit and used as a part of the appropriation for the public works department. Every permit issued as aforesaid shall specify the time, place, size and use of such opening, occupation or obstruction, and the time within which the street must be put in good condition, and shall be on a condition the terms of which shall be those stated in chapter 3, section 21, of the Revised

Ordinances of 1898, and in addition that the person applying for the permit shall place and maintain from the beginning of twilight, through the whole of every night, over or near the place so occupied, opened, obstructed or used, and over or near any dirt, gravel or other material placed in or near such place, a light or lights sufficient to protect travelers from injury; shall place and maintain a safe and convenient way for the use of foot travelers and for vehicles around or over such place; shall protect such trees as shall be designated by the superintendent of public grounds in such manner as he shall specify; shall provide suitable sanitary accomodations for his employees; shall, if he does not, within the time prescribed by said commissioner, put the street into good condition satisfactory to said commissioner, pay whatever sum the said commissioner shall expend for putting it into such condition; and shall deliver up the permit to an officer of the police force of said city on or before the expiration of the time fixed in the permit for completing the work, such permit to be returned by said officer to the public works department. Said commissioner may, in addition to said specifications, specify in the permit, or after the issuing thereof, in writing, the kind of rail or fence to inclose the place, and the kind of way over or around such place, and the manner of constructing the same. If such a permit is issued to a public service corporation said commissioner shall detail an inspector to supervise said opening, occupation and use. Said inspector shall see that the backfilling is properly done and the surface repaved or resurfaced to the satisfaction of the commissioner, and a bill shall be deposited monthly with the city collector against the corporations whose work has been inspected for the wages or salaries of said inspectors. All moneys received by the city collector for such inspection as above authorized shall be placed to the credit and used as a part of the appropriation for the public works department.

SECT. 10. Said commissioner may issue such a permit to competent mechanics for the purpose of entering particular drains into public drains and sewers, on a condition the terms of which shall be those hereinbefore stated in section nine of this ordinance, and in addition that the person applying for the permit shall make connection of the said drain with the said sewer only in the manner shown on the back of said permit, and only in the presence of an inspector of the sewer division; shall have on the ground, when the inspector arrives to see the connection made, any slant, bend or curve to be used in making the connection; shall not cover up any work until inspected by one of said inspectors; shall not lay the drain in the same trench with a water pipe; shall not connect any exhaust from a steam engine, any blow-off from a steam boiler, or any other pipe for delivering steam or hot water, with the drain or sewer; shall, when he receives any pipe from the public works department in exchange for other pipe, return such other pipe to the yard of the public works department within twenty-four hours after receiving such exchange. Said commissioner shall in each drain permit specify the size, material and mode of construction of the particular drain, and the direction and grade for laying it,

but before issuing the permit for entering the drain into a particular public sewer from land upon which a sewer assessment has not been paid he shall be paid for the city an assessment of two cents per square foot for all land in the estate from which the entry is made within one hundred feet of the street or strip of land in which the sewer or particular drain is laid.

SECT. 11. Said commissioner may issue such a permit to a responsible person for the purpose of raising and lowering goods and merchandise into and from buildings, on a condition the terms of which shall be those stated in chapter 3, section 21, of the Revised Ordinances of 1898, and in addition that the person applying for the permit shall maintain, during the whole time the work is in progress, good and sufficient barriers across the sidewalk, from the wall of the building to or from which the goods or merchandise are so rasied, out to the curbstone or edge of the sidewalk, on each side of said goods or merchandise, sufficient to protect travelers from injury or danger; and that he will not encumber the sidewalk for more than fifteen minutes at a time for such work.

SECT. 12. Said commissioner shall issue such a permit to any person authorized by the street commissioners to place a coal hole, vault or coal slide under a street, or a cover thereto, on a condition the terms of which shall be those hereinbefore stated in section nine of this ordinance, and in addition that the person applying for the permit shall make the underground structure of suitable construction satisfactory to the commissioner, and shall pay such fee as may be prescribed by ordinance; shall make the opening of a coal hole or coal slide circular, and not more than eighteen inches in diameter, and furnish a cover therefor of iron, made with a rough upper surface, and with three or more iron rods or legs at least two feet in length, fitting closely to the side of the opening, and projecting downwards from the underside of the cover, and so constructed that, while the cover can be lifted perpendicularly, it cannot be tipped or easily removed from the opening.

SECT. 13. Said commissioner shall, when authorized thereto by the street commissioners, issue such a permit to a building mover actually engaged in the business, for the purpose of moving a building through the streets, on a condition the terms of which shall be those stated in section 9 of this ordinance; *provided*, that an application for such permit, describing the locations from and to which, and the route over which, the building is to be moved, the length, width and height of the building, and the principal material of its exterior and roof, and accompanied by the written consent of the building commissioner to the placing of the building on the lot proposed, shall be first made to said commissioner who shall make an examination of the premises, and report thereon to the street commissioners for their action. Whenever it appears that the moving of a building will encumber the tracks of any railroad corporation, a public hearing shall be given by the street commissioners upon the subject before such permit is authorized.

SECT. 14. Said commissioner shall, when authorized thereto by an

order of the street commissioners, issue such a permit to a responsible person, for the purpose of laying, maintaining and using wires, railway tracks or rails in the streets, or wires, pipes or conduits under the surface thereof, on a condition the terms of which shall be those stated in section nine of this ordinance, and in addition that the person applying for the permit shall, whenever requested so to do by the mayor, furnish in his conduits for wires accommodations free of charge for all wires belonging to, or to be used by, the city; shall remove the conduits and wires whenever directed, and not until directed, so to do by an order of the street commissioners approved by the mayor; and shall not disturb or interfere with any wires, pipes, or sewers lawfully laid in such street or connected therewith.

* SECT. 15. Said commissioner shall, when authorized thereto by an order of the street commissioners, issue such a permit to a responsible person for the purpose of placing and maintaining in the streets poles for the support of wires, on a condition the terms of which shall be those hereinbefore stated in section nine of this ordinance, and in addition that the person applying for the permit shall keep said poles well painted and in good condition, to the satisfaction of the commissioner; shall place the wires on said poles not less than twenty-five feet from the ground; shall keep the name of the person owning the pole distinctly painted on the crossbars used and occupied by him on the pole, and also on the pole at a point not less than six feet nor more than eight feet from the ground; shall allow the departments of the city the exclusive use of the upper crossbar and top of each pole, free of all charge, for the purpose of placing wires thereon; shall not suffer or permit any other person to place or keep wires on said poles, or upon the fixtures thereto affixed, without permission being first obtained in writing from the street commissioners; shall not remove any pole erected under this order until, and shall remove any pole when, directed by the street commissioners so to do; and that on the violation of any term of these conditions the said commissioner shall remove the poles at the expense of the person owning them.

SECT. 16. Said commissioner, before he delivers any such permit to any person for the applicant therefor, shall have received from such person a certificate that a copy of the permit, entered in a book kept for the purpose, is a correct copy of the permit he receives, and the applicant, unless an employee of the city applying for a permit for public work, shall have given a bond, in the case of permits under sections nine, ten, eleven and twelve of this ordinance, of one thousand dollars, under section thirteen of this ordinance, of three thousand dollars, and under sections fourteen and fifteen of this ordinance, of twenty thousand dollars, each bond, with one or more sureties satisfactory to said commissioner, conditioned to the faithful observance of the conditions and specifications of each and every permit thereafter issued on his application by the commissioner; and said commissioner may at any time require a new bond, which shall be considered a strengthening bond, unless the sureties on the former bond or

* Amended by chapter 11 of the Ordinances of 1910.

bonds are expressly released from their liability by vote of the city council. No bond shall be required of any person to open a public street for the purpose of planting a tree therein if said person has been duly authorized by the proper municipal authorities to plant trees in said highways.

SECT. 17. Said commissioner shall not issue any such permit to a person who has within twelve months previous to his application violated or failed to observe the conditions or specifications of any such permit; but the issuing of such permits and the opening, occupation, obstruction and the use of portions of streets, and the making and maintaining of coal holes, vaults and other permanent excavations under the surface of streets, and their covers, shall be subject to any permission, control, regulation, restriction or revocation which the street commissioners may make.

SECT. 18. Every owner of an estate hereafter maintaining any cellar, vault, coal hole or other excavation under the part of the street which is adjacent to, or a part of, his estate, shall do so only on condition that such maintenance shall be considered as an agreement on his part to hold the city harmless from any claims for damage to himself or the occupants of said estate resulting from gas, sewage or water leaking into such excavation or upon such estate; and every such owner and every person maintaining a post, pole or other structure in a street, or a wire, pipe, conduit or other structure under a street, shall do so only on the condition that such maintenance shall be considered as an agreement on his part with the city to keep the same and the covers thereof in good repair and condition at all times during his ownership, and to indemnify and save harmless the city against any and all damages, costs, expenses or compensation which it may sustain or be required to pay, by reason of such excavation or structure being under or in the street, or being out of repair during his ownership, or by reason of any cover of the same being out of repair or unfastened during his ownership.

SECT. 19. Said commissioner shall require every person who maintains an entrance on a level with, or below, or a flight of steps descending immediately from, or near, the line of the street, which is not otherwise safely guarded to the satisfaction of said commissioner, to enclose such entrance or steps with a permanent iron railing on each side, at least three feet high from the top of the sidewalk or pavement, and to provide the same with a gate opening inwardly, or two iron chains across the entrance way, one near the top and the other half way from the ground to the top of the railing, and to keep said gates or chains closed during the night, unless the entrance or steps are sufficiently lighted to prevent accident.

SECT. 20. Said commissioner shall keep a record of the notices of defects in streets sent to him, with the name of the person giving the notice and the time when given, and he shall without delay cause the locality of the alleged defect to be examined, and, if the defect is of such a character as to endanger the safety of public travel, shall do whatever may be necessary to protect the public from injury by the defect, and cause it to be immediately repaired.

SECT. 21. Said commissioner shall in his annual report include a statement of the repairs and expenditures on each street and on each bridge under his charge; of the number of times each draw of a bridge has been opened for the passage of vessels; of the number of vessels laden with cargo that have passed through each draw; of the condition of each ferry-boat, slip, drop, tank and building used for ferry purposes, and of the repairs and expenditures on each; and of the number of persons and teams of different classes that have passed over each ferry during the year.

SECT. 22. The commissioner shall have the care and control of all property acquired or held by the city for the purposes of its water supply; shall maintain the same in good order and condition; shall use and operate the same, and furnish all supplies required therefor; shall take all measures necessary to protect and preserve the purity of the water; shall purchase, lay, maintain and test all meters, pipes and other fixtures and appliances necessary for supplying water for the inhabitants of the city, including the placing of drinking fountains and supplying the same with cold water; shall, as often at least as once in each year, cause the premises of every person who takes water to be visited, and the water fixtures therein to be examined by a skilled inspector; shall shut the water off from, and let it on to, any particular service when notified by the city collector that the water rate therefor has not, or has, been paid, and at such other times, as he deems it necessary; shall exercise a constant supervision over the use of water, and, with the approval of the mayor, shall, from time to time, determine and establish the rates for the use of water.

SECT. 23. Said commissioner shall make contracts, issue bills for the use of water, and send the bills to the city collector; shall make abatements of charges for water where improperly assessed; shall provide that all bills for water by annual rates shall be due in advance on the first day of January of each year, and be paid within sixty days thereafter; that all bills for fractional parts of a year, or for specific supplies, shall be due when the water is let on or delivered, and be paid within ten days thereafter; that all bills for water furnished and measured by meter shall never be less than eight (8) dollars per year, shall be due on the first day of January, April, July and October, and shall be paid within ten days thereafter; shall, if the water is paid for by annual rates and two or more dwelling houses are valued together for the assessment of taxes, make separate valuations of each; and shall, when a portion only of an estate is chargeable for the water, make a separate valuation of such portion, and on such valuations the amounts to be paid, if based on values, shall be assessed.

SECT. 24. Said commissioner shall designate one of his subordinates to be the head of the water income division, who shall receive all moneys deposited on account of main, service, fire, elevator, motor and other pipes and the laying thereof, and for repair work; who shall give a receipt in behalf of the city therefor; and who shall pay, from the moneys so received, the amount found by him to be due the person paying any such money, as excess over the amount due the city, and, on or before the fifth

day of every month, pay over the moneys in his possession due the city, and account for all moneys so received by him since the last accounting, as provided in chapter three, section eighteen, of the Revised Ordinances of 1898.

SECT. 25. Said commissioner shall, from time to time, as he deems necessary, apply, remove and test water meters and maintain the same in good condition; shall record, in a book kept for the purpose, a statement of the style, size, number of each meter, date when purchased, location, date when set, reading at such date, date when taken out, the reason therefor, the reading at such date, a detailed statement of test and percentage of errors shown, and the reading and date when reset; also a description of all defects and repairs of such meters.

* SECT. 26. Said commissioner, whenever the water has been shut off from any premises because the bill for water has not been paid, and there is a change in the occupancy of said premises, may let the water on again without waiting for the payment of the amount due from any former occupant. In case of contracts for specific supplies he shall shut the water off as soon as the contract has been carried out; the foregoing provisions shall apply when two or more parties take water from the same service pipe, although one or more may have paid the amount due from him or them.

SECT. 27. Said commissioner shall keep suitable books, in which shall be entered the names of all persons who take water, the kind of building in which it is taken, the name of the street, and the number thereon, the nature of the use, the number of taps, and the rate assessed.

SECT. 28. Said commissioner shall, in his annual report, include a statement of the number of water takers and the purposes for which the water is taken, the number and kind of meters applied during the previous municipal year, the number and kind of meters in use, the number of cases where the water has been shut off and the number and amount of abatements which have been made during the preceding municipal year.

SECT. 29. Said commissioner shall cause the following regulations to be printed on every bill for water, which shall constitute a part of the contract with every taker of water furnished by the city.

Regulations.

1. Every water taker shall pay the rates for water furnished on his application within the time and at the place specified in the bills therefor; shall, at his own expense, keep the service pipes within his premises, including any area or vault beneath the sidewalk, in good order and repair and protected from frost; shall not allow the water to leak away or run to waste; shall not — unless he pays the rates established therefor, or takes water by meter rates — use water from a hose; shall not use water from a hose in any case, except during such days and hours and in

* Amended by chapter 12 of the Ordinances of 1910.

such manner as the commissioner of public works may from time to time specify; shall not make any change in the pipes or water fixtures under the street or within his premises, unless such change is approved by the said commissioner; shall not conceal the purpose for which the water is used; shall allow the said commissioner and persons authorized by him to enter the premises supplied with water, examine the fixtures, and ascertain the quantity of water used, the manner of use, and whether there is unnecessary waste; and shall indemnify the city for all damages it may sustain or be required to pay in consequence of any injury resulting from any violation of these regulations by the water taker.

2. Every water taker must stop the use of water for any purpose when required to do so by the commissioner of public works and must guard against collapse of a boiler and other injuries liable to result from want of water, as the water is liable to be shut off at any time without notice.

3. No water taker shall, except in accordance with a written permit from the commissioner of public works, or in case of fire in the neighborhood, allow water to be taken from his premises or use water for any purpose other than those for which he pays, or open any hydrant attached to the water pipes of the city.

4. No water taker shall demand or be entitled to any abatement of his water rates for any year on account of the premises being vacated, unless they are vacated before the first day of January, and notice thereof is given to the commissioner of public works before the first day of February of such year; nor shall any water taker demand or be entitled to any abatement of rates, compensation, or damage on account of the shutting off, or the stopping of the use, of water for any cause.

5. The commissioner of public works shall equip with water meters all new services installed, and shall also, in accordance with the provisions of chapter five hundred twenty-four of the Acts of 1907, as amended by chapter one hundred seventy-seven of the Acts of 1909, annually equip with water meters at least five per cent of the water services which were unmetered on December thirty-first, 1907; shall, if a water taker refuses to allow a water meter to be placed on his premises, cause the water to be shut off from the same; may, without notice, cause the water to be shut off from any premises, or require the use of water for any purpose designated by him to be stopped; and may, if any water taker, whether supplied through an independent service pipe or a service pipe used in common with another, violates any of these regulations, cause the water to be shut off from all premises supplied by such pipe until satisfied that the regulations will be observed and all amounts due for water have been paid to the city collector, together with such further sum, not exceeding ten dollars, as said collector may require.

Sect. 30. Said commissioner shall have full charge of all engineering work of every nature and description upon and connected with all public works, unless otherwise provided for by statute, and of the laying out and construction of all public improvements except the laying out, locating

anew, altering, widening and discontinuing of highways; and shall make such surveys, plans, estimates, statements, descriptions and specifications as are required or requested for the carrying out of any public work by any official or board in charge of any department of the city in the discharge of the duties of such department, or by the mayor, city council or any committee thereof.

SECT. 31. Said commissioner shall by himself or by his duly authorized agents inspect and measure all public work done under his direction by any department by contract or otherwise, and the city auditor, in case any bill or estimate for such work is presented to said city auditor for allowance, may require from said commissioner a certificate of such bill or estimate stating if the materials have been furnished or the work done in accordance with proper engineering standards, or in accordance with the terms of the contract for said work.

SECT. 32. Said commissioner shall have authority to order any public work, whether done by a department or under contract or otherwise, to be discontinued, reconstructed or removed, whenever in his opinion said work fails in any manner to comply with or fulfill the terms, conditions, specifications and requirements of any such contract or agreement, or fails in his opinion to conform with proper engineering standards.

SECT. 33. Any expense incurred by said commissioner in carrying out any of the provisions of this ordinance except as provided for by the appropriation for the department of public works shall be charged to the several appropriations under which the works are authorized or paid for, upon requisition of the said commissioner.

SECT. 34. Section five of chapter three of the Revised Ordinances of 1898 is hereby amended by striking out the following words: "the city engineer, six thousand dollars; the water commissioner, five thousand dollars; the superintendent of streets, seven thousand five hundred dollars"; and by inserting the words, "the commissioner of public works, nine thousand dollars, he to receive no other fees or emoluments."

SECT. 35. The commissioner may create such divisions of the department as he may find necessary for the proper conduct of the department. Each division of the department created or changed by said commissioner with the exception of the water income division shall be in charge of a civil engineer of recognized standing in his profession and an expert in the duties which may devolve upon him, such division engineer to be appointed without regard to party affiliations or residence at the time of appointment, each head of a division to devote his whole time to the work and to receive an annual salary of not more than five thousand dollars with no other fees or emoluments.

SECT. 36. In appointing an engineer to take charge of a division of the department the commissioner shall certify that he is a civil engineer of recognized standing in the profession, that in the commissioner's opinion he is an expert in the work which would devolve upon him, that he is a person specially fitted by education, training or experience to perform the

duties which may devolve upon him, and that the appointment is made solely in the interest of the city,— this certificate to be filed with the city clerk and open to public inspection.

SECT. 37. All materials and supplies for the department of public works shall be purchased by the supply department on requisition of the commissioner.

SECT. 38. Chapters sixteen and forty-two of the Revised Ordinances of 1898, chapter three of the Ordinances of 1908, chapter seven of the Ordinances of 1910, and all ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed.

SECT. 39. This ordinance shall take effect on February first, 1911.

CONCERNING JUNK DEALERS, ETC.

Section 44 of chapter 45 of the Revised Ordinances of 1898 is hereby amended by striking out all of said section and substituting the following new section to read as follows:

SECT. 44. No such shop-keeper holding a license from the police commissioner as a dealer in second-hand articles shall permit to be sold any article purchased or received by him until at least a period of thirty days from the date of its purchase or receipt has elapsed. Nor shall any dealer in, or keeper of shop for the purchase, sale or barter of, junk or old metals permit to be sold any article purchased or received by him until at least a period of one week from the date of its purchase or receipt has elapsed.

CHAPTER 11.

AMENDING SECTIONS 4 AND 15 OF CHAPTER 9 OF THE ORDINANCES OF 1910.

SECTION 1. Section four of chapter nine of the Ordinances of 1910 is hereby amended by striking out in the tenth and eleventh lines thereof the words "and the Craigie bridge conferred by chapter three hundred and two of the Acts of the year 1870," and inserting the following: Cambridge bridge and other bridges conferred by chapter three hundred and two of the Acts of the year 1870, chapter one hundred and fifty-five of the Acts of the year 1882, chapter four hundred and sixty-seven of the Acts of the year 1898, and other acts and ordinances relating to the so-called Boston and Cambridge bridge commission,— so that said section as amended shall read as follows: Section 4. Said commissioner shall have the care and management of all bridges which are used as highways and are in whole or in part under the charge of the city, and of so much of Harvard bridge and Prison Point bridge as are under the charge and con-

trol of the city; shall be the commissioner to act with another commissioner for the city of Cambridge and as such commissioner shall have and exercise all the powers in relation to West Boston bridge, Cambridge bridge and other bridges conferred by chapter three hundred and two of the Acts of the year 1870, chapter one hundred and fifty-five of the Acts of the year 1882, chapter four hundred and sixty-seven of the Acts of the year 1898, and other acts and ordinances relating to the so-called Boston and Cambridge bridge commission; shall keep the railings and wearing surface in good order and shall remove all dirt, snow and ice from the sidewalks; shall keep all said bridges, or those parts thereof under his care, and the abutments, guards, draws and wharves thereof clean and in good condition and repair; shall appoint drawtenders for the draws in bridges of which he has the care, and see that they properly perform their duties and may remove them for such cause as he shall deem sufficient and shall assign in his order of removal. Each drawtender so appointed shall take charge by night and by day of the draw of which he is drawtender; shall require from the person in charge of a vessel applying to pass through the draw a true statement of the name, extreme width and draught of the vessel; shall determine the order in which vessels may pass through the draw, and may direct the placing of warping-lines, anchors and cables, and the use of any warping apparatus provided by the city; shall cause the draw to be opened for the passage of vessels in accordance with the regulations of the war department approved May twelfth, 1910; shall cause the draw to be closed with all possible expedition after a vessel has passed through not permitting more than one vessel to pass through at one opening of the draw, except that, when the draw is open and the bridge is free from persons desiring to cross, he may in his discretion, permit other vessels to pass through before causing the draw to be closed; he shall perform such additional duties as said commissioner may require.

Sect. 2. Section fifteen of said ordinance is hereby amended by striking out the word "twenty-five" in the eleventh line thereof and substituting therefor the word "twenty-one," and by striking out in the eighteenth line thereof the words "upper crossbar and top of each pole" and inserting in place thereof the words "lowest crossbar of each pole," so that said section as amended shall read as follows: Section 15. Said commissioner shall, when authorized thereto by an order of the street commissioners, issue such a permit to a responsible person for the purpose of placing and maintaining in the streets poles for the support of wires, on a condition the terms of which shall be those hereinbefore stated in section nine of this ordinance, and in addition that the person applying for the permit shall keep said poles well painted and in good condition, to the satisfaction of the commissioner; shall place the wires on said poles not less than twenty-one feet from the ground; shall keep the name of the person owning the pole distinctly painted on the crossbars used and occupied by him on the pole, and also on the pole at a point not less than six feet nor more than eight feet from the ground; shall allow the departments of the city the exclusive

use of the lowest crossbar of each pole, free of all charge, for the purpose of placing wires thereon; shall not suffer or permit any other person to place or keep wires on said poles, or upon the fixtures thereto affixed, without permission being first obtained in writing from the street commissioners; shall not remove any pole erected under this order until, and shall remove any pole when, directed by the street commissioners so to do; and that on the violation of any term of these conditions the said commissioner shall remove the poles at the expense of the person owning them.

[*Approved February 1, 1911.*

CHAPTER 12.

CONCERNING PAYMENTS FOR WATER.

Section twenty-six of chapter nine of the Ordinances of 1910 is hereby amended by striking out the word "occupancy" in the fourth line and inserting in place thereof the word "ownership," and by striking out the word "occupant" in the sixth line and inserting in place thereof the word "owner," so that the first sentence of said section as amended shall read as follows: Said commissioner, whenever the water has been shut off from any premises because the bill for water has not been paid, and there is a change in the ownership of said premises, may let the water on again without waiting for the payment of the amount due from the former owner.

[*Approved February 1, 1911.*

CITY ORDINANCE, 1911.

CHAPTER 1.

CONCERNING REMOVAL OF STORE REFUSE.

Section one of chapter nine of the Ordinances of 1910 is hereby amended by inserting after the word "substances" in the seventeenth line the following "and shall when requested by the proprietors or managers thereof remove empty boxes, packages, packing and other store refuse from shops, stores and warehouses at the reasonable cost of such removal, all monies so received to be used in paying the expenses incurred by the department in said removal," so that said section, as amended, shall read as follows:

Section 1. The department of public works which is hereby established shall be under the charge of the commissioner of public works, who shall be a civil engineer of recognized standing in his profession; who shall construct all streets and sewers; shall have discretionary power as to the grades, materials and other particulars of construction of streets, sidewalks and sewers; shall have charge of and keep clean and in good condition and

repair the streets, all sewer systems under the control of the city and the catch-basins in the streets connected with the sewers; shall keep the streets properly watered; shall remove from yards and areas, when so placed as to be easily removed, all ashes accumulated in the burning of materials for heating habitations, cooking and other domestic purposes, house dirt, house offal, and all noxious and refuse substances; and shall when requested by the proprietors or managers thereof, remove empty boxes, packages, packing and other store refuse from shops, stores and warehouses at the reasonable cost of such removal, all monies so received to be used in paying the expenses incurred by the department in said removal; shall, on the fifteenth day of each month, send to the city auditor detailed bills of all material, tools and machinery furnished by either of the divisions of said department to any other such division or for any special work.

[*Approved March 29, 1911.*

REGULATION OF THE HEIGHT OF BUILDINGS.

[Stat. 1904, Chap. 333; Stat. 1905, Chap. 383.]

By Stat. 1904, Chap. 333, the Legislature provided that the City of Boston should be divided into two districts, designated as Districts A and B, and that if not repugnant to some other statute, buildings could be erected in District A to a height of 125 feet, but that except as to certain projections above the roof, no buildings could be erected in District B to a height greater than 80 feet. A commission consisting of Nathan Matthews, Joseph A. Conry, and Henry Parkman was appointed by Mayor Collins, June 7, 1904, to determine the limits of these districts, and it made a preliminary order on July 5, 1904, which was revised December 3, 1904. Under Stat. 1905, Chap. 383, the Legislature made certain minor changes in the law, and also authorized the erection of buildings to a height not exceeding 100 feet in such parts of District B, and on such conditions, as a commission should determine. The same commission was reappointed under this act and made a preliminary order July 21, 1905, which was revised November 20, 1905. [See Document 133, 1905.]

District A includes the waterfront regions extending around East Boston, Charlestown, and the northerly and westerly sides of South Boston as far as East First and West First streets, Dorchester avenue, and Southampton street, a narrow strip extending through Wards 12 and 9 east of Albany street to Broadway, thence the boundary line extends northwesterly and westerly through Pleasant, Piedmont, and Ferdinand streets to Columbus avenue, thence across to the corner of Boylston and Arlington streets, along Boylston to Tremont, thence to Park, Beacon, Bowdoin, and Cambridge streets, thence through Cambridge, Staniford, Green, and Leverett streets to Charles River Dam. Of the City Proper, all of Ward 6, nearly all of Ward 7 and the northeastern half of Ward 8 are within District A.

District B comprises all other territory in the City. In this district buildings may in general be erected to a height of not more than 80 feet, but on streets exceeding 64 feet in width the height may be equal to one and a quarter times the width of the widest street upon which the building stands, said height to be measured from the mean grade of the curbs of all streets upon which the building is situated and not to exceed in any event 100 feet above such point of measurement. On all streets or portions of streets upon which buildings may be erected on one side only, the buildings may be erected to a height of 100 feet. No building may be erected to a height greater than 80 feet unless its width on each and every public street

upon which it stands be at least one-half its height. Certain special exceptions to the general regulations affecting District B have been made as follows:

1. No building can be erected to a height greater than 70 feet, measured on its principal front, in the territory bounded by Beacon street, Joy street, Myrtle street, Hancock street and Hancock avenue.

2. So long as the property owned by the City of Boston on Dalton, Belvidere and Scotia streets shall be used for a Mechanic Arts High School any building or buildings thereon may be erected to a height of 100 feet.

3. Buildings may be erected to a height not exceeding 125 feet in that portion of District B which lies 50 feet westerly from the boundary line running from Columbus avenue to the centre of Boylston street separating District A from District B, provided that said portion of District B is owned by the same person or persons who own the adjoining premises in District A.

4. No building can be erected on a parkway, boulevard or public way on which a building line has been established by the Board of Park Commissioners or by the Board of Street Commissioners acting under any general or special statute, to a greater height than that allowed by the order of said Boards.

5. No building upon any land, any owner of which has received and retained compensation in damages for any limitation of height, or who retains any claim for such damages, can be erected to a height greater than that fixed by the limitation for which such damages were received or claimed.

WARDS AND PRECINCTS.

[25 WARDS — 206 PRECINCTS.]

WARDS.

New wards were established for the City in the year eighteen hundred and ninety-five, the first division into new wards since the year 1875.[1] An attempt was made by the City Council to make a new division of wards in the year 1885, and an ordinance to that effect was prepared by a special committee appointed for the purpose, passed by the City Council and approved by the Mayor.[2] Certain questions were raised, however, in the General Court of 1886, relative to establishing State, senatorial and representative districts, and as to whether such districts should be established according to the territorial boundaries of cities and towns and their wards as they existed on the first day of May, 1885, or whether new ward lines, as in the case of the City of Boston, should be followed. On May 21, 1886, the opinion of the Justices of the Supreme Judicial Court was asked by the Legislature on this matter, and they decided that the district divisions referred to must be made according to territorial and other boundaries existing on the first day of May, 1885, and that the new ward divisions were illegal.[3] On account of this opinion of the Justices of the Supreme Judicial Court, an act was passed by the Legislature in June, 1886,[4] which provided that the several wards, precincts, and assessment districts of the several cities of the Commonwealth, existing May 1, 1885, should be established as the wards, precincts, and assessment districts of said cities, any acts or ordinances of the city councils of said cities to the contrary notwithstanding. The new division of wards was thus set aside and the ward lines established in 1875 remained in effect until they were changed in 1895 and established under the provisions of Chapter 417 of the Acts of 1893, as below. According to this act, a city may be redivided into wards in every tenth year after 1895, but this is not mandatory. In 1905 a new division of the City was attempted by the City Council, but neither of the plans submitted was adopted.

NOTE.— All the addresses delivered by the annual orators were published, except those of 1806, 1812 and 1852. The orations of 1792, 1793, 1798, 1799, 1804, 1807, 1808, 1809, 1811, 1816, 1821, 1823, 1850, 1854, 1858, 1859, 1876 and 1891 went through a second edition each; those of 1863 and 1876 were published also in a more elegant form; those of 1842 and 1845 went through four editions each; that of 1857 through five. The orations from 1771 to 1788, and the large paper editions of the orations of 1863, 1876 and 1900 are in quarto; all others in octavo.

The names given above are copied from the orations as officially published. The Massacre orations were reprinted in a volume in 1785 by Peter Edes, and again in 1807. For the orators from 1771 to 1851, inclusive, see "The Hundred Boston Orators," by James Spear Loring (Boston, 1852), and the appendix to the oration of 1889 for the full names of the orators from 1773 to 1889, inclusive. See, also, list of "Fourth of July Orations" in Index to the City Documents, 1834 to 1897; and "A List of Municipal Orators" in large paper edition of the oration of 1900.

Justices of the Police, Justices' and Municipal Courts.

The Police Court of the City of Boston was established in 1822, and at the same time the Justices' Court for the County of Suffolk (civil business) was established. The duties of the Justices' Court were discharged by the Justices of the Police Court. The jurisdiction of the Justices' Court was transferred to the Police Court for civil business June 1, 1860. In 1866 this court was succeeded by the *Municipal Court* of the City of Boston. The names of the successive Justices and their terms of office are as follows:

STATISTICS

OF

POPULATION AND AREA.

ENUMERATED POPULATION OF BOSTON, APRIL 15, 1910,

670,585.

ESTIMATED POPULATION, APRIL 15, 1911,

682,684.

According to the returns of the United States Bureau of the Census, the population of Boston on April 15, 1910, was 670,585. This shows an increase of 109,693, or 19.56 per cent. in the population since June 1, 1900, when it was 560,892 (Federal census); and of 12.63 per cent. over that of May 1, 1905, viz., 595,380, enumerated by the State Census. The estimated population of the City as of April 15, 1911, based on the observed increase from June 1, 1900, to April 15, 1910, was 682,684. The returns by wards are shown on page 221.

Since 1875 no considerable amount of territory has been annexed to Boston. The following statement shows the population in each census year, with the absolute and relative increase, for 35 years, 1875–1910, by intercensal periods:

Population, Census Years.		Period.	Increase.	Per cent. of Increase.

Total of City																670,585

Note.— The existing wards are the same as those created by ordinance in 1895, but four-
n precincts have been added since then, viz.: Precincts nine to fifteen (inclusive) in Ward 20,
, eleven and twelve in Ward 21, ten, eleven and twelve in Ward 24 and precinct nine in
rd 19, making the total number of precincts, 205 in 1910.

According to chapter 417, Acts of 1893, a city may be redivided into wards in every tenth
r after 1895, but this is not mandatory. After the State Census in 1905, a new division of
ston was attempted by the City Council, but neither of the plans submitted was adopted,
l no division can now be made until 1915 unless sanctioned by a special legislative act.

* These figures are made up to cover the geographical area originally belonging to each subdivision, which had not been done in previous censuses. If the same territory be assigned to each division in 1900 as in 1895, the figures for 1900 would be South Boston, 70,161; Dorchester, 64,648; West Roxbury, 42,407, and Roxbury, 110,732, instead of those given in the table. See Commonwealth of Massachusetts, Public Document No. 15, page 63.

From the fiscal year 1885–86 to the fiscal year 1899–1900, inclusive, the City could make annually appropriations, to be met by the general revenue of the City and by taxes, to the amount of the interest and sinking-fund requirements, to the amount of the County expenses up to $425,000 and to the further amount of $9 on each $1,000 of the average of the assessed valuations for the preceding five years, the valuation for each year being decreased by all abatements allowed to, and including, December 31, of the year preceding.

During the fiscal year 1900–01, the Legislature passed an act (Stat. 1900, Chap. 399) repealing the laws of 1885 and 1887 (Stat. 1885, Chap. 178, and Stat. 1887, Chap. 281), and authorizing the City Council to make appropriations annually to the amount of the interest and sinking-fund requirements, to the total amount of County expenses, and to the further amount of $10.50 on each $1,000 of the average of the assessors' valuations for the preceding three years, reduced by all abatements allowed to December 31 of the year preceding. As the law went into effect in June, 1900, it increased the amounts that could be appropriated for that year as follows: Taxes for County purposes from $425,000 to $1,002,500, or $577,500; taxes for general purposes from $9,063,156 to $10,912,823, or $1,849,667. Of the total increase, $2,427,167, the amount of $1,611,710 was appropriated by a supplementary appropriation bill. By Chap. 589, Acts of 1908, the City Council was authorized to increase the $10.50 per $1,000 tax rate for City purposes to $10.55. By Chap. 490, Acts of 1909, the rate was limited to $10.50.

* Does not include supplementary appropriations for 1910–11.

† The yearly totals under "Sinking Funds" and "Gross Debt, less Sinking Funds" do not agree with those shown in the Auditor's table of the Gross Funded and Net Debt (see Auditor's Report), because the amount still due for betterments, to go to the Sinking Funds, is not included here.

‡ Includes $120,000 in each of the two years 1907 and 1908, issued by Commonwealth, for Suffolk County Courthouse enlargement, and in 1910, $326,666.67 for the same purpose.

§ For movement of Mystic Water Debt, 1878–1895, which was included in this Summary, till 1895–96, see Municipal Register, 1909, page 263.

Note.— The above Summary does not include Boston's share of the net Metropolitan District debt, which was as follows: February 1, 1911: Water debt, $26,268,708.53; Park debt, $5,365,060.91; Sewer debt, $4,213,622.56; Total, $35,847,392.00 or $580,183.11 less than on February 1, 1910.

** Ineludes Interest on Temporary Loans.

Note.— The receipts from work undertaken under the Aets authorizing loans for the "Laying-out and Construetion of Highways," and for "Rapid Transit," are applied to the payment of interest on these loans respeetively, and the balance, if any, paid to the Sinking Fund Commissioners. When such receipts are insuffieient to meet these payments, the interest is met from receipts from sales of bonds. The following amounts have been paid for interest:

	Amount paid for Interest.
1891–92	$1,000 00
1892–93	2,777 40
1893–94	23,381 42
1894–95	47,746 06
1895–96	112,108 00
1896–97	209,840 19
1897–98	267,796 97
1898–99	327,407 72
1899–1900	377,410 17
1900–01	427,853 35

	Amount paid for Interest.
1901–02	$454,246 73
1902–03	455,507 44
1903–04	547,344 52
1904–05	619,006 36
1905–06	685,287 91
1906–07	†393,355 79
1907–08	†453,380 19
1908–09	†526,293 34
1909–10	†584,104 94
1910–11	†620,703 78

In making up the foregoing tables, these amounts have been included in the Summary Table (debt of all kinds), but omitted from the table showing the City Debt. This was done in order to show in the latter the "City Debt Requirements," that is, the amount of interest and sinking fund payments met from the tax levy. To obtain the total payments for interest the preceding amounts should be added in the respeetive years to the totals as shown in the table, City Debt. The assessments due for betterments, to go to the Sinking Fund Commissioners, are not ineluded in these tables.

† On "Rapid Transit" loans only. Beginning with the fiseal year 1906–07, the interest on loans for "Making of Highways" does not appear in the preceding note but is included in the interest total shown in the City Debt Table, the amount being paid from the tax levy.

MESSAGE OF THE MAYOR

RECOMMENDING

APPROPRIATIONS AND TAX ORDERS FOR 1911–1912,

TOGETHER WITH THE

ANNUAL ESTIMATES OF THE DEPARTMENTS.

City of Boston,
Office of the Mayor, February 17, 1911.

To the City Council:

In accordance with section 3 of chapter 486 of the Acts of 1909, I transmit herewith the estimates of the several departments for the financial year 1911–1912, together with a list of the appropriations which I recommend. I also transmit for your information the basis of estimate prepared by the City Auditor, which includes the amount which can be raised within the tax limit for the current expenditures of the city and an estimate of the income for the present year.

The sum total of all the estimates submitted by the heads of city departments, with an allowance of $250,000 for the Reserve Fund, is $13,277,805.48. The total of the estimates submitted by heads of county departments is $1,407,839.21. The city and county debt require-

ments, embracing interest, sinking funds and installments upon serial bonds, total $5,412,040.29. The sum of these various items, $20,097,684.98, is $1,390,609.78 less than the amount available under the law for current expenditures.

I recommend a reduction of $849,311.53 in the city and county estimates, making a total appropriation of $19,248,373.45. This includes an increase of $184,456.45 in the debt requirements, over which the Mayor and the City Council have no control, and an increase of $306,551 over the original appropriations of the city and county departments for the fiscal year 1910–1911. The amount available but not appropriated is $2,239,921.31 — a figure wholly unprecedented in the financial history of the city. Should the $800,000 recommended by me for the erection of an annex to City Hall be appropriated by your honorable body, this margin would, of course, be reduced by a corresponding sum.

The increase in the amounts recommended is due almost wholly to increased demands upon the various city departments.

Respectfully,

JOHN F. FITZGERALD,
Mayor.

CITY OF BOSTON.

APPROPRIATION AND TAX ORDERS FOR THE FINANCIAL YEAR 1911–1912.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of February, 1911, of performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston, or the County of Suffolk, or the departments or officers thereof, and to meet their respective obligations for interest on debt, sinking fund requirements and maturing debt not provided for by sinking fund, the respective sums of money hereinafter specified be, and the same are, hereby appropriated for the several departments, and for the objects and purposes hereinafter stated.

Ordered, That the appropriations for Water Department, current expenses, and the payments to the state under the provisions of chapter 488 of the Acts of 1895 and acts in addition or amendment thereto, and for the interest requirement for loans issued for water purposes, be met by the income from said works and any excess over income from taxes; that the other appropriations hereinafter specified be met out of the money remaining in the treasury at the close of business on January 31, 1911, exclusive of the money raised by loan or needed to carry out the requirements of any statute, gift, trust, or special appropriation, and by the income of the financial year, beginning February 1, 1911, and by taxes to the amount of $14,515,467.62, and that said amount be raised by taxation on the polls and estates taxable in the City of Boston.

Ordered, That all sums of money which form no part of the income of the city, but shall be paid for services rendered or work done by any department or division for any other department or division, or for any person or corporation other than the City of Boston, be paid into the general treasury and then credited to the appropriation of the department or division rendering such service or doing such work, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

Ordered, That to provide temporarily money to meet the appropriations aforesaid, the City Treasurer issue and sell, at such times and in such amounts as he may deem best, notes or certificates of indebtedness of the City of Boston, not exceeding nine million dollars in the total, in anticipation of the taxes of the current municipal year; that all such notes or certificates of indebtedness be dated the day the money for the same is received, be made payable with the interest thereon at the office of the City Treasurer within the current financial year, from the taxes of said year, and bear interest from their date until the same are made payable at such rate as said treasurer shall deem proper.

Ordered, That all taxes raised to meet the appropriations of the City Council, and all taxes assessed for meeting the city's proportion of the state tax of the year 1911, or of any other taxes or assessments payable to the Commonwealth, be due and payable on the first day of October, 1911; that all such taxes paid after the first day of November, 1911, bear interest from and including said day until paid, at the rate of six per cent per annum, except the taxes assessed upon shares of stock of national banks shall bear interest at the rate of twelve per cent per annum from and including said first day of November until paid; and that all interest which shall have become due on taxes shall be added to and be a part of such taxes.

BATH DEPARTMENT.

It being impossible to figure the exact amount of repairs to and supplies for the various houses of the department, the figures submitted are as nearly correct as we may reasonably estimate.

Additional showers at D street and North Bennet Street Bath House are to be installed because of the fact that the facilities afforded by the present arrangement are inadequate. At Dover Street Bath it is intended that the tubs in the women's section be removed and showers substituted, in order to increase accommodations at that house. Resanding the McKenzie Beach is desired because of the present stony surface of the beach. The present locker accommodations being insufficient at Ward 16 additional lockers should be supplied.

During the coming year three new houses will be taken over by the department,— about the first of February the Paris Street Gymnasium, and in June or July the Blossom Street Gymnasium and Curtis Hall.

To sum up, every unit of the department is growing, and as a consequence the expense of maintenance increasing.

Very truly yours,

RICHARD M. WALSH,
Chairman Bath Trustees.

BOARD OF APPEAL.

Hon. John F. Fitzgerald,
Mayor of the City of Boston:

Dear Sir,— The estimated expense for 1911 is as follows:

Members (maximum amount)	$5,000 00
Clerk	600 00
Office expenses	300 00
Total	$5,900 00

The increase in estimate for office expense is necessitated by the proposed purchase of city atlases, which are very essential to the conduct of the business of the Board.

Neil McNeil,
Acting Chairman.

This will make a difference between our actual figures and those of the Auditing Department. The actual expenditures of the present Board for 1907, according to our books, were $1,053.37. This amount agrees with the statement of the Auditing Department, minus $1,280, the amount expended by the old Board.

BUILDING DEPARTMENT.

Office of the Building Commissioner,
Old Court House, December 29, 1910.

Hon. John F. Fitzgerald,
Mayor of the City of Boston:

Sir,— In submitting an estimate for an appropriation to maintain the Building Department for the year 1911, the least amount consistent with the present basis of efficiency was mentioned.

At the present time the average number of buildings in each district under construction is 110,— 67 being the least and 149 the greatest number under the supervision of one inspector. So great a number of buildings in the charge of one man makes it impossible to give the close attention that is often desirable.

There are about 6,500 elevators in the city and but three inspectors, upon whom devolves the duty of inspecting and passing upon new work and making periodical inspections of existing elevators.

For inspecting theaters and halls and investigating all classes of existing buildings, to determine upon the adequacy of means of egress, there are but three men. This is an important duty and one the force is not adequate to perform as rapidly as should be. At my request the Police and Fire Departments are sending to this office lists of buildings seeming to them to need better means of egress in case of fire. These reported cases are receiving as prompt attention as can be given them, but those only which seem of grave importance can be given immediate attention.

The inspection of existing tenement houses is being pushed as rapidly as possible with a force of three men. When this duty was given the department no provision was made for an increase in the force of inspectors, and the amount appropriated each year since has been insufficient to replace the men taken for this work from other duties.

The work you have before you in apportioning the available funds among the several departments is difficult and for this reason the minimum amount necessary was taken as a basis for the needs of this department

for the coming year; but with the statement I here give it will be unnecessary to call your attention further to the advisability of making the appropriation somewhat larger. The work this department has to do must be done without delay, and an appropriation of $112,000 would enable a material bettering of conditions.

Yours respectfully,

ARTHUR G. EVERETT,
Building Commissioner.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

Herewith is submitted a statement of the expenditure by the Building Department for the years 1907, 1908 and 1909, with an estimate of the probable expenditure for the year 1910; also an estimate of the amount needed for the maintenance of the department for the year 1911.

By chapter 550, Acts of 1907, a work of considerable magnitude was added to the duties of the department in executing the law regulating existing tenement houses, but no addition to the force was provided for. On the contrary, the appropriation each year has been less than the amount expended in that year. Upon the amount appropriated depends the number of employees and the proportionate efficiency of the department.

The probable expenditure for the year 1910 falls below the amount appropriated, as one employee because of sickness has been granted leave of absence without pay, amounting to a saving in pay rolls of about $2,000; others for particular reasons have been granted leaves of absence for short times; one vacancy caused by death has not been filled, and strict economy has been exercised in expenditures for supplies, etc.

The estimate of the amount needed for the year 1911 has been carefully made with due regard for economy and is placed at $105,955.

In this amount is included provision for one additional inspector and for an increase in the salaries of two inspectors now receiving less than any others in the department.

Respectfully submitted,

ARTHUR G. EVERETT,
Building Commissioner.

CEMETERY DEPARTMENT.

HON. JOHN F. FITZGERALD,
Mayor of Boston:

SIR,— After a careful analysis of the amounts spent during the year 1910 the attached statements were made for 1911.

The chief increases are as follows:

The sum of $5,740 to put in condition the old historic grounds which are visited by thousands of our citizens and a great number of tourists from abroad every year. It has been impossible to expend upon these grounds at any time during the last five years the amount which they required, owing to the deficiency in the appropriation.

The sum of $3,500 for a rear wall at Dorchester North Cemetery. We are reminded by the deed of sale that the city agreed to keep this wall in good repair, or rebuild it.

The sum of $1,500 to build a stable and tool shed at Evergreen Cemetery.

The sum of $1,500 for two extra laborers at Evergreen Cemetery.

We ask for increases in the salaries of the clerk, interment supervisor, two gardeners, painter and glazier at Mt. Hope Cemetery, and an increase in the labor force at that cemetery of one gardener, one carpenter and two laborers.

Yours respectfully,

CHARLES E. PHIPPS,
Chairman of the Board of Trustees of the Cemetery Department.

The estimated increase in office expenses is due to maintenance of auto purchased in 1910. The estimated pay roll increase is due to the following,— increase in salary of clerk of $2 per week, increase of $2.50 per week for supervisor of interments, increase of 25 cents per day to two assistant gardeners and one painter and glazier. We believe also that the necessities of the department require an additional gardener, a carpenter and two additional laborers.

CITY COUNCIL.

January 9, 1911.

HON. JOHN F. FITZGERALD, *Mayor:*

DEAR SIR,— I respectfully submit herewith an estimate of the expenditures for 1910–11 and of the appropriation necessary for 1911–12 for the various items under the heading of City Council. It should be noticed that a number of items are charged to the appropriation for City Council, incidental expenses, presumably for the reason that it is practically the only appropriation convenient for miscellaneous charges, and I have accordingly made a separate statement of them.

Respectfully,

JOHN T. PRIEST,
City Clerk.

COLLECTING DEPARTMENT.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

The general increase in assessments upon individuals and upon separate parcels of property requires more work to be done from year to year.

The work of the department has also been materially increased by special causes. The water collections were formerly all made on annual bills, but now, upon all metered water, the bills are rendered and collected quarterly, while there is no material increase in the total money collected from this source.

January 1, 1910, meters in use, 10,863; 6,477 were installed the present year. 17,340 meters means 52,020 additional bills with attendant summonses, etc., over the annual system of collection. New water

meters are constantly being put in, thereby increasing quarterly collections.

A new source of collections for various licenses and permits issued under authority of chapter 571, Acts of 1910, has been instituted and will be gradually extended. These fees are turned in to the Collecting Department by the Street Department.

The fees for various licenses issued by the Licensing Board have heretofore been paid to said Board and afterwards turned in to the Collecting Department, but arrangements are being perfected by the Licensing Board and the auditor and collector so that all fees from this source will be collected directly by this department.

The certificates issued under chapter 378, Acts of 1907, relating to liens on real estate, are increasingly numerous, and the fee of $1 in numerous cases does not reimburse the city for the labor of investigating and issuing. But in this instance, as well as for summonses, deeds and other papers for which fees are collected, the fees received are directly credited to the city, while the cost of issuing and handling is charged as an expense against the annual department appropriation.

The great needs of the department are additional working room and vault space. The best efficiency cannot be obtained in the present cramped and disconnected apartments. Valuable books are now exposed to loss by fire, and their destruction would entail much confusion and expense to the department.

For some years the auditor has been desirous of having a new set of books opened for the street and special assessments branch of the department and the ascertainment and abatement of the uncollectible items, but the task has been so considerable that it has not been deemed expedient to undertake it under the ordinary department appropriation. This is something that should be done immediately for the efficiency of the department and interest of the city. The expense is estimated at from $1,200 to $1,500.

The appropriation asked for 1911–12 is $136,000, $1,000 in excess of that of the present year.

With the sum requested it is believed all the work of the department for the ensuing year, including the examination and revision mentioned in the street and special assessments branch, can be done within the appropriation.

Bowdoin S. Parker,
Collector of the City of Boston.

Printing.— The increase in department work will require more summonses, demands and other blanks. Especially is this true in added quarterly collections.

Postage.— For the same reason more postage will be needed in sending out summonses, letters, etc.; also for special notices adopted in checking back personal property collections.

Stationery.— The addition of new kinds of collections require separate books and more stationery supplies and articles.

Telephones.— The changes in system proposed for telephones are not as favorable as existing rates for the business of this department.

Travel.— There will be an increase in necessary travel for delivery of additional bills, summonses, demands, etc.

Advertising.— The estimate is smaller than the amount actually expended last year. This year the number of estates advertised was less than usual.

Bonds.— The expense for bonds is estimated less for next year. By reason of change in collectors, some new bonds had to be obtained the present year.

Auditing.— No change in estimate.

Miscellaneous.— The estimate for next year is less. Additional machines to properly do the work required had to be obtained this year. These will not need replacing.

In August, 1910, the salary list was decreased by changes at the rate of $3,000 per year; the discharge of several extra per diem clerks further reduced the pay roll.

In December the salaries of some of the principal clerks were slightly increased, adding to the salary list at the rate of $1,800 per year. Only one month of increase took effect to be paid from the present year's appropriation.

The clerks having charge of special branches or divisions of the work are experienced and capable men and have been underpaid for several years. Their present salaries are very moderate.

For the class of work required in this department it is economy to obtain high class men and pay them reasonable salaries. A slight increase in the number of clerks may be necessary to do the work presented the ensuing year.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Hon. John F. Fitzgerald,

Mayor of the City of Boston:

The inclosed estimates for the year 1911 show considerable increases over the expense of 1910, but are necessary because the opening of the Second Ward Building and Women's Cottage Ward necessitates more attendants and supplies, such as food, medical supplies and fuel. A new charge appears, namely, "water rates." A new boiler is needed because of the demand of the new buildings. A considerable amount is asked for the installation of dynamos in order that we may make our own electric current. The plant is now large enough in the opinion of the engineers to render the making of our current profitable. One increase in salary in the office is asked for, and increases in the salaries for the engineers and firemen appear because of the union's rate of wages. Extra firemen and engineers will be needed when the electric plant is installed. At the Out-Patient Department one increase in salary appears and an average increase of three nurses. "Board of Patients," as allowed by law, is the full amount for 100 beds at $8 a week.

Respectfully,

Edward F. McSweeney.

* According to an understanding reached at a conference held with the School Committee, the Election Commissioners used basements in schoolhouses for polling places and registration purposes last year without charge for rental. The Finance Commission decided, subsequently, that a charge for rental for such rooms in ensuing years should be made by the School Committee. The amount of rental to be charged by the School Committee to the Election Commissioners for polling places and evening registration places is now being considered by the Finance Commission. Based on the number of rooms and places used last year the Election Commissioners made an offer in detail amounting approximately to $1,941. The School Committee proposition would cost the Election Department about $4,100.

When the Finance Commission decides this matter the rental so fixed by it will have to be added to our estimate for rents.

† In 1907 extensive repairs were made to polling booths to put them in proper condition. Since that time there has been deterioration in the condition of the booths and no extensive repairs have been made. In 1909 the sum expended under this heading was not for repairs of booths alone but mainly for fitting up polling places in schoolhouses. The condition of the booths at the present time is such that extensive repairs will have to be made upon them, after a lapse of four years, in order that they may be placed in suitable condition for use as polling places; and in the basements of several schoolhouses used for polling places additional heating arrangements will have to be made. Consequently we have asked for approximately $3,100 for these purposes for the year 1911 over what was expended in the year 1910. The amount expended in 1910 was mostly for fitting up and equipping precinct polling places, under the heading "Repairs." In addition to this sum, which is practically fixed, we shall require, as stated above, the additional sum of approximately $3,100 for the extensive repairs and heating arrangements above mentioned.

FINANCE COMMISSION.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

The commission requests that the same appropriation be made for the fiscal year 1911–12 as was made for the year 1910–11, to wit, $40,000. This amount is more than is necessary to cover the ordinary expenses incurred in the performance of the Finance Commission's work, but the amount that may be required for expert services next year will make it necessary to appropriate $40,000. It is impossible to tell in advance what investigations may be necessary, and therefore

impossible to estimate exactly the amounts required for expert services. A large part of the $5,000 appropriated last year for the investigation of schools has been expended for expert services, and as the school investigation is not completed, further expenditures for experts will be incurred during the coming year. The increase in the estimate for rent in 1911–12, as compared with 1910–11, is due to the fact that the commission engaged additional rooms after the beginning of the present year, and therefore did not pay a full year's rental for the entire space, whereas a full year's rental for the entire space will be paid in the fiscal year 1911–12. The increase in the estimate for pay roll is also due to the fact that the number of employees was increased after the beginning of the present year, whereas the entire force will be carried through the year 1911, and it is anticipated that other additions will be made to it. It is estimated that the real estate expert and his clerk, who were employed for less than four months in the present year, may be employed for eight months next year, and an allowance has been made for a corresponding increase in pay roll due to this cause.

Chairman.

FIRE DEPARTMENT.

December 16, 1910.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

SIR,— I herewith submit the estimate for the Fire Department for 1911–12.

With the exception of $2,334 for the fire alarm branch, I have practically asked for no increases other than those necessary to carry out the extensions of the department provided for under previous administrations. These expenditures will, nevertheless, increase the estimate over the figures of 1910 by $98,738.

The principal items in this increase are:

Sliding scale	$31,750 00
Crew for Engine 31 (new boat)	15,000 00
Deductions — leaves, fines, etc.	15,000 00
Water tax	10,000 00
Pensions	3,000 00
New boilers for Engine 44 (boat)	15,000 00
Rebuilding three engines	4,000 00
Fire alarm improvements	2,300 00

These items account for the bulk of enlarged amount over the estimate of 1910. Under the departmental divisions you will find a detailed statement of the entire increase of expenditures.

The estimate includes only the maintenance and upkeep of the department as it now stands. I feel it my duty, however, to call your attention to the fact that the various district chiefs of the department have requested a total of eighty-two additional men.

During the day hours the department is often heavily depleted by men at meals, vacations and days off, so that the apparatus is not properly manned. I inclose herewith the estimate of the cost of any increase in the number of men.

It would be wise to provide for the enlargement of the fire fighting force by at least fifty men.

Very respectfully,

CHARLES D. DALY,
Commissioner.

HEALTH DEPARTMENT.

Hon. John F. Fitzgerald,
Mayor of the City of Boston:

The principal needs of increase in our facilities and expenditures for the coming year, and the reasons therefor, are as follows:

In construction work we need to establish at least six more public convenience stations in answer to the public demand, at an estimated cost of about $8,000.

The additional help in the bacteriological laboratory and consequent increase of supplies is to meet the increased demands upon the laboratory.

The call for an automobile for the Milk and Vinegar Division is to replace a horse and wagon to increase the facilities and the service of the men.

The proposed addition of five policemen for special work in the enforcement of our sanitary laws and regulations is also greatly needed. The largely increased work and expense in our school inspection is to fulfill the requirements of the law and meet a well-recognized necessity.

The increase of sanitary inspectors has become a necessity in order to cover the city and meet the absolute demands for sanitary inspection of tenement houses and other general inspection which has not been fully met for some years.

The new dairy inspection is to meet the well-known present demands for clean milk.

The two additional inspectors of provisions are to fill one vacancy and to meet the largely increasing work.

The additional inspector at the abattoir is to cover the new work at the abattoir which has already taken place.

The increases provided for printing, postage, stationery, travel and advertising have been wholly due to the general increase in the service of the several divisions.

The increase provided for cities and towns is due to the increase of our liability by law.

The charge for water rates is a new item of expense for the present year.

THE BOARD OF HEALTH,
by S. H. DURGIN,
Chairman.

Increase for nurses' supplies is due to an increased number of nurses.

Increase for traveling expenses is due to the increased amount of travel by additional help.

Increase for advertising is due to the large expense for signs posted in public places for the prevention of spitting on sidewalks, etc.

Water rates become a new charge in this department.

Automobiles are to replace horses and carriages.

Increase of inspectors' supplies is due to increased number of inspectors.

Increase for removal of buildings is due to the necessity for increased number of removals.

Increase for cities and towns is due to modifications in the law which have doubled the liability of Boston to recompense cities and towns for the care of citizens of Boston suffering from contagious diseases in those places.

HOSPITAL DEPARTMENT.

In order to maintain the present working efficiency of the Boston City Hospital during the coming fiscal year it is estimated that we shall require a total sum of $567,265. In 1910–11 the amount expended for maintenance will be approximately $535,489. The increase asked for totals $31,776.

We are constantly besieged by applications for increased compensation to employees, and we have been compelled to defer the consideration of the same until the beginning of the new fiscal year. The high cost of living is largely responsible for this situation; moreover, the enforcement of the eight-hour law necessitates the employment of more persons in certain departments of the hospital than we formerly had.

The above increase asked for can be briefly analyzed as follows:

SALARIES.		Increase for 1911–12.
Estimated increase for 1911–12		$5,631 00
Accounted for as follows:		
Central office division	$524 00	
Other divisions:		
General increase of salaries in all departments	2,507 00	
Add for police protection	2,100 00	
Sundry employees	500 00	
	$5,631 00	

GENERAL EXPENSES.		
Estimated increase for 1911–12		26,145 00
Accounted for as follows:		
Other divisions:		
Estimated increased cost of subsistence supplies, due to advanced price of milk	$5,000 00	
Estimated cost of painting exterior wood and iron work of twenty-four buildings of the hospital and extra repairs and alterations	9,145 00	
Estimated cost of water (now metered)	12,000 00	
	$26,145 00	
Total increase for 1911–12		$31,776 00

We have based our estimate for general expenses and construction on our estimated expenditures for the present fiscal year, adding thereto merely such additional absolute requirements as are now present to view. Should there be any marked advances over and above present prices for commodities, or should there be a decided increase in the number of patients cared for in 1911–12, we should require more funds to meet such an emergency.

Very respectfully,

A. SHUMAN,
President of Board of Trustees.

BOSTON INFIRMARY DEPARTMENT.

Hon. John F. Fitzgerald,
Mayor of Boston:

Dear Sir,— The accompanying budget for 1911 calls for an appropriation of $201,845 for the entire department, an increase over the estimated expenditures for 1910 of approximately $17,818, made up as follows:

Boston office, increase	$160 00
Almshouse and Hospital, Long Island, increase	15,335 00
Almshouse, Charlestown, increase	1,590 00
Pauper expense account, increase	1,374 00
Total	$18,459 00
Decrease on steamer appropriation	641 00
Net increase for department	$17,818 00

Of the increase for the Boston Almshouse and Hospital, $9,400 is to cover water rates (for which there was no charge in 1910), and fuel, of which more will have to be purchased in 1911 than in 1910. $3,000 is for food and the remaining $3,000 is for clothing and repairs and improvements.

At the Charlestown Almshouse, $600 of the $1,590 increase is to cover water rates. Of the balance, $700 is for food and clothing. More money was really needed in 1910 than was allowed in the appropriation ($16,000), and a larger appropriation will be necessary for 1911, as many supplies are entirely exhausted, the renewal of which will require a larger expenditure in 1911.

In the pauper expense account the department has no control over the expenditures, which cover accounts rendered by outside institutions for board of patients. A general estimate only can be given, but this has been determined as carefully as possible from the information at hand.

Respectfully submitted,

E. M. Gallagher,
Chairman.

ALMSHOUSE AND HOSPITAL, LONG ISLAND.

Expenditures for Five Years Grouped.

	1907.	1908.	1909.	1910. Estimated.	1911. Estimated.
Office expenses	$1,258 02	$1,406 49	$1,204 99	$1,225 59	$1,250 00

Totals	$153,996 97	$145,379 56	$144,004 21	$148,925 00	$164,260 00

The increase requested, approximately $15,335, is made up as follows:

Water rates	$4,000 00
Fuel	5,400 00

At the beginning of 1910 there was a supply of coal on hand which reduced the expenditures on this item. In 1911 the full amount of coal will have to be purchased, at an estimated cost of $17,300 (based on the actual consumption), an increase of $5,400.

Food	3,000 00

By an increase in the allowance for food it is expected that a corresponding improvement in the dietary at the institution can be secured.

Clothing	2,200 00

There was a supply of clothing on hand at the beginning of 1910 which reduced the expenditure on this item. Also the cost of purchasing clothing through the Prison Commission, as required by law, is greater than by purchasing in the open market, and a larger allowance on this item will be necessary.

Repairs and improvements	800 00

An increase of $800 is requested on this item, although considerably more will have to be expended.

Total	$15,400 00

STEAMERS "JOHN HOWARD" AND "GEORGE A. HIBBARD."

Expenditures for Five Years Grouped.

	1907.	1908.	1909.	1910. Estimated.	1911. Estimated.
Pay rolls	$4,301 66	$4,145 84	$4,063 33	$4,320 00	$4,320 00

Totals	$8,494 79	$8,626 70	$6,997 12	$7,961 08	$7,320 00

It is estimated that the cost of running the steamer "George A. Hibbard" will be somewhat greater than

the cost of running the "John Howard." During the first year, however, no repairs are anticipated, and an allowance of $1,000 for expenses outside of fuel and salaries would be a fair estimate. This includes water rates.

The increase requested for the pauper expense account is $1,374. This appropriation covers expenditures over which the department has no control whatever. It is entirely for the support of persons having settlement in Boston at institutions outside of Boston, principally at the State Hospital, Tewksbury, and in other cities and towns. The bills for such support are likely to be larger during the coming year, on account of a large number of cases in which settlement has been denied by Boston. Bills for these persons are likely to be rendered at any time should a Boston settlement be proved. The same is true of the various other state institutions named.

We are obliged to ask for more money for salaries for this institution, as we find it necessary to employ a night watchman in each dormitory. Circumstances may alter so that we may not be obliged to continue this arrangement.

We also have to allow for increases in the salaries of the teachers, who are increased according to the schedule of Boston school teachers.

INSTITUTIONS REGISTRATION DEPARTMENT.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

We ask for an appropriation of $21,200 for the year 1911, an increase of $1,000 over the estimated expenditure for 1910, because the salaries of five employees were raised $100 each, dating from July 1, 1910; also because the expense for medical attendance is about $500 less for the year 1910 than for some years previously, and we believe that this item will increase rather than decrease.

WILLIAM P. FOWLER,
Institutions Registrar.

The increased business of the office arising from the abolishment of the Dorchester grade crossings and the enforcement of the building laws, owing to the great number of new buildings and the changing over of many old ones, required the appointment of an additional assistant at a salary of $2,100 a year. This increase in the office force requires an additional appropriation of $1,000. Former appropriation, $50,000. Asked for, $51,000.

LIBRARY DEPARTMENT.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

The estimates presented cover only the sum needed to maintain the library on its present basis, including the branches and reading rooms as at present established. If it should be deemed advisable to add to these by the establishment and maintenance of other reading rooms the appropriation will need to be increased proportionately.

Except an increase of $2,800, on account of payments to be made to the Water Department under the present arrangement for metered water, the estimates contemplate no increased expense other than that usual from year to year under normal conditions, amounting to only 1.34 per cent over the cost for the present year.

The payment for water for the present year, not having been expected when the estimates for 1910 were made up, has been deferred, there being no provision for such payment in the appropriation. If the bills which have been rendered by the Water Department for the present year are not to be charged off, an additional amount of $2,500 should be added to the estimates now submitted, which include only the estimated cost of water for the coming year.

THE TRUSTEES OF THE PUBLIC LIBRARY,
by J. H. BENTON,
President.

LICENSING BOARD.

Hon. John F. Fitzgerald,
Mayor of the City of Boston:

The Board asks for an appropriation in excess of the expenditures of former years but less than the amount asked for in any year, in order that it may be prepared to make investigations, not only as to the conduct of the liquor business but also of the other activities it licenses,— such as intelligence offices, common victualers, pool rooms, etc.,— investigations which it has not been able to make as thoroughly as desired because of the smallness of its appropriation.

The Board is authorized to engage counsel, but thus far has not availed itself of the authority because of the presence on the Board of Mr. Hudson, whose advice has made appeals to other lawyers unnecessary; but the change in conditions brought about by the so-called Bar and Bottle Bill, and the investigations by the Board, may make it necessary to engage special counsel.

The Board has the authority to engage, with the consent of the Governor and Council, new quarters at an annual charge of not more than $5,000. If such new quarters should be secured, new furniture will be necessary; if the present quarters be retained, the furniture now in use will need to be repaired or replaced, and the offices will need constant renovation to keep them in a sanitary condition.

For the specific reasons given, a slight addition in salaries of the clerks will be made, and increased expenditures for stationery will be necessary because of the changes in the law.

Ezra H. Baker,
Chairman.

Additional printing may be required in case any change is made in the Bar and Bottle Bill, and this will necessarily mean an increased cost.

The stationery will have to be renewed this year where the supply of two years ago was sufficient to carry over the past year.

Telephone charges shift in proportion to the number of extra calls used by the office.

The Board in the performance of its duties in rearranging the liquor stores under the Bar and Bottle Bill may be required to do considerable hiring of vehicles which will undoubtedly increase the traveling expenses. The Board has heretofore in nearly all cases in its work of investigation paid for the same out of its own pocket without any charge to the city.

Much of the furniture which is now in possession of the Licensing Board is furniture taken from the old Police Board, and is gradually wearing out; it not only has to be repaired often but new furniture will have to be purchased, especially if the Board should change its quarters during the present year.

One clerk resigned the past year who was receiving a salary of $1,800; his position has not as yet been filled. The salary of some of the clerks is not in proportion to the services rendered, hence slight increases in salary should be given them. At the same time it may be necessary to employ another clerk at a salary less than that paid the clerk who has resigned.

One temporary clerk has been employed by the Board for the last three years on special index work at a salary of $50 a month, and it seems to the Board that this clerk's salary should be slightly increased, hence the request for an increase in the amount asked for under this heading.

MUSIC DEPARTMENT.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

For the appropriation for the Music Department for the year 1911–12 I respectfully request that we receive $20,000. This is an increase of $1,000 over the amount set aside for the year 1910–11. The appropriations and general conditions in this department have varied so widely from year to year that comparisons are of little value.

Respectfully submitted,

WILLIAM C. BROOKS,
Chairman.

	1907.	1908.	1909.	1910. Estimated.	1911. Estimated.
Office expenses	$260 22	$230 59	$274 66	$280 00	$284 00
Pay rolls	1,994 60	1,739 99	1,618 80	1,620 00	1,616 00
Totals	$2,254 82	$1,970 58	$1,893 46	$1,900 00	$1,900 00

The office force consists of a secretary at $1,200 and a clerk at $416 a year. The secretary's salary was formerly $1,600.

SUMMER BAND CONCERTS.

Expenditures for Five Years Grouped.

	1907.	1908.	1909.	1910. Estimated.	1911. Estimated.
Pay rolls	$13,465 55	$7,837 19	$11,035 23	$8,203 45	$10,862 00
General expenses	1,106 09	640 16	868 21	766 97	1,033 00
Construction	3,574 12	22 10	105 37	55 00	100 00
Totals	$18,145 76	$8,499 45	$12,008 81	$9,025 42	$11,995 00

The season for 1910 was, unfortunately, shortened. We therefore ask for the same amount as was expended in 1909.

WINTER CONCERTS.

Expenditures for Five Years Grouped.

	1907.	1908.	1909.	1910. Estimated.	1911. Estimated.
Pay rolls	$4,059 23	$4,169 50	$4,629 00	$6,427 55	$5,600 00
General expenses	540 19	360 29	436 79	451 18	505 00
Totals	$4,599 42	$4,529 79	$5,065 79	$6,878 73	$6,105 00

An unusual number of winter concerts was given in 1910. The amount asked for 1911–12 is about what is needed in order to slightly augment the orchestra and improve the work in various ways, while giving the usual number of concerts.

OVERSEEING OF THE POOR DEPARTMENT.

BOSTON, November 9, 1910.

HON. JOHN F. FITZGERALD,
Mayor of Boston, Mass.:

DEAR SIR,— Annexed please find estimate of appropriation needed for this department for the coming fiscal year.

The amount varies but little from last year's estimate of $142,500 except in the addition of $1,000 for expense of water.

Very truly yours,

WILLIAM P. FOWLER,
Chairman.

PARK DEPARTMENT.

BOSTON, December 19, 1910.

ROBERT S. PEABODY, ESQ., *Chairman:*

DEAR SIR,— The appended statement of expenditures gives the net expenditures of your department for the past year in maintenance work, the amount of the total maintenance appropriation which has been spent for works of construction, the requirements for next year's maintenance work and the reasons for excess requirements over the previous year. Thus it appears that our total maintenance appropriation for 1910 was $397,958. Of this amount $63,729.57 was spent on construction work, leaving the net expenditures for maintenance at $328,757.43. For 1911 our requirements for maintenance, including partial planting of Commonwealth avenue extension with trees, are $420,439.

The following table will show what appropriations have been made during the past five years on account of maintenance, and the net amounts available for the purpose after necessary works of construction have been paid for and diverted from this account:

YEAR.	Total Appropriation Expended.	Spent for Construction and Miscellaneous.	Net Appropriation Available for Maintenance.
1906	$340,915 48	$48,794 95	$292,120 53
1907	336,144 87	23,978 82	312,166 05
1908	309,008 32	20,038 60	288,969 72
1909	365,172 07	56,370 45	308,801 62
1910	397,958 00	63,729 57	328,757 43

These amounts are entirely inadequate for the proper upkeep of such a system of parks as Boston maintains. Were the whole appropriation available for the ostensible purpose for which it is appropriated matters would not be so bad. As it is, the principal thought of the management is to determine which work can be left undone with the least disadvantage to the department.

In further support of these statements, I would submit a table showing the cost per acre per annum of eight important park systems in the United States. Certain irrelevant items, like music, zoological features, etc., are omitted.

* Police, light and water included. † Eight hours.

In our elimination of work not only is sandpapering and polishing left out of consideration, but matters of essential importance, also, in connection with our roads, the well-being of our plantations of trees and shrubberies and the care of our buildings. These are matters of extreme importance at the present time, and merit an urgent request from your Board to the Mayor for the appropriation outlined in these estimates.

Yours respectfully,

J. A. Pettigrew,

Superintendent.

The above list gives the number of employees May 1 of each year with their rating and rate of compensation, but does not take into account overtime or lost time, nor any additions or deductions in the number of employees or changes in the rate of compensation which may occur during the year. Besides these causes which affect the pay roll, the difference between the actual yearly wages paid and the rating wage total for the year 1907 was due to the increase of pay for laborers of 25 cents per day, which took effect July 1, and to the amount paid on construction account. The difference in 1908, 1909 and 1910 was due to layoffs from February 15, 1908, to March 20, and from August 27, 1908, to March 19, 1909, also from November 4, 1909, to March 9, 1910, and to the amount paid on construction account. The estimated actual wages on maintenance account in 1911 are less than the estimated wage total, owing to construction work chargeable to special appropriations.

POLICE DEPARTMENT.

Office of the Commissioner,
December 7, 1910.

Hon. John F. Fitzgerald,
Mayor of the City of Boston:

Sir,— I respectfully forward herewith estimates in detail of the expense of the Police Department for the fiscal year 1911–12. They have been prepared on the basis and in the form of schedules presented for similar purposes for many years, except that they are addressed to your Honor instead of to the City Council. The change seems to be in accordance with the intent of chapter 486, Acts of 1909, the "Charter act," so called.

The estimates taken in gross show a total probable expense of $2,252,400.20, which sum includes not only the expenditures for salaries and miscellaneous purposes in the regular police work, but the cost of pensions, house of detention, station-house matrons, signal service, the listing of male residents of Boston twenty years of age or more, and the verification of the names of women voters.

Practicable Deductions.

From this gross amount certain deductions may safely be made because of the following conditions:

1. Salary estimates are based on the theory of a department without vacancies or absentees, but such a condition never exists. A careful calculation resting on the experience of the first ten months of the present fiscal year shows that the annual saving in this direction is such as to justify a reduction of about $35,000 in the gross estimate for pay rolls in the year 1911–12.

2. As five patrolmen are assigned permanently to the Health Department, the amount of their salaries ($6,000) is charged annually to the Health Department appropriation and credited to the Police Department.

3. Uniform cloth and helmets are bought at wholesale by the department and sold at cost to the members of the force. Collections for such sales are made by means of deductions from pay due to members who have bought. It is proper that an item covering the purchase of cloth and helmets should appear as a matter of

record in the list of general expenses, but the fact should be taken into consideration that sooner or later every dollar so expended serves to reduce by so much the cash salary payments to members of the force. As the salary expense is estimated in gross and the cost of cloth and helmets is included in general expense a corresponding sum may fairly be deducted from the salary total. The estimate for cloth and helmets is in round numbers $17,850.

Taking into consideration therefore the approximate saving on pay roll account because of vacancies and absentees, the credit from the Health Department and the practical duplication of the cloth and helmet item, amounting in all to $58,850, it seems safe to say that the gross estimate may be reduced by that sum, leaving a net total for all purposes of $2,193,550.20.

The department estimate for 1910–11 was reduced to $2,145,000, but a deficit of about $7,000 is expected, making the actual expenditures for the year about $2,152,000 as against the net estimate for the coming year of $2,193,550.20, an increase of $41,550.20.

In a letter to your Honor under date of November 21, 1910, I made the following statements, which I think should be repeated here with further explanations:

> Within a few days I shall have the honor to present to you in the full detail which is customary with this department the estimates for the next fiscal year; and thereafter I shall be glad to furnish to you or to the City Council any further information which may be desired concerning special subjects. It is proper that I should say at this time that:
>
> 1. About 85 per cent of all expenditures by the Police Department is for the pay of members of the sworn police force and of persons retired therefrom on pension, both classes being subject as to numbers and rates of payment to authorities independent of the Police Commissioner.
>
> 2. Unless an addition to the number of patrolmen should be authorized, the increase in the next fiscal year in expenditures on account of pay of the sworn police force will be due entirely to the advancement of patrolmen already in the force from the lower to the higher rates of compensation, as established long ago by the City Council, and applicable to their earlier years of service.
>
> 3. The expenditures of the Police Department for general purposes, including the pay of all persons not members of the sworn police force, represent about 15 per cent of the total. Such expenditures have been reduced rather than increased in the past four years, and I expect that a like condition will continue in the next fiscal year.

General Expenses Reduced.

These statements are based on a careful analysis which I have made of the expenses of the Police Department as shown in the reports of the City Auditor for the fiscal years 1905–06, 1907–08, 1908–09 and 1909–10. The fiscal year 1906–07 was omitted because of the fact that in June, 1906, the single Police Commissioner succeeded the Board of Police and the Licensing Board was established, the effect of which was so to divide expenses and change details of bookkeeping that for purposes of comparison the year is not available.

Putting aside payments on account of pensions and on account of salaries of the sworn police force, the analysis shows that the expenditures charged to the Police Department for all other purposes were as follows:

Fiscal year 1905–06	$319,653 00
Fiscal year 1907–08	292,341 00
Fiscal year 1908–09	276,221 00
Fiscal year 1909–10	286,833 00

These figures show a reduction in miscellaneous expenses charged to the Police Department as between the years 1905–06 and 1909–10 of $32,820.

The collections by the Police Department on account of the licenses which it continues to issue, the amount of which collections depends to some extent on police vigilance, were $46,742 in 1905–06 and $51,339.25 in 1909–10, a gain of $4,597.25.

It is proper to state that when the Licensing Board was established in 1906 it relieved the Police Department of certain expenses for clerks, rent, printing, etc. These expenditures of the Licensing Board in the fiscal year 1909–10, exclusive of the salaries of the members and the secretary, amounted to $21,411. It may therefore be said that the saving in the general expenses of the Police Department as between 1905–06 and 1909–10 was sufficient to balance the running expenses of the Licensing Board, to meet the added cost of an enlarged police force and the general increase in the price of labor and supplies, and to show a balance above all of $11,409.

The act under which the Police Commissioner is now serving required him to appoint a secretary at a salary of $3,000 a year and authorized him to expend annually

$3,500 for legal counsel. By the appointment as secretary of a lawyer who has attended successfully to the legal business of the department in addition to the duties of his office, the expense of $3,500 a year has been saved, such saving in four and a half years to date amounting to $15,750. In two instances only and then for special public reasons have payments been made under this authority, the fees amounting to $350.

In connection with the signal service a provision of about $6,000 is made for special work in placing cables and wires underground. The expenditure of this money depends from year to year upon the plans of the Wire Commissioner for the next summer, which are not publicly known at the time the estimates are made. When the change from overhead to underground is ordered by him for a section of the city which the Police Department has not already covered, the money is needed. In some years it happens that the new section has already been cared for wholly or in part by the Police Department; for it is the settled policy that when overhead police wires in a particular part of the city become worn out from long service, the renewal is made underground in anticipation of the orders of the Wire Commissioner.

Employees of the Police Department engaged in the work of hostlers and janitors receive lower rates of wages than those prevailing in like occupations in the city departments. I have made provision in the estimates for slight increases in favor of forty persons, the total amount for all being $2,952.68.

SALARIES OF THE POLICE.

I have received petitions signed by the inspectors, lieutenants, sergeants and patrolmen of the police force with a few exceptions, requesting certain increases in their respective salaries. As the petitions are addressed jointly to the Mayor and the Police Commissioner I assume that duplicates are in your Honor's hands.

The present salary of inspectors and lieutenants is $1,600 a year. They ask that the salary be $1,800 a year for three years from the date of appointment, and thereafter $2,000 a year.

The present salary of sergeants is $1,400 a year. They ask that the salary be $1,550 a year for three years from the date of appointment, and thereafter $1,700 a year.

The present salary of patrolmen is $1,000 for the first year of service as such, $1,100 for the second and $1,200 for the third and subsequent years. They ask that the salary for the fifth and sixth years be $1,300 a year and thereafter $1,400 a year.

The petition in behalf of the patrolmen was presented some months ago, and I was then given to understand informally that similar petitions affecting inspectors, lieutenants and sergeants were in preparation. I heard nothing further from these latter petitions until December 6 when they were received. In the meantime a hearing had been asked for on the petition of the patrolmen, and to the letter of counsel in which the request was made I had replied in writing. My answer was based on the petition of the patrolmen alone, without knowledge of the intentions of the other petitioners; but as it explains my attitude on the general question I insert it herewith, as follows:

November 30, 1910.

Thomas W. Proctor, Esq.,

Dear Sir,— I beg to acknowledge receipt of your letter of November 25 concerning a petition for increased pay for certain patrolmen in the police force.

Section 13, chapter 291, Acts of 1906, provides, as you are aware, that the pay of members of the force shall not be increased or diminished, except by the concurrent action of said Mayor and said Police Commissioner. The Mayor is presumably the best judge, and as between himself and the Police Commissioner is the only judge, of the financial ability of the city to expend large additional sums for salaries. It is the particular duty of the Police Commissioner on the other hand to see that the efficiency and proper balance of the Police Department are not injured by changes in salaries in one grade unaccompanied by like changes in those paid in other grades. Should the Mayor decide that the city is unable to pay the larger salaries asked for, it would be useless to proceed with a consideration in detail of the merits of the case. In any event I should doubt the value of a hearing in the ordinary sense of the term, my belief, as heretofore expressed to you informally, being that on a proposition so easily understood the best course would be the presentation in writing of as full and clear a statement as you might choose to prepare.

In submitting my estimates for the next fiscal year I shall inform his Honor the Mayor of the receipt of the petition to which you refer and shall furnish to him an estimate of the cost involved in granting it, such cost including increases for sergeants, lieutenants and inspectors in accordance with their relative rank.

This is all that I can do at the present time, any future action by me awaiting in the first instance the decision of the Mayor on the broad question of the ability of the city to pay.

Respectfully,

STEPHEN O'MEARA,
Police Commissioner.

The additional cost which the granting of the petitions would involve may be stated as follows:

There are twenty-four inspectors who have served in that grade three years or more and would receive an increase of $400 each, and six who have served less than three years and would receive an increase of $200 each.

There are twenty-four lieutenants who have served in that grade three years or more and would receive an increase of $400 each, and fifteen who have served less than three years and would receive an increase of $200 each.

There are forty-eight sergeants who have served in that grade three years or more and would receive an increase of $300 each, and thirty-eight who have served less than three years and would receive an increase of $150 each.

There are 748 patrolmen who have served six years or more, eighty who are in their sixth year and thirty-seven who are in their fifth year. The 748 patrolmen would be increased $200 a year each, and the 117 (80 and 37) would be increased $100 a year each.

In tabular form, therefore, the annual increase involved in the proposed changes may be stated approximately as follows:

748 patrolmen, at $200 each	$149,600 00
117 patrolmen, at $100 each	11,700 00
48 sergeants, at $300 each	14,400 00
38 sergeants, at $150 each	5,700 00
24 lieutenants, at $400 each	9,600 00
15 lieutenants, at $200 each	3,000 00
24 inspectors, at $400 each	9,600 00
6 inspectors, at $200 each	1,200 00
Total	$204,800 00

STRENGTH OF THE FORCE.

In nine years the net increase in the number of patrolmen available for daily duty has been about ninety. The additions have been slightly more than double that

number, but those in excess of it were appointed in accordance with the provisions of chapter 513, Acts of 1907, which required that each member of the force should be relieved from service one day in fifteen. The act went into effect six months after its acceptance by the Mayor and City Council, and appointments of additional patrolmen in proper proportion to the whole number were made by the Police Commissioner in accordance with the directions to that effect contained in the second section.

I have always been aware that many more patrolmen could be employed to the advantage of the public, but the knowledge that practically all other branches of the city's service were in similar need, greater or less as the case might be, restrained me from urging the necessities of the Police Department. But conditions arose in the past summer which led your Honor to say that you would give your consent, as provided by law, to the appointment of such additional patrolmen as might be needed. Commanding officers were thereupon instructed by me to report fully in writing on the needs of their respective divisions, with specific information as to the uses to be made of any additional patrolmen for whom they might ask. A synopsis of the reports was sent to you on the third of August in a letter which is doubtless in the files of your office.

The whole number of new men deemed by the commanding officers to be needed was 119, but no increase was authorized, presumably because of the condition of the appropriations. As a new fiscal year is about to begin I recommend to your Honor that you approve the appointment of 119 additional patrolmen or such other number as in your judgment the city can afford to maintain. If the full number were authorized to be appointed at the rate of fifteen each month, beginning March 1, the additional cost for the fiscal year 1911–12 at $2 a day would be as follows:

March 1, 15 men, 327 days	$10,110 00
April 1, 15 men, 306 days	9,180 00
May 1, 15 men, 276 days	8,280 00
June 1, 15 men, 245 days	7,350 00
July 1, 15 men, 215 days	6,450 00
August 1, 15 men, 184 days	5,520 00
Sept. 1, 15 men, 153 days	4,590 00
Oct. 1, 14 men, 123 days	3,444 00
Totals, 119 men	$54,924 00

The necessity for adding the whole or any part of this sum to the estimates depends upon your Honor's decision in the matter of authorizing an increase in the patrol force.

I am,

Respectfully,

STEPHEN O'MEARA,
Police Commissioner for the City of Boston.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

SIR,— Complying with the request contained in circular No. 11 from your office calling for an estimate of the probable expense of the Police Department for the fiscal year 1911–12, I beg to submit herewith in detail a statement showing the amount required to pay the pay rolls of the active force and pensioned policemen, the expense of the house of detention, police signal service, listing male residents twenty years of age or more, and verifying the names of women voters. This estimate shows that the total amount required is $2,252,400.20, of which $1,930,997.91 will be required to pay department pay rolls, $131,798.75 to pay pensions to retired men, $24,019.99 to pay for police listing and $165,583.55 to pay for all other expense.

It is estimated that the income of this department for the coming year will be $57,444.64, from the following sources:

For dog license fees	$29,155 00
For miscellaneous license fees	21,129 00
For sale of unclaimed and condemned property	700 78
For badges, maps, etc.	459 86
For police service to Board of Health	6,000 00
Total	$57,444 64

Respectfully submitted,

STEPHEN O'MEARA,
Police Commissioner for the City of Boston.

PRINTING DEPARTMENT.

BOSTON, October 31, 1910.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

SIR,— The expenses of the Printing Department are entirely met from revenue received for printing.

I am inclosing herewith estimate of the amount required for printing, stock and binding for executive and city documents for the coming fiscal year, based upon requirements on the same account for the year past. I am also inclosing an estimate of the cost of producing reports of the City Council proceedings for the same period.

Very respectfully,

JAMES H. SMYTH,
Superintendent of Printing.

City Documents.*

Printing, stock and binding executive and city documents	$38,000 00

City Council Proceedings.*

Estimate of cost of printing City Council proceedings:

Stenographic reports	$3,000 00
Compiling index	1,000 00
Printing and binding	8,000 00
	$12,000 00

* Also given under City Council, page 55.

PUBLIC BUILDINGS DEPARTMENT.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

I am requesting an increase of appropriation because I find much painting work is required in the various buildings and offices in charge of this department. The City Hall corridors, Faneuil Hall and other buildings have not been painted for many years. The valuable paintings in Faneuil Hall should have prompt attention and about 900 new chairs should be purchased to replace the old seats now in that building. The Assessing Department requires a metal counter with filing compartments for their books and records as required by law. The Collecting Department desires its quarters enlarged, also a metal counter with compartments for books, etc. New flooring and a metal ceiling are required in passageways of the Quincy Market, also general repairs on practically all buildings.

Estimate includes an item of about $4,500 for water, as shower baths, swimming pools, etc., consume a large quantity.

The street assessment on Columbia road, amounting to about $1,200 as levied, will have to be paid this coming year.

The contemplated changes in City Hall for the new Department of Public Works will require an expenditure of several thousand dollars for alterations and furnishings.

The Curtis Hall building, which is now being reconstructed as a gymnasium with shower baths and swimming pool, will probably be ready for occupancy on August 1, 1911, and an item of about $14,000 is included in this estimate for the installation of gymnasium apparatus and for maintenance of the building for the last six months of the financial year.

M. J. FISH,
Superintendent of Public Buildings.

The increase desired for the four firemen will be merely a restoration of their wages to the scale at one time received by them. The excess number of employees shown in 1910 and 1911 is really no increase,

as the employees were transferred from the City Messenger's Department on February 7, 1910, when this department assumed the care, cleaning, etc., of the City Hall building.

PUBLIC GROUNDS DEPARTMENT.

Hon. John F. Fitzgerald,
Mayor of the City of Boston:

Dear Sir,— In making our returns we have estimated our needs for the year 1911 along the lines of expenditure for 1910, with an increase in the Public Garden division of $800, to be expended on the repairs on the garden bridge.

You will also note that we have recommended an additional appropriation of $5,000 for street trees. To successfully suppress the leopard moth, which is at present making great headway and rapidly destroying the beauty of our street trees, eventually killing them, extra funds are needed.

Another important item to which we would call attention is the condition of the historic monument on Thomas park, South Boston. If not repaired within a short time, the monument will be unsafe. An estimate of repairs has been rendered by the architects, as also by the Engineering Department of the city, and both agree that these repairs cannot be covered by an amount less than $3,000. An amount of $450, we estimate, will complete the work of improving Wellesley park, begun in 1910, upon which $700 has already been expended.

As we now anticipate, the general expenditures of the department will not, with these exceptions, differ very widely from 1910.

Respectfully,

D. H. Sullivan,
Superintendent.

DEPARTMENT OF PUBLIC WORKS.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

The estimate attached covers the needs of the proposed Department of Public Works, which will include the present Engineering Department, the Water Department and the Street Department. The total estimate is $5,228,207.39, as against $5,006,785.52 for the same departments last year.

The increase in the Central Office is tentative, and will take care of the extra amount of printing, etc., which the change in organization involves. The increase in the Highway Division is to provide for additional permanent work, and the equalization of salaries of subforemen and inspectors. The increase in the Bridge Division is $14,000, to provide for an increase in pay of the assistant drawtenders, $4,000 for three additional painters and three additional laborers, and the rest will

provide for new work that may be necessary. The estimate of the Lamp Division is based on the present contracts and it is certainly hoped that the city will secure much more favorable contracts than we have at present for street lighting, and consequently reduce the estimate for the Lamp Division. The increase in the Sanitary Division is due to the increase in population and the scarcity of dumps, necessitating longer and more expensive haulage. The water estimate is shown by the present Water Commissioner.

These estimates are based on figures furnished by the subordinate officials of the department and on the estimates of 1910, and if during the year it is found that the interests of the city do not require the expenditure of the total estimate under each item, the money will not be expended. I look for much more efficient results in the year 1911 than in 1910; in other words, I expect much more work in 1911 than we have been able to secure for the same amount of money in 1910.

The above estimate under the proposed Public Works Department will be grouped as follows:

Central office	$25,000 00
Highway	3,475,811 39
Sewer and water	1,210,000 00
Bridge and ferry	517,396 00

SOLDIERS' RELIEF DEPARTMENT.

It is gratifying to be able to report that a considerable decrease has been made in the expenditures of this department, owing to the addition of three officials to the working force as recommended by the soldiers' relief committee of the City Council and approved by his Honor the Mayor. This increase has relieved the visitors from office work and permitted them to devote their whole time to their legitimate duties, hence the decrease.

As far as can be ascertained practically all of the beneficiaries now on the roll are needy and deserving, therefore the unusual decrease will probably cease with the incoming year, a fact which affects largely the estimates of this department for 1911–12.

Soldiers' Relief Commissioner.

STATISTICS DEPARTMENT.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

The estimates herewith presented ask for a total appropriation of $12,000, or $1,000 more than the appropriation for the current year. The increased amount is asked for in order that the department may (1) secure another statistician, who is much needed, and (2) be enabled to compile a complete register of all real estate belonging to the city, as the City Council has requested it to do, and (3) to publish various special statistical monographs which are contemplated or in preparation.

The appropriation requisite for the publication of the *City Record* is estimated by Mr. J. A. Murphy, the editor of the *City Record*, at nothing, as he estimates that the revenue will more than cover the necessary expenditures. See appended estimates for *City Record.*

Respectfully submitted for the Board,

F. SPENCER BALDWIN (per E. M. H.),
Chairman.

STREET LAYING-OUT DEPARTMENT.

December 19, 1910.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

DEAR SIR,— In submitting the annual estimates of the expenditures of the Street Laying-Out Department for the fiscal year 1911–12 the Board of Street Commissioners begs to say that it has held as closely as possible to the expenditures of 1910–11. Because of the consolidation of the Street, Water and Engineering Departments changes are made necessary in the engineering division of this department, which add to the cost of maintenance of the division and make necessary an increase in the department appropriation. The details of this increase are set forth in the figures prepared by the chief engineer of the division, which form a part of the estimates of this department.

The Board desires to call to your attention the fact that there are nine skilled men attached to the engineering division of this department whose duties are largely in connection with sewerage works, and who are paid from the sewerage works loan. The Board believes that they should be carried on the maintenance roll of either this department or of the Sewer Division of the Street Department. The total of their salaries is $9,158.25, and if they are to be carried by this department the estimates ought to be increased by this amount, making the total for the department $101,745.41.

Very truly yours,

J. J. O'CALLAGHAN,
Secretary.

The surveying division of the Engineering Department has been maintained at an expense of about $33,000.

If in the consolidation of departments the whole or any part of that division is transferred to the Street Laying-Out Department the estimates as above outlined should be increased accordingly.

The amount asked for by way of salaries is increased because the Engineering Department has previously paid $1,400 of the salary of the chief and $1,400 of the salary of the assistant chief. This will be impossible on account of the consolidation of departments. It is desired to transfer a draughtsman from the Engineering Department whose salary is $1,300, and it is expected that this department will be obliged to take a conveyancer from the sewerage works at a salary of $1,095.50 and a rodman whose salary is $782.50.

The balance of the increase is accounted for by the fact that during the year 1910, by reason of deaths and suspensions, some of the men did not work full time.

WIRE DEPARTMENT.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

The estimates for 1911 over estimated expenditures for 1910 show an increase of $3,384.40. This increase is due to the filling of the position of chief inspector of the exterior division, which was vacated by death in September, 1910, the position being vacant for several months; to the addition of an inspector at $1,000 per annum to the interior wiring division; to the increase in salaries of nine employees, aggregating $1,000 per

annum; to the addition to the force of an office boy at $312 per annum; and to the proposed addition of a stenographer at $800 per annum.

JAMES E. COLE,
Commissioner of Wires.

COUNTY BUILDINGS.

The increase asked for at the courthouse, Pemberton square, is caused by the enlargement of the building, necessitating additional expenditure for fuel, light, repairs and furnishings, also estimate of $2,000 for water, which has not been paid for in past years.

The estimate for 1911 for the Land Court and Jury Waived Session is included in that of the courthouse, Pemberton square, as the same are now located in the said building.

The increase requested on repairs and alterations on the seven district court buildings is required on account of painting of the interior and exterior of the several buildings, also to provide quarters for a juvenile court room at the Charlestown Court, and for water. The increase of $500 for furniture is to provide same for the new juvenile court at Charlestown and also cases for filing of records at Roxbury Courthouse.

SUFFOLK COUNTY COURTHOUSE.

BOSTON, November 7, 1910.

HON. JOHN F. FITZGERALD,

Mayor of the City of Boston:

SIR,— The estimated amount of money deemed necessary for the care of the courthouse in Suffolk County and keeping the same in proper condition and for removing the ashes and snow during the financial year commencing February 1, 1911, and ending January 31, 1912, will be as follows, viz.:

Salaries and wages	$36,000 00
Floor washing and cleaning	4,000 00
Window washing and jobbing labor . . .	1,000 00
Laundry work	450 00
Removing ashes and snow	400 00
Telephone exchange	2,000 00
New carpets, cleaning and repairing old ones .	700 00
Cleaning woodwork, walls and ceilings of offices and corridors	1,200 00
	$45,750 00

On account of the removal of the Registry of Deeds and Law Library to their new quarters on the upper floors of the courthouse, the Supreme Judicial Court have authorized the employment of an extra assistant engineer and an elevator man, who have been employed for some time. Also when the Land Court and Superior Court Session without jury moved into the building, they authorized the employment of an extra janitor.

These additions of employees add $205 per month to the pay roll. The Courthouse Commissioners are turning over court rooms from time to time, and it will be necessary before long to add an assistant engineer, two elevator men, two janitors and two scrub women to our force, and the salaries of these additional persons I have provided for in the above estimate. How soon they will be needed I do not know, but I am informed by the engineers in the employ of the Courthouse Commissioners that when the courthouse is fully completed the present cost of operating the building will be increased fully 70 per cent.

Respectfully submitted,

FRED H. SEAVEY,
Custodian.

SUFFOLK COUNTY JAIL.

Estimated fines at jail	3,000 00
Estimated board of United States prisoners and witnesses	500 00
Estimated board of poor debtors	150 00
Estimated from sale of old materials	50 00
	$23,700 00

Respectfully submitted,

FRED H. SEAVEY,

Sheriff and Keeper of Suffolk County Jail.

REGISTRY OF DEEDS.

HON. JOHN F. FITZGERALD,

Mayor of the City of Boston:

DEAR SIR,— I estimate that the needs of the Suffolk Registry of Deeds for the fiscal year 1911–12 will require an appropriation of $57,000. This is an increase of $4,000 over the amount asked for by me for the current fiscal year, and is due to the following causes:

1. The employment of a telephone operator in the new record hall to take care of the calls on the four telephones which have been installed.
2. The employment of an office boy.
3. At least 600 of the record books in the department will have to be rebound during the coming year. The bindings of many of these books have been worn out for some time, and I have deferred the matter of binding until the books were placed in the new steel fireproof cases which have just been installed in the new record hall. The statute regarding the preservation of public records absolutely requires that this work should be done, so that it cannot be further postponed. This binding will cost upwards of $2,500.

Of course the above estimate is only approximate, as our expenditures depend very largely upon the volume of real estate transactions within the county. The copyists are paid on the piece-work basis, and, if there

should be a large increase in the volume of business, of course there will be a corresponding increase in the amount expended for copying. Such an increase, however, would be offset by the additional revenue received from any increase in the number of instruments recorded.

Respectfully yours,

WILLIAM T. A. FITZGERALD,
Register.

INDEX COMMISSIONERS.

BOSTON, December 16, 1910.

To His Honor the Mayor and to the Auditor of the City of Boston:

GENTLEMEN,— The Board of Index Commissioners have voted to take up and make a consolidation of the Annual Grantor Indexes to the instruments recorded in the Suffolk Registry of Deeds during the time covered by the years 1900–10, both inclusive. The closing of the current year 1910 brings us to a place where this new consolidation becomes advisable and necessary. It will take about three years, possibly a little longer than this, to complete the work.

In accordance with chapter 271 of the Acts of 1909, the Board respectfully inform you that they estimate the expenses of their undertakings and prospective expenditures for the year beginning on the first day of February, 1911, at the sum of $15,000. This estimate includes the expense of stationery and of binding and making up the new volumes that will be made during said year.

The Board have authorized me to furnish you with this estimate.

In behalf of the Index Commissioners.

Yours respectfully,

CHARLES A. DREW.

REGISTRY OF PROBATE AND PROBATE COURT.

BOSTON, November 9, 1910.

HON. JOHN F. FITZGERALD,
Mayor of Boston:

DEAR SIR,— In accordance with your request I transmit herewith a detailed statement of expenditures for five years, together with estimates for the year 1911–12. The salaries of the court officer and court messenger and the expenditures for auditor's fees, which are not under the jurisdiction of the register of probate, are payable by the county and are included in this statement.

The statutes of the Commonwealth provide that $7,000 shall be paid by the county for clerical assistance and such additional amounts as the county commissioners may by vote approve. I respectfully request that the City Council, acting as county commissioners, after the passage of the appropriation bill, pass an order authorizing the expenditure of $15,740 for clerical assistance in addition to the $7,000 provided for by statute. The amount requested is $240 in excess of the expenditure authorized by the county commissioners for the year 1910–11.

Yours very respectfully,

ARTHUR W. DOLAN,
Register.

The above estimates contemplate the following increases in salaries:

1. Four clerks from $840 to $900 per annum. These clerks have each been employed in the Registry of Probate for seventeen years.
2. One clerk from $780 to $840 per annum. This clerk has been in the service ten years.
3. One clerk from $720 to $780 per annum.
4. Three clerks from $660 to $720 per annum.
5. One clerk from $600 to $660 per annum.

As to 3, 4 and 5 it is the custom to employ clerks at $600 per annum and to grant yearly increases of $60 up to $780. The increases proposed in 3, 4 and 5 are for this purpose.

SUPREME JUDICIAL COURT.

November 14, 1910.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

DEAR SIR,— Pursuant to your request I have prepared and herewith submit an estimate of the amount necessary to be appropriated for the maintenance of the department of the Supreme Judicial Court for the County of Suffolk for the ensuing year. I desire to call attention to the suggestions concerning increases in the salaries of certain of the office clerks, and while believing in the justice of such increase I wish to be guided by the judgment of the committee in that regard.

Very truly yours,

WALTER F. FREDERICK,
Clerk.

The expenditure for services of auditors and masters is entirely within the control of the court and the amount is dependent upon the nature of the business which comes before the court. In any year it may be much greater or much less than in previous years. The estimate for the ensuing year is based upon the expenditure of previous years, plus a margin for any possible increase.

The fees for jurors depends upon the length of the jury sittings. In the present year the sittings were the shortest and the jurors' fees the smallest in the history of the court, but it is unlikely that this will happen again.

* Included in officers' salaries.

The office clerks employed in this department are paid much less for their services than the clerks performing corresponding services in other departments. Eight clerks are now paid $650 each and one $750 per year. In the appropriation for the year 1910 an additional sum of $700 was included for the purpose of making a slight increase in the salaries of these nine clerks, and the committee are now requested to consider whether a further sum of about $750 shall be allowed for the purpose of further increasing these salaries.

In the years 1907 and 1908 some of the clerks were suspended until their future duties could be determined. The wages of these clerks are combined in the statements for those years.

DISTRICT ATTORNEY, SUFFOLK DISTRICT.

BOSTON, November 9, 1910.

HON. JOHN F. FITZGERALD,
Mayor of Boston, City Hall, Boston:

DEAR SIR,— Owing to the uncertainty of the number of entries of criminal cases, the number of trials and the expenses attending them, it is impossible to make any satisfactory estimate of expenses for the coming year for several items.

I estimate that the probable outlay for next year for the District Attorney's office, exclusive of the clerk's office and the court, will be $20,900, itemized as follows:

Stenographers' reports and copies	$5,000 00
Traveling expenses of officers	6,500 00
Experts	4,500 00
Examination of jury list	300 00
Service of civil writs	400 00
Special counsel	1,500 00
Stenographers	1,500 00
Messenger	1,200 00
	$20,900 00

Very truly yours,

JOSEPH C. PELLETIER,
District Attorney.

MUNICIPAL COURT, CITY OF BOSTON, CRIMINAL SESSION.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

Both the expenses and the revenue of this court are so uncertain that an estimate cannot be reliable.

It will be observed that there was in the three years 1907–08–09, an annual increase of several thousand dollars in the revenue, while in the present year, to date, there has been a decrease of about eighteen thousand dollars. One of the principal causes of this decrease is the enactment by the Legislature by which fines collected in automobile cases were turned over to the state instead of the city. Prosecutions for violation of traffic regulations are also fewer.

FRED C. INGALLS,
Clerk.

PRISON VANS.

The prison vans of the Municipal Court, Criminal Session, are owned by the County of Suffolk. The county pays the drivers' wages and the vans are maintained by the Street Department, Sanitary Division, which renders a bill each year for the board of horses, repairs, etc. The amount of this bill and of the drivers' wages is given in the table, Expenditures for Five Years by Departmental Divisions.

MUNICIPAL COURT, CHARLESTOWN.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

SIR,— It is difficult to estimate, with any degree of accuracy, the expenditures for next year, as they depend, in large measure, on the amount of business that may be brought before the court, a matter over which none of the officials of the court have any control.

Clerk.

MUNICIPAL COURT, ROXBURY DISTRICT.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

The business of the court has increased during the last five years nearly 50 per cent — from 5,244 cases in 1905 to 7,686 in 1910.

It will be necessary to have an additional probation officer at a salary of $1,500 a year and an increase of salary for two court officers. The salary of the court

officers was fixed by the Legislature in 1885 at $1,200 per year. At that time the business of the court was less than 3,000 cases a year.

The new court room for juveniles is almost finished and will require a telephone service for the probation officers.

MAURICE J. O'CONNELL,
Clerk.

LAND COURT.

BOSTON, November 1, 1910.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

DEAR SIR,— The County of Suffolk under section 1, chapter 128, Revised Laws, is required to provide suitable rooms for the sittings of the court and necessary books, blanks and stationery, meaning in substance, I take it, that the county pays the general office expenses exclusive of all salaries except court officers, which is required by section 16 of said chapter. The item of postage may seem large compared with the other expenses, but is occasioned by the requirement of law that all our official notices have to be sent by registered mail, which now costs 12 cents per letter.

The principal expense which the county has heretofore been under, namely, for rent, will be abolished by our removal to the new quarters provided for the Land Court in the courthouse.

Yours truly,

C. C. SMITH,
Recorder.

MEDICAL EXAMINER, SOUTHERN DISTRICT.

As will be seen by the appended table, the duties of the Medical Examiner's Department in Suffolk County have increased by leaps and bounds in the past few years. This marked increase arises in large part through the reference to the Medical Examiner's Department of many cases of sudden death which were formerly referred to the Board of Health. The wisdom of this step is indicated by the detection of several cases of crime among the group of cases formerly passed by the Board of Health. Under the present division of the county about three-fifths of the cases (nearly twelve hundred) arise in the Southern District. The ground to be covered is large and most of the cases are looked upon as emergencies, requiring immediate attention.

The purchase of an automobile for the Southern District was delayed through the long sickness of my predecessor, Dr. William McDonald, so that the purchase, an extraordinary expense, came in the fiscal year ending February 1, 1911.

The morgue used by the Southern District is a part of the Boston City Hospital, and its staff are employed by the hospital. Although, when the Pathological Building was constructed, it was intended to supply an office for the Medical Examiner, such office was not established until this year. With the frequently changing help it was often impossible for friends or relatives of individuals who died suddenly to obtain satisfactory information from the morgue staff. The establishment of this office with a responsible man in charge has overcome this difficulty.

The Medical Examiner is required to take charge of the property of individuals dying suddenly without friends. As much as $30,000 worth of property has been in my hands at one time. The caring for this property and its delivery to the proper persons has been simplified by the service of the office.

The fiscal year ending February 1, 1912, should see a smaller expenditure of money than the year just closing. The expenses incident to the establishment of the office at the Boston City Hospital and the purchase of an automobile are extraordinary. The only additional expense which at present appears to be desirable will be for the purchase of a camera for photographing exhibits and unknown dead and for the advertising more widely of the descriptions of unknown dead in order to facilitate their identification. These will call for very small sums.

Respectfully submitted,

TIMOTHY LEARY, M. D.

* In 1910 Dr. Magrath covered the Southern District for three months, but the expenses of the district were charged to its expense account. As Associate Medical Examiner I served six weeks in the Southern District in addition to the regular one month's service. The expenses of my additional service were borne by the Associate Medical Examiner's expense account until this was exhausted, so that the total charge is less than it should be.

EARLY COURT RECORDS.

BOSTON, November 22, 1910.

HON. JOHN F. FITZGERALD,
Mayor of the City of Boston:

DEAR SIR,— Under orders of the Board of Aldermen, acting as County Commissioners, passed December 22, 1890, and June 8, 1896, the Clerk of the Supreme Judicial Court was authorized to prepare, publish and distribute

all the records of the courts held by the Governor and Assistants for the Colony of Massachusetts Bay from 1630 to 1692, known as the Records of the Court of Assistants. This work was begun and carried on by my predecessor, Hon. John Noble, until his resignation in 1908, two volumes being published and distributed, and a third and final volume partially completed.

Mr. Noble had personally supervised this work and was assisted by William P. Upham, Esq. Both Mr. Noble and Mr. Upham are now deceased, and upon my assuming charge of the office it became necessary for me to make a study of this particular work in order to acquaint myself sufficiently with it to complete the third volume, which I now feel that I can do.

At the date of Mr. Noble's resignation Volume III. was about one-third in type in the printing office of Rockwell & Churchill, who have not been paid for any of their work upon it. It is estimated that the expense of publishing this third volume will be between $1,600 and $1,800. This includes only the cost of printing, binding, etc. No charge whatsoever will be made by me or any employee of this office in connection therewith.

Under previous appropriations for this work there was an unexpended balance which would have been nearly sufficient to meet the expense of Volume III., but I am informed by the auditor that this balance has not been carried forward in the current appropriations, having been suffered to lapse. I believe that $1,700 is a conservative estimate of the amount necessary to publish Volume III., and I recommend that in the appropriations for the ensuing year said sum be provided therefor.

Very truly yours,

Walter F. Frederick,
Clerk.

Secretary Hubert Pope has served in that position since 1895. Up to February, 1910, his salary was $2,500 per year; at that time it was reduced to $2,000. I feel, because of Mr. Pope's experience, knowledge and efficiency, that his salary should be increased from $2,000 to, at least, $2,250 per year.

William J. Graham, Clerk of Accounts, has served faithfully in this department for nearly twenty years. His salary is now $2,000 per year. On February 11, 1910, the amount of $125 per year, which he received for additional work upon the books at the House of Correction at Deer Island, was stricken off. Because of his experience, knowledge and faithfulness I recommend

that $125 be added to his salary at this office, making his salary $2,125 per year.

The probation work at this office has increased largely in the last year and the work of the clerks employed in that particular branch is considerably more than formerly. These clerks have performed faithfully and conscientiously the work assigned to them, and I feel that their wages are too low, and I therefore recommend that the salary of George F. H. Murray be increased from $1,100 to $1,300 per year, and that of Henry J. Quinn from $1,100 to $1,300 per year.

Eva L. Connor, the stenographer in this department, has for many years worked with a thorough knowledge and understanding of the work required of her and has always faithfully and intelligently performed her duties. I feel that from comparison with others who are doing a similar line of work, and because of the great increase in her duties at this office, her salary should be increased from $780 to, at least, $900 per year.

G. Arthur Tappen, messenger, whose salary is now $800 per year, I feel should receive $900 because of his general efficiency and the good work which he performs.

In order that the probation work in this department may be brought up closer to the standard which I have in mind, and that cases which are paroled by the commissioner may receive more personal attention from visiting at the homes and investigating circumstances previous to their parole, and following up the conduct of each individual and their conditions after their parole, as well as to keep a full and sufficient record of the doings of this particular work, I feel that it will be necessary to employ two additional clerks and visitors. I therefore request that provision be made for the employment of these two clerks at a salary of $1,100 each per year, making a total of $2,200.

On the steamer "Monitor" I find that the engineer, whose salary is now $1,400 per year, because of his great efficiency and experience has been able to do the repairs on the engine and boiler, and has thereby saved the city a considerable expense. I therefore recommend his salary to be increased from $1,400 to $1,500 per year.

I also ask that some provision be made for an additional seaman and watchman, and it is my intention to transfer the assistant watchman, who is now receiving a salary of $720 per year, to the position of seaman. I therefore ask that money be appropriated in the appropriation of 1911 to fill such a vacancy in the position of assistant watchman.

In November, 1910, I established a position and appointed a woman as matron at Eastern Avenue Wharf. This I thought necessary because of the large number of women prisoners who are detained sometimes for a considerable length of time on our wharf in transit to Deer Island, as well as on account of the large number of old and feeble women who are on their way as patients to the institution at Long Island. I feel that it is absolutely necessary that these infirm women should have the attention of a woman who has had experience and who can give them the attention that is necessary. I therefore ask that $480 per year be appropriated in the 1911 year's appropriation for this purpose.

The engine and boiler on the steamer "Monitor" will require a considerable amount of repairs, as they have not been overhauled for six years, and if not attended to immediately they will rapidly deteriorate. I therefore ask that the sum of $1,300 be provided for this purpose. Because of the longer time it will be required to make repairs on the steamer the item of hiring a steamer will necessarily be increased and I therefore ask $200 for this item.

In the matter of water, if we are required to pay the city meter rates, I estimate that it will cost us $750 for this item, and I therefore ask that a provision be made in 1911 appropriation for this purpose.

William Hendry, deputy master, has been in the service of the institution since April, 1893. His salary is now $1,500 per year, and I consider him one of the most able officers in the business. I think that in order to retain his valuable services his salary should be

increased, and I therefore recommend and ask that an additional appropriation of $300 be provided for that purpose.

Charles S. Whitney, clerk, has served since 1898; his salary is now $1,200 per year, and because of his efficiency and arduous work I recommend that his salary be increased to $1,300 per year.

Margaret E. O'Neil, chief matron, has been at the institution for a great many years. She is one of the most efficient women in the care of women prisoners in the state, and I think that her ability should now be recognized by an increase in her salary. I therefore ask that provision be made to increase her salary from $600 to $660 per year.

In the matter of pensions, we have in our employ several veterans of the Civil War, and under the statutes they are likely to make application for retirement on one-half pay. I therefore ask that provision be made to the amount of $3,500 for this purpose.

Two additional permanent firemen are necessary at $600 each, and I ask that there be provided therefor the sum of $1,200.

Two additional officers at $480 each are needed, and I ask that there be provided therefor the sum of $960.

One additional male nurse is needed, and I ask that there be provided therefor the sum of $600.

In the matter of food at the institution it is rather difficult to estimate, but I believe that my request for $12,600 in advance of what we expended in 1910 is conservative.

It is the general opinion that our numbers will not be decreased, but rather increased, during the ensuing year, and that the prices of food stuffs will advance still further.

If we are to pay the city at meter rates for the use of water to flood our reservoir, I think it would be cheaper for us to buy ice in the market, and I estimate that the cost of the same would exceed $800 over what we paid last year.

The amount of about $2,000 for clothing in excess of last year I think is a reasonable and natural increase in the cost of same.

I ask for $500 additional over last year's expenditures for bedding, for the reason that our blankets have become worn and it will be necessary to replenish the same.

The increase in the estimate on fuel of $2,000 is caused by the fact that at the beginning of the year 1910 we had a considerable amount of coal on hand.

Because of new wiring and lights which are required, I ask for an increase of $615 over last year's expenditures for this purpose.

The library has become depleted because of long and constant use and should be replenished at once. I ask for an increase over last year's estimate of $120 for this purpose.

In the matter of gratuities the amount will vary from time to time according to circumstances. I think that $500 will be a fair estimate to cover this item, although it is $300 over last year's appropriation.

If, as indicated above, the institution is to be required to pay the city meter rates for water I estimate that it will cost our department about $10,000 therefor. This is in addition to any payments we have made for this purpose in previous years.

The necessary repairs on and in the institution have been greatly neglected for a number of years. The amount I ask for, $14,000, in addition to what we spent last year, is absolutely necessary to preserve the plant in proper condition and protect the buildings and the lives of the occupants. This estimate is made up of the following items:

Fire hose, which is now old and unfit	$500 00
Fire hydrants, which are now old and unfit	1,000 00
Machine shop for new tools and machines	800 00
Ten horse power motor for machine shop	300 00
Arc lights and search lights for the grounds about the buildings	1,000 00
New mangle in laundry	400 00
For the coal wharf — new coal stage and replanking of the old one, new piles, dredging, etc.	2,500 00
Telephone service now inadequate and a hindrance to the proper conduct of the institution	2,500 00
Steamer wharf, new piles and replanking, etc.	1,500 00
Repairs on the roof on the old and new prisons	1,500 00
New boiler in carpenter shop	2,000 00

ALLIED PRINTING TRADES UNION LABEL COUNCIL BOSTON MASS

[Document 45—1911.]

AUDITOR'S MONTHLY EXHIBIT.

GENERAL AND SPECIAL APPROPRIATIONS

FOR

1911-1912.

Auditing Department,
City Hall, Boston, February 1, 1911.

To the Mayor, City Council and Heads of Departments:

Sirs,— The undersigned, in compliance with chapter 486, section 25, of the Acts of 1909, and chapter 6, section 7, Revised Ordinances of 1898, herewith presents an exhibit for the present financial year of 1911–12, as shown in the books in his office February 1, 1911, including the February draft—being one month's draft—exhibiting the balances brought forward from 1910–11, the amounts drawn February 1, and the total expenditures; also a statement of the Debt, Sinking Funds and Right to Borrow January 31, 1911.

The February draft comprises pay rolls and bills payable February 1, 1911.

The Appropriation Bill for the financial year 1911–12 not having been passed, payments are made under authority of chapter 320 of the Acts of 1889.

Respectfully submitted,

J. Alfred Mitchell,
City Auditor.

WEST END STREET RAILWAY COMPANY.

THREE HUNDRED AND FORTY-FIRST LOCATION.

City of Boston,
In Board of Street Commissioners, January 31, 1911.

Ordered, That in addition to the rights heretofore granted to the West End Street Railway Company for locations for tracks in the streets of the City of Boston, said company shall have the right to construct, maintain and use an alteration of its existing locations as follows: On Centre street, West Roxbury district, at Lakeville place, an alteration of the easterly of the existing tracks; said tracks being substantially as shown by red lines on a plan made by A. L. Plimpton, dated December 30, 1910, and deposited in the office of the Superintendent of Streets; together with all necessary curves, crossovers, switches and connections.

And the consent of the Board of Street Commissioners is granted to said company to establish and maintain the overhead single trolley electric system of motive power in the operation of its cars on said location, and to erect, maintain and use iron poles, not less than twenty feet in height, at places indicated by red dots or circles on the aforesaid plan, or at such other places, to be shown by blue dots or circles on said plan, as may be approved by the Superintendent of Streets, and to place on said poles such wires and other appliances as the Commissioner of Wires shall approve.

The right to lay down the tracks located by this order is upon condition that the whole work of laying the same, the form of rail to be used, and the kind and quality of material used in paving said tracks, and the kind and locations of poles shall be under the direction and to the satisfaction of the Superintendent of Streets, and shall be approved by him. Also upon condition that said railway company shall accept this order, and shall file such acceptance with the Board of Street Commissioners in accordance with the provisions of statute law; otherwise it shall be null and void.

Passed. Approved by the Mayor February 7, 1911.

AUDITOR'S MONTHLY EXHIBIT.

GENERAL AND SPECIAL APPROPRIATIONS

FOR

1911-1912.

Auditing Department,
City Hall, Boston, March 1, 1911.

To the Mayor, City Council and Heads of Departments:

Sirs,— The undersigned, in compliance with chapter 486, section 25, of the Acts of 1909, and chapter 6, section 7, Revised Ordinances of 1898, herewith presents an exhibit for the present financial year of 1911–12, as shown in the books in his office March 1, 1911, including the March draft—being two months' drafts—exhibiting the balances brought forward from 1910–11, the amounts drawn March 1, and the total expenditures; also a statement of the Debt, Sinking Funds and Right to Borrow February 28, 1911.

The March draft comprises special payments and weekly pay rolls during the month of February and pay rolls and bills payable March 1, 1911.

The Appropriation Bill for the financial year 1911–12 not having been passed, payments are made under authority of chapter 320 of the Acts of 1889.

Respectfully submitted,

J. Alfred Mitchell,
City Auditor.

RULES OF THE CITY COUNCIL.

In City Council, March 6, 1911.

The special committee appointed to prepare rules for the government of the City Council for the current year report herewith the accompanying draft.

Respectfully submitted,

Walter Ballantyne,
Chairman.

President.

Rule 1. The president of the council shall take the chair at the hour to which the council shall have adjourned and shall call the members to order, and, a quorum being present shall cause the minutes of the preceding regular meeting to be read. In the absence of the president the senior member by age present shall preside until a presiding officer is chosen.

Rule 2. The president shall preserve decorum and order, may speak to points of order in preference to other members, and shall decide all questions of order, subject to an appeal. Any member may appeal from the decision of the chair, and, when properly seconded, no other business, except a motion to adjourn, shall be in order until the question on appeal has been decided. The question shall be put as follows:

"*Shall the decision of the chair stand as the judgment of the council?*" The vote shall be by a roll call, and it shall be decided in the affirmative unless a majority of the votes are to the contrary.

RULE 3. The president shall propound all motions in the order in which they are moved, unless the subsequent motion shall be previous in its nature, except that, in naming sums and fixing times, the largest sum and the longest time shall be put first.

RULE 4. The president shall, at the request of any member, make a division of a question when the sense will admit.

RULE 5. The president shall, without debate, decide all questions relating to priority of business to be acted upon.

RULE 6. The president shall declare all votes; but if any member doubts a vote, the president shall cause a rising vote to be taken, and, when any member so requests, shall cause the vote to be taken or verified by yeas and nays.

RULE 7. The president shall appoint all committees, fill all vacancies therein, and designate the rank of the members thereof.

RULE 8. When the president of the council or the president *pro tempore* shall desire to vacate the chair he may call any member to it; but such substitution shall not continue beyond an adjournment.

MOTIONS.

RULE 9. Every motion shall be reduced to writing if the president shall so direct.

RULE 10. A motion to strike out and insert shall be deemed indivisible; but a motion to strike out being lost shall not preclude amendment, or a motion to strike out and insert.

RULE 11. No motion or proposition of a subject different from that under consideration shall be admitted under color of amendment.

RULE 12. When an order or resolution relates to a subject which may properly be examined and reported upon by an existing committee of the city council, such order or resolution shall, upon presentation, be referred to such committee. When a motion is made to refer any subject, and different committees are proposed, the motion shall be put in the following order:

1. To a standing committee of the council.
2. To a special committee of the council.

RULE 13. After a motion has been put by the president it shall not be withdrawn except by unanimous consent.

RULE 14. When a question is under debate the following motions only shall be entertained, and in the order in which they stand arranged:

1. To adjourn.
2. To lay on the table.
3. To postpone to a day certain.
4. To commit.
5. To amend.
6. To postpone indefinitely.

RULE 15. A motion to adjourn shall be in order at any time, except on an immediate repetition, or pending a verification of a vote; and that motion, the motion to lay on the table, and the motion to take from the table, shall be decided without debate.

READINGS.

RULE 16. Every ordinance, order and resolution shall, unless rejected, have two several readings, both of which may take place at the same session, unless objection is made, *provided, however,* that all orders for the expenditure of money presented to, or reported upon by a committee of, the council, shall lie over for one week before final action thereon. Whenever the second reading immediately follows the first reading the document may be read by its title only; *provided,* that all orders for the sale of land other than school lands, all appropriations for the purchase of land other than for school purposes, and all loans voted by the city council shall require a vote of two-thirds of all the members of the city council, and shall be passed only after two separate readings and by two separate votes, the second of said readings and votes to be had not less than fourteen days after the first. Any member offering an order which is referred to a committee shall be given an opportunity of being heard on the same before a report is made thereon.

RECONSIDERATION.

RULE 17. When a vote has been passed any member may move a reconsideration thereof at the same meeting,

or he may give notice to the clerk, within twenty-four hours of the adjournment, of his intention to move a reconsideration at the next regular meeting; in which case the clerk shall retain possession of the papers until the next regular meeting; and when a motion for reconsideration is decided that vote shall not be reconsidered.

CONDUCT OF MEMBERS.

RULE 18. Every member when about to speak shall rise, address the chair, and wait until he is recognized, and in speaking shall confine himself to the question and avoid personalities. Any member who, in debate or otherwise, indulges in personalities or makes charges reflecting upon the character of another member shall make an apology in open session at the meeting when the offence is committed or at the next succeeding regular meeting, and, failing to do so, shall be named by the president or held in contempt and suspended from further participation in debate until said apology is made.

RULE 19. No member speaking shall, without his consent, be interrupted by another, except upon a point of order.

RULE 20. No member shall be permitted to vote on any question, or serve on any committee, where his private right is immediately concerned, distinct from the public interest.

RULE 21. Every member who shall be present when a question is put, where he is not excluded by interest, shall give his vote, unless the council for special reason shall excuse him. Application to be so excused on any question must be made before the council is divided, or before the calling of the yeas and nays; and such application shall be accompanied by a brief statement of the reasons, and shall be decided without debate.

STANDING COMMITTEES.

RULE 22. The following standing committees of the council, to consist of three members each, except where otherwise herein provided, and all other committees, unless otherwise provided for, or specially directed by the council, shall be appointed by the chair:

1. A committee, to be known as the *Executive Committee of the City Council*, to consist of all the members of the council.

2. A committee on *Inspection of Prisons*, to consist of all the members of the council.

3. A committee on *Appropriations*, to consist of all the members of the council, to whom shall be referred such appropriation orders as may be submitted to the council from time to time.

4. A committee on *Finance*, to consist of all the members of the council, to whom shall be referred all applications for expenditure which involve a loan, or a transfer of any part of an appropriation named in the general appropriation order.

5. A committee on *Ordinances*, to consist of all the members of the council, to whom shall be referred all ordinances introduced in the council, or transmitted to them by vote of any standing committee. Unless specially instructed, they shall pass upon the question of the form and legality of the ordinances so referred; they may append an order that such ordinance "ought not to pass" and give their reasons therefor, or report such ordinance in a new draft.

6. A committee on *Claims*, to consist of five councilors, to whom shall be referred all claims against the city arising from the act or neglect of any of its departments. They shall report annually a list of the claims awarded or approved by them, and the amount of money awarded or paid in settlement thereof.

7. A committee on *Legislative Matters*, to consist of five councilors, who shall, unless otherwise ordered, appear before the committees of the General Court and represent the interests of the city; *provided*, said committee shall not appear unless authorized by vote of the city council, and shall not, unless directed so to do by the city council, oppose any legislation petitioned for by the preceding city council.

8. A committee on *Printing*, to consist of three councilors, who shall have the charge of all printing, advertising or publishing ordered by the city council, as one of its contingent or incidental expenses, and the supply of all stationery or binding for the same purpose. The committee shall fix the number of copies to be printed of any document printed as above, the minimum, however, to be six hundred; and they shall have the right to make rules and regulations for the care, custody and distribution of all documents, books, pamphlets and maps by the city messenger.

9. A committee on *Public Lands*, to consist of three

councilors, to whom shall be referred all matters relating to public lands.

10. A committee on *County Accounts*, to consist of three councilors.

11. A committee on *Soldiers' Relief*, to consist of three councilors.

ORDER OF BUSINESS.

RULE 23. At every regular meeting of the council the order of business shall be as follows:

1. Communications from his honor the mayor.
2. Presentations of petitions, memorials and remonstrances.
3. Unfinished business of preceding meetings.
4. Reports of city officers.
5. Reports of committees.
6. Motions, orders and resolutions.

REPORT OF COMMITTEES.

RULE 24. Committees, to whom any matter is especially referred, shall report within three weeks or ask for further time.

SPECTATORS.

RULE 25. No person, except a member of the council, shall be permitted to occupy the seat of any member while the council is in session.

RULE 26. No person, excepting heads of departments, officials connected with the city council and reporters, shall be allowed in the anteroom or upon the floor of the council chamber while the council is in session. Spectators will be allowed in the gallery of the council chamber when the council is in session, and no one will be admitted to said gallery after the seats are occupied. The City Messenger shall enforce this rule.

BURIAL GROUNDS.

RULE 27. No permission for the use of land for the purpose of burial shall be granted until a public hearing shall have been given by the city council, after due notice has been served upon abutters, on the application for such permission.

SMOKING IN THE COUNCIL CHAMBER.

RULE 28. No smoking shall be allowed in the council chamber when the council is in session.

MEETINGS.

RULE 29. No meeting of any committee shall, without the consent of all members thereof, be called upon less notice than twenty-four hours from the time the clerk shall have mailed the notices or despatched them by special messenger.

FORM OF VOTES.

RULE 30. In all votes the form of expression shall be "Ordered" for everything by way of command, and the form shall be "Resolved" for everything expressing opinions, principles, facts or purposes.

TRANSFERS AND LOANS.

RULE 31. Every application for an additional appropriation, to be provided for by transfer or loan, shall be referred to the executive committee unless otherwise ordered, and no such additional appropriation shall be made until the said committee have reported thereon.

AMENDMENT AND SUSPENSION.

RULE 32. The foregoing rules shall not be altered, amended, suspended or repealed at any time, except by the votes of two-thirds of the members of the city council present and voting thereon.

GARBAGE AND REFUSE DISPOSAL.

Boston, March 6, 1911.

Statement by Mr. Louis K. Rourke, Commissioner of Public Works, before the Executive Committee of the City Council, City Hall, on the Subject of Proposed Contracts for the Disposition of Garbage and Refuse.

The hearing was held at four o'clock p. m., Chairman Attridge presiding.

Statement by Commissioner Louis K. Rourke.

Com. Rourke. Mr. Chairman and gentlemen, the Council is undoubtedly familiar with the report of the second special commission appointed by his Honor George A. Hibbard, Mayor of Boston, to investigate the subject of the collection and disposal of refuse, which contains about all that I can say or that anybody else can say about the refuse question in the City of Boston. As you know, last October we called for bids for the disposal of the city's refuse and received one bid, which was signed by a man named Beedle, whom I understand or found out later represented the embryonic Boston Disposal Company. I haven't that with me, but it called for 87 cents per ton for the disposal of all refuse.

After the rejection of this bid, Mr. Merrill, who was the promoter of this Boston Disposal Company, proceeded to organize a bona fide company, which I understand he has done, and I have here the names of the directors: Theodore G. Bremer, Albion F. Bemis, John

H. Gibbs, William J. Carlin, vice president, James Stewart Rusk, clerk, Edward N. Hastings, treasurer, Lawrence M. Stockton, Frederick H. Payne, president, and Mr. Merrill,— I don't know what his initials are.

After backing and filling considerably they have finally given me their ultimate proposition, which I have here drawn up in the way of a contract. Would you care to have me read it?

Coun. COLLINS. Yes, we would like to have it read.

Com. Rourke read the proposed contract, as follows:

"*Contract for Disposal of Refuse of the City of Boston.*

"The City of Boston, a municipal corporation of Massachusetts, and the Boston Disposal Company, hereinafter called Contractor, a business corporation of Massachusetts, agree for the term of ten (10) years from and including January 1, 1912, as follows" —

Mr. ROURKE. Our present garbage contract with the New England Sanitary people runs to January 1, 1912. This is supposed to run from that date.

"Article 1. The word 'officer' means the present commissioner in charge of the Department of Public Works of the city, and the person hereafter designated by the Mayor of the city to supervise for the time being the work under this contract,— 'scow' means any conveyance for moving refuse by water,— 'refuse' means garbage, ashes, waste paper, street sweepings, house dirt and other house rubbish, but does not include market waste, bricks, mortar, tiling, etc., or rubbish or waste resulting from building operations, or ashes from manufacturing plants or office buildings,— 'garbage' means refuse of an organic nature, consisting of swill or accumulations attending the preparation or decay of meats, fish, fowl, birds, vegetables, or food wastes containing not more than five (5) per cent in weight of other refuse or waste, but does not include market waste or street sweepings,— 'station' means a place including the land on which it stands and everything appertaining thereto, at which collections of refuse made by the city are to be delivered, and all thereof are to be provided and maintained in good repair by the city at its sole expense,— 'terminal' means a station aforesaid on tide water.

"Article 2. The city, conforming to sketches thereof furnished by the contractor and marked 'Sketches

Accompanying Boston Disposal Contract,' dated February, 1911, and with such changes therein as shall be agreed upon by the president of the contractor and the officer, shall furnish ready for use before December 31, 1911,— terminal at Fort Hill Wharf,— terminal at city yard, Freeport street, Dorchester,— terminal at city yard, Albany street,— station at Highland city yard, and — station at city yard, Western avenue, Brighton, and shall, without compensation therefor, furnish the contractor with reasonable access to, and use of, all stations, wharves and docks under the control of the Department of Public Works.

"Article 3. The city shall collect from all parts of the city, with the exception of what are now known as the East Boston and West Roxbury districts, the refuse aforesaid; deliver the garbage unmixed with any other refuse not herein authorized, into receptacles at the stations, or into scows at the terminals, and deliver all other refuse aforesaid at the nearest station or terminal.

"Article 4. The contractor, without compensation therefor — shall have the exclusive use of the stations, and at its own expense at any time, make changes therein agreed to by the officer, and shall keep in each station other than a terminal, during all working hours, one or more metallic receptacles sufficient to hold the garbage as it is brought thereto by the city,— shall keep at each terminal, so far as reasonably practicable, during the hours prescribed by the officer, sufficient, and conveniently placed, scows so that the refuse as it is brought thereto can be placed therein,— shall maintain in Boston Harbor a plant of sufficient capacity to reduce all refuse delivered by the city at the stations,— shall keep its transportation equipment plainly marked with the name of the contractor and designating numbers, and — shall require its employees at the stations to wear identifying uniforms approved by the officer.

"Article 5. The contractor — shall receive at the stations all market waste and ashes not required to be collected and delivered by the city as aforesaid, that shall be delivered and paid for by the party making delivery at a rate not to exceed five (5) cents per barrel,— may at the stations, if it so desires, sort out such parts of the refuse, other than garbage, as can be sorted and disposed of in a sanitary manner,— shall take the remainder from the stations to and into its scows and carry the same to its plant,— shall there

reduce by incineration or otherwise, the refuse,— shall dispose of all that remains after such reduction,— shall do all its work in a manner not objectionable to the public health and comfort, and without spilling or dropping refuse or putting any thereof, except liquid or effluent into tidal waters, and shall use such improved methods approved by the officer for doing its work as the contractor shall from time to time acquire, *provided, however*, that for a reasonable time in case of fire or extraordinary snow or ice, or process of law or other extraordinary condition interfering with the carrying out of its part of the contract, the contractor may use any reasonable methods of reduction and disposal or may have such extension of time as shall be agreed upon by the president of the contractor and the officer.

"Article 6. The contractor in carrying on its work —shall give preference in employment to citizens of Massachusetts, and if they cannot be had in sufficient numbers, to citizens of the United States; shall not request or require any laborer, workman or mechanic in his employ, or that of any sub-contractor or other person doing or contracting to do the whole or a part of the work to be done in this Commonwealth, to work more than eight hours in any one calendar day;— may direct how refuse shall be handled within the stations,— shall take out all permits and give all notices required by public authorities,— shall pay all persons doing work for the city free access to the work, and shall not interfere with them in doing it,— shall, when required by the officer for reasonable cause, dismiss any employee and keep him away from his work.

"Article 7. If the contractor shall fail to carry on its work as herein required, the officer may deliver to its president or clerk notice in writing signed by the Mayor of the city, of the failure, and if it shall continue for more than forty-eight (48) hours after the giving of the notice, the city, using any part of the labor, material, equipment or plant of the contractor with any other it desires, and by day labor or otherwise, may do the work which the contractor shall have failed to do; and if the failure shall have continued for more than five (5) successive days before the giving of the notice, and shall continue for forty-eight (48) hours thereafter, the city may cancel the contract.

"Article 8. The contractor shall assume the defence

of all claims and suits against the city, its agents or employees, arising from any act, failure or neglect of, or from the use of any patent, patent right, material or implement by the contractor, its agents or employees in doing the work; and shall pay all damages, costs and expenses of the city arising from any such claim or suit, or from any injury to the property of the city by said persons.

"Article 9. The city shall pay the contractor as follows:

First year, $234,940.
Second year the same as the previous year increased 2.1 per cent;
Third year the same as the previous year increased 2.1 per cent;
Fourth year the same as the previous year increased 2.1 per cent;
Fifht year the same as the previous year increased 2.1 per cent;
Sixth year the same as the previous year increased 2.1 per cent;
Seventh year the same as the previous year increased 2.1 per cent;
Eighth year the same as the previous year increased 2.1 per cent;
Ninth year the same as the previous year increased 2.1 per cent;
Tenth year the same as the previous year increased 2.1 per cent;

in monthly installments substantially equal on the first day of each month of each year beginning with February 1, 1912; and, on making any such payment, shall be thereby released from all claims of, or liability to the contractor for any act, failure or neglect of the city, its agents or employees, or for anything resulting to the contractor, its agents or employees, prior to the payment, except for any payment aforesaid due and unpaid; and the contractor, on accepting any such payment, shall be thereby released from all claims or liabilities to the city for any act, failure or neglect of the contractor, its agents or employees, prior to such payment.

"Article 10. If the city shall in any year make daily collections and deliveries of garbage (not including Sundays and holidays) for a period of not less than three successive months, the city may make deduction from any payment by it thereafter to be made to the

contractor, of the sum of $833.33 for each and every month during which such daily collections and deliveries of garbage shall have been made by the city to the contractor.

"Article 11. The city, on request of the contractor and of the New England Sanitary Product Company, shall allow said company to assign its contracts with the city for disposal of refuse, to the contractor.

"Article 12. The city shall not dispose of any of the refuse to be collected and delivered by it under this contract, nor allow any thereof, so far as it can prevent, to be disposed of, other than as herein provided, without the consent of the contractor; shall cause the garbage that is to be so collected and delivered to be kept, collected and delivered free from all other refuse and wastes (except the five (5) per cent hereinbefore specified in the definition of garbage), and shall, by ordinance and otherwise, co-operate with the contractor in carrying these provisions into effect; if any employee of the city shall violate any of the provisions he shall be discharged forthwith, and if the violation is done wilfully and knowingly, the city shall cause the employee to be prosecuted.

"Article 13. The city and the contractor shall allow any question arising under the contract to be determined by a majority of three persons, one selected by the president of the contractor, one by the officer, and the third by the two so selected, and all such determinations shall be conformed to; and said three persons, the officer, contractor and any person designated by either, may enter upon and inspect the property and work of the city of contractor at all times and places, and shall be provided with safe and proper facilities therefor."

Coun. BALLANTYNE. I would like to ask Mr. Rourke what it means by garbage in the first part of the contract.

Com. ROURKE. Garbage means refuse of an organic nature, consisting of swill or accumulations attending the preparation or decay of meats, fish, fowl, birds, vegetables, or food wastes containing not more than five per cent in weight of other refuse or waste, but does not include market waste or street sweepings.

Coun. BALLANTYNE. Then do I understand by this contract that the different matters have to be collected separately — the garbage and the ashes?

Com. ROURKE. The garbage must be kept separate from the ashes.

Coun. BALLANTYNE. The understanding has been right along that we were to try to obviate the present trouble by making one collection.

Com. ROURKE. The only way to make one collection would be by the use of incinerators.

Coun. BALLANTYNE. I understood that this company was to adopt a system of incinerators.

Com. ROURKE. No, they adopt the combined systems. They reduce the garbage. Of course, the garbage is where any profit may be in this refuse. They get the by-products of the refuse, which are grease and fertilizer base.

Coun. BALLANTYNE. The garbage is where they get the profit from reduction plants?

Com. ROURKE. Yes.

Coun. BALLANTYNE. Then I understand that, so far as collections are concerned, we will be no better off in that respect than we are at the present time?

Com. ROURKE. Not a bit. It is the same type of collection.

Chairman ATTRIDGE. Have you the letter from the Boston Disposal Company that accompanied that blank contract?

Com. ROURKE. No. They sent me several copies of this (referring to the proposed contract).

Chairman ATTRIDGE. Have you any letter from this company that contains the names of the officers of the company?

Com. ROURKE. No.

Chairman ATTRIDGE. Where did you get the names, if I may ask?

Com. ROURKE. These names the president, Mr. Payne, wrote off for me. I haven't any knowledge in regard to that matter except Mr. Payne's word and this statement.

Chairman ATTRIDGE. They have no office or letter head at the present time?

Com. ROURKE. Not that I know of.

Coun. BUCKLEY. Mr. Commissioner, did you advertise for bids?

Com. ROURKE. Yes, last October.

Coun. BUCKLEY. In the *City Record?*

Com. ROURKE. We advertised in the *City Record;* yes.

Coun. BUCKLEY. In the daily newspapers, too?

Com. ROURKE. Followed the regular form of advertising. We sent out something like twenty odd specifications, I think, and received one bid.

Coun. BUCKLEY. Why didn't the Sanitary Product Company bid? Don't they want to continue?

Com. ROURKE. From what they told me they are selling out lock, stock and barrel, to this outfit.

Coun. BUCKLEY. Now, wasn't there a company some years ago, or do you know,— not so many years ago, either, which offered to take this refuse and practically pay the city for it, for allowing the company to take it?

Com. ROURKE. I don't know, I am sure. I should certainly like to have an offer of that kind. I don't know of anything of the sort.

Coun. SMITH. Will you tell us what $234,000 figures out per ton?

Com. ROURKE. Fifty-four cents.

Coun. SMITH. As against 87 cents?

Com. ROURKE. As against 87 cents and that includes the haul from the Brighton station, about seven miles from the water front, and also from the Highland street station. I think a conservative figure for a haul is five cents a ton per mile. I don't think the city could do it for that. But at five cents a ton per mile for seven miles, you would have 35 cents a ton there for the haul alone.

Coun. COLLINS. How many times have you advertised for bids, Mr. Rourke?

Com. ROURKE. Well, I have only advertised once, last October.

Coun. COLLINS. And how many bidders were there?

Com. ROURKE. Received one bid.

Coun. COLLINS. Just one?

Com. ROURKE. Yes. I don't remember the exact number of specifications that were given out, but there were quite a few.

Coun. COLLINS. How does this compare per ton with the price which the New England Sanitary Product Company is charging at present?

Com. ROURKE. Oh, for the garbage, for the amount of tonnage with which they are dealing now, they are getting about 84 cents a ton.

Coun. COLLINS. Have you any idea how profitable that business has been?

Com. ROURKE. No, I have not. I have been

assured that they have paid for their plant and have paid less than 4 per cent. I have no method of confirming that, and know nothing about it. I know that in Columbus and Cleveland, where they are operating reduction plants, they claim that they have a good market for and are getting good price for their fertilizer base and their grease, and that they are paying for the operation of the company and a fair amount on depreciation. In other words, they are getting out of it even on their garbage alone. The other refuse is handled by so-called licensed scavengers.

Coun. COLLINS. Where do you propose to establish these stations?

Com. ROURKE. Well, you see, there is the terminal at Fort Hill Wharf. Whether we let the contract or not, as long as we are to continue to operate we must rebuild it. It is a nuisance. Undoubtedly the United States, which has erected appraisers' stores there, would demand that it be fixed up. Then, there would be the Albany street terminal, the terminal at the City yard, Freeport street, Dorchester, for which a loan has been authorized, and the inland stations would be at the Highland street yard, Roxbury, and at the City yard in Brighton, on Western avenue.

Coun. BALLANTYNE. Would the company do the hauling from those stations within these prices?

Com. ROURKE. Yes.

Coun. COLLINS. Assuming that those stations were established, don't you fancy that you would get tremendous rebukes from the respective neighborhoods in which the stations were established?

Com. ROURKE. I don't think so, Mr. Councilor. They will be properly ventilated, and they will be inclosed, whereas to-day we are dumping this stuff on open dumps. I cannot see how there would be any complaints. Of course, the people living close at hand might object to the teaming, perhaps, the noise of the teams, more than anything else.

Coun. COLLINS. The last question, I think, is perhaps the most important question we have to deal with,—that of binding the city for ten years. That seems to me to be a very big question.

Com. ROURKE. A very important question, and it requires a good deal of consideration and thought. It is very important.

Coun. COLLINS. Now, as to the respective merits of incineration as compared with the city establishing its own plant, what do you have to say as to that?

Com. ROURKE. I have investigated the two most modern plants in this country — in fact, the two practical incineration plants. One is at New Brighton, and it is run on what is called the scientific management basis about as nearly as anything that I have seen in that line. The figure they had got down to when I was there was $1.21 per ton. That is a small incinerator, however, of only about sixty tons capacity, if I remember rightly. I am giving these things from memory now, but I think they are more or less correct. The other plant is the Milwaukee incinerator, the largest one in the country, with 300 tons capacity. I spent a day there and went over it very carefully. The day I was there the labor alone of disposing of that refuse was 85 cents per ton, and the superintendent had been ordered to put on six more firemen the next morning, which would raise the price of operation alone to 95 cents per ton, which does not include any interest, depreciation, or anything of the kind. That is, the actual labor cost of disposal at the Milwaukee plant was 85 cents per ton the day I was there, and with those six additional men who would go on the next day the cost would go up to 95 cents per ton.

Coun. BALLANTYNE. In making those figures in Milwaukee, was the question of return for power generated taken into consideration?

Com. ROURKE. They produced 600 horse power per day, of which 60 horse power was utilized for the plant. There was 540 horse power available for something, but they did not know what. They were talking about lighting a ward or two with it, but it was absolutely going up in the air.

Coun. BALLANTYNE. If they utilized that 540 horse power each day, it would reduce the cost of operation?

Com. ROURKE. Yes, sir, to the amount that it was worth. I understand that a horse power is worth $35 per year in Boston to-day.

Coun. KENNY. At least $50 for a horse power.

Com. ROURKE. Fifty dollars, and there were 540 horse power going to waste.

Coun. BALLANTYNE. Fifteen cents a day for each horse power, and 540 horse power.

Com. ROURKE. Yes. That would be $75 to $80 a day.

Coun. BALLANTYNE. And how many tons a day did they put in there? About 300?

Com. ROURKE. Yes, 300 tons; that was its capacity.

Coun. BALLANTYNE. That would bring it down to about —

Com. ROURKE. About 60 cents per ton; but, as I understand the law here in Massachusetts, in Boston to-day for anything of that kind you would have to secure new legislation. That is, if you were to engage in that sort of thing new legislation would be required.

Coun. BALLANTYNE. That is, we may use it for our own plants, but may not sell it?

Com. ROURKE. Yes. For instance, if we put in an incinerator at the Calf Pasture we could use the power to run our pumps.

Coun. COLLINS. On the question of clinker, is the clinker marketable?

Com. ROURKE. No. At Milwaukee, which is ideally located right on the lake, they simply have a 25-foot haul, and dump it right into the lake. They are making a fill. They are doing the same thing at Staten Island. When they talk about crushing the clinker, making a sort of inferior stuff for sidewalks, I would simply say that it would be a big source of expense in Boston, getting rid of it.

Coun. BALLANTYNE. I think from the reports we have got — I don't remember whether they concerned Cleveland or Baltimore — they were disposing of those clinkers at about 50 cents per ton, a very profitable rate, at the plant.

Com. ROURKE. It must be at Baltimore. Cleveland has a reducing plant.

Coun. BALLANTYNE. Then it was Baltimore, I believe. They have a ready market for it there at 50 cents a ton right at the plant, used for concrete base.

Com. ROURKE. Well, you see there are a great many cinders here used as a base for granolithic sidewalks — the only way in which I can conceive of their being useful here; and, of course, there is the question, if we had an incinerator here, of what the distance of the haul would be in order to get stuff on the ground.

Chairman ATTRIDGE. Article 9 says that the city shall pay the contractor $234,940 the second year plus 2.1 per cent, and each year the amount is increased 2.1 per cent, down to the tenth year. That, by the end of the tenth year, would make an increase of about 18.9

per cent in addition to the $234,940. That is your understanding, isn't it?

Com. ROURKE. Yes.

Chairman ATTRIDGE. It is a gradual increase each year of 2.1 per cent on the cost?

Com. ROURKE. Yes, and our tonnage this year is 4 per cent greater than last year. The tonnage for 1910 is 4 per cent greater than the tonnage for 1909. Now, we want it to increase according to the tonnage. You see, the plant is established to take care of this stuff for ten years, and we say to the company, "You are entitled to something, but you are not entitled to the full increase." So they cut it practically in two. You see the tonnage increases 4 per cent, and they have increased their figures practically 2.1 per cent for each year.

Coun. KENNY. In order that we may have in the stenographer's notes the information to refer to hereafter, will you please state the manner in which the subject is being treated under the present conditions? What is the cost to the city?

Com. ROURKE. The whole refuse business?

Coun. KENNY. Yes.

Com. ROURKE. At present the New England Sanitary Product Company takes all the garbage with the exception of that in East Boston, West Roxbury and Brighton, with the exception of those three districts. I think I am right about that. For that we pay them $52,400 a year, I think, which makes a cost, according to the tonnage, of about 84 cents a ton. That is for the last year. That garbage is delivered to them at Albany street. So much for the garbage. The other refuse is disposed of in the most convenient and the cheapest way in which we can do it. About half of it goes to inland dumps. In other words, I should say that 200,000 tons go to inland dumps, which are being filled up. They are a public nuisance and a public menace and, irrespective of there being a nuisance or not, we will have no more dumps very shortly. The other 200,000 tons is brought to the water front and is towed to sea without separation. That is, all sorts of refuse are put in together, and you have the results on the North Shore. That sort of thing is very apt to be stopped any moment by the government, the dumping of that material at sea. About 200,000 tons go in that way, about 200,000 tons go on our inland dumps, and the garbage, with the exception of the three districts

I have referred to, is turned over to the New England Sanitary Product Company, and the garbage in the three districts eliminated is handled by local contractors who, we assume, feed it to swine. This proposed contract leaves out West Roxbury and East Boston, because I think there are plenty of dumps there that are not nuisances, where the material can be economically dumped. Brighton, however, is not in that class. Brighton comes under this contract, because the dumps there are being filled up.

Coun. KENNY. What becomes of the garbage?

Com. ROURKE. It is still kept separate and turned over to these people.

Coun. KENNY. After turning it over to them, what do they do with it?

Com. ROURKE. They take it down to Spectacle Island, where it is put through a process of reduction, in which they recover the by-products — grease, for which they get two to four cents a pound, according to the state of the market, and fertilizer base, for which they get from three dollars to eight dollars a ton, according to the market.

Coun. COLLINS. Following out Mr. Kenny's suggestion, what is the sum total of the cost to the city at present?

Com. ROURKE. Of the entire disposal? Let me see. I have those figures here somewhere, I think. The present cost is about $190,000 for disposal, I think, about $200,000.

Coun. KENNY. Per year?

Com. ROURKE. Per year. This increases it a matter, I should say, of $40,000.

Coun. KENNY. This new contract would?

Com. ROURKE. It would; yes. That is, it increases the price to-day, taking the conditions under which this question is being handled to-day, using the local dumps.

Coun. BALLANTYNE. I would ask what provision, if any, is made with this company — if the contract referred to is to be made — in regard to the removal of garbage and refuse; whether the contract calls for the carrying of garbage and refuse from habitations only? What provision is made for taking refuse from stores and office buildings? I understand that that is not included in this contract.

Com. ROURKE. They have a clause there saying

that they shall take that at a cost not exceeding five cents per barrel, any refuse that does not come under the other provisions will be taken by them at a price not exceeding five cents per barrel. They probably would make a contract for such collections, depending upon the amount a man might have.

Coun. BALLANTYNE. I didn't know that there was that provision.

Com. ROURKE. Yes, they have that provision. There are two alternatives for the city. There is no question but what the report of this Garbage Commission covers the case very well and that there is nothing to be added to it, or practically nothing. The city must do something. Incineration is practical, there is no question about that. It can be done. But to take care of the tonnage of the City of Boston by incineration would require an investment, in round figures, of about $600,000 for incinerators. With the present labor conditions in the Boston market I would not look for anything less than $1.25 a ton for operation, and from that upwards. The other alternative is for the city to extend the New England Sanitary Product contract, or take it over, for the handling of the garbage; to build these stations which this company suggests, identically the same, at a cost of about $150,000; at each of those stations put up a screening plant where refuse could be separated from the clean ash; haul our ash to the water front and dump it at sea; put up a small incinerator at each plant for the burning of refuse only, something on the style of the Cambridge incinerator out here. Then, we must increase our hauling capacity to the water front, and increase our fleet. That would necessitate an investment of about $300,000, besides $150,000 for the stations, with possibly five small incinerators at $150,000 more, which would mean an investment of about $600,000. The cost per ton would be entirely problematical, owing to labor conditions and what not, and the amount of force you put on.

Chairman ATTRIDGE. Did you figure up or have figured up the total amount of money that the city would have to pay for the ten years that this contract would run, if accepted?

Com. ROURKE. I have added it up,— something in the neighborhood of $3,000,000.

Chairman ATTRIDGE. Three million dollars for the ten years?

Com. ROURKE. Three million dollars for the ten years. That is easily figured up, taking the amount of $234,900 for the first year and adding 2.1 per cent for each succeeding year.

Chairman ATTRIDGE. About $3,000,000?

Com. ROURKE. About $3,000,000; yes, roughly.

Chairman ATTRIDGE. Article 6 says: "The contractor in carrying on its work shall give preference in employment to citizens of Massachusetts,"—not of Boston—"and if they cannot be had in sufficient numbers, to citizens of the United States." Don't you think that that article could be amended so that it would read that the contractor in carrying on his work shall give preference in employment to citizens of Boston, first, who are paying the taxes, who live here and who help to make it possible for us to get the money to carry on this undertaking? Three million dollars of the city's money is being spent. Men living in Boston are paying the taxes to meet that expenditure. What do you think about that, Mr. Commissioner?

Com. ROURKE. Well, that article has been revised by our Law Department. That is what the Law Department said. There is a certain form, I think, prescribed by the Legislature and this is that form.

Chairman ATTRIDGE. Did he tell you that?

Com. ROURKE. Yes, that is revised by our Corporation Counsel,—that article, that labor clause.

Chairman ATTRIDGE. Then under this article the contractor could give preference in employment to men outside of the City of Boston,—to men who do not live here, who do not pay taxes here. Is not that so?

Com. ROURKE. As I understand it, that is the legally required form for it. My personal opinion is, of course, that citizens of Boston should receive the preference.

Coun. MCDONALD. Do I understand that the Law Department said that we could not insert a clause in the contract that citizens of Boston be given the preference, under the state law?

Com. ROURKE. Well, that article is as submitted to me by the Corporation Counsel, with the information that if I did not put it in that way I was subject to a fine.

Chairman ATTRIDGE. Did you ask him about that—about citizens of Boston?

Com. ROURKE. I sent Mr. Sullivan over about it. I did not personally take it up with Mr. Babson, but Mr. Sullivan did, and this is what he wrote me back. I have his letter upstairs. It simply says that "you

must insert the clause as follows," and that is taken right from the quotation in his letter.

Chairman ATTRIDGE. Mr. Rourke, do you remember how the contracts read in reference to the collection of garbage, for instance, in the West Roxbury district, in regard to the employment of labor, as to whether they read like this article 6, or whether they say "citizens of Boston"?

Com. ROURKE. No, but we can get a copy of contracts. (Other contracts were sent for.)

Coun. KENNY. Would this corporation be willing to execute a contract for a less period than ten years?

Com. ROURKE. Well, I don't know, Mr. Kenny. They have drawn this up on a ten-year basis. I presume if they drew it up for a shorter period they would want to change the figures entirely. As I said, I want it to come before the Council. I think it would be a good idea for the Council to call upon some of these gentlemen — or is that my duty? — and find out where they are officially, and have them show their charter, and so forth. This is an embryonic sort of proposition, you see. I simply have the word of these directors that they are organized and that they are responsible.

Chairman ATTRIDGE. Some few weeks ago I introduced an order into the Council asking that same information, and the report back was that this was what you would call an embryonic corporation or company.

Com. ROURKE. Yes.

Chairman ATTRIDGE. Having practically no offices.

Coun. KENNY. Hadn't organized yet.

Chairman ATTRIDGE. Hadn't organized. They would organize, I understood, if they received the contract from the city.

Com. ROURKE. Oh, as I understand it, they have organized— organized about ten days ago.

Chairman ATTRIDGE. Well, I don't know that the City Council has received any additional communication from them, that is, additional to the one already sent to us.

Com. ROURKE. Now, do you think it would be more appropriate for me or for you to call upon Mr. Payne, for instance, and Mr. Carlin, the president and vice president, and ask them to produce their credentials, and so forth?

Chairman ATTRIDGE. Well, I suppose the City Council has a right to grant a public hearing on this matter.

Com. ROURKE. Well, if I understand it, if this contract is once approved by me and forwarded to the Mayor, he then forwards it to the City Council, who must advertise and hold a public hearing. I understand that that hearing must be advertised one week in advance in the *City Record*, and at that hearing you can have the subject threshed out in public.

Chairman ATTRIDGE. The information in regard to these officers could probably be gotten by you and by the Law Department of the City of Boston?

Com. ROURKE. Well, I think that is probably the best way.

Chairman ATTRIDGE. Is this proposed company supposed to file a bond for the due performance of its contract?

Com. ROURKE. Oh, yes, it will file a bond of $75,000.

Chairman ATTRIDGE. You have no written communication to that effect?

Com. ROURKE. No; simply what they have told me. This, of course, is simply preliminary.

Coun. KENNY. As I understand it, before a contract of that character could be entered into by the city we would have to give a public hearing?

Com. ROURKE. Yes.

Coun. KENNY. And at that time these gentlemen would have to show us who and what they are?

Com. ROURKE. Yes. But the point is this, that I did not want to go ahead and get up a contract and all that, and have a public hearing, and then have it a fizzle. What I think we must do is to make sure of these men. I have no reason to doubt that they are responsible men. Otherwise they would not have gone as far as they have gone. I think perhaps it would be properly in the line of an investigation by me to get them to say where their office is. They have their title there. Is there any seal on that?

Chairman ATTRIDGE. No, sir; none whatever.

Coun. BALLANTYNE. It would seem to me that before we talk of public hearings on this matter we ought to have something definite before us. The first thing for this Council to decide is, after talking the matter over with Mr. Rourke, whether we propose entering into this form of contract or adopting some other method for the disposal of garbage. If we decide to let the matter out by contract, then we will have to have a proposition put up by somebody — not in the way the proposition is put

in here at the present time by "John Doe," whom we don't know anything about. No definite proposition has been put up here. The proposition ought to be known to this Council in a definite way before we decide to have a public hearing upon the matter. I was going to ask the commissioner if he had given any thought to the question of the city erecting a large incinerating plant, or one or more plants, whether or not that would be feasible in view of the fact that we are prevented by law from entering into lighting or heating and thus disposing of the power we might generate? Whether or not it would be feasible to put up such a plant and let it by contract to some private individual who could use the power, where the City of Boston cannot use it? Whether or not that would not be a better proposition than the one before us at the present time?

Com. ROURKE. You see, in my advertisements last October I gave them that privilege, and all the incinerating companies said they were in the market for selling machinery and not for operating. That was the way the thing was regarded, and I did not have a bid on it.

Coun. BALLANTYNE. Suppose we had an incinerating plant put up here and ready for operation, don't you suppose some company or private individual would be willing to take it and operate it for a certain amount of money?

Com. ROURKE. I have no doubt they would, for a certain amount.

Coun. BALLANTYNE. And that amount of money might be a very small amount, in consideration of their being able to dispose of the power generated through the plant?

Com. ROURKE. Well, that being a city plant, how could you let it out by contract in that way and sell the power?

Coun. BALLANTYNE. The city is not allowed to operate such a plant and dispose of the power, but the city could let that plant to a private individual, who could handle the garbage and dispose of the power generated. That is one way of cheating the law, I think it is a perfectly legitimate way of cheating it, too.

Com. ROURKE. Well, of course, that is the only alternative.

Coun. BALLANTYNE. My opinion is that the system of incineration is the cheapest for any city that can use

the power, and in view of the fact that we cannot use the power the next best thing is to get some private individual to use it and pay us for the use of it.

Coun. COLLINS. In cities where they do use the power, how much is the cost per ton?

Com. ROURKE. Well, I don't know of any city where they do use the power, Mr. Collins. They all tell about using it, but I don't know of any place that does use it. They don't use it in Milwaukee, and that is the biggest incinerator in the country.

Coun. BALLANTYNE. Baltimore.

Com. ROURKE. They don't in New Brighton. Do you know how large an incinerator they have in Baltimore?

Coun. BALLANTYNE. If I mistake not, a plant of 100 tons a day. We have that in our files somewhere, all that information, got it a year ago.

Com. ROURKE. In the city of Minneapolis I notice in this week's *City Record* that they make the people wrap every particle of garbage in paper. Well, that wrapping furnishes the fuel for your incinerator.

Coun. COLLINS. Do you feel that if you advertised again you could get any lower bids that this?

Com. ROURKE. I don't think so, because McDonald of Brooklyn and Curran of New York came here and looked over the ground and took our specifications with them. They didn't say anything.

Coun. SMITH. Do you know anything about this company? Do you know whether this company is the old company or not?

Com. ROURKE. They say they are not. They say they intend to buy out the plant of the New England Sanitary Product Company.

Coun. SMITH. Isn't it true that the people you have spoken of, as coming from New York, represent the old company?

Com. ROURKE. McDonald and Curran? No. They are a separate outfit.

Coun. COLLINS. It seems that what we have to do is to get the lowest bid that we can on this proposition, and then look over the other propositions and see which we prefer.

Com. ROURKE. Well, taking the different propositions, Mr. Councilor, this is by far the cheapest.

Chairman ATTRIDGE. This is a copy of a contract for collecting and removing offal in the West Roxbury

district, with Fred W. Krug, under date of February 1, 1911. Article 5 of this contract says — this is in reference to employment of labor:

"The contractor shall give preference on any work to be done in the city, first, to registered voters of the city, second, to other citizens of the city, and third, to other citizens of the United States. The presentation by an applicant for such employment of a tax bill for the last year in which annual tax bills were issued, made out to him, duly receipted for the tax collector and stamped by the Election Commissioners or any Registrar or Assistant Registrar of Voters to be sufficient evidence of citizenship; unless otherwise authorized in writing by the commissioner, pay all employees on such work no less wages than is customary in said city in their several employments, and shall not request or require any laborer, workman or mechanic working within this Commonwealth in the employ of the contractor, subcontractor or other persons doing or contracting to do the whole or a part of the work contemplated by the contracts, to work more than eight hours in any one calendar day."

Now that is a contract with the City of Boston under the date of February 1, 1911, signed by you. Did Mr. Babson see a copy of that contract?

Com. ROURKE. Isn't Mr. Babson's signature there? He approves them as to form (examining contract). Yes; "Thomas M. Babson."

Chairman ATTRIDGE. Now there is a form in which the city has made a contract with a contractor for the same thing.

Com. ROURKE. Well, maybe this clause is legal as well as that, and this would be a preferable clause.

Chairman ATTRIDGE. It is the same work?

Com. ROURKE. The same work.

Chairman ATTRIDGE. And if the law applies to that contract it ought to apply to this contract. If the provision in this contract in regard to giving preference to citizens of Boston is legal, I see no reason why such a provision would not be legal in this other contract.

Com. ROURKE. I will take that up with them right away.

Coun. KENNY. We could get at that by calling in the Corporation Counsel. I think a contract with that provision giving preference to citizens of Boston is

legal, and that the Council has a right to make the contract in that way.

Coun. SMITH. I should like to ask what right the city has in the present Spectacle Island Plant? Has it any rights whatever?

Com. ROURKE. We haven't any right except to go on there, and we have a right to buy that plant at the end of the contract, by giving them six months' notice.

Coun. SMITH. At what price?

Com. ROURKE. I have that up on my desk. I do not recall exactly.

Coun. SMITH. Is there an arbitration clause?

Com. ROURKE. I think some sort of arbitration clause.

Coun. SMITH. And do you know how much the new company is to take that plant over at?

Com. ROURKE. No, I don't know what they would pay for it. I saw a copy of a vote of the stockholders of the New England Sanitary Company, voting to sell to the Boston Disposal Company.

Coun. SMITH. Without any figure set?

Com. ROURKE. Without any figure set. I saw a copy of the vote.

Coun. SMITH. So you don't know whether the new company is forced to earn money on an inflated valuation of that plant or not?

Com. ROURKE. I don't know; but, as I understand it, they are getting it at a very reasonable price, because the plant has already been paid for.

Chairman ATTRIDGE. Mr. Rourke, before you go I want to speak to you in regard to this order in reference to a public hearing to be given by the Executive Committee on the subject of the removal from buildings of rubbish, boxes, paper, straw, and so forth, which may accumulate from business operations. That is in connection with your order that has gone forth in regard to business houses. Will you tell the members of the Council what your idea is?

Com. ROURKE. Let me read from pages 6 and 7 of this report (referring to report of the Second Special Commission, appointed by his Honor George A. Hibbard to investigate the subject of the collection and disposal of refuse in the City of Boston, submitted to Mayor Hibbard, January 31, 1910):

"A practice has also grown up of collecting refuse

known as 'store dirt' from buildings in the business district. There appears to be at present no authorization for such collection, and it is doubtful if any such authorization ever existed. The practice is not universal, but it would appear that, under the present ordinance, a collection costing the city in the neighborhood of $100,000 a year has no authorization. Confirmation of this view is found in the result of inquiries made in other large cities of the United States, indicating that Boston is exceptionally liberal in the matter of collection of refuse from both the residential and mercantile districts."

With that before me I spent some time looking around and consulting people who have been in the department longer than I have, and I was confirmed in my belief that we had no more authority to spend that $100,000 than I had to go into your house and fix the plumbing or pave your back yard, or anything of the kind. It is a matter for legislation. If the Public Works Department is to continue that work, we have no objection if we have the authority. We have no authority.

Chairman ATTRIDGE. So you have no objection to a public hearing to find out the feeling of the people in regard to the matter?

Com. ROURKE. I am simply an executive to carry out the wishes of the city.

Coun. BALLANTYNE. This has been a custom for a great many years, and don't you think it would be wise before this radical change is made that steps should be taken to see if some arrangement cannot be arrived at whereby this accumulation of paper and rubbish should be taken away from stores? I look at it from this standpoint, that it is going to be dangerous to the city from a fire hazard standpoint, if nothing else, if something of this sort is not done. These storekeepers have no means of getting rid of this paper and rubbish, and it is going to be a great expense to them if they have to hire special teams to take away a barrel or two of paper every day. Wouldn't it be well to defer the enforcement of this rule for a short time, to see if some arrangement cannot be made, either through some private contractor or the city, to take this stuff away from the stores at so much per barrel? I have not run across a single storekeeper who is not willing to pay for the removal of the rubbish if it is done at a reasonable

price, but the question that confronts them is the expense of hiring special private teams to take away the rubbish every day. Even the small dry goods stores have an accumulation of paper, paper boxes and rubbish which, if left around in the stores, might be extremely dangerous in case of fire.

Com. ROURKE. I don't presume the Fire Department would allow it to remain in the stores.

Coun. BALLANTYNE. How are they to get rid of it?

Com. ROURKE. No doubt a hundred contractors would be glad to take it away from them. Of course, they will have to pay for it.

Coun. BALLANTYNE. Don't you think it would be well to defer the enforcement of the rule some time and make an arrangement whereby this can be taken away, perhaps by some private contractor who can cover the city?

Com. ROURKE. Well, we have given them three weeks' notice, so there would not be any hardship on them. They have had time to make their arrangements, and there are several contractors around looking up this matter now, offering to do it.

Coun. BALLANTYNE. I was just going to ask if any of the contractors who are around looking at the work are ready to submit bids?

Com. ROURKE. That is a matter for them individually, as a matter of contract. The city would have nothing to do with it, unless your ordinance is changed. These contractors will go around to these various houses and make arrangements for the removal, according to whether there are ten barrels a week or more. One man here has 110 barrels a week. He would get a pretty low figure per barrel, I suppose. That is a good deal of business.

Coun. SMITH. In one clause we have bound ourselves to turn over the whole stuff, except in West Roxbury and East Boston, to this company. That absolutely binds us, does it?

Com. ROURKE. Yes, sir. They will get all the refuse except in those two districts, West Roxbury and East Boston.

Coun. SMITH. Suppose for some reason a person comes in and is not allowed to take garbage, or refuse, away from certain hotels and big concerns, do we have to pay anything to the company on that account? The company, of course, might lose the best part of its con-

tract in that way. As I understand it, in connection with garbage they would get the real profit. Now, do we have to make that good to the company?

Com. ROURKE. No, there is a clause there defining that very carefully, that all the refuse the city is supposed to collect by this ordinance is to be turned over to them.

Coun. SMITH. Well, does it bind us to the collection of all refuse?

Com. ROURKE. Yes, sir.

Coun. SMITH. I mean, does it bind the producers of refuse to turn it over to us?

Com. ROURKE. No. But all the refuse that the city is supposed to collect under our ordinance to-day is to be turned over to this Disposal Company for disposal.

Coun. BALLANTYNE. As I understand, the point that Mr. Smith makes it is this. If the Touraine or Young's Hotel should decide to give the garbage to some private individual, would such a hotel be allowed to do it?

Com. ROURKE. The city is bound to turn it over to this company, if this contract should go through.

Coun. COLLINS. Well, isn't that private property?

Com. ROURKE. Of course, the city is in no way the owner of this refuse.

Coun. SMITH. I mean, supposing that on a large scale this refuse should be collected by a private concern, for feeding to swine. That would cut out from the company now proposing to make the contract practically all profit, that being the only part of the refuse that has any profit.

Com. ROURKE. That is it.

Coun. SMITH. The company would be doing business at a loss. Could we then hold them to that contract?

Com. ROURKE. We bind ourselves there not to give permits to give this swill away. Provided it is a part of the city collection, it goes to this Disposal Company. For instance, if you want to come in and offer to take the swill from my house, I have no right to let you do it, as I understand it. The company would get all this garbage.

Coun. SMITH. That is, through the granting of permits or withholding them the city can control it?

Com. ROURKE. Yes, sir. Everybody who hauls swill through the streets must get a permit from the Street Department. We will not grant such permits to other parties.

Coun. SMITH. Now, there is no clause in the contract as to the accumulation of refuse in these substations. There is nothing there to prevent their allowing it to accumulate for a week, is there?

Com. ROURKE. Oh, this says that they shall handle it in a sanitary and healthful way.

Coun. SMITH. Leaves it to the city authorities?

Com. ROURKE. Yes, leaves it to the city authorities to enforce.

Coun. SMITH. And does it give any description of the vehicles that shall be used to carry it through the streets?

Com. ROURKE. No.

Coun. SMITH. That is, again, for you and your department to decide?

Com. ROURKE. Yes. That is a matter to be settled between the commissioner and the contractor.

Commissioner Rourke was here excused, on motion of Councilor Buckley, with the thanks of the committee.

WEST END STREET RAILWAY COMPANY.

THREE HUNDRED AND FORTY-FOURTH LOCATION.

City of Boston,
In Board of Street Commissioners, February 28, 1911.

Ordered, That in addition to the rights heretofore granted to the West End Street Railway Company for locations for tracks in the streets of the City of Boston, said company shall have the right to construct, maintain and use an alteration of its existing locations as follows: On Harvard avenue, Allston district, from the Brookline line to Cambridge street, and on Cambridge street, at Harvard avenue, a relocation of the existing double tracks and curves; said tracks being substantially as shown by red lines on a plan made by A. L. Plimpton dated January 28, 1911, and deposited in the office of the Commissioner of Public Works; together with all necessary curves, crossovers, switches and connections.

And the consent of the Board of Street Commissioners is granted to said company to establish and maintain the overhead single trolley electric system of motive power in the operation of its cars on said location, and to erect, maintain and use iron poles, not less than twenty feet in height, at places indicated by red dots or circles on the aforesaid plan, or at such other places, to be shown by blue dots or circles on said plan, as may be approved by the Commissioner of Public Works, and to place on said poles such wires and other appliances as the Commissioner of Wires shall approve.

The right to lay down the tracks located by this order is upon condition that the whole work of laying the same, the form of rail to be used, and the kind and quality of material used in paving said tracks, and the kind and locations of poles shall be under the direction and to the satisfaction of the Commissioner of Public Works, and shall be approved by him. Also upon condition that said railway company shall accept this order, and shall file such acceptance with the Board of Street Commissioners in accordance with the provisions of statute law; otherwise it shall be null and void.

Passed. Approved by the Mayor March 7, 1911.

A true copy.

OLD COLONY STREET RAILWAY COMPANY.

THIRTEENTH LOCATION.

City of Boston,
In Board of Street Commissioners, March 9, 1911.

Ordered, That in addition to the rights heretofore granted to the Old Colony Street Railway Company for locations for tracks in the streets of the City of Boston, said company shall have the right to construct, maintain and use, under the provisions of chapter 518 of the Acts of 1910, a temporary addition to its existing locations; said temporary location to terminate and the tracks laid thereunder to be removed within thirty days after the completion of the work of sewer construction on Hyde Park avenue, from the Stony brook channel, near Tower street, to and at Walk Hill street, as follows:

An additional track on Walk Hill street, between Hyde Park avenue and Washington street, with double curved tracks connecting with the existing tracks on Hyde Park avenue and also on Washington street; also an additional cross connection on Hyde Park avenue, south of Walk Hill street; said tracks being substantially as shown by red lines on a plan made by A. L. Plimpton, dated March 3, 1911, and deposited in the office of the Commissioner of Public Works, together with all necessary curves, crossovers, switches and connections.

And the consent of the Board of Street Commissioners is granted to said company to establish and maintain the overhead single trolley electric system of motive power in the operation of its cars on said location, and to erect, maintain and use iron poles, not less than twenty feet in height, at places indicated by red dots or circles on the aforesaid plan, or at such other places, to be shown by blue dots or circles on said plan, as may be approved by the Commissioner of Public Works, and to place on said poles such wires and other appliances as the Commissioner of Wires shall approve.

The right to lay down the tracks located by this order is upon condition that the whole work of laying the same, the form of rail to be used, and the kind and quality of material used in paving said tracks, and the kind and locations of poles shall be under the direction and to the satisfaction of the Commissioner of Public Works, and shall be approved by him. Also upon condition that said railway company shall accept this order, and shall file such acceptance with the Board of Street Commissioners in accordance with the provisions of statute law; otherwise it shall be null and void.

Passed. Approved by the Mayor March 14, 1911.

WEST END STREET RAILWAY COMPANY.

THREE HUNDRED AND FORTY-FIFTH LOCATION.

City of Boston,
In Board of Street Commissioners, March 7, 1911.

Ordered, That in addition to the rights heretofore granted to the West End Street Railway Company for locations for tracks in the streets of the City of Boston, said company shall have the right to construct, maintain and use an alteration of its existing locations as follows:

On Cambridge street, Brighton District, from east of Lincoln street to west of Highgate street, a relocation of the existing double tracks; said tracks being substantially as shown by red lines on a plan made by A. L. Plimpton, dated February 4, 1911, and deposited in the office of the Commissioner of Public Works; together with all necessary curves, crossovers, switches and connections.

And the consent of the Board of Street Commissioners is granted to said company to establish and maintain the overhead single trolley electric system of motive power in the operation of its cars on said location, and to erect, maintain and use iron poles, not less than twenty feet in height, at places indicated by red dots or circles on the aforesaid plan, or at such other places, to be shown by blue dots or circles on said plan, as may be approved by the Commissioner of Public Works, and to place on said poles such wires and other appliances as the Commissioner of Wires shall approve.

ORDINANCES OF 1911, CHAPTER 1,

CONCERNING

REMOVAL OF STORE REFUSE.

In the Year One Thousand Nine Hundred and Eleven.

Be it ordained by the City Council of Boston, as follows:

Section one of chapter nine of the Ordinances of 1910 is hereby amended by inserting after the word "substances" in the seventeenth line the following: "and shall when requested by the proprietors or managers thereof remove empty boxes, packages, packing and other store refuse from shops, stores and warehouses at the reasonable cost of such removal, all moneys so received to be used in paying the expenses incurred by the department in said removal," so that said section, as amended, shall read as follows:

Section 1. The department of public works which is hereby established shall be under the charge of the commissioner of public works, who shall be a civil engineer of recognized standing in his profession; who shall construct all streets and sewers; shall have discretionary power as to the grades, materials and other particulars of construction of streets, sidewalks and sewers; shall have charge of and keep clean and in good condition and repair the streets, all sewer systems under the control of the city and the catch-basins in the streets connected with the sewers; shall keep the

streets properly watered; shall remove from yards and areas, when so placed as to be easily removed, all ashes accumulated from the burning of materials for heating habitations, cooking and other domestic purposes, house dirt, house offal, and all noxious and refuse substances; and shall when requested by the proprietors or managers thereof, remove empty boxes, packages, packing and other store refuse from shops, stores and warehouses at the reasonable cost of such removal, all moneys so received to be used in paying the expenses incurred by the department in said removal; shall, on the fifteenth day of each month, send to the city auditor detailed bills of all material, tools and machinery furnished by either of the divisions of said department to any other such division or for any special work.

REPORT OF THE COMMITTEE ON APPROPRIATIONS

SUBMITTING THE

APPROPRIATION BILL FOR THE CITY AND COUNTY FOR 1911-12.

In City Council, April 3, 1911.

The Committee on Appropriations, to whom was referred the message of the Mayor transmitting the estimates of the several departments for the financial year 1911–12, and the appropriations recommended by him, having considered the same, respectfully submit the following Appropriation Bill for the city and county for the present financial year, and recommend its passage, together with the accompanying orders.

For the Committee,

Walter Ballantyne,
Chairman.

CITY OF BOSTON.

APPROPRIATION AND TAX ORDERS FOR THE FINANCIAL YEAR 1911–12.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of February, 1911, of performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston, or the County of Suffolk, or the departments or officers thereof, the respective sums of money hereinafter specified be, and the same are, hereby appropriated for the several departments, and for the objects and purposes hereinafter stated.

Ordered, That the appropriations for Water Service, current expenses, and the payments to the state under the provisions of chapter 488 of the Acts of 1895 and acts in addition or amendment thereto, and for the interest requirement for loans issued for water purposes, be met by the income from said works and any excess over income from taxes; that the other appropriations hereinafter specified or heretofore made be met out of the money remaining in the treasury at the close of business on January 31, 1911, exclusive of the money raised by loan or needed to carry out the requirements of any statute, gift, trust, or special appropriation, and by the income of the financial year, beginning February 1, 1911, and by taxes to the amount of $14,558,667.62, and that said amount be raised by taxation on the polls and estates taxable in the City of Boston.

Ordered, That all sums of money which form no part of the income of the city, but shall be paid for services rendered or work done by any department or division for any other department or division, or for any person or corporation other than the City of Boston, be paid into the general treasury and then credited to the appropriation of the department or division rendering such service or doing such work, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

Ordered, That to provide temporarily money to meet the appropriations aforesaid, the City Treasurer issue and sell, at such times and in such amounts as he may deem best, notes or certificates of indebtedness of the City of Boston, not exceeding nine million dollars in the total, in anticipation of the taxes of the current municipal year; that all such notes or certificates of indebtedness be dated the day the money for the same is received, be made payable with the interest thereon at the office of the City Treasurer within the current financial year, from the taxes of said year, and bear interest from their date until the same are made payable at such rate as said treasurer shall deem proper.

Ordered, That all taxes raised to meet the appropriations of the City Council, and all taxes assessed for meeting the city's proportion of the state tax of the year 1911, or of any other taxes or assessments payable to the Commonwealth, be due and payable on the first day of October, 1911; that all such taxes paid after the first day of November, 1911, bear interest from and including said day until paid, at the rate of six per cent per annum, except the taxes assessed upon shares of stock of national banks shall bear interest at the rate of twelve per cent per annum from and including said first day of November until paid; and that all interest which shall have become due on taxes shall be added to and be a part of such taxes.

AUDITOR'S MONTHLY EXHIBIT.

GENERAL AND SPECIAL APPROPRIATIONS

FOR

1911-1912.

Auditing Department,
City Hall, Boston, April 1, 1911.

To the Mayor, City Council and Heads of Departments:

Sirs,— The undersigned, in compliance with chapter 486, section 25, of the Acts of 1909, and chapter 6, section 7, Revised Ordinances of 1898, herewith presents an exhibit for the present financial year of 1911–12, as shown in the books in his office April 1, 1911, including the April draft — being three months' drafts — exhibiting the balances brought forward from 1910–11, the amounts drawn April 1, and the total expenditures; also a statement of the Debt, Sinking Funds and Right to Borrow March 31, 1911.

The April draft comprises special payments and weekly pay rolls during the month of March and pay rolls and bills payable April 1, 1911.

The Appropriation Bill for the financial year 1911–12 not having been passed, payments are made under authority of chapter 320 of the Acts of 1889.

Respectfully submitted,

J. Alfred Mitchell,
City Auditor.

WEST END STREET RAILWAY COMPANY.

THREE HUNDRED AND FORTY-SIXTH LOCATION.

City of Boston,
In Board of Street Commissioners, March 21, 1911.

Ordered, That in addition to the rights heretofore granted to the West End Street Railway Company, for locations for tracks in the streets of the City of Boston, said company shall have the right to construct, maintain and use an addition to its existing locations as follows:

On Bunker Hill street, Charlestown district, between Pine and Decatur streets, an additional cross connection; said tracks being substantially as shown by red lines on a plan made by A. L. Plimpton, dated February 20, 1911, and deposited in the office of the Commissioner of Public Works; together with all necessary curves, crossovers, switches and connections.

And the consent of the Board of Street Commissioners is granted to said company to establish and maintain the overhead single trolley electric system of motive power in the operation of its cars on said location, and to erect, maintain and use iron poles, not less than twenty feet in height, at places indicated by red dots or circles on the aforesaid plan, or at such other places, to be shown by blue dots or circles on said plan, as may be approved by the Commissioner of Public Works, and to place on said poles such wires and other appliances as the Commissioner of Wires shall approve.

The right to lay down the tracks located by this order is upon condition that the whole work of laying the

same, the form of rail to be used, and the kind and quality of material used in paving said tracks and the kind and locations of poles shall be under the direction and to the satisfaction of the Commissioner of Public Works, and shall be approved by him. Also upon condition that said railway company shall accept this order, and shall file such acceptance with the Board of Street Commissioners in accordance with the provisions of statute law; otherwise it shall be null and void.

The whole work authorized to be done under the provisions of this order shall be completed within one year from the date of the passage of this order.

Passed. Approved by the Mayor, March 30, 1911.

A true copy.

ALLIED PRINTING TRADES UNION LABEL COUNCIL BOSTON, MASS 21

[Document 65—1911.]

CONTRACT FOR STREET LIGHTING AS APPROVED BY THE COMMISSIONER OF PUBLIC WORKS, TOGETHER WITH VARIOUS DOCUMENTS RELATING THERETO ORDERED PRINTED BY CITY COUNCIL.

In City Council, April 10, 1911.

The following was received:

City of Boston,
Office of the Mayor, April 8, 1911.

To the City Council:

I beg to transmit a letter from the Commissioner of Public Works, accompanying a contract signed by him with the Rising Sun Street Lighting Company for the lighting of certain streets, tracts and areas in the city with approximately eleven thousand (11,000) gas lamps. In addition to this contract the commissioner has submitted for transmission to your honorable body three bids for equipment from the Pressure Lighting Company, the Automatic Gas Lighting and Equipment Company and William A. Rumpf and Leo Robinson, together with communications from the Lamplighters' Union and the Pressure Lighting Company, which were received after the bids were opened, and a statement from the supervisor of street lighting, bearing upon the letters from Mr. R. Momand of the Pressure Lighting Company.

Respectfully,

John F. Fitzgerald, *Mayor.*

City of Boston,
Public Works Department,
City Hall, April 6, 1911.

To the Honorable the Mayor:

On February 11, 1911, the Commissioner of Public Works advertised for bids for lighting certain streets, parks and alleys with approximately 11,000 gas lamps. At the same time the department also advertised for bids for furnishing the equipment, with a view to the city's doing its own lighting. On March 4, 1911, the bids were opened. The only bid received for furnishing, maintaining and operating approximately 11,000 gas lamps was from the Rising Sun Street Lighting Company, which bid, with my approval, I submit herewith for the consideration of the City Council and yourself. The Rising Sun Street Lighting Company now has the contract for lighting these lamps, and the proposal which is before you is a substantial reduction from the present price.

In connection with bids for equipment were received three proposals, which I also send for your information.

If the City Council should decide that it is for the best interests of the city to purchase the equipment and do its own lighting, I will say that the cost of operation is problematical; and in this connection, I submit communications from the Lamplighters' Union and the Pressure Lighting Company, which were received after the bids were opened.

Very respectfully,

L. K. Rourke,
Commissioner of Public Works.

CONTRACT WITH RISING SUN STREET LIGHTING COMPANY.

CITY OF BOSTON, STREET LIGHTING.

Notice to Bidders.

BOSTON, February 11, 1911.

The Commissioner of Public Works of the City of Boston, Room 66, City Hall, invites bids for lighting such streets, parks and alleys as may from time to time be designated by the city for a period of ten years from May 1, 1911, and giving bond therefor of a surety company approved by the Commissioner in the sum of fifty thousand dollars ($50,000) to secure the due performance of the contract and the full protection of the city. Forms of bids and specifications may be obtained at said office of the Commissioner of Public Works. Bids are to be based on furnishing, maintaining and operating approximately eleven thousand (11,000) gas lamps with incandescent mantle burners, the lamps to be distributed in such separate districts as may be determined by the city as follows:

(A.) Lamps to be lit and extinguished either in whole or in part by hand or by any automatic device the contractor may install.

(B.) Lamps to be lit and extinguished by hand with a provision for installation at some future time of automatic devices for lighting and extinguishing the lamps in whole or in part.

The specifications under both items are identical with the exception that Article 3 of said specifications does not apply to Item A but does apply to Item B.

If a bid is accepted under Item A, Article 3 of specifications shall be canceled.

The bid to include the maintenance and operation of approximately two hundred and ten fire-alarm signal lamps.

The city will furnish the lamp-posts.

Bidders are to state a price for furnishing, maintaining and operating each lamp per annum.

Samples of the equipment to be furnished under the bid must be submitted with the same. Each bid should be inclosed in an envelope, sealed, and marked "Bid for Street Lighting," and left at the said office of the Commissioner of Public Works, Room 66, City Hall, before 12 m. on Saturday, March 4, 1911, with a certified check for five thousand dollars ($5,000), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals and to award the contract as he may deem in the best interests of the city.

L. K. Rourke,
Commissioner of Public Works.

Proposal for Lighting, with Gas Incandescent Mantle Lamps, Streets, Parks and Alleys in the City of Boston.

The City of Boston having invited bids for lighting, with gas incandescent mantle lamps, streets, parks and alleys in said city, including the furnishing of lanterns, burners and all other necessary equipment to be placed on the posts of the City of Boston, all in position ready for lighting, for a period of ten years, upon the conditions set forth in the foregoing notice to bidders and in the annexed specifications, the undersigned Rising Sun Street Lighting Company declares that the only persons interested in this bid as principals are named herein; that no official of the city, and no person acting for, or employed by, the city is directly or indirectly interested in this bid, or in any contract which may be made under it, or in any expected profits to arise therefrom; that this bid is made in good faith, without fraud, collusion or connection with any other person bidding for the same work; that he has carefully examined the annexed notice and specifications, and he hereby bids in accordance with said notice, and agrees, in case this proposal is accepted, to do all the work set forth in said notice and specifications at the following prices:

SPECIFICATIONS.

Furnishing, Maintenance and Operation of Lamps.

1. By the city is meant the City of Boston, acting through the Commissioner of Public Works or such subordinate or other officer as may have charge of street lighting in said city.

By the contractor is meant Rising Sun Street Lighting Company.

2. *Work to be Done.*— The work to be done under this head shall consist of supplying all materials, labor and equipment necessary and required (except the posts and service pipes) to light with single or double burner gas incandescent mantle lamps, as per sample submitted, such streets, parks, alleys and public places as may from time to time be designated by the city during the continuance of this contract for a period of ten years from

May 1, 1911. The contractor must also light, extinguish and keep clean such open-flame, fire-alarm signal lamps as the city may from time to time install.

3. It is hereby agreed between the parties that by joint consent this contract may be modified as follows: If during the term hereof any automatic device for lighting and extinguishing said incandescent mantle lamps proves to the satisfaction of both parties hereto (*a*) to be obtainable, (*b*) to be practical in operation, (*c*) to reduce the cost of maintaining said lamps, then and in that event the contractor shall install such device on all or part of said lamps, when said device can be practically operated, at his own cost and expense, and will rebate the price paid by the city for each lamp hereunder a sum equal to 50 per cent of the net saving caused by the use of said device. The installation of such devices on each gas lamp in the service shall be completed within six months after the date on which the parties herein agree that said devices shall be installed. The cost of such installation, including the interest and sinking fund charges, computed upon the basis of the number of years the contract has to run beyond the date when the installation is completed, shall be ascertained and agreed upon; said cost shall then be divided by the total number of such devices installed in order to ascertain the cost of each such device. The saving per lamp year effected by the use of such devices shall be ascertained and agreed upon by the parties herein, and the cost per lamp year of such devices shall be deducted from the saving per lamp year thus ascertained, and shall be regarded as the net saving resulting from the use of such devices. The share of the net saving due the city shall be deducted from the contract price per lamp year.

All such devices as have been installed pursuant to these provisions shall become the property of the city upon the expiration of this contract.

In case of dispute as to the amount of net saving, the books of the contractor shall be audited by a certified public accountant to be chosen by the parties, whose report as to the amount of the net saving shall be accepted as final, conclusive and binding upon both parties, except as such accounts may be incorrect or evasive of the complete facts. If the parties cannot agree as to who shall audit the books of the contractor, the Commissioner of Public Works and a representative of the contractor shall select a third person to act with them in the selec-

tion of a certified public accountant to make the said audit, and the person chosen by the three persons aforesaid shall be accepted by the city and the contractor.

In case of disagreement between the City of Boston and the contractor as to the advisability of installing said device, such differences shall be determined and adjusted by three experts, one to be chosen by each party and the third by these two, and their decision shall be final and conclusive on both parties.

4. *Plant to be Furnished by Contractor.*— The contractor must furnish his own plant to do the work, and is required within five (5) months from date of execution of contract to furnish and erect and put in service, at his own cost, to the satisfaction of the city, all lanterns, burners and other appurtenances, contrivances and fixtures which are necessary to operate and maintain the said lamps, and thereupon the contractor shall forthwith proceed to do the lighting. The necessary equipment shall be placed upon such gas posts as may be furnished and from time to time indicated by the city. Except as hereinafter provided, said plant and all appurtenances so furnished by the contractor shall remain his property and must be removed by him at the expiration of the contract at his own expense.

If, in the opinion of the city, the contractor does not exercise due diligence in the erection of said plant, or if the materials furnished therefor are not in accordance with sample submitted, the city may give the contractor notice in writing of such dereliction, and then if the contractor fails within thirty days thereafter to obey any proper order of the city in connection with the work of erecting and furnishing the plant, the said commissioner, with the consent in writing of the Mayor, may declare the contract forfeited.

5. *Lamp-posts.*— The posts on which the contractor is to place and operate his lanterns will, together with the service pipes, be furnished by the city free of expense to the contractor. They shall be neatly painted by the contractor such color as the city may designate, and shall be repainted from time to time whenever, in the opinion of the city, it shall be deemed necessary. The posts must be kept free from dirt and must not be used for advertising purposes. The city will set, connect and keep the posts in good repair and plumb.

The contractor must furnish cross-arms and all fittings above the top of posts, as at present installed, on such posts as the city may designate.

It is to be understood that the service pipes now in use are to be furnished by the city in their present condition, and that breakages and leaks in said service pipes, due to the fault of the contractor or caused in making connections, are to be repaired at the expense of the contractor.

If the city accepts a proposition for installing inverted mantle lamps the contractor shall furnish, in place, extensions to the present lamp-posts, equal in workmanship and similar in design to sample submitted by the city. For lamps installed within one year from date of this contract the city will add as payment for such extension, for a period of five years, the sum of one (1) dollar per lamp per lamp year to the price bid by the contractor, and for such lamps as may be installed after the expiration of one year from the date of this contract the city will pay the contractor the sum of five (5) dollars for each such extension complete in place. The extensions shall become the property of the city after its payment of five (5) dollars for each as aforesaid.

6. *Lanterns.*— The lanterns or equivalents must be of the form best adapted to the character and location of the lamp contracted for, and identical in construction with the sample lantern submitted with the bid. They must be so constructed that the lights therein will be protected against insects and wind and weather. The height of the flame above the street level shall not be less than the average height for the same type of lamp now installed in the city.

7. *Burners and Mantles.*— The burners to be used must be first class in material and workmanship, furnishing at all times when in service a steady, clear white light, free from smoke, and of the required candle power. All broken, smoked, blackened, ragged or frayed mantles must be at once replaced with new mantles by the contractor.

If the lamps shall not give continuously the required candle power they must be replaced by the contractor with others satisfactory to the city.

8. *Time of Lighting.*— All lamps must be lighted and extinguished in accordance with a schedule to be furnished by the city, said schedule not to exceed four thousand burning hours per lamp per year. All lamps must be lighted within one hour from the time fixed in the schedule as the time for beginning, and must be extinguished within one hour from the time fixed in the schedule as the time for beginning to extinguish.

In order that the city may determine whether the

lamps are lighted and extinguished in accordance with the official schedule hereinbefore mentioned, the contractor shall furnish the said official with maps or lists showing the number and geographical location of each lamp in the district of each lamplighter, and designating the particular lamp at which each lamplighter commences to light and also the lamp at which he completes the lighting; and in extinguishing the lamps the lamplighter shall begin and finish at the same lamps as are designated for beginning and finishing points in any lamp district during the term of contract.

The lamplighter and other employees of the contractor will not be permitted to climb the lamp-post for the purpose of lighting the lamps, or for any other purpose, except by use of a ladder.

9. *Candle Power.*— The lamps, complete with burners, mantles, chimneys and glassware must be maintained continuously when in service at not less than 60 candle power for single burners or 100 candle power for double burners measured under the conditions of service at an angle of about 15 degrees below the horizontal, under all conditions of variation in the gas pressure. The standard candle power to be employed shall be the recognized international candle, as adopted by the United States Bureau of Standards.

The city shall have the right at any time to test the lights to determine whether the specified candle power is being produced. In case two tests of any lamp, separated by an interval of not less than one hour during any one night, prove that the lamp is not furnishing the specified light, the lamp shall be considered as either dim or out for the night, unless such condition is caused by a broken or plugged service pipe or other interruption of the flow of gas to the burner.

Any lamp found to give less than the specified candle power and more than 30 candle power, measured in the specified manner, shall be called dim, and any lamp similarly found to give less than 30 candle power shall be considered valueless and out.

If tests show that 10 per cent or more of the lamps, selected at random, of any lamplighter's or equivalent district fall below the specified value, then all the lights in the affected districts shall be taken as being equal in candle power to the average of the lights so tested. The expense of such tests shall be borne by the contractor if

the lights are shown to fall below the specified value, otherwise by the city.

10. *Penalties.*— For every light that does not burn continuously at the proper candle power throughout the hours prescribed each night, a sum equal to $\frac{2}{3}\frac{}{6}\frac{}{5}$ of the contract price per lamp per year, for each night in which any failure occurs, will be deducted from the amounts due the contractor, and forfeited to the city unless such failure results from no neglect or other fault of the contractor. For every lamp determined to be "dim," as defined in Article 9 herein, a sum equal to $\frac{1}{3}\frac{}{6}\frac{}{5}$ of the contract price will be similarly deducted for each night's failure. The "outs," as defined in Article 9 herein, will be reported by the Police Department at its respective police stations or by officials of the Public Works Department, daily, in writing, open to the contractor, and these reports shall be regarded as final and binding upon the contractor, errors proven or admitted excepted.

11. *Repairs and Maintenance.* — The contractor must at his own expense keep the entire plant in good repair and maintain same to the satisfaction of the city. Upon failure of the contractor to promptly make any and all necessary repairs (including repainting of lanterns and posts), the city may cause same to be done and deduct the cost thereof from any amounts that may become due to the contractor. All glass must be cleaned at least once a week, and oftener if necessary to do so, in order not to retard or diminish the candle power of the lamps. All broken or displaced glass, and all broken or defective mantles, must be replaced forthwith, and all street lamps where required must be so constructed that the present signs and house numbers may be attached, or the contractor shall furnish street signs and house numbers at his own expense suitable to the lamp furnished by him and to the satisfaction of the Commissioner of Public Works. The street signs shall, after each cleaning, be replaced, facing the proper street. All broken or displaced glassware shall be forthwith removed from the street by the contractor.

The contractor shall report, in writing, at the office of the official in charge of street lighting, on Thursday of each week, the number of each kind of lamps lighted on each of the preceding seven nights, and on the tenth day of each month the number of each kind lighted, as aforesaid, on each night subsequent to the last report, stating

in each report the name of each person lighting the lamps and the locations of any and all lamps added to or removed from the district of each lamplighter, and is to notify said official in writing of any damage to or repair needed to the posts or service pipes.

12. *Removal of Lamps.*— Whenever ordered to do so by the city, the contractor must change the location of lamps, weather permitting, from one place to another (posts to be furnished by the city ready to receive lamp), at his own cost and expense.

13. *New Lamps.*— The city may, from time to time, order the erection and maintenance of new or additional lamps at such locations as it may deem proper, and it shall be the duty of the contractor, at his own cost and expense, to place, upon posts furnished by the city, such additional lamps and maintain the same in all respects as called for in these specifications. All additional lamps ordered shall be put in service within ten days after they are ordered, and the posts set and connected, and notice that the same are in service shall be given by the contractor to the city.

14. *Discontinuance of Lamps.*— The city shall have the right to increase or diminish the number of lamps furnished under the contract, but it is understood that the total number of lamps to be furnished under the contract shall not at any time be less than 90 per cent of the maximum number of such lamps in service under this agreement at any time prior thereto. When orders to discontinue lamps are given, in accordance with the above, the contractor must put them out of service within three days and notify the city in writing; payment for the same shall cease on such discontinuance, and when the contractor removes a lantern without substituting another therefor, he shall properly plug the service pipe so that the gas will not escape therefrom.

15. *Supply of Gas and Rebates.*— The contractor shall furnish the gas required for the lamps. If, after the beginning of the contract, the price of gas is reduced, the city shall receive a rebate equal to the mount of the reduction.

16. *Extension of Contract.*— The city may, at its option, to be signified in writing not later than..... .....extend the term herein designated for the continuance of the contract for a period not exceeding six months, so that there may be no interruption of service in case the city enters into a new contract involving other

parties or different equipment, or both. For this purpose the city may call upon the contractor at any time within the extended period to discontinue the lighting of the entire area covered by his operations or of such parts thereof as the city may from time to time determine; *provided, however*, that such parts shall be so arranged that no fraction of any established lamplighter's route shall require lighting for a longer period than two nights, and that not less than two weeks' notice shall be given the contractor in regard to each such part.

The contractor shall promptly remove his equipment from all posts on which lighting has been discontinued, and co-operate with the city in recording the dates on which lighting ceased.

17. *Payments.*— Payment for the work performed under this contract shall be made by the city monthly, in the same manner as other city work is paid for, at the rates specified in the proposal and subject to appropriations.

18. *Miscellaneous.*— The contractor shall allow his employees to lodge, board and trade wheresoever and with whomsoever they may choose, and shall give preference in employment, first, to citizens of the city, second, to citizens of Massachusetts, and if they cannot be had in sufficient numbers then to citizens of the United States, and shall save the city and its agents and employees harmless from any and all claims against them or any of them arising from any act, omission or neglect of the contractor, his agents or employees, in carrying on the contract, and no workman, laborer or mechanic employed on this work within the Commonwealth shall be requested or required to labor more than eight hours in any one calendar day.

Any assignment, subletting or otherwise permitting the work herein specified to be done by anyone other than the contractor or encumbering the work or plant by mortgage or in any way, will be sufficient cause for the abrogation of the contract by the city.

The contractor hereby agrees to hold the city harmless from any patent litigation caused by the contractor's infringement or alleged infringement of patents and to pay all costs, expenses and fees in connection with same.

STATEMENT BY MR. LOUIS K. ROURKE, COMMISSIONER OF PUBLIC WORKS OF THE CITY OF BOSTON, BEFORE THE EXECUTIVE COMMITTEE OF THE CITY COUNCIL, CITY HALL, ON APRIL 3, 1911.

Mr. ROURKE. Mr. Chairman and gentlemen, since last June I have advertised three times for street lighting bids. I do not recall the exact dates. The first I received nothing on; the second, I received two propositions for equipment only — no bids for maintaining, operating, installation, and so forth, and there was a written objection from the Rising Sun Company that our specifications were entirely too harsh and one-sided and that no contractor could bid on them.

After those unsuccessful results I consulted with the Mayor, with the Finance Commission, with all the representatives of street lights and street lighting apparatus that I could get a line on, including the Boston Consolidated Gas Company, the Rising Sun Street Lighting Company, Mr. Momand of the Pressure Lighting Company, Mr. Brugi of Springfield, who I understand is the chief engineer of the Kilschman Pressure Lamp, Messrs. Tripp and Shaw, this clock outfit over here in Newton — and who else? Let me see.

Coun. SMITH. A foreign firm?

Mr. ROURKE. The Horstmann Clock Automatic Lighting Company, of England, the Fiat Lux Light Company of Chicago,— in fact, all interests with whom I could get in touch. I drew up specifications in two forms, one for equipment and one for installation, maintenance and lighting operation. I was indirectly assured that one of those automatic companies would bid on this work and probably give me a bid as low as $19.75, before the bids were opened. They did not bid at all, except to furnish equipment. The only bid I received was from the Rising Sun, and they came down $1.30 in their bid. By the way, in regard to the Finance Commission's report here last year, the last one that they issued, page 69. I just want to quote a little from a

letter which they wrote to his Honor the Mayor on May 2. This is dated Boston, May 2, pages 68 and 69, and is Volume 6 of the Boston Finance Commission's reports. They go on and rehearse the trouble which we have had, and they say here:

"If the Rising Sun Company is willing to reduce its price substantially, and also to have a provision in the contract for still further reduction in the event of the city's deciding to use automatic lighting and extinguishing devices, a contract on such terms should be made; but, if the company is unwilling to make these concessions, the city should seek protection by other means."

Then later on, you will remember, they recommended that we invest $310,000 for plant, equipment, and so forth, and do our own lighting.

Well, we have got as a result of these bids exactly what they looked for in their letter of May 2, 1910, which I have just quoted. Of course, there is the question of how you will interpret that word "substantially"; but they have made a reduction of $1.30, which is about 5 per cent, I think, on their present price, $23.60, and in our specifications we have provisions, which I have here, that any reduction secured in the price of gas shall revert to the city, and also a provision for a future installation of automatic lighting attachments, half of the net saving of which shall go to the contractor and half to the city. That is, providing it appears that there can be a net saving, the city will get half of it and the contractor half.

We had three propositions in answer to the tenders for equipment. That simply means this, gentlemen, shall you go into municipal ownership, or shall you accept the Rising Sun contract? You are undoubtedly, perhaps, a little more familiar personally with municipal ownership in Boston than I am. If it is the idea of the Council and if the Mayor in his wisdom decides that the city shall go into municipal ownership, I shall not dodge it; I shall do the best I can under it. However, I personally will and do recommend that the contract with the Rising Sun Company be accepted. The saving there is actual; it is in dollars and cents, amounting to approximately $15,000 a year that we are dead sure of, with a possible further saving if the automatic equipment will show a saving—and, of course, if it shows a saving it shows it on the labor end. This company is a responsible company. It is its business to light streets. It puts up

a bond to do the work. The entire results of municipal ownership and purchase of equipment by the city are problematical.

That is a statement of the case in as fair language as I can put it.

Q. (By Coun. Collins.) I understand that this bid contemplates a reduction of $1.30 per lamp, Mr. Commissioner? A. Yes, sir. I will say further, if you will pardon me a moment, that the specifications are very stringent on candle power and will ensure an increase in candle power of from 20 to 25 per cent over what you are now paying $23.60 for.

Q. We have the same question here that we had on the garbage question—the main question of tying the city up for ten years. Where will the city be in ten years from now on this contract? Largely in the position we are now in, won't it? A. Yes. I might say first, off hand, that last summer I recommended that we should not fool any more with gas, because we apparently could not get any more concessions from the gas people, and that we take the Edison bid and put in electricity. His Honor the Mayor, I think very wisely, objected to that, because he did not think we ought to put all our light into the hands of one company. I think myself that competition between the gas and electric light interests results in a healthy state of affairs. But their price is $22.31, you see, for a 60 tungsten. That would have been one way of settling the difficulty then — which, as I say, I recommended, for a reason, and the reason was that I wanted to see the gas company say something or do something, which they finally have done. But in connection with this contract, for instance, the street gas lighting is in a state of evolution, due to the devising of automatic lighting and extinguishing apparatus which evidently have not been sufficiently proved to secure the backing of capital to such an extent that they could have taken a contract of this size. I should judge that that is the case, from the fact that I did not receive any bids from them. That automatic equipment will probably work out all right, but I had a great deal rather have somebody else invest $250,000 or $300,000 in experimenting with the equipment than the City of Boston. That is the way I have looked at it, from the results I have seen. As I say, where we look for advances in lighting is in the perfecting of these automatic attachments,— whether the pressure, clock or

whatnot,— and we have provided here specifically for such installation. Whenever that automatic attachment is applied, the cost of it will be distributed through the life of the contract. It will become the property of the city at the end of the contract.

Q. (By Coun. HALE.) What will be the property of the city? A. The automatic attachment.

Q. Not the lamps themselves, but simply the automatic attachment? A. Simply the automatic attachment.

Q. Is it any good without the lamp? A. At the end probably of ten years you would want to renew the lamps.

Q. And if that was done the attachment would be junk on our hands? A. No, attached to some other lamps.

Q. Take it off of one lamp and put it on another? A. Yes, sir — that is, some of them. I think that is so with this Horstmann clock, and if that company will send a representative here — which I think they will do — we will know about it. I have seen one of them in use. It is quite a remarkable little piece of machinery.

Q. Is it fitted on the upright lamps or inverted lamps? A. On the upright lamps, but can be put on either. That, as I say, is where the development will come in ten years on this automatic.

Q. (By Coun. COLLINS.) That has not reached a state of perfection yet that would warrant the city going into it? A. It strikes me not, because capital always gets interested in these things first, and evidently capital has not taken it up to the extent that it is satisfied to come in and bid on such work.

Q. What strikes me as the most vital question in the contract we have under consideration is this: What profit does the Rising Sun Company make per lamp on the City of Boston, as nearly as you can estimate? A. As nearly as I can estimate, I should say under the new price it might make 80 cents a lamp.

Q. How much is that a year? A. With 11,000 lamps that would be about $8,800.

Q. In the course of ten years, even under that estimate, there would be a net profit of nearly $100,000 for the middleman, the Rising Sun Company? A. Yes.

Q. Now, assuming that the city were to buy its own lamps in the state of perfection in which they now are,— and you say they are imperfect,— in your opinion could

the city operate and maintain its own plant for less than that? What has been the experience, if any, of other cities like Boston? A. Let me expatiate a little bit on that. We would start with 120 lamplighters. They agree to light so many lamps. Of course, they will be in the labor service, and we will pay them $2.25 a day for seven days a week. Now, you cannot set right down there on paper exactly what the city ought to do it for. There comes a recommendation from the honorable Council or his Honor the Mayor that lamplighters be granted a Saturday half holiday, or other holidays, and various other things, sick leave, and that kind of thing.

Q. (By Coun. HALE.) An authorization, not a request. A. Well, you gentlemen are just as familiar with those things as I am. Municipal ownership is a problematical proposition, very problematical.

Q. (By Coun. COLLINS.) Assuming that that is true, have you tried to figure it out, even on a liberal basis, as to what it would cost the city per lamp? A. Yes, I have got it.

Q. How much would it be? A. I think we could do it for $22 per lamp by hand lighting.

Q. How much are they asking? A. $22.30.

Q. The last time you opened bids there was just one bidder, you say, the Rising Sun Company? A. That is all, for maintenance and operation, and three proposals for equipment.

Q. What is your information as to whether there are other companies of this same nature operating in other cities, and whether it is possible to receive more than one bid? A. Well, for instance, Mr. Ramsdell assured me that he would give me a bid, but he said, "Mr. Rourke, I don't believe that I can do it at less than $25 per lamp." He has an inverted lamp. I said, "All right, Mr. Ramsdell, put in your bid. That is what we are looking for, — bids." He didn't; the Automatic people didn't. But the day after bids were opened I received a letter from the Pressure Lighting people saying that they would take the operation of the equipment if the city would purchase it, for $19.30 per lamp.

Q. (By Coun. HALE.) That is the operation only? A. Yes, sir. I asked him why he didn't put his bid in Saturday, when he had a chance. He said, "Never mind about that." That is all the answer I got.

Q. In your opinion would you have any better results if you advertised again for bids? Do you think

you would have more bidders come in? A. No, except that our friends of the Press would have a notice in that the Rising Sun contract is extended again for the sixteenth time. That is all it means — this $23.60 contract.

Q. Now, Mr. Rourke, would the Rising Sun Company be willing to give a contract as set forth here for a shorter length of time? A. For five years, say?

Q. Yes. A. I don't think they would for the price, Mr. Councilor. You see that there are advantages and disadvantages in a ten-year contract. Naturally anybody who takes a contract for ten years figures on absorbing the cost of the equipment, and I think they are quite right about it, because I imagine a lamp equipment on the streets after ten years has pretty well depreciated, has practically become junk; and if you give it to them for five years they would simply figure the thing out for five years and receive the unit price, figuring on their equipment, and so on. I asked the president of the Rising Sun that question. I said, "Now, we have your figures; would you consider that for five years?" He said, "We are getting rather tired of the matter, and we prefer to have the thing sent along as it is" — didn't say that they would refuse it, but they were evidently not enthusiastic over the matter.

Q. (By Coun. McDONALD.) Mr. Commissioner, you haven't told us anything about the contract submitted to you by the lamplighters? A. I don't consider it a contract, Mr. McDonald, unless they put up some bond.

Q. Well, the proposition. A. Yes, we have that proposition here.

Q. Have you given that any attention? A. Oh, yes; I have given it a very great deal of attention. It is in line with municipal ownership, as I say. As I say, under that proposition, we would probably operate those lamps for $22, provided things remained as they were.

Q. Have you made any investigation as to the prices that they submit here? A. Yes. They are a little bit low. I raised their price to $22.16. Theirs was $20.58, as I remember it. Then they have another proposition on the inverted, which amounts to $20.44. In the first place, their cost of equipment is away down low. They put it at $185,000. The cost of the inverted equipment, latest proposition, is about $204,000. The cost would be about $22, Mr. Councilor. Then they figured on

each lamp. I have some figures on that for the last six months, and I know that one man lighting 82 inverted lamps in the city is using a mantle and a quarter a month. I have here one man who has 96 lamps, not working for the city, — I don't know what he would do if he were working for the city, — whose monthly supplies are 100 mantles and 60 chimneys; another who lights 96 lamps whose monthly supplies are 122 mantles and 84 chimneys. And so it goes. Taking six men here, the average per lamp per year is $13\frac{1}{2}$ mantles, and their figure on the upright lamp is only $4\frac{1}{2}$ mantles. I have taken what I thought was a safe measure, and have set it at 8.

Q. (By Coun. McDONALD.) They base their estimates on the number of globes, and so forth, used by their membership each year since they have been lighting lights, and they say that the Rising Sun Company have told them that anybody that used over a certain amount, an amount which is less than the amount they estimate here, might consider himself discharged from the company. Have you investigated to find out whether the number of globes and mantles they use each year is large or small? A. Small. They use more than what they say.

Q. Well, how many more? Do you know? A. Why, as I said, they have put down four and one-half. They do not say that that is what they use, but they estimate four and one-half there. That is in their estimate, isn't it?

Q. Yes. A. I put it down as eight. The average on these six highest men is thirteen and a half.

Q. Well, they have an estimate here from Mr. Wade which is lower than the estimate given you in their proposition, in regard to the lamps used by the city on Springfield street. A. You are talking about the Momand light?

Q. This pressure light. A. Well, you see there is an expert there looking after those fifty lamps, nursing them, as an ad. He is not our man; he represents the gas company. Now, you couldn't take that as an average criterion. Neither would I go so far as to say that you would take these six men, who are evidently a little off in their work and who use the thirteen and one-half, as a standard. But I split the difference, and thought it was fair to put the number as eight.

Q. They say here also that in the event of the city's buying and maintaining its own equipment and lighting its own streets they will sign an agreement "not to seek in any manner, direct or indirect, any change in the wage scale or the number of lamps per man as named above for a term of ten years, irrespective of what labor conditions may be applied to any other department of the city within that time, and the Lamplighters' Union will further agree not to seek in any manner, direct or indirect, during the term of years fixed above, any vacations, holidays or other days off or to in any manner endeavor to obtain any condition in the lighting of the lamps that would increase the wage of $2.25 per day or reduce the number of lamps per man to an average of less than 100 each," and so on. A. Yes, I have that letter here, and will read to you just what they wrote to me:

BOSTON, MASS., April 1, 1911.

LOUIS K. ROURKE,
Commissioner of Public Works,
City of Boston:

DEAR SIR,— In connection with the conference held in your office Friday, March 31, 1911, in relation to the possibility of the city establishing a lighting plant, and at which conference you stated that it was your opinion that the city could do its own street lighting at a cost of $20.40 per lamp per year if the labor items as contained in the lighting plan submitted to you by the Lamplighters' Union at the conference referred to, *i. e.*, $2.25 per day wages, and the lamplighters to care for an average of 100 lamps each, was strictly adhered to.

I don't know that it is hardly fair to put in the price, for the reason that these men are not lighting 100 lamps, and if the Rising Sun Company should have its proposition accepted and should employ lamplighters who are being employed by the city, I don't know but what they would insist on the men lighting 100 lamps.

Q. How many are they lighting for the Rising Sun? A. I think they average 90 — one man 65, one man 87, one 94, one 96, another 96. As I say, I don't know as the boys ought to make this public, as it may be unfair. But that is just as the chairman sees fit. I don't want to be unfair to the lamplighters. But this is what they say, anyway.

Q. Don't you think if the Rising Sun gets a ten-year contract that they would make them light over 100 lamps to keep their job? A. I don't know but what the Rising Sun has a cinch on it now.

Chairman ATTRIDGE. Continue the reading.

Mr. ROURKE:

And in order that you may be thoroughly convinced of our earnestness of purpose in submitting to you the labor item of $2.25 per day as wages and an average of 100 lamps to each lighter's route, and that you may have complete confidence in the labor items of both wages and number of lamps per man being strictly adhered to by us, we desire to submit to you the following statement:

If the city will do its own lighting on a wage basis of $2.25 per day wages and an average of 100 lamps to each lighter, the Lamplighters' Union will agree not to seek in any manner, direct or indirect, any change in the wage scale or the number of lamps per man as named above for a term of ten years, irrespective of what labor conditions may be applied to any other department of the city within that time, and the Lamplighters' Union will further agree not to seek in any manner, direct or indirect, during the term of years figured above, any vacations, holidays or other days off or to in any manner endeavor to obtain any conditions in the lighting of lamps that would increase the wage of $2.25 per day or reduce the number of lamps per man to an average of less than 100 each.

That is pretty straight talk.

The Lamplighters' Union will agree to file in your office, when requested by you, the statement as made above, bearing the seal of our union, and signed by the proper officers, and will also agree that said statement shall bear the indorsement of the Boston Central Labor Union, which will be a guaranty that the Boston Central Labor Union will be pledged to see that the Lamplighters' Union strictly adheres to its agreement.

Trusting that the above will enable you to have complete confidence in the proposition as submitted by us,

Yours respectfully,

FRANK H. MCCARTHY,
Organizer of Federation of Labor.
Representing Lamplighters' Union of Boston.

Q. They also say here in their communication to the City Council that, in order to satisfy the city and you that the figures they send here are correct, they are willing to have you send any expert or hire any kind of an expert to go over these figures, and go over similar contracts by the Rising Sun Company, for instance, with the city, or go to any other expense, and they will pay the expense of the expert to certify that these figures they present to you are correct. A. Well, you cannot say that they are correct. I will say this, Mr. Councilor, that they are not far off. They are very close. It is an estimate, you understand; but what guarantee have we that it will remain that way? That, I say, is the problem that we are up against. It means either municipal ownership or not municipal ownership. Now it seems rather inconsistent to go into municipal owner-

ship on this matter, when we can look right around this city and see large stone crushing plants lying idle, rotting away, where the municipality has not been able to manage them, and where by the advice of everybody they have been closed up. We are extending our contract system daily for the reason that we are not able to compete with private contractors. We are under about 35 per cent handicap to start with in competing with private contractors on city work. I don't see why the lighting is any particular exception to any other form of municipal service. As I say, I am not afraid to try it; but it is not quite consistent with the policy of the city.

Q. Then, in your opinion, if the city decided to do its own lighting, it could not do it at less than $22 per light? A. I think about $22, provided all these things are adhered to. I think we can do it for that.

Q. (By Coun. HALE.) I would like to ask one or two questions of the commissioner. The first one is in regard to that 80-cent profit that you say the Rising Sun Company makes. Was that after deducting something for depreciation? A. Why, it is only a guess of my own, you know. You cannot get into that thing unless you go into the books.

Q. Did you include something for the depreciation of the plant? A. Yes, sir. I figured that they got 80 cents clear money. As I say, it was only a guess. I don't know as I have any business to guess at it, really.

Q. The result, of course, if that is true, is that they have paid for the value of the plant long ago? A. I presume so. I should say yes. I presume the plant has been paid for several times. But it strikes me that here is the point we are up against, — not who a man was or what he was, but what he is to-day and what we want to-day. We want the streets lighted. Now, if John Smith has been here before and made several million dollars in lighting streets, that does not seem to me a logical reason why we should not want him to do it again, if we can put the thing on a proper business basis.

Q. No; but there is a fairly good reason why we shouldn't allow for depreciation something that has already been paid for. A. Well, I can tell you that with these figures the Rising Sun will have to put in new equipment. They cannot get the 60 candle power with what they have on the streets.

Q. Assuming that we bought the property, have you

figured out what the interest would be for the inverted mantles? A. Your plant would cost you $204,000. What do you get money for — 4 per cent?

Q. Yes. A. $8,000, isn't it?

Q. Now, what is the depreciation? A. Depreciation is something for which I should think we would want to charge 5 per cent at least.

Q. That would be 5 per cent on $200,000, and that would be $10,000? A. $10,000.

Q. That would be $18,000. What would that be per lamp? A. $18,000,— $1.50 a lamp.

Q. And this union says that the cost of operating would be $19.94. That would make $21.44, wouldn't it, on that basis? A. $21.44.

Q. Now, what was the bid of the Pressure Company for operating? A. $19.30.

Q. Now, if they bid $19.30,—— A. They didn't bid. After they saw the other fellow's bid they made that proposition.

Q. Well, assuming that they would make that bid, that would make $20.80, assuming that we bought the property and let them operate it. In other words, under government ownership or under government operation we would bring it down to $20.80? A. Yes.

Q. What objection is there to that? A. Well, the Consolidated Gas Company, you know, offered last summer to do that work for $20.51.

Q. What objection is there to either one of those? A. I don't think it is good business ethics to let the other fellow show his hand and then walk in and duck under. The way I would do would be to cancel all this and start fresh.

Q. That is what I meant. Now, if this Pressure Company is a reliable concern and has made a bid, or is willing to make a bid, to operate at $19.30, we could get this done under a new contract, assuming that they would come in again with that figure, under $22.30. A. But, as I say, I was indirectly assured that I would receive a bid from these people for $19.75 for the whole thing, and we didn't get it.

Q. Suppose these lamplighters furnish a bond with a guaranty to do this work, the cost should not exceed $19.94, should it, their figures, the cost of operating? A. Their figures are about right.

Q. Assuming that they guaranteed that, with a bond, the total cost of the city for operation should not be

more than $19.94. In other words, it would be practically a contract with the union to do this lighting? A. Yes. I see no objection to the union as a lighting company bidding on this contract, putting up the proper bond.

Q. For operation? A. I see no objection to that.

Q. (By Coun. SMITH.) Mr. Commissioner, of course, in regard to these other automatic lighting companies, you didn't get closely enough in touch with them to get any bids from them? You didn't have any assurance from any of the automatic companies except one? A. Well, Brugi said he couldn't handle the job, that it was too big, that he was on other things and didn't want it. He represented the Kilschmann people. I was assured that the Momand people would do it for $19.75, but they made no bid. The Shaw Clock people thought that they might have capital enough to bid on the operation, but they didn't bother with it. They just put in their bid for equipment. Now, in connection with the lighting question, gentlemen, you hear Cleveland and Baltimore quoted very much. In Cleveland they pay the lamplighters $18 a month, you must remember. The great saving that I can find in most of these lighting propositions is mostly in the labor part. Out here in Brookline school boys do it, and in Cleveland boys do it, receiving $18 a month, something like that.

Q. (By Coun. MCDONALD.) And they have natural gas? A. Yes, sir. Cincinnati has a very low figure. In all these places the lamplighters are hardly considered as skilled labor, don't you see?

Q. (By Coun. SMITH.) Under the Rising Sun contract that provision as to automatic lighting was after the bids were opened, wasn't it? A. Oh, no. That is printed in the specifications, right here.

Q. They made their bid, did they, with that in it? A. They made that bid with that provision in it. Here is what I advertised:

(A) Lamps to be lit and extinguished either in whole or in part by hand or by any automatic device the contractor may install.

That let in everybody.

(B) Lamps to be lit and extinguished by hand, with a provision for installation at some future time of automatic devices for lighting and extinguishing the lamps in whole or in part.

That let the hand lighters in, with a proposition of changing later on.

Q. Now, under our present contract with the Rising Sun we have a balance of 3,000 or 4,000 lights that we can operate ourselves experimentally, haven't we? Isn't that under the present contract? A. Yes. I don't know that it runs up to 4,000. There is a certain number of them, quite a number.

Q. Now, why isn't it possible,— I am asking your advice, your opinion,— why isn't it possible for the city to extend the contract with the Rising Sun Company at what you consider a favorable price, say $22.30, and on the side experiment with these various automatic devices ourselves,— not have the gas company do the experimenting, but experiment ourselves? A. Well, my idea, in the first place, is that I don't believe the Rising Sun Company will extend its contract for less than $23.60. Of course, they have got us. Of course, they might be philanthropists enough to do that, but I don't think they would. The next thing is that if we close this contract with them at $22.30 that is the first thing I would do. I have sent for that English representative to come over, and we would immediately install the automatic attachments and experiment right away with them.

Q. But if we did that while they had the contract we would get only 50 per cent of the benefit? A. Fifty per cent.

Q. If we should do it on a short contract we would get 100 per cent of the benefit? A. What do you mean by a short contract?

Q. I mean a contract for six months or a year, and during that time experiment ourselves with the automatic lamps, and if we could find a successful mechanical device and install it we could get it in operation very soon and would not have a long contract on our hands. A. You mean that the city would be money ahead in that way?

Q. Exactly. A. But don't you see the opposition you are going to meet? Evidently the Lamplighters' Union is taking this thing very seriously, and the automatic lighting is exactly what they are opposed to.

Q. I was not figuring on the opposition we would run into, but on the dollars and cents side. We would not run into the opposition of the Rising Sun, would we, in your opinion? A. Oh, no.

Q. That is, they are perfectly willing to operate? A. I think they would be perfectly willing to extend their contract another year for $23.60.

Q. I mean, suppose we discovered a successful automatic device, they would be perfectly willing to continue their contract on a fair basis under that? A. I should think so, because they are a branch of the Welsbach. They are lighting something like 300,000 lamps in the United States, and they would not want to do anything that would hurt them outside. I don't know, gentlemen, of anybody that is more interested in a successful automatic attachment than the Welsbach Company themselves, for the reason that they are the biggest street lighters, we might say, in the world. They have over 300,000 lamps in this country. You think we ought to extend it a year and keep right at the experimenting?

Q. Yes, I do. A. Well, under the contract, you see we are having the assistance of the people who are more interested in securing a successful automatic device than any other people in the world, and we get half of the net saving, whereas if we experiment, every Tom, Dick and Harry comes in with a clock and lamp, and you would have to receive them very courteously and go around and put it on a post for them. A contract worded in this way is an incentive for the contractor to find an automatic device; and, outside of the local incentive in Boston, as I say, they are the biggest street lighters in the world and it means more to them than to anybody else to secure something of the sort.

Q. (By Coun. HALE.) This is a profit-sharing scheme? A. It is a profit-sharing scheme, exactly.

Q. I was going to ask what would happen. Would they be willing to extend that theory further so as to divide any profit or profits? A. What do you mean? They only mention the net saving made by the automatic attachment.

Q. They do not mention it in connection with any other improvement that may be made? A. Of course, if there is any reduction in the price of gas we receive that in whole. There is the other point that comes up. I consider that the logical people to do this lighting are the Consolidated Gas Company. In other words, all that we are interested in is the candle power of the luminant on the streets. We don't care how it gets there. Now, the Edison people, for instance, don't say that if we will erect an arc light they will turn the juice on. They do the whole thing and give us the light on the street. That is what I think the Consolidated Gas

Company ought to do. But I have worked on them for nine months and have been unable to get them to do it. All they are interested in is selling gas; all we are interested in is buying illuminant.

Q. But they have bid on the operation? A. They have bid $20.50.

Q. I suppose you don't feel so strongly against municipal ownership as you do against municipal operation? Of course, there is a tremendous difference. A. I am open minded.

Q. Isn't there in your mind a tremendous difference between municipal ownership and municipal operation? A. There certainly is.

Q. And municipal ownership with private operation does away with most of the dangers of municipal ownership? A. I think so.

Q. That is the way I feel. A. I think so.

Q. (By Coun. SMITH.) Do you think the Rising Sun people would make any better arrangement than at present in case automatic devices were discovered? A. I have fought that clause with them for six weeks. I started in and wanted it all, and there is the last word that they would say,— "Divide equally."

Q. (By Coun. HALE.) Now, assuming that we installed this plant according to the recommendation of the Finance Commission, under the second alternative, if this pressure system were ever adopted it would be a very simple matter to simply adapt it to our lamps and cut down the cost of operation immensely, would it not? A. It is not a simple operation, if you have 120 lamplighters that work, to discharge seventy of them. There is the difficulty.

Q. No, it is not. A. There is the difficulty.

Q. (By Chairman ATTRIDGE.) What system of operation is in Newton? A. The gas company has the contract for $15 a lamp for the night illumination half the night, and they have attached the Shaw clock, that increasing their profits quite considerably.

Q. Have you heard from any of the officials of Newton in regard to the operation of what you call that Shaw clock? A. They are apparently very successful, they say.

Q. Have you any communication from officials of Newton to that effect? A. Nothing official, except from talking to Mr. Ross and Mr. Stuart, as I met them.

Q. Don't you believe that street lighting is an essen-

tial part of street maintenance, like paving and sidewalks? A. Yes, sir.

Q. What are your reasons against the city owning the equipment? A. I haven't any reason against them owning them.

Q. What part of the lamp does the city own at the present time? A. We own the posts and the risers, the pipe connections.

Q. So that there isn't any real objections to the city owning the entire lamp? A. Why shouldn't we own it all? We own the posts.

Q. Now, if the city should own the lamps and if municipal organization was perfected, we will say with a man at the head of the department who had such power over his department that he could get efficient work, don't you think — or do you think — that the city could save the contractor's profit if it operated the lighting itself, besides owning the equipment? A. There is only one answer to your question, and that is, Yes. That eliminates the middleman.

Q. Eliminates the middleman and the responsibility for the service would be placed on the head of the department? A. And the head of the city.

Q. And do you think if the city owned and operated, faults in the lighting system could be more easily remedied? A. I think this, Mr. Councilor. I think if a contracting firm whose business was street lighting should do nothing else, naturally it would be more expert in that line of work than any head of a department of a city could possibly be, unless it happened, for instance, to be his specialty; and, about faults being remedied more easily, I think there is this point, that the contractor, as you well know, when he loses a few cents has to go down in his pocket and dig it out. When a man working for the city drops a few cents, he says, "That is divided among 670,000 people and doesn't amount to anything." That is the human equation, the personal equation that enters into the matter.

Q. Couldn't equipment be as well selected by public authority as by private contractors? A. I think so. I think I am perfectly competent in my own case to select proper equipment for the city.

Q. (By Coun. HALE.) Would the Rising Sun Company bid on the operation alone? A. No. They are not only an operating, but they are a supply outfit, and where they could not use their own machinery there

would be nothing in it for them. For instance, they are paying $9 for operating a lamp, $9.60 for gas, making $18.60, and there is but $5 left, under the $23.60 price; and if equipment, cost of mantles, and so forth, is taken away from that, I imagine that there is very little in it for them.

Q. Well, I mean, if we spent enough to put in the plant, would the Rising Sun Company make a bid to operate the thing? A. I don't think so. I don't know.

Q. (By Chairman ATTRIDGE.) There is no provision under the proposed contract with the Rising Sun Lighting Company whereby at the end of a ten-year period the city may acquire the tops of the lamps, that equipment? A. No, acquire only the automatic attachments.

Q. So that ten years from to-day we would have the same problem over again? A. The same problem would confront the city.

Q. In the last twenty odd years do you know how many reductions have been made by the Rising Sun Street Lighting Company on its bids? A. I cannot say. They have been numerous. I don't know whether the Finance Commission's report refers to that or not.

Q. I think it is contained in one of the Finance Commission's reports. A. I don't recall it offhand, no; but they have been numerous.

Q. So the city would not be any better off in ten years from to-day than now, except —— A. That it might have the automatic attachments, that is all.

Q. And would still be without the ownership of the tops? A. Yes.

Q. If the Central Labor Union or the committee of the lamplighters should file a bond for the carrying out of this contract, do you think it would be a good business venture for the city to allow them to do the work? A. Why, I think so, because if they file a bond they put themselves in the place of an operating company — that is, making a bid on the thing — and their bid is lower than the Rising Sun's.

Q. What saving to the city would that entail? What would it mean if the contract was given to that body of men? A. I don't think, Mr. Councilor, that the Labor Union could take the contract at those figures, quite, that they submitted. If they did, it would make quite a saving. I have it here — in ten years it would amount to $204,000.

Q. According to their figures? A. Yes.

Q. Now, according to your figures what would it be? A. Well, according to my figures it would mean 30 cents a lamp less than the Rising Sun, which would be — oh, about $40,000. But if they filed a bond to carry out this agreement, why, naturally, here is the lowest bid right here, the Lamplighters' Union, and they constitute themselves an operating lighting company. I don't see any objection at all to their bidding at all, provided they file their bond. Certainly they would be the low bidders here.

Q. What bond has been asked? A. $25,000 or $50,000, I forget which — $50,000.

Q. Have you ever had an opportunity, Mr. Rourke, to look at the books of the Rising Sun Street Lighting Company? A. Why, they told me that if there was any information I personally wished to have they would give it to me.

Q. Did you ever take the opportunity of inspecting or looking at the books of the Rising Sun Street Lighting Company during your discussion of this contract or bid? A. No. I don't think any contractor is going to open his books to the people he is working for. If they do it is a new departure in contracting with which I am not familiar.

Q. (By Coun. COLLINS.) Unless there is a stipulation in the contract under which you have that right, you know, such as is the case with the Sanitary Product Company. A. Yes, unless there is a stipulation to that effect.

Q. (By Coun. HALE.) Supposing these lamplighters did put in a bid of that kind and it should be the lowest bid. Would there be any way in which we could make them give us the advantage of any profit in connection with the pressure system, so that we would get the benefit of that, too? A. I think that if you put a clause of that kind in the lamplighters' agreement they might object to it.

Q. I was thinking, if this bid of the lamplighters is lower now than that of the Rising Sun Company, whether in three years from now, for instance, with the pressure system in effect, it would be high or low? A. I think roughly the cost of operation of a lamp with successful automatic apparatus would be reduced about $4. That would give the city $2 and the contractor $2. That would reduce the amount to $20.30.

Q. Which would be lower? A. Which would be lower than anything you have got.

Q. Now, have we any guaranty that they would put it in as soon as they possibly could? A. We have made it as strong as we can here in cases of dispute. Of course, these disputes between the city and contractors sometimes take up a lot of time; but, as I say, there is not only the incentive of this net profit that they would make by putting it in — and I think that is a pretty good clause — but there is the additional incentive that they have 300,000 other lamps in other parts of the country.

Q. Yes, that is important. Now, does the gas company's operation proposition provide for reduction? A. No. There is just a little note here in which they say they will operate it for $20.50, I believe.

Q. Would they object to putting in the pressure? It would be to their advantage, too, wouldn't it? A. They guarantee that it shall not exceed $20.51 per lamp. The Rising Sun proposition is not bad. It is better than I expected to get from them, and to my mind it is either that contract or municipal ownership.

Chairman ATTRIDGE. Does any other gentleman desire to ask Mr. Rourke any questions?

Q. (By Coun. HALE.) On the device that you think is most likely to reach perfection for the pressure system do you have to throw away any part of the original lamp in order to put that in? Supposing, for instance, we now appropriate $200,000 to provide lamps? A. No. That is a little attachment that goes right in the bottom of the lamp.

Q. None of our investment of $200,000 that we make for it would be wasted in a year from now, say, if we put on a pressure attachment? A. If the city buys lamps, I would say this much, that the lamp I would recommend buying is the inverted type, and no part of that would be thrown away.

Q. The only objection to that would be the difficulty of discharging the men we had employed for the first year or two, until we got the experiment perfected — which would be a practical difficulty. Do you suppose that would be any more difficult than it would be now to terminate any dealings with the Rising Sun Company, which, of course, would indirectly throw these men out of a job? I mean, do you suppose the pressure brought to bear on the Council would be any greater? A. Well, I don't know.

Q. For instance, supposing we built the thing and then let the gas company do it, we would get practically as much pressure from these men because in either case they would lose their jobs; and I suppose in that respect it wouldn't make any difference, as far as the job was concerned, whether it was the city or the Rising Sun Company? A. Of course, if the city handled the thing we could transfer them to the Street Cleaning or some other department.

Q. It would be easier in that way? A. It would indirectly come back against the cost of lighting, wouldn't it?

Q. Yes.

Q. (By Coun. SMITH.) When you answered Coun. Hale's question about not having to throw away any part of the lamp, I suppose you had some special mechanism in mind? A. Take, for instance, this little Horstmann clock, attached to almost any kind of lamp.

Q. And that is true of the Momand and true of the others? A. Well, I don't think there is any automatic pressure outfit yet that is a success for an inverted lamp. I think they are all used for upright lamps.

Q. (By Coun. HALE.) Which would you rather do — have this contract extended for a year at $23.60, while we experiment, or buy the lamp right off and experiment? I think we are all agreed that the automatic ought to come in some time, after a period for experiment. A. I would rather accept the Rising Sun contract,—but I would rather have it for five years than ten years, with those figures, of course.

Q. Assuming that you didn't like this contract, anyway, would you rather extend the present contract for a year or buy the plant? A. Well, if you buy the plant you have to extend their contract more or less, you know. Of course, there is that difficulty. They might get a little up in the air, and at the end of the present extension let the lamps go out and stay out. But I don't think they would do that. But there is that possibility.

Q. (By Coun. COLLINS.) They are in the business of making money, Mr. Commissioner? A. Yes. They are a reputable concern, of course, and wouldn't want to do anything of that kind.

Q. (By Coun. HALE.) We would have to extend the contract, anyway. What would happen if we extended

it for a year, assuming we didn't take on this new one? You are in favor of the new one above everything, are you? A. Yes.

Q. You are? A. Well, I think it is the most businesslike proposition we have got.

Q. (By Chairman ATTRIDGE.) If a bond were filed by the men who have submitted a bid on behalf of the Lamplighters' Union, how would you consider the Rising Sun bid in comparison with the lamplighters' bid — that is, if a bond were filed? A. I consider that the lamplighters have gone a little low, and I believe they would have a little difficulty in making good. Certainly, if they could do it ——

Q. The city would be protected by this bond, if a bond were filed, Mr. Commissioner? A. Yes.

Q. (By Coun. COLLINS.) What is the attitude of the Rising Sun Company concerning a shorter period than ten years? A. I called up the president and asked him, "How about submitting those same figures for a five-year proposition?" He said, "Well, we are a little bit tired of it. Let it go as it is."

Q. (By Coun. SMITH.) You referred some time ago to the fifty Momand lamps and said that an expert was working on those, had them in charge? A. Yes.

Q. And that man is in the employ of the gas company? A. Yes.

Q. And you don't care to take his opinion as final on that matter? A. Oh, yes. I don't take it as final, no, but I take his opinion on those fifty lamps as final. But fifty lamps and 12,000 lamps are a different proposition.

Q. You mean from the gas company's standpoint or from the operation of the lamps? A. Yes, from all standpoints. Those fifty special lamps, put up there in a congested district and looked after by one man, are a nice proposition. Now, I think in Momand's proposition he expects one man to look after 500 lamps, isn't it, or something of the kind, whereas this man is only looking after fifty, looking after half as many lamps to-day as the hand lighters are for the Rising Sun.

Q. Then you think only from the labor standpoint there would be a difference? A. No, I mean this, that this pressure lighting is done by increasing the pressure at the gas tanks, you know.

Q. Well, have you talked with the gas company about that? A. Mr. Wrightington is on record as saying that he thinks they can do that all over the city. Well, he ought to know more about it than I do. I kind of question that.

Q. Then, you question it from the labor standpoint, from the gas company's standpoint? Would you question it from the standpoint of the mechanism of the lamp? A. From the standpoint of the mechanism of the lamp, no. The lamp is all right; provided you get that pressure it will work. There is no question about that. I don't know anything about the life of the mechanism, and I don't believe anybody else does, because it is not old enough to say how long it will last. As far as the clock is concerned, there is no reason to think that a Thomas clock would not run just as well under those circumstances as one that is in the house, as far as that goes. We have had experience with them and they have lasted for years and years.

Q. Do you mean that, exactly? A. What?

Q. That a clock outdoors, with the exposure and the low temperatures, would last as long as one in the house, with the temperature perhaps 90 or above and more even? A. Well, the way they are protected they are all right.

Q. You don't think that the temperature makes any difference? A. It doesn't the way they are protected and adjusted.

Q. (By Chairman ATTRIDGE.) Do you have any figures with regard to the effect of temperature on these automatic arrangements? A. No.

Q. Would Mr. Wade have any? A. No. We have simply watched it during the dark days of winter. We have got the temperatures all through the winter, and the lamps have worked all right. They have 98 per cent and a fraction efficiency.

Q. (By Coun. SMITH.) That is, on the Momand? A. Yes, sir, and the clocks haven't failed at all. Of course, we have only two, but in Newton I haven't heard of any trouble during the winter, either. They are now putting in a better type of clock, you know. As I say, those things are in a state of evolution and are developing every day.

Q. One other question, which perhaps is hardly relevant,— we own the risers, don't we? A. Yes, sir.

Q. Is there any provision in the contract for changing those risers, altering them, so that instead of having a right angle we will have an obtuse angle, and they won't freeze? A. No, I didn't put that in. I left the risers and posts just as they were. They are ours, you know, if we want to change them.

Q. I didn't know but the gas company wanted to change them because of the question of efficiency. A. If there is any question as to efficiency they will do it, I expect.

Q. (By Chairman ATTRIDGE.) How long do those clocks go without winding? A. I think they are eight-day clocks, wind them once a week.

Chairman ATTRIDGE. If there are no other questions, you are excused, with the thanks of the committee. Are there any communications, papers, that you think will be of benefit to the committee?

Mr. ROURKE. You have the Lamplighters' Union's proposition and we have several communications from Mr. Momand, as I say, after the bids were opened. Frankly, I don't see that there is much use in readvertising. I think it is simply a question of accepting this contract or going into municipal ownership.

Q. (By Coun. HALE.) I would like to ask a question. Do you think there is any possibility of anything of this sort? Suppose we said to the Rising Sun Company, "We will either buy these lamps and go into the municipal ownership question, or we will consider the matter for a year if you will light the streets during that year for $23," — whether you don't think they would come down to that, having a one-year extension? In other words, they would take the chance of being able to convince us that it would be cheaper to have them run it, and give a year to experiment in, rather than lose it absolutely now? A. Well, as to that I couldn't say. I never approached them on that. I would say this. There is one way to settle this question. If you would come down on this matter firmly and start to electrify the whole city, I think the Consolidated Gas Company would come around and do about as they ought to do. That is what I personally would think about it.

Q. (By Coun. COLLINS.) Could you get them to bid — the Consolidated Gas Company? A. No. Mr. Wrightington, though, has worked with me and assisted me, and I think it is a good deal through his efforts that we have this reduction in the Rising Sun's price.

Q. In the matter of dollars and cents, what is the relative cost between the electric company and this prospective bid? A. The electric company is getting one cent more than this. The electric 60 candle power tungsten we are now paying $22.31 for. This is one cent cheaper than the electric tungsten; but on a ten-year basis they would come down to $21.14.

Mr. Rourke was excused at this point, with the thanks of the committee.

PROPOSITION OF PRESSURE LIGHTING COMPANY.

BOSTON, MASS., March 4, 1911.

L. K. ROURKE,
Commissioner of Public Works, Boston, Mass.:

DEAR SIR, —

AUTOMATIC LIGHTING AND EXTINGUISHING EQUIPMENT.

The company will furnish and install approximately eleven thousand (11,000) gas lamps with incandescent gas mantle burners and automatic lighting and extinguishing devices complete, same as the fifty (50) lamps furnished the city in June, 1910, and now in use on the streets, on posts to be furnished by the city ready to receive the lamps, all in good order and condition for sixteen and $\frac{50}{100}$ dollars (16\frac{50}{100}$) per lamp, to be paid by the city when the lamps are installed and one dollar ($1) per lamp per year royalty to be paid by the city yearly for ten (10) years thereafter, when the lamps are to become the sole property of the city.

The company to have general supervision of the lamps for a period of not less than six months after they are installed, and all defective lamps or parts thereof, or parts of the lamps becoming defective from ordinary use (renewal supplies and damage caused by malicious attacks, interference, accidents, careless handling of the lamps by the city's employees or other causes beyond the control of the company excepted) during the said ten-year royalty term to be replaced by the company at its own cost and expense.

SUPPLIES.

The company will furnish supplies for renewals for the lamps at the following prices, Boston delivery:

Style.	Article.	In Lots of not less than	Net Price.
A....	Clear glass globes (7-inch by 12-inch by 16-inch)...	25 doz.	$9 00 per doz.
B....	White opal domes (5¾-inch by 7-inch by 13⅝-inch)..	25 doz.	6 00 per doz.
C....	Small inside bulb or chimney.....	25 doz.	72 per doz.
D....	Mantles (extra quality).....	5,000	80 00 per 1,000
E....	Mantle wires (double-coated).....	1,000	2 00 per 1,000
F....	Mantle wires (double plain).....	1,000	1 00 per 1,000
G....	Double wire caps (no gauze).....	1,000	17 50 per 1,000
H....	Wire gauzes (with pilot collar).....	1,000	27 50 per 1,000
I.....	Ventilators (galvanized iron).....	100	85 00 per 100

HAND-LIGHTING EQUIPMENT.

The company will furnish all or any part of the above 11,000 lamps with hand-lighting burner equipment for eleven and $\frac{50}{100}$ dollars ($\$11\frac{50}{100}$) per lamp, to be paid by the city when the lamps are installed.

It will furnish renewal supplies for the hand-lighting lamps at the following prices, Boston delivery:

Style.	Article.	In Lots of not less than	Net Price.
A....	Clear glass globes (7-inch by 12-inch by 16-inch).	25 doz.	$9 00 per doz.
B....	White opal domes (5¾-inch by 7-inch by 13⅝-inch)..	25 doz.	6 00 per doz.
C....	Small inside bulb or chimney.....	25 doz.	72 per doz.
I.....	Ventilators (galvanized iron).....	100	85 00 per 100
J....	Double wire cap mantles (extra quality).....	5,000	90 00 per 1,000
K....	Burners (complete).....	100	225 00 per 100
L....	Torches (42-inch handles).....	100	175 00 per 100

INSTALLATION.

The installation of the lamps to be completed within five (5) months from date of execution and final approval of the contract by the city.

PAYMENTS, ETC.

All lamps, equipment and supplies to be paid for by the city monthly as installed and delivered, in the same

manner as other city work is paid for, at the rates specified herein.

The company will hold the city harmless from any patent litigation caused by any infringement or alleged infringement of patents.

Satisfactory sureties will be given by the company to secure due performance of the work.

PRACTICABILITY AND SAVING.

The practicability of the company's automatic lamps under all weather and other conditions of service and the large saving to be effected by extending their use throughout the city is shown in the following exhibits:

A–B. Letters of the Boston Consolidated Gas Company dated December 5, 1910, and February 4, 1911, stating its readiness to furnish gas with the necessary changes of pressure to light and extinguish the lamps in the several districts covered by its gas mains, now supplying gas to over 10,500 hand-lighting street lamps.

C. Record of the fifty lamps installed last year for the city for quarter ending January 1, 1911, compiled from daily reports made by the Boston Consolidated Gas Company, showing a working efficiency of 98.4 per cent, including all failures to light and extinguish from whatever cause, and 99.4 per cent. deducting "failures" due to tampering with the lamps as evidenced by broken seals, etc.

D–E. Statements of the low cost of maintaining the lamps and saving of over $650,000 plus the value of the equipment after paying 4½ per cent interest charges and providing for a sinking fund to cover the cost of the lamps at the end of ten years. As the cost of maintenance covers all renewals and repairs the equipment at the end of the ten-year period will be in practically as good condition as when installed. This will bring the total saving to the city up to about $800,000.

Respectfully,

PRESSURE LIGHTING COMPANY,
R. MOMAND, *Vice-President.*

BOSTON CONSOLIDATED GAS COMPANY,
OFFICE OF THE PRESIDENT,
24 WEST STREET,
BOSTON, MASS., December 5, 1910.

PRESSURE LIGHTING COMPANY,
20 Broad Street, New York City:

GENTLEMEN,— This company having since last April furnished gas under the necessary pressure to operate the automatic street-lighting lamps installed by your company on certain streets in Boston, is now prepared to furnish gas under the conditions necessary to operate such automatic lamps within the following districts, namely: Boston proper, containing about 1,500 lamps; Roxbury, containing about 1,900 lamps, and Brighton, containing about 1,000 lamps. This company will furnish the gas for such lamps to your company, or to such contractor as may secure a contract with the city, providing for the use of your lamps, under the necessary changes of pressure night and morning for lighting and extinguishing such lamps, for the sum of $9.60 per lamp per year, upon the same terms and conditions as those now in force between this company and the present street lighting contractor.

The investigations of our engineers relative to other districts of the city have not yet progressed sufficiently to enable us to determine whether the local conditions in such districts will permit us to operate your lamps in such other districts. These districts are Dorchester, with about 3,000 lamps; Jamaica Plain, with about 2,300 lamps, and South Boston, with about 800 lamps.

Very truly yours,

J. L. RICHARDS,
President Boston Consolidated Gas Company.

* Zero weather.

NOTE.— It became necessary to seal the lamps shortly after their installation on account of tampering with them. Being scattered over a wide area, some nearly a mile apart and several located in alleys, a close supervision of each lamp is impracticable. This has afforded an opportunity to interfere with them, particularly under cover of the darkness and

deserted streets at extinguishing time in the morning. The city lighting schedule for the 12,000 hand lamps in service, among which the 50 lamps are scattered, requires the work of putting them out to begin considerably before day in order that it may be completed within schedule time. The pressure lamps are extinguished simultaneously from the gas works shortly after putting out the hand lamps begins. Nearly every case of "failure" to extinguish or light was traced to outside interference, as evidenced by broken seals, etc. This interference was most active during the extreme cold weather of the week ending December 18, it having been freely predicted by certain interests that zero weather would put the lamps "out of business." It will be noted that their lighting efficiency for this week was 99.7 per cent, there being only one "failure" to light, and that for the quarter the average was 99 per cent, including all "failures" to light from whatever cause. The lower extinguishing record is accounted for by reason of the greater opportunity to interfere with the lamps at extinguishing time. The operation of the actuating device is identically the same on the extinguishing side as on the lighting side, and except for outside interference must work the same in both cases. It is only necessary to read the daily reports to comprehend how much greater this interference would have been but for the sealing of the lamps, and therefore reasonable to suppose that except for the tampering with them, which the records show commenced immediately after they were installed, the lamps would present a practically perfect record.

PROPOSITION OF AUTOMATIC GASLIGHTING EQUIPMENT COMPANY.

L. K. ROURKE,
Commissioner of Public Works of Boston,
Room 66, City Hall:

In accordance with your advertisement of February 9, 1911, inviting bids for lighting equipment to be installed on lamp-posts to be furnished by the city to the number of approximately 11,000, we beg to submit the following proposal under Clause "B" of the advertisement, and inclose herewith a certified check for $1,000 payable to the City of Boston, subject to the conditions specified in said advertisement.

We propose to sell, furnish and install approximately 11,000 Automatic Gaslighting machines with incandescent mantle burners, the same as sample machine submitted with this bid upon the following terms and conditions.

The price to be paid us by the City of Boston for each Automatic Gaslighting machine same as sample submitted is ($12) twelve dollars, thirty days after each lot of (500) five hundred machines have gone into service.

We will install the machines as economically as possible and render bills to the city therefor at cost plus (10) ten per cent. These bills are to be paid at the same time with each lot of (500) five hundred machines.

We propose to sell, furnish and install (should the city require them) approximately 11,000 boulevard lanterns, complete, same as sample submitted with this bid, at a price of ($6) six dollars each, with whatever crossarms may be necessary at (50 cents) fifty cents each.

We will install the lanterns and crossarms as economically as possible and render bills to the city therefor at cost plus (10) ten per cent. These bills are to be paid at the same time with each lot of (500) five hundred boulevard lanterns.

We will co-operate with the city to make the installation as rapidly as possible, but will probably require (9) nine months from date of acceptance of this bid to complete it. Our present facilities will enable us to turn

out (500) five hundred complete equipments per week, including the boulevard lanterns and crossarms.

We will furnish supplies, parts and accessories in lots of not less than (100) one hundred, delivered at the Lamp Division shop, 690 Albany street, Boston, when and as required by the City of Boston, at the following prices, to be paid for in thirty days from date of delivery:

Automatic gas lighting machines in lots of 100	$12 00 each.
Boulevard lanterns, complete, in lots of 100	6 00 each.
Lantern castings, complete, or in separate parts, per pound	12
Ventilators on lanterns in lots of 100	1 35 each.
Domes in lots of 100	75 each.
Globes in lots of 100	95 each.
Mantles in lots of 100	10 each.
Chimneys, as ordered	1 00 per dozen.

We will furnish bond of a surety company approved by the commissioner in the sum of ($25,000) twenty-five thousand dollars to secure the due performance of the contract and the full protection of the city.

This proposal is made subject to appropriation being passed by the City Council and approved by the Mayor previous to the execution of a contract for this equipment.

Our Automatic Gaslighting Equipment has been in continual use by the City of Newton, Mass., for more than five years with full approval of both the city and the Gas Company, to whom we refer.

PROPOSITION OF W. A. RUMPF AND LEO ROBINSON.

The City of Boston having invited bids for lighting equipment to be installed upon lamp-posts to be furnished by the city on such streets, parks and alleys as may be designated by the city, installation to be completed within five months from the date of execution of contract, the undersigned William A. Rumpf and Leo Robinson declare that the only persons interested in this bid as principals are named herein; that no official of the city, and no person acting for, or employed by, the city is indirectly or directly interested in this bid, or in any contract which may be made under it, or in any expected profits to arise therefrom; that this bid is made in good faith, without fraud, collusion or connection with any other person bidding for the same work; that they propose and offer at the following prices:

(A) To furnish approximately eleven thousand (11,000) Grætzin gas lamps complete with inverted incandescent mantle burners at seven dollars ($7) per lamp.

(B) To furnish additional parts of said lamp as follows:

Jena clear inner chimneys	$0 75 per dozen.
Jena clear outer globes	8 40 per dozen.
Grætzin stiff mantles	96 per dozen.

delivered in Boston.

The city have sample lamp or lamps in their possession.

This bid is merely for the furnishing of the lamps and parts thereof, but it does not include installing or furnishing of necessary post extensions.

The full name and residence of all persons interested in this bid as principals are as follows:

William A. Rumpf, 18 Mill Street, Dorchester, Mass.
Leo Robinson, 19 Hawes Avenue, Dorchester, Mass.

The name and address of the surety company who will sign the bond is:

American Bonding Company of Baltimore.

CORRESPONDENCE CONCERNING BID OF PRESSURE LIGHTING COMPANY.

Boston, March 6, 1911.

Mr. L. K. Rourke,
Commissioner of Public Works, Boston, Mass.:

Dear Sir, — Referring to the bid of this company for furnishing street lighting equipment to the City of Boston, and our interview to-day, if the cost of maintenance accompanying the bid is seriously questioned by you, or if you should conclude that it would be better policy for the city to continue to pay a contractor's profit rather than to operate the equipment itself, this company will contract to maintain the lamps, including the gas supply, for ten years at $19.30 per lamp a year. This will effect a saving to the city as compared with the price bid by the present contractor of $33,000 per year, or a total of $330,000 for the ten-year period. As the total investment of the city for the equipment under our bid would be $181,500, the city would effect a saving of $148,500 during the ten-year period, besides paying for the equipment in full and owning it free and clear at the end of this period.

In presenting its bid on March 4 for the sale of lamps to the city, this company assumed, from the fact that bids for the sale of lamps were opened at the same time as bids for an operating contract, that the city was open to adopt whichever policy offered the greatest economy, and that this would be the only consideration in figuring out which proposal was best for the city. Your comment at our interview this afternoon gave me the impression that the policy of purchase of lamps and operation of the same by the city is not viewed by you as favorably as the policy of awarding an operating contract. The above offer to make an operating contract to maintain the lamps after their purchase by the city is therefore now added by this company in order that you may have before you, for comparison with other bids submitted, a proposition showing a fixed annual cost to the city. In making this additional proposition this company states its belief that operation by the city of the lamp equipment would effect a much larger saving, as of course any contract must necessarily involve an allowance of a liberal profit to

the contractor. We call attention to the fact that on the basis of an estimated cost of $15.56 per annum for operation of our lamp, the annual saving to the city on 11,000 lamps in comparison with the new bid of the present contractor of $22.30 would amount to $74,140 a year; we call attention to our itemized estimates showing such cost of operation.

Yours truly,

PRESSURE LIGHTING COMPANY,
R. MOMAND, *Vice President.*

BOSTON, March 7, 1911.

MR. L. K. ROURKE,
Commissioner of Public Works, Boston, Mass.:

DEAR SIR,— Referring to our letter of yesterday with reference to taking a contract to operate, if desired, the automatic lamps which we have proposed to sell to the city, we desire to make it clear that our offer to maintain the lamps, including the gas supply, at $19.30 per lamp a year, includes the payment by the contractor of the $1 a year royalty included in our proposal to the city. The figures we presented in this letter were clearly based upon the inclusion of the royalty within the $19.30, but to avoid any possible misunderstanding, we desire to state this specifically. Our proposal therefore now is to sell the lamps to the city, installed, for $16.50 per lamp and to contract to maintain them for $19.30.

Yours truly,

PRESSURE LIGHTING COMPANY,
R. MOMAND, *Vice President.*

SUMMARY.

Saving of $3 a year per lamp on 11,000 lamps, in ten years		$330,000 00
Cost of equipment, 11,000 lamps at $16.50	$181,500 00	
Add interest at 3½ per cent for average period of five years	31,762 50	
		213,262 50
Net cash saving		$116,737 50
Add equipment (owned by the city)		181,500 00
Total saving to city		$298,257 50

CITY OF BOSTON, STREET DEPARTMENT,
LAMP DIVISION, March 8, 1911.

MR. JAMES H. SULLIVAN,
Engineer Highway Division:

DEAR SIR,— The letters from Mr. R. Momand of the Pressure Lighting Company, dated March 6 and 7 and referred for comment and attention, have been received, and I would submit the following report.

The company has neglected to add to its proposed price per lamp for maintenance the charges for interest on the city's investment and depreciation on the city's plant, which should be approximately figured per lamp as follows:

Maintenance, including gas and royalty	$19 30
Interest on city's investment and depreciation on plant at 10 per cent	1 65
Cost per lamp under pressure system	$20 95
Rising Sun Street Lighting Company's bid	22 30
Difference in price per lamp	$1 35

(Or a possible saving of $14,850 per year on 11,000 lamps, instead of $33,000 as figured by Mr. Momand.)

It seems to me that under conditions in this city it would be better, if a straight street lighting contract is not entered upon, for the city to purchase and install the necessary lighting equipment upon its lamp-posts and make an operating contract with some responsible company.

I would suggest that maybe some of the other bidders might like to make a proposition on the basis of an operating contract.

In Mr. Momand's estimated cost per lamp per annum of $15.56 for operation by the city, he figures the wages on a basis of $2 per day for the men employed in cleaning and inspecting; but the city would be obliged to pay these men not less than $2.25 per day, and his item for labor should therefore be increased to $3.28. I am inclined to think that the item for supplies should also be increased slightly — say about eight cents. Neither the interest nor depreciation charges on the lamp equipment have been added to the company's estimate under this plan, so that the estimate for operation and maintenance by the city would be about $16 per lamp rather than $15.56.

I favor the proposition of a straight street lighting contract rather than the operation and maintenance in whole or in part by the city.

Respectfully,

E. C. WADE,
Supervisor of Street Lighting.

PRESSURE LIGHTING COMPANY, INC.,
BOSTON, March 15, 1911.

LOUIS K. ROURKE, ESQ.,
Commissioner of Public Works, Boston, Mass.:

DEAR SIR,— Referring to the bid which the Pressure Lighting Company filed on March 4th in response to your advertisement and to its supplementary proposal of March 6th to take, if desired, a contract to maintain and operate for $19.30 per lamp per year the lamps to be supplied to the city, and having received no notice of any action upon the bids by you, we desire now to call to your notice certain considerations which have an important bearing upon the situation.

The furnishing of the necessary globes and domes for the equipment of 11,000 lamps is of course a large order to place with the glass factory and requires reasonable time for its execution. It is the regular custom of glass factories to shut down for a considerable time during the summer months, usually beginning in July, and of course it is impossible to secure any quantity of globes and domes which have to be made on special orders during this period; we have already been notified by the glass factory that it will be necessary for them to have the order at an early date now if they are to furnish the globes and domes for the 11,000 lamps by July 1st, and unless the company is in a position to place the order without further unnecessary delay, it will be impossible to secure the globes and domes in time to complete the installation of the 11,000 lamps by August 1st, when the last six months extension made by you in January of the existing contract expires.

Our bid filed on March 4th was based upon the assumption that if the city decided that our offer was the most advantageous it would be accepted within a reasonable time, and if so accepted, we can undertake to have all of the necessary globes and domes produced before

the shut-down at the factory. Of course it is very desirable in view of the bids presented that no situation should arise which would lead to any further extension of the existing contract, and in order to avoid any possible chance of such extension having to be made by the city, the company deems it proper at this time to urge reasonably prompt action upon its bid.

In comparison with the figures contained in this company's proposal, the city is at the present time suffering a loss of $4.30 per lamp per year, or $47,300 yearly, so that any extension of the present contract made necessary through delay would entail a further loss to the city of nearly $4,000 a month. This loss can be in part saved as soon as the installation of new equipment begins, even during the remaining term of the present contract.

If it is not clear to you, as it is to us, that the best interest of the city requires acceptance of our proposal, we desire to ask for an opportunity, before you take any official action on this matter, to present at a formal hearing the facts showing the advisability of accepting our bid; we should be very glad to be represented at a public hearing before you, at which all other bidders would also be given an opportunity to present any arguments they may have to offer in view of all of the bids presented.

Yours very truly,

PRESSURE LIGHTING COMPANY,
R. MOMAND, *Vice President.*

CITY OF BOSTON, STREET DEPARTMENT,
LAMP DIVISION, March 23, 1911.

MR. JAMES H. SULLIVAN,
Engineer Highway Division:

DEAR SIR,— In relation to the inclosed letter of Mr. R. Momand, Vice President of the Pressure Lighting Company, dated March 15, 1911, I would comment as follows:

The statement of Mr. Momand regarding the shutting down of the glass factories during the summer months is correct. I quote from a letter that I received from the Macbeth–Evans Glass Company of Pittsburg, Pa., in which they state: "For your information we wish to say that all glass manufacturers making a similar line of

goods to our own close down each season for a period of six weeks, and during that time nothing can be produced. As soon as our plants resume operation we will have sufficient orders entered for articles similar to those you refer to, which will take our capacity for some time to come." Thomas T. W. Miner, manufacturer of the Miner Globe Street Lamps, states that no manufacturer of lanterns, etc., keeps on hand stock enough to fill an order for 11,000 or more lanterns.

Therefore, if it should be decided to purchase equipment for street lighting, it is necessary that action be taken as soon as possible in order that the installation of said equipment be not delayed.

The statement that the city at the present time is suffering a loss of $4.30 per lamp per year is hardly accurate. Mr. Momand has not allowed for interest on money invested or for the depreciation of the plant that would cost the city at least $200,000 to install. It would take at least six months to complete the installation of any system, and the city would have to pay the present rate for each lamp until changed during the period of installation.

Respectfully,

E. C. WADE,

Supervisor of Street Lighting.

LOUIS K. ROURKE,
Commissioner of Public Works,
City of Boston, City Hall, Boston:

MY DEAR SIR,— One of the great questions before the community is the question of municipal ownership, and we have had the matter of the Lamplighters' Union presented at the meeting of our executive board by a committee from said organization, and a plan which they submitted to the Mayor and Commissioner of Public Works, which we believe would be a great benefit to the community if adopted.

At a meeting of the executive board held on March 29 it was unanimously voted to indorse the same. We have learned that each member of the city government received a copy of the proposition submitted to the Commissioner of Public Works. We trust that the City Council will adopt it.

Trusting that it will meet with your favorable support, believe me to be,

Respectfully yours,

LOUIS K. ROURKE,
Commissioner of Public Works, City of Boston:

DEAR SIR,— In connection with the conference held in your office Friday, March 31, 1911, in relation to the

possibility of the city establishing a lighting plant, in order that you may be thoroughly convinced of our earnestness of purpose in submitting to you the labor item of $2.25 per day as wages and an average of 100 lamps to each lighter's route, and that you may have complete confidence in the labor items of both wages and number of lamps per man will be strictly adhered to by us, we desire to submit to you the following statement:

If the city will do its own lighting on a wage basis of $2.25 per day wages and an average of 100 lamps to each lighter, the Lamplighters' Union will agree not to seek in any manner, direct or indirect, any change in the wage scale or the number of lamps per man as named above for a term of ten years, irrespective of what labor conditions may be applied to any other department of the city within that time, and the Lamplighters' Union will further agree not to seek in any manner, direct or indirect, during the term of years figured above, any vacations, holidays or other days off or to in any manner endeavor to obtain any conditions in the lighting of the lamps that would increase the wage of $2.25 per day or reduce the number of lamps per man to an average of less than 100 each. The Lamplighters' Union will agree to file in your office, when requested by you, the statement as made above, bearing the seal of our union, and signed by the proper officers, and will also agree that said statement shall bear the indorsement of the Boston Central Labor Union, which will be a guaranty that the Boston Central Labor Union will be pledged to see that the Lamplighters' Union strictly adheres to its agreement.

Trusting that the above will enable you to have complete confidence in the proposition as submitted by us,

COMMUNICATIONS FROM FINANCE COMMISSION ON THE SUBJECT OF STREET LIGHTING.

Boston, August 27, 1908.

Hon. George A. Hibbard, *Mayor:*

Sir,— The Finance Commission, having noted your decision not to award a contract for street gas lighting for five years for the reason that all of the bids recently received were too high, suggests that if the contract for one year recommended by the Superintendent of Streets is awarded to the lowest bidder for one-year service, the following considerations should be kept in mind:

The commission believes that the problem of effective and economical street lighting is in a transition and development stage and that the near future will bring improvements both in efficiency and economy of lighting.

Without any such examination as would enable it to pass upon the merits of any system, the commission has noted in electric lighting the metallic filament incandescent lamp and various forms of the so-called flaming arc, forms of both being in use in European cities. In gas lighting there are several forms of inverted incandescent mantle lighting both with and without the use of gas at a high pressure. These also are in practical operation in Europe, notably in London and Berlin. There are also a number of methods of automatic lighting and extinguishing for which claims of economy are made.

None of these methods of lighting has been sufficiently tested under local conditions to make it advisable to make any definite contract for their use at the present time.

It is possible that some newer and still better methods than those noted by the commission may be presented and their value demonstrated if an opportunity is given.

A desire thus to make demonstrations and exhibitions has been expressed by those interested in various new methods of street illumination.

The commission suggests that every opportunity be given to those who may have new and modern methods

of street lighting to exhibit their processes and to demonstrate their value in actual operation in the streets or parks.

This can easily be done without violation of the one-year contract which it is proposed to award.

If this action is taken and these various methods of lighting are tested in practical operation, the commission believes that specifications should be drawn and bids asked for not later than March 1, 1909, and that by April 1 a contract or contracts for lighting the streets of Boston from and after the expiration of the then existing contracts can be intelligently awarded and that the result of such awards will be better street lighting at a much reduced price.

By calling for bids thus seasonably no advantage of an entrenched position will be given to the company which has its plant installed.

Respectfully yours,

J. W. Farley, *Secretary.*

Boston, July 21, 1909.

Hon. George A. Hibbard, *Mayor:*

Sir,— In the course of its investigation of the bids submitted on June 28 last by the Greater Boston Illuminating Company and the Rising Sun Street Lighting Company for lighting with gas the streets, parks and alleys of the city for five years from September 15, 1909, the commission began to entertain doubts as to the power of the city to make the five-year contract in the period between July 11, 1909, when section 16 of chapter 486 of the Acts of 1909 goes into effect, and the first Monday of February, 1910, when section 6 of the said act takes effect. These sections are as follows:

Section 16.

No official of said city, except in case of extreme emergency involving the health or safety of the people or their property, shall expend intentionally in any fiscal year any sum in excess of the appropriations duly made in accordance with law, nor involve the city in any contract for the future payment of money in excess of such appropriation, except as provided in section 6 of this act. Any official who shall violate the provisions of this section shall be punished by imprisonment for not more than one year, or by a fine of not more than one thousand dollars, or both.

Section 6.

No contract for lighting the public streets, parks, or alleys, or for the collection, removal, or disposal of refuse, extending over a period of more

than one year from the date thereof, shall be valid without the approval of the mayor and the city council after a public hearing held by the city council, of which at least seven days' notice shall have been given in the *City Record*.

On July 15, 1909, the commission requested the opinion of the Corporation Counsel on this question, and on July 20, 1909, the following reply was received:

CITY OF BOSTON, LAW DEPARTMENT,
73 TREMONT STREET, BOSTON, July 19, 1909.

BOSTON FINANCE COMMISSION,
410–413 Tremont Building, Boston, Mass.:

DEAR SIRS,— Yours of the 15th inst. concerning contracts made after July 11, 1909, was duly received.

Although I do not think the Legislature intended to change the law, yet I think it has done so by the clause in section 16 of chapter 486, which prohibits involving the city in any contracts for the future payment of money in excess of appropriations except as provided in section 6 of this act.

Until some change is made in this law all continuing contracts to be paid out of annual appropriations will have to be made to expire the first day of February of the year next ensuing. It might be provided as in leases that the city or head of the department might have the privilege of renewal, but I think that is as far as the head of the department could go in a contract to be paid for out of annual appropriations.

In your communication you speak of a period of more than one year. Under this section it would be as unlawful after the first day of February to lease an office for a year, or to contract for a year's supply of milk or ice, as it would be to make a twenty-year contract for lighting the streets.

Yours truly,

THOMAS M. BABSON,
Corporation Counsel.

The above communication shows that there is no necessity for continuing the investigation, already begun by the commission, of the particular bids under consideration. As the present contract will expire on September 15, 1909, and no new contract for a period beyond the present fiscal year can be made before the first Monday in February, 1910, it will be necessary for the city to make a temporary arrangement with some company for the lighting of the streets with small lamps during the interval between September 15, 1909, and the first day of February, 1910.

Under section 6 of the terms and conditions annexed to the contract for lighting the streets by electricity, approved May 7, 1909, the city has the right to demand of the Edison Electric Illuminating Company — subject to certain restrictions — the installation of such additional lamps as it may need. The Corporation Counsel states that the furnishing of such additional lamps is not within the prohibition of section 16 of chapter 486 of the Acts of the year 1909.

The Superintendent of Streets states that it is thus possible to procure about 5,000 additional incandescent electric lamps at a cost of $22.31 per lamp per year. While this price is more than the bid of the Greater Boston Illuminating Company ($20.49) it is less than that of the rival bidder, the Rising Sun Street Lighting Company ($23.60). In the opinion of the Superintendent of Streets the electric lamp is superior, all things considered, to either of the gas lamps proposed to be installed. If such an arrangement were made, it would provide for about 5,000 of the 12,000 lamps contemplated in the gas lighting contract, for which bids were made by the Greater Boston Illuminating Company and the Rising Sun Street Lighting Company, and the remaining 7,000 lamps could be furnished up to February 1, 1910, by one of the gas lighting companies.

There are various other ways of providing for the 12,000 lamps. The city can, if necessary, purchase and install out of this year's appropriation for the Lamp Department about 7,000 lamps; and it can employ directly the labor necessary to light, extinguish and care for the lamps, or, what is more desirable in the opinion of the commission, it can make a contract for the furnishing of such labor for the balance of the fiscal year. The Rising Sun Street Lighting Company, which now provides and cares for the 12,000 lamps, may be willing to make satisfactory terms with the city for the continuance of its service after the expiration of its contract on the fifteenth of September next, and up to the first of February, 1910. It is possible that the gas company may be willing to contract directly with the city for the furnishing, lighting and care of the lamps, as well as for the supply of gas for the period in question. Some other company may also make a bid.

The commission recommends that the Superintendent of Streets negotiate with all available bidders.

Respectfully submitted,

The Finance Commission,
by John A. Sullivan,
Chairman.

Boston Finance Commission,
Boston, May 2, 1910.

To the Honorable the Mayor and City Council:

Gentlemen,— The Finance Commission respectfully calls the attention of the Mayor and City Council to certain facts in the street lighting situation.

The Rising Sun Street Lighting Company, which for twenty-two years has had contracts with the city for street lighting, or furnishing lighting equipment, is now providing gas, lamps, mantles, etc., for about 12,000 street lights, at the rate of $23.60 per lamp per year. The contract which terminated on September 15, 1909, has twice been extended, the first time to January 31, 1910, the second to July 31, 1910. The latter extension was made in order to allow the city sufficient time to procure bids for a long term contract at lower prices than those now obtained. One-half of this extended time has already elapsed, but the city is no nearer equitable terms than it was in the beginning. Bids were solicited on March 19, 1910, but only one bid was received, namely, that of the Rising Sun Company at the old rate of $23.60 a year. Last year there were two bids and three the year before, but, for some reason unknown to the commission, competition seems to have entirely disappeared in the present year.

The Superintendent of Streets has not awarded the contract on this bid of $23.60, and the commission believes it should not be awarded, as this price for a lamp with an upright burner, such as is furnished by the company, is excessive, and therefore the commission recommends that the Mayor and City Council take steps immediately to prevent the city from being compelled to renew the contract with the company at the present rate. The willingness or unwillingness of the company to reduce its price should be ascertained at once. The negotiations should not be permitted to drift so as to leave the city near the time of the expiration of the existing contract without effective means of securing better terms than those now offered. Unless the position of the company is made known at once the city will be at a disadvantage in making a bargain, as the company owns the lanterns and can if it chooses deny their use to the city after July 31, 1910, when the existing contract expires. If the company takes this course some

parts of the city may be left in darkness until new lanterns are substituted for those now in use.

If the Rising Sun Company is willing to reduce its price substantially, and also to have a provision in the contract for still further reduction in the event of the city deciding to use automatic lighting and extinguishing devices, a contract on such terms should be made; but if the company is unwilling to make these concessions, the city should seek protection by other means. The Boston Consolidated Gas Company should be requested to furnish the service on the terms stated in its letter to the Superintendent of Streets, namely, at the rate of $20.51 per lamp per year.

The letter is as follows:

July 23, 1909.

GUY C. EMERSON, ESQ.,
Superintendent of Streets, Boston, Mass.:

DEAR SIR,— I desire to inform you that our company is willing to guarantee the city that the cost of street lighting with gas on a five-year contract, beginning February 1, 1910, shall not exceed $20.51 per lamp, provided the city furnish the lamps and equipment. If a contractor cannot be secured to execute the contract at this price, or less, we will undertake the work ourselves.

Yours very truly,

E. N. WRIGHTINGTON,
Second Vice-President,
Boston Consolidated Gas Company.

If this contract is made with the gas company, and the city furnishes the lamps and equipment mentioned in the above letter, the cost, assuming the life of the lamp to be fifteen years, will be considerably below $23.60, the prices now offered by the Rising Sun Company. The Superintendent of Streets, in a letter to the Mayor, dated February 7, 1910, estimated that the gross cost of lighting with gas under such a contract would be $22.01 for a lamp with an inverted burner, and $21.33 for one with an upright burner. The annual saving to the city will be about $19,000 if the inverted burner is used, and about $27,000 if the upright burner is used. Thus, under a five-year contract, the city will save from $95,000 to $135,000.

The city has another resource which can be availed of if favorable terms cannot be obtained either from the Rising Sun Street Lighting Company or the gas company. It can extend the existing contract with the Edison Elec-

tric Illuminating Company so as to provide for the installation of tungsten lamps, which, under its contract, can be obtained at the rate of $22.31 per lamp per year. There are two objections, however, to the substitution of electric lamps for the entire 12,000 gas lamps. Serious consequences might result from giving the Edison Company, which now has a large street lighting contract, a practical monopoly of the city's business. There is also danger that storms would extinguish the electric lights in those parts of the city which are served by overhead wires. The contract with the Edison Company could, however, be safely extended so as to provide 5,000 electric lamps which could be served by underground wires, thus avoiding the danger from storms. In this event 7,000 gas lamps would be retained, and to this extent monopoly by the electric light company would be prevented. If the electric lighting contract is thus extended the city should begin at once to install its own gas lighting equipment for the 7,000 lamps, so as to be independent of the Rising Sun Company and similar companies at the earliest possible moment.

The commission recommends:

1. That the bid of $23.60 of the Rising Sun Company be rejected.
2. That an appropriation of $175,000 to provide the necessary equipment for 12,000 lamps be made.
3. That the city avail itself of the offer of the Boston Consolidated Gas Company, contained in its letter of July 23, 1909, unless the Rising Sun Company makes a substantial reduction in its price.
4. That in the event of failure to procure favorable terms from either the Rising Sun Company or the Consolidated Gas Company, the city extend the contract with the Edison Company so as to provide for 5,000 tungsten lamps in parts of the city served by underground wires.
5. That any contract for gas lighting should contain a provision for a reduction in price in the event of the city deciding to use automatic lighting and extinguishing devices.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

CITY OF BOSTON,
OFFICE OF THE MAYOR, July 22, 1910.

To the City Council:

In accordance with the suggestion contained in a communication from the Boston Finance Commission, dated July 22, 1910, a copy of which has been forwarded to you, that "the Mayor call a special meeting of the City Council to consider the street lighting question," I beg to suggest that the opportunity is afforded at to-day's session to consider the propositions contained in the above-mentioned letter, and to invite your earnest attention not only to the communication itself but to the appended report prepared by Mr. Guy C. Emerson, formerly Superintendent of Streets for the city and now consulting engineer to the Boston Finance Commission.

Respectfully,

JOHN F. FITZGERALD, *Mayor.*

Referred to the Executive Committee.

FINANCE COMMISSION, July 22, 1910.

To the Honorable the Mayor and City Council:

GENTLEMEN,— The Finance Commission respectfully calls attention to the necessity of providing better and cheaper means of lighting the streets with gas than the present contract between the city and the Rising Sun Street Lighting Company affords. The former Finance Commission and the present Finance Commission have recommended changes in the contract relations between this company and the city at various times, both commissions believing that the rates in existence at the time such recommendations were made were excessive. (Finance Commission Reports, Vol. 1, page 385; Vol. 5, page 49; see, also, report of the Finance Commission dated May 2, 1910.)

The Rising Sun Company received its first contract from the city on November 3, 1888, after public competition; but though it has since performed street lighting service continuously under successive contracts, so far as the records show it had no further competition until June of 1908, a period of nearly twenty years. In June, 1908, bids were solicited by public advertisement and the company then made an offer of $25.20 for each single mantle gas lamp per year, which was $4.80 lower

than the price it had previously received under non-competitive conditions. One-half of this reduction may be attributed to the reduced price of gas. It was given a contract for one year, and upon its expiration bids were again solicited by advertisement, and again the company offered the city a lower price under competition, namely, $23.60 per lamp year. A lower bid, $20.49, was submitted by another company which was not believed by the Superintendent of Streets to be responsible and the contract was ultimately given to the Rising Sun Company, the only other bidder. This contract expired on January 31, 1910, and soon thereafter bids were again solicited, but there was no competition this time and the bid of the Rising Sun Company was $23.60, the same as that of the preceding year. The contract has since been extended twice, each time for six months and at the rate of $23.60 per lamp per year.

This brief history of the relations of the city and the company show that the latter's prices have fallen under competition and have remained stationary when there was no competition.

Former Superintendent of Streets Guy C. Emerson, now consulting engineer of the Finance Commission, has made a report to the commission reviewing the contracts made between the city and the company and suggesting means for procuring for the city a more efficient service at reduced cost. A copy of his report is hereto appended. He is of the opinion that there is little likelihood that the city will obtain material reductions in price as the result of competition between the Rising Sun Company and other street lighting companies in the future; and the commission believes that it is time for the city to free itself from the monopoly which has existed for nearly a quarter of a century. Mr. Emerson believes that either the city or the Consolidated Gas Company should furnish and maintain the street gas lamps, or perform the service jointly, in which latter case the city would furnish the lamps and the gas company would provide the means of lighting, extinguishing and caring for them. In this opinion the Finance Commission concurs. There is no reason why a middleman's profits should be paid any longer.

Mr. Emerson suggests three plans for lighting the streets with gas, any of which would give the city cheaper service than is now rendered by the Rising Sun Company. They are as follows:

1. Appropriate $310,000 for the purchase and installation of 12,000 inverted mantle lamps complete, with automatic devices for lighting and extinguishing.

2. Appropriate $235,000 for the purchase and installation of upright mantle lamps complete, with automatic devices for lighting and extinguishing.

3. Accept the offer of the Consolidated Gas Company dated July 23, 1909, to furnish and care for lights on a five-year contract for $20.51 per lamp per year, providing the city shall furnish the lamps and equipment. This would require an appropriation of $185,000 for inverted or $114,000 for upright lamps.

The loan issued to provide money for the lamps and automatic devices should be for a term of fifteen years, which is less than the estimated life of the equipment.

Under either the first or second of these plans the city would furnish the labor employed in lighting, extinguishing and caring for the lamps; but, by reason of the use of the automatic devices, the force needed would be only about one-half of the force at present employed by the Rising Sun Company. Mr. Emerson estimates that the cost under either of these plans would be approximately $19 per lamp year, the greater cost for fixtures and interest and sinking fund charges for inverted lamps being balanced by the lesser cost for their maintenance and operation. The saving would be about $4.60 on each lamp, or a total annual saving of about $55,200 for the 12,000 lamps in use.

Under the third plan the Consolidated Gas Company would furnish the labor, and the city, as already stated, would furnish the equipment. Either $27,240 or $21,000 would be saved by the city annually, according as inverted or upright lamps were used.

The Finance Commission recommends that the first of these plans be adopted by the city. While it involves an appropriation of $125,000 for automatic lighting devices, in addition to the $185,000 for inverted lamps recommended by the commission in its communication of May 2, 1910, the use of such automatic devices will enable the city to save over existing prices about $330,000 in six years, or more than the entire amount invested in equipment. Moreover, it is probable that automatic lighting devices will be obtainable at considerably lower figures than those upon which the estimate of $125,000 is based, in which case a still greater saving will be made.

If the first of these plans be adopted, as recommended, the city will secure the following advantages:

1. It will save over present prices, in the next fifteen years, that is, during the term of the loan issued to buy the equipment, about $825,000, or about $500,000 more than enough to pay for the equipment.

2. It will have at the end of the fifteen years a plant, free of debt, which will probably be serviceable for several years longer.

3. The streets will be lighted better under the new system.

In the opinion of Mr. Emerson there is little likelihood that changes not adaptable to the present styles of street lamps will be made during the next fifteen years.

The necessity for early action cannot be emphasized too strongly, as the experience of the last two years has shown that if matters are permitted to drift until near the time of the expiration of the contract with the Rising Sun Company, it will necessarily be given a renewal of its contract because of its ownership of the only existing gas lighting equipment available for immediate use. In the opinion of the commission it is time that the makeshift policy of former years should be abandoned and a definite policy, calculated to produce economy and efficiency in the service, be established.

The commission respectfully suggests that the Mayor call a special meeting of the City Council to consider the street lighting question, as the next regular meeting of the Council is August 29, which is so near the date of the expiration of the existing contract between the city and the company (February 1, 1911) as to make it possible that the city will again be compelled by force of circumstances to renew this disadvantageous contract.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

BOSTON, July 18, 1910.

To the Finance Commission:

GENTLEMEN,— I beg leave to submit herewith the following information regarding the problem of gas lighting in this city and the means that may be taken to

secure a reduction of price in the near future, together with efficient service.

It appears that the first attempt to light the streets in Boston by gas was made in 1834, prior to which time oil lamps had been used, first put in in 1773, by subscription. Oil and gas were used exclusively for street lighting until 1881, when six experimental electric lights were installed.

During the greater portion of the period between 1834 and 1888 such gas lamps as were in service were maintained and operated by the gas company and city labor, acting jointly.

At various times in the last twenty-two years contracts have been made with the Rising Sun Street Lighting Company.

On November 3, 1888, a three-year contract was made with this company for furnishing naphtha lamps and caring for them. It appears that this contract was for furnishing a proprietary attachment, owned by the Rising Sun Street Lighting Company, or by its parent company, the Welsbach Street Lighting Company, consisting of burners and reservoirs for naphtha and for fitting the same to the square street lanterns then in existence, thereby adapting them to the use of naphtha as an illuminant; $4,500 was paid for remodeling lamps and 12 cents per month for the care of each lamp, but the city did not furnish naphtha nor light the lamps.

This contract expired November 30, 1891, and a second contract was made March 19, 1892, with the same company, for a period of three years, for naphtha lighting at a price of $21 per lamp year, including care, lighting, etc.

This contract expired March 19, 1895, and a third contract for a period of one year was made for naphtha lighting, at a price of $20.44 per lamp year, under the same conditions as for the previous contract.

A fourth contract was made March 18, 1896, for a period of three years, for naphtha lighting, under similar conditions, at a price of $22.81 per lamp year, the increase of price presumably being due to the advance in the price of naphtha.

October 31, 1898, contract No. 4 was canceled and contract No. 5, for naphtha lighting for a period of five years, was made at a price of $22.81 for ordinary lamps and $22.81\frac{3}{4}$ for naphtha lamps with incandescent mantles, introducing for the first time the incandescent mantle.

May 31, 1899, a sixth contract was made with the Rising Sun Street Lighting Company for a period of seven years for gas lighting with boulevard lanterns, the company to furnish gas, etc., and to do all the work for repairs, lighting, etc., at a price of $30 per lamp year.

A seventh contract for naphtha lighting, for a period of five years, was made, dated November 9, 1903, at a price of $22.81 for open flame lamps and $29.20 for boulevard lanterns.

Contract No. 6, for gas lighting, expired July 1, 1906, and was renewed for a period of seven months at the same price by contract No. 8. January 1, 1907, by contract No. 9, it was further renewed for three months, at a price of $30 per lamp year.

On June 1, 1907, contract No. 10 was executed for a period of one year. This contract was to furnish lanterns, burners and other apparatus for a rental of $2 per year for each lantern, and in addition the company received 2 cents per night for single burner lamps, 3.27 cents per night for double burner lamps and 4.35 cents per night for triple burner lamps, the city to furnish all labor for lighting and also to pay for the gas. By a special agreement under this contract the contract of 1903 for naphtha lighting was suspended, and the city assumed the charge of the naphtha lamps under the same conditions as for gas lamps. The cost to the city for gas lighting under this arrangement was $29 per lamp year, and the cost for naphtha lamps $30.31 per lamp year.

The lamps rented according to the provisions of the contract, No. 10, were those installed under the contract of 1899 and earlier contracts. Their first cost installed on the streets probably did not exceed $9 per lamp, allowing a profit on their manufacture by the Welsbach Company. The $2 rental, paid yearly, was, therefore, in excess of 22 per cent on the first cost of the lamp. The additional charge of 2 cents per night for furnishing mantles, broken parts, and painting, etc., amounting to $7.30 per lamp year, entailed an estimated expense to the Rising Sun Company of not more than $2.50 per lamp year, a profit from that source of approximately $4.80 per lamp year, which, added to the $2 per year rental, gave a total profit to the company per lamp year of $6.80, or in excess of 75 per cent of the original cost of the plant yearly.

The cost to the city under contract No. 10 of $29 per lamp year for single mantle lamps was 80 cents per lamp year more than was paid to the Rising Sun Company

under previous contracts, notwithstanding the fact that the city received reductions in the price of gas amounting to 84 cents per lamp year.

When contract No. 10 expired on June 1, 1908, competitive bids for street lighting were called for by the Superintendent of Streets. Three bids were received, at prices varying from $24.90 to $27, for single mantle gas lamps. The prices were all considered to be too high and all bids were rejected. In order that the question might be more fully considered, a contract for a period of one year was given to the Rising Sun Street Lighting Company, at a price of $15.60 per lamp year (Contract No. 11). This price was arrived at by deducting from the price bid by them ($25.20) the price which they would be obliged to pay the Consolidated Gas Company for gas each year, or $9.60, as the price to the city for gas was 24 cents per year lower than it could be secured by the Rising Sun Company. The city furnished the gas under this contract.

Competitive bids were again called for and three bids were received on June 28, 1909, the lowest bidder being the Greater Boston Illuminating Company, at a price of $20.49 for single mantle burners, the lamps understood to be of the inverted mantle type. This company did not prove to be a responsible one and was unable to furnish bonds, and during the delay occasioned by them the period in which the city could make a contract for more than one year for gas lighting expired, under the provisions of the amendments to the city charter. Contract No. 12 was, however, made with the Rising Sun Street Lighting Company for a period of four and one-half months at the price bid by them, $23.60 per lamp year, the company to furnish all the equipment, including the gas and labor for lighting. This contract was extended for a period of six months from February 1, 1910, and has again been extended until February 1, 1911.

Beginning with 1905, successive rebates were made by the Rising Sun Company to the city, according to the terms of the contract, following reductions in the price of gas. These rebates brought the net price down from $30 to $29.40 on July 1, 1905; to $28.80 on December 10, 1905; and to $28.20 on July 1, 1906.

It will be noted that the principal reason for the first contracts with the Rising Sun Street Lighting Company were on account of their possessing exclusive rights to

superior apparatus. During the last few years the manufacture of approved apparatus for gas lighting had advanced rapidly and this reason for reawarding the contract to a particular company does not now exist. It is probable, however, that the Welsbach Company, of which the Rising Sun Lighting Company is a subsidiary company, possesses a practical monopoly of the most improved forms of burners for upright mantle lamps now manufactured in this country. It is possible, however, to secure the most improved form of lantern from independent manufacturers and a suitable burner can also be obtained in this country or in foreign countries.

The inverted mantle lamp which has been developed largely in foreign countries, and to some extent in this country during recent years furnishes a superior light, being less expensive in the matter of maintenance than the upright mantle lamp, and also giving a better distribution of light for the purpose of street illumination, as shown by experimental lamps installed by the Street Department.

Advances have also been made in the use of automatic devices for lighting and extinguishing gas lamps, and such devices are in operation in many cities of Europe and also in several of our neighboring smaller cities.

Under the present conditions it would seem advisable that some definite policy for gas lighting should be adopted, that the profit of the middleman should be eliminated and the work of maintenance and operation done either by the city authorities directly, or by the authorities of the gas company, who must of necessity furnish the gas, or by the two parties acting jointly.

It does not seem likely that competition between the Rising Sun Company and other companies will enable the city to obtain a material reduction from the prices now paid to the Rising Sun Company, if we retain the present methods of lighting and extinguishing the lamps, either by labor employed by a lighting company, or by the city directly. If, however, existing methods are abandoned and automatic lighting and extinguishing devices are installed, a very material reduction from present prices can be effected.

In general, two forms of such devices are in satisfactory operation; one by which a form of clock mechanism is placed upon individual lamps, the second by which the lighting is done through a mechanism operated by waves, or impulses, in the gas main, inaugurated from

the central stations of the gas company. Each system seems to be in about equal favor, the advantage of the clock system being that it is absolutely automatic in its operation and requires no labor beyond the winding of the clock, which is to be done about once a week. The advantages of the impulse system are that less labor is required for winding the clock, the maximum attention being given only once in six months. Its disadvantages, however, in case other than the gas company were to do the work of lighting, are that it places the responsibility for the proper operation of the system upon the gas company. This, however, does not seem to furnish an insuperable obstacle.

Several such devices have been tested by the authorities of the Street Department during the present year and others have been tested by the officials of the Consolidated Gas Company. The clock system is successful in operation in the city of Newton, and the impulse system has been in successful operation for a considerable period in the city of Springfield. Such devices are common in European cities also. While it may be possible that the ultimate degree of efficiency has not been reached for such devices, or perfection obtained in mechanical operation, yet such a degree of perfection has been obtained as to warrant their installation with the practical certainty of reducing the cost per lamp now paid and with efficient service.

Any of the following alternative plans, if adopted, will furnish efficient gas lighting at a lower price than at present:

First, for the city to purchase an installation of inverted mantle lamps complete, with automatic devices; investment required, $310,000; city labor to be employed in operation; cost per lamp year, $19; saving, $4.60; total annual saving, $55,200.

Second, for the city to purchase an installation of upright mantle lamps complete, with automatic lighting device; investment required, $235,000; price per lamp year, $19; total annual saving, $55,000.

The cost per lamp year with operation by city labor, estimating sinking fund and interest charges on a fifteen-year basis, will amount to practically the same price, whether upright mantles or inverted mantle lamps are used. The greater amount of interest and sinking fund charges and increased cost for fixtures for the inverted

mantle lamp over the upright mantle is balanced by the less cost for maintenance and operation.

Third, to accept the offer of the Consolidated Gas Company, with which you are familiar, to furnish service at a figure not to exceed $20.51 per lamp year, the city to furnish the plant. This would require for an inverted mantle lamp equipment an investment by the city of $185,000 and would result in a price of $21.33 per lamp year, a saving of $2.27 per lamp year and a total saving of $27,240 per year. If upright lamps were used an investment of $114,000 would be necessary, the cost per lamp year would be $21.85 and a saving of $1.75 per lamp year, or a total saving of $21,000 per year, would be effected.

Considering the advantages of inverted mantle lamps it would seem the better policy that they be purchased, even at a higher first cost.

No radical improvements in low pressure street lighting have been made since the introduction of the incandescent mantle, and there seems little likelihood that changes not adaptable to the present styles of street lamps will be made during the fifteen-year period assumed as a basis for reckoning interest and sinking fund charges. It is probable, rather, that the proposed plant at the end of such period will be in condition for efficient service for a considerably longer period.

The figures given above must be understood to be approximate estimates only, although many of the items, such as the cost of gas, cost of lamps and the cost of care and operation, are closely fixed by the present prices and from experimental data. With efficient supervision the price per lamp year should not exceed the figures given.

The estimates for inverted mantle lamps contemplate the installation of the higher priced automatic lighters experimented with and ornamental post extensions similar to those now installed in the Jamaica Plain district.

As at least six months' time must be allowed for the satisfactory installation of a new outfit of street lamps a definite policy should be adopted in the immediate future.

Very respectfully,

GUY C. EMERSON,
Consulting Engineer.

FINANCE COMMISSION, September 19, 1910.

To the Honorable the Mayor and City Council:

GENTLEMEN,—

4. Street lighting equipment — $180,000.

As already stated in its report, dated July 22, 1910, the commission believes this loan order should be increased to $310,000 so as to provide for automatic lighting and extinguishing devices as well as for the inverted mantle gas lamps contemplated in the original loan order of $180,000. By this means the city would become the owner of its own street lighting equipment, the middleman would be eliminated and the city would save over the present prices about $55,000 a year. The recommendation of the commission has not been adopted partly because of the Mayor's reported unwillingness to displace some of the present force of lamplighters, who are employees of a private contractor, and partly because of the Superintendent of Street's opinion that the efficiency of automatic devices has not been demonstrated. The superintendent accordingly advertised for bids for street lighting on a two-year contract, but the advertisement has since been withdrawn, properly, the commission thinks, as no company, obliged to install 12,000 street lamps, could bid successfully in competition with the present contractor whose plant is now installed. The Superintendent of Streets now states that it is his intention to solicit bids on a more comprehensive plan — namely, on a five or ten year contract from operating companies which will furnish gas, lamps and care for the equipment, from companies which will sell lamps, or automatic devices, but will not take care of the equipment, and also from the Edison Electric Illuminating Company for furnishing electric lamps and light. He states that as a result of the bids which may be obtained it may be necessary to have $310,000 available for the purchase of gas lamps and automatic devices and he believes a loan for that amount should be authorized. If the loan is needed it will be available, and if it is not required it need not be issued.

MISCELLANEOUS PROCEEDINGS IN THE CITY COUNCIL.

In City Council, May 16, 1910.

Bids for Lighting.

Coun. Hale offered an order — That the Superintendent of Streets of the City of Boston be requested to invite bids for installing, equipping and maintaining with gas or electricity 12,000 lamps, more or less, for such streets, parks and alleys as may from time to time be designated by the city for alternative periods of five or ten years from July 31, 1910.

The question came on giving the order a second reading.

Coun. Hale — Mr. President, in February Superintendent Emerson asked for bids for these 12,000 lamps, now lit by gas, and received but one, from the Rising Sun Street Lighting Company, at $23.60 per lamp. In my opinion that price is too high. I know that the city could buy its own equipment and operate it at at least as low a price as that, and I think we should call for a new set of bids and see if we cannot get a more reasonable price for supplying the lighting of the city. Therefore, I ask that the Superintendent of Streets shall call for new bids.

Coun. Curley — Mr. President, I rise to a point of order on this order — that until such time as the Superintendent of Streets has rejected the bid received we have no right to act.

President Ballantyne — The Chair would rule the point not well taken. No action is taken by this Council towards the letting of contracts; this is simply a request of the Superintendent of Streets.

Coun. Curley — Mr. President, I will say, in view of the fact that public bids were advertised for the lighting of the city's streets, that a bid or bids were received and that action up to the present time has not been taken by the Superintendent of Streets, I do not feel that this Council is justified in taking any action in the matter until such time as we may be requested to

take action by the Superintendent of Streets, or by his Honor the Mayor. I feel that they are the authorities properly in charge of the matter, and that, until such time as a recommendation is received from either the Mayor or the Superintendent of Streets, it would be highly improper for this Council to act. In consequence, I trust that the order will not pass.

Coun. Collins — Mr. President, this order offered by Coun. Hale simply asks that the Superintendent of Streets be requested to do this, and it seems to me that it is founded on good ground. It is very strange, when bids were asked for only a short time ago, that there was but one bidder, and that was the Rising Sun Company, that offered to do the lighting for $23.60 per lamp. I wonder why that was so, Mr. President? It is very strange, in the case of such an excellent customer, that there seems to be but one bidder. I submit that many of these quasi public corporations that have received so many benefits at the hands of the City of Boston for years should show their public spirit, such public spirit as we have heard the chief executive of the city speak about within a few days, and submit bids that will be fair to the City of Boston.

The order was read a second time and passed, Coun. Curley calling for the yeas and nays, yeas 8, nay 1; Coun. Curley voting nay.

In City Council, June 3, 1910.

Bids for Street Lighting.

The following was received:

City of Boston,
Office of the Mayor, May 27, 1910.

To the City Council:

I beg to forward a letter of the Superintendent of Streets, in reply to a request contained in your order passed May 16, that he "invite bids for installing, equipping and maintaining with gas or electricity 12,000 lamps, more or less, for such streets, parks and alleys as may from time to time be designated by the city for alternative periods of five or ten years from July 31, 1910.

Respectfully,

John F. Fitzgerald, *Mayor.*

STREET DEPARTMENT,
CITY HALL, BOSTON, May 26, 1910.

To the Honorable the Mayor:

In the matter of the inclosed order of the City Council under date of May 16, 1910, "That the Superintendent of Streets of the City of Boston be requested to invite bids for installing, equipping and maintaining with gas or electricity 12,000 lamps, more or less, for such streets, parks and alleys as may from time to time be designated by the city for alternative periods of five or ten years from July 31, 1910," I have considered the matter contained and still hold to the opinion expressed in my letter of February 7, 1910, to you on the subject of lighting, that it is exceedingly doubtful if additional bidders or lower prices would be obtained for gas lighting by readvertising.

In the matter of electric lighting, I am again informed by authorities of the Edison Company that the conditions existing under their present contract are the only ones that they care to make, the present contract being capable of extension to replace all the gas lamps for the price of $22.31 per lamp year, or for a ten-year period at the price of $21.13 per lamp year. Moreover, the preparation of specifications for combined gas and electric lighting would require a time beyond the limits of my incumbency in this office. If, however, you desire that I shall readvertise for gas lighting, please advise me.

The order is directed to the Superintendent of Streets and I would request that you transmit the above to the City Council if you deem such action advisable.

Respectfully,

GUY C. EMERSON,
Superintendent of Streets.

Referred to the Executive Committee.

IN CITY COUNCIL, June 13, 1910.

MUNICIPAL OWNERSHIP.

Coun. HALE offered the following:

Resolved, That it is the opinion of the Boston City Council that, instead of continuing the contract for street lighting with the Rising Sun Lighting Company, the *city should buy its own gas lamps.*

The resolution was read a second time, and the question came on its passage.

Coun. Hale — Mr. President, as I have already stated before this Board the bid of the Rising Sun Company is $23.60 per lamp. By buying our own equipment we can, including all capital charges, obtain each lamp at an expense of only $22.01, over a dollar saving for each lamp, amounting to something like $19,000 a year. I, for one, am against continuing a contract where the city loses money every year, and I hope the resolution will pass.

The resolution was adopted.

Installation of Mantle Gas Lamps.

Coun. Hale submitted an order — That the sum of $180,000 be and hereby is appropriated, to be expended by the Street Department for the purchase and installation of twelve thousand inverted mantle gas lamps; and that to meet the said appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds of the City of Boston to said amount for said purposes.

Referred to the Committee on Finance.

In City Council, December 19, 1910.

Purchase of Lighting Equipment.

The following was received:

City of Boston,
Office of the Mayor, December 17, 1910.

To the City Council:

I beg to transmit a communication from the Superintendent of Streets recommending that a loan order of $310,000 for the purchase of lighting equipment to be utilized in the event of the acceptance of Item E in a recent set of proposals for the lighting of the city streets, and a second loan order of $75,000 for the construction of an incinerator in the Brighton district, be adopted by your honorable body.

Respectfully,

John F. Fitzgerald, *Mayor.*

STREET DEPARTMENT,
BOSTON, December 15, 1910.

To the Honorable the Mayor:

As you are aware, we are asking for bids for doing a part of the city street lighting. These bids will be opened on December 24, 1910. Item D calls for the furnishing and installation of approximately 10,000 gas lamps with incandescent mantle burners. Item E calls for furnishing and installing approximately 10,000 gas lamps with incandescent mantle burners and automatic lighting and extinguishing devices. Under these two items, if it is deemed to the advantage of the city, the city may purchase the equipment and do its own lighting. I do not think that there is any fund available at present to make this purchase, in case the bids should show that it would be to the advantage of the city to do so. If Item D were accepted it is estimated that the cost of the equipment would be in the neighborhood of $185,000. If Item E were accepted, which is in line with the recommendations of the Finance Commission, it is estimated that the equipment would cost approximately $310,000. It would appear to me to be wise for the City Council to appropriate $310,000, so that the parties contemplating bidding under Items D and E may know that the money is available if their bid is accepted. If Items A, B and C were accepted this appropriation could be returned to the general funds of the city. I would further recommend that the honorable City Council appropriate $75,000 for the construction of an incinerator in the Brighton district, to destroy all the city refuse in this district.

Respectfully,

L. K. ROURKE,
Superintendent of Streets.

The communication was referred to the Committee on Finance.

APPROPRIATION AND TAX ORDERS FOR THE FINANCIAL YEAR 1911-12.

Office of the City Clerk, April 17, 1911.

I hereby certify that the following is a true copy of the annual appropriation orders, together with and including all the appropriation items passed by the City Council and approved by the Mayor up to and including the above date.

Attest:

John T. Priest,
City Clerk.

CITY OF BOSTON.

APPROPRIATION AND TAX ORDERS FOR THE FINANCIAL YEAR 1911–12.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of February, 1911, of performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston, or the County of Suffolk, or the departments or officers thereof, the respective sums of money hereinafter specified be, and the same are, hereby appropriated for the several departments, and for the objects and purposes hereinafter stated.

Ordered, That the appropriations for Water Service, current expenses, and the payments to the state under the provisions of chapter 488 of the Acts of 1895 and acts in addition or amendment thereto, and for the interest requirement for loans issued for water purposes, be met by the income from said works and any excess over income from taxes; that the other appropriations hereinafter specified or heretofore made be met out of the money remaining in the treasury at the close of business on January 31, 1911, exclusive of the money raised by loan or needed to carry out the requirements of any statute, gift, trust, or special appropriation, and by the income of the financial year, beginning February 1, 1911, and by taxes to the amount of $14,562,667.62, and that said amount be raised by taxation on the polls and estates taxable in the City of Boston.

Ordered, That all sums of money which form no part of the income of the city, but shall be paid for services rendered or work done by any department or division for any other department or division, or for any person or corporation other than the City of Boston, be paid into the general treasury and then credited to the appropriation of the department or division rendering such service or doing such work, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

Ordered, That to provide temporarily money to meet the appropriations aforesaid, the City Treasurer issue and sell, at such times and in such amounts as he may deem best, notes or certificates of indebtedness of the City of Boston, not exceeding nine million dollars in the total, in anticipation of the taxes of the current municipal year; that all such notes or certificates of indebtedness be dated the day the money for the same is received, be made payable with the interest thereon at the office of the City Treasurer within the current financial year, from the taxes of said year, and bear interest from their date until the same are made payable at such rate as said treasurer shall deem proper.

Ordered, That all taxes raised to meet the appropriations of the City Council, and all taxes assessed for meeting the city's proportion of the state tax of the year 1911, or of any other taxes or assessments payable to the Commonwealth, be due and payable on the first day of October, 1911; that all such taxes paid after the first day of November, 1911, bear interest from and including said day until paid, at the rate of six per cent per annum, except the taxes assessed upon shares of stock of national banks shall bear interest at the rate of twelve per cent per annum from and including said first day of November until paid; and that all interest which shall have become due on taxes shall be added to and be a part of such taxes.

ORDINANCES OF 1911, CHAPTER 2,

CONCERNING

PRINTING CITY DOCUMENTS.

In the Year One Thousand Nine Hundred and Eleven.

Be it ordained by the City Council of Boston, as follows:

Section 1. Section two of chapter thirty-one of the Revised Ordinances of 1898 is hereby amended so as to read as follows: "Said superintendent shall number and print five hundred and fifty copies of the mayor's inaugural address and of each of the annual and other reports made by the several departments to the mayor; and shall number and print four hundred copies of each of the other city documents; shall, from the said copies, as soon as printed, deliver to the city messenger for distribution, three hundred copies of the said address, of each of said annual reports, and of each of the other city documents; shall, as soon as practicable, from the said copies, bind and deliver to the mayor twenty-five sets of volumes, two volumes to each set, each set containing one copy of said address and one copy of each of said annual reports, and each volume entitled "Annual Report of the Executive Departments of the City of Boston for the year (naming the preceding year)"; and bind and deliver to the statistics trustees one hundred and twenty-five sets, and to the city messenger for distribution one hundred sets of volumes, each set containing one copy of each of the city documents of the preceding municipal year, numerically arranged; every volume

so bound shall contain an alphabetical list of the documents therein. The preceding provisions shall not, unless specially provided, apply to any documents issued by special order of the city council or to the volumes which the city registrar may deem proper to print, but said superintendent shall number and print, as a city document, sixteen hundred copies of each of said volumes of the city registrar, fifteen hundred of which he shall deliver to said registrar for distribution, and one hundred of which he shall bind with the one hundred sets of volumes to be delivered to the city messenger for distribution. He shall also print as a city document without any number three hundred copies of a volume to be prepared by the corporation counsel at the end of each session of the legislature, containing all special laws passed at such session relating to the city of Boston, and such others as he shall deem will assist the city council, or any department or officer, in the performance of its or his duties. He shall also print, on or before the first day of June in each year, a city document containing the lists of officials and employees of the city, referred to in section twenty-seven of chapter three.

In City Council, April 24, 1911.

Passed.

W. J. Doyle,
Assistant City Clerk.

Approved April 26, 1911.

John F. Fitzgerald,
Mayor.

A true copy.

AUDITOR'S MONTHLY EXHIBIT.

GENERAL AND SPECIAL APPROPRIATIONS

FOR

1911-1912.

Auditing Department,
City Hall, Boston, May 1, 1911.

To the Mayor, City Council and Heads of Departments:

Sirs,— The undersigned, in compliance with chapter 486, section 25, of the Acts of 1909, and chapter 6, section 7, Revised Ordinances of 1898, herewith presents an exhibit of the General and Special appropriations for the present financial year of 1911–12, as shown in the books in his office May 1, 1911, including the May draft — being four months' drafts — exhibiting the original appropriations, the balances brought forward from 1910–11, the amounts drawn May 1, the total expenditures and the balance of each appropriation unexpended at that date; also a statement of the Debt, Sinking Funds and Right to Borrow April 30, 1911.

The May draft comprises special payments and weekly pay rolls during the month of April and pay rolls and bills payable May 1, 1911.

Respectfully submitted,

J. Alfred Mitchell,
City Auditor.

REPORT OF THE SPECIAL COMMITTEE OF THE CITY COUNCIL ON BRANCH LIBRARIES.

City of Boston,
City Council, May 1, 1911.

The Special Committee of the City Council on Branch Libraries beg leave to submit the following report:

The fifty-eighth annual report of the Board of Trustees of the Public Library of the City of Boston for the year ending January 31, 1910, addressed to his Honor John F. Fitzgerald, Mayor, called attention to the need of better branch buildings in various sections of our city and invited the attention of the City Council especially to the matter of better accommodations for some of our branch libraries and reading room stations and expressed the hope that an examination of them would be made.

Nothing was done by the city government during the year 1910 in regard to this matter and the fifty-ninth annual report of the Board of Trustees for the year ending January 31, 1911, again called attention to it. As a result of these two reports of the trustees a committee of three members of the City Council of 1911 was appointed, which committee has made an examination of the branch libraries and reading room stations and present various recommendations herein contained to the City Council.

Boston has a most beautiful municipal central library building, but its branch buildings and branch reading stations are uninviting and inadequate, and some sections of the city are without proper branch library

facilities and accommodations. A general scheme or municipal plan for branch buildings in the various districts of the city should be carefully evolved which when fully carried out would place Boston in the proud position of having the best equipped and most properly located and the best public serving library system in the United States; a library system which would comprise the central building and modern up-to-date district branches. The committee believes that it would be a wise expenditure of money if the city could and would provide $60,000 or $70,000 each year for the next ten years for the erection of modern branch buildings in the districts of the city in which the need is greatest. The branch libraries should be operated in separate, independent buildings which are devoted to no other use or uses but solely for library purposes and specially adapted therefor in order to properly provide for library work. This would be an improvement in our library system and accords with the views of the delegates to the International Congress of Archivists and Librarians, which congress was held at Brussels, August 28 to 31, 1910.

The North End District.

We are of the opinion that there should be a building for a new branch at a proper place in the North End of Boston and that money should be provided for this at once. Better library facilities appear to be absolutely necessary and it is for the good of the entire city that this should be done, bearing in mind the interests of all the people of Boston.

The present small and crowded rooms at the North End Industrial School are inadequate for library purposes and improperly supply the large and increasing population of children. There are many public schools in this district and a great number of pupils in attendance who could make good use of the books contained in a branch library.

In this connection we desire to say that there should be co-operation with the educational work of the schools and the closest relations should exist between the schools and the libraries, the libraries supplementing the work of the class room; and the location of the branch building should be in relation with the school as recommended by the Congress of Archivists and Librarians.

The Board of Trustees has investigated the matter of obtaining land and building for a branch at the North End and have reported that the city can purchase an estate now occupied by the Church of St. John the Baptist, on North Bennet street, comprising 4,980 feet of land with a substantial building thereon, for the assessed valuation of $38,000, and that the board has taken an option to the city to purchase the estate at any time within ninety days from March 15, 1911, at the above price, which the trustees believe to be reasonable. The trustees also reported that the location was a proper one in their judgment and that the building can be remodeled for $38,000 for second-class construction and for $42,000 for first-class construction (the latter they recommend as better economy), and that $5,000 will be necessary for library fittings and furnishings, making a total of $85,000 to accomplish the purpose which they deem desirable.

The committee recommends that the suggestions of the trustees be adopted and that a loan of $85,000 be authorized for branch public library in the North End for land, building and equipment, and further recommends that the appropriate committee of the City Council make inquiry as to the value of the land and building, and also inquire of the architects as to the possibility or feasibility of reconstructing the present building.

Adjacent to or in the immediate vicinity of the estate which the trustees propose to acquire are the following named schools: Christopher Columbus, Eliot, Paul Revere, Hancock, Cushman, North Bennet Industrial and St. Anthony's.

Nearby this municipal center are branch post office, North End Playground, the municipal gymnasium, St. Stephen's Catholic Church and the Baptist Bethel.

The committee has been informed by Principal Assessor Edward B. Daily that it is his belief that this property is fairly assessed, and First Assistant Assessor Harry C. Byrne who made the assessment has written to Mr. Daily stating that he considers the property assessed about right to the best of his judgment.

East Boston District.

The need of a branch building in East Boston is very great because the work is carried on in rooms which

are not suited for library purposes. The entrance to the branch is very uninviting and in fact dangerous. This is a crowded and busy branch in an unsatisfactory location. The lower floor of the building (the old Lyman School) is occupied by the East Boston District Court and part of the building is at present used as a school. Police Station 7 is directly opposite.

This branch serves Wards 1 and 2 and is the first branch library established by the city and opened in 1871, and occupies the same rooms to-day without any substantial alterations that it occupied in 1871, when established.

The committee believes that East Boston should be provided with a separate building centrally and suitably located as soon as the finances of the city will permit.

Charlestown District.

A new and more accessible location with a new building should replace the inconvenient branch located at the old Charlestown City Hall Building, the quarters of which are inconvenient and not very pleasant.

There is an appropriation of $30,000 now available for land and building in the district, but this sum is deemed insufficient by the library trustees.

The committee believes that Charlestown, like East Boston, should be provided with a new building for library purposes.

South Boston District.

The library in this section is in a reading room in leased premises above a bank, and there has been practically no change made in the quarters since 1872. This great section of the city requires an independent library building.

Cove District (so called).

This section of the city is served by the Broadway extension reading room, which is poorly located and has very bad accommodations.

The room now used will not accommodate more than sixty persons and is poorly ventilated and is subject to the noise made by the Boston Elevated Railway trains which pass overhead nearby.

The one small room serves both young and old and is very much used and frequented. This place should be abandoned as soon as possible. The trustees and the committee believe that a branch building is not necessary for library purposes in this district and agree that one large, well lighted, suitable room would be sufficient for the needs of this locality, and the trustees, we understand, would not object if a large room were provided in the proposed municipal building for Ward 7.

Other Districts.

Demands and requests have been received from citizens in other sections of the city, especially from the Germantown and Savin Hill districts, in addition to the districts noted above, and the trustees and the committee believe that it is inexpedient and impossible at this time to furnish additional library buildings and facilities.

Thanks of the Committee.

The committee desires to thank the Board of Trustees of the Boston Public Library for the kindness which was shown by them to the committee during examination and investigation of the branches and of the needs of the various sections of the city, and also to thank the librarian, Horace G. Wadlin, for his kindness and for information furnished, and we desire to compliment the trustees and the librarian because of the efficient and courteous employees in charge of the various branches and reading rooms.

Recommendations.

(1) General municipal plan or scheme of branch library buildings.

(2) Establish one branch each year for ten years if city finances will permit.

(3) Have independent, separate buildings as a rule for library uses solely.

(4) Provide money at once for new building at North End.

(5) Adopt suggestions of Board of Trustees and authorize loan of $85,000 for land, building and equipment.

(6) Provide buildings for East Boston, Charlestown and South Boston when feasible from financial standpoint.

(7) Abandon Broadway extension reading room and provide suitable reading room for Cove district, so called.

Respectfully submitted,

JOHN J. ATTRIDGE,
EARNEST E. SMITH,
TIMOTHY J. BUCKLEY.

WEST END STREET RAILWAY COMPANY.

THREE HUNDRED AND FIFTIETH LOCATION.

City of Boston,
In Board of Street Commissioners, April 25, 1911.

Ordered, That in addition to the rights heretofore granted to the West End Street Railway Company for locations for tracks in the streets of the City of Boston, said company shall have the right to construct, maintain and use an alteration of its existing locations, as follows:

On Washington street, city proper, at Summer street, a relocation of the existing double tracks; said tracks being substantially as shown by red lines on a plan made by A. L. Plimpton, dated March 23, 1911, and deposited in the office of the Commissioner of Public Works; together with all necessary curves, crossovers, switches and connections.

And the consent of the Board of Street Commissioners is granted to said company to establish and maintain the overhead single trolley electric system of motive power in the operation of its cars on said location, and to erect, maintain and use iron poles, not less than twenty feet in height, at places indicated by red dots or circles on the aforesaid plan, or at such other places, to be shown by blue dots or circles on said plan, as may be approved by the Commissioner of Public Works, and to place on said poles such wires and other appliances as the Commissioner of Wires shall approve.

The right to lay down the tracks located by this order is upon condition that the whole work of laying the same,

the form of rail to be used, and the kind and quality of material used in paving said tracks, and the kind and locations of poles shall be under the direction and to the satisfaction of the Commissioner of Public Works, and shall be approved by him. Also upon condition that said railway company shall accept this order, and shall file such acceptance with the Board of Street Commissioners in accordance with the provisions of statute law; otherwise it shall be null and void.

Passed. Approved by the Mayor May 5, 1911.

PREPARED AND PUBLISHED IN ACCORDANCE WITH THE ACTS OF 1909, CHAPTER 486, SECTION 27

CITY OF BOSTON
PRINTING DEPARTMENT
1911

"Every officer and board in charge of a department of the city of Boston or county of Suffolk shall on or before the fifth day of May in each year prepare and furnish to the city auditor a list of the officials and employees under said officer or board and paid by the city or county on the thirtieth day of April preceding. Such lists shall give the names, residence by street and ward, designation, compensation, and date of election or appointment of each of said officials and employees and the date when each first entered the employ of the city or county. It shall be the duty of the city auditor to verify said lists by the pay rolls; and when verified the said lists shall be printed by the superintendent of printing as a city document."—*Acts of 1909, chapter 486, section 27.*
